

6K ADDITIVE OBTAINS APPROVAL OF HISTORIC US \$27.4 MILLION LOAN FROM EXPORT-IMPORT BANK

Highlights:

- 6K Additive, Inc. (**6K Additive**) is pleased to announce that the Export-Import Bank of the United States (**EXIM**) has approved a direct loan of US\$27.4m (**EXIM Loan**), in partnership with the US Department of War, for its expansion project at the Burgettstown, Pennsylvania site.
- The financing coupled with the US Department of War's DPA Title III program grant of US\$23.4m and the IPO funding (A\$48m) provides the Company flexibility to fund additional growth initiatives beyond the current plan of a 5x increase in powder production capacity at their global headquarters in Burgettstown, Pennsylvania.

Washington, D.C. – The EXIM has approved a direct loan to Pennsylvania-based 6K Additive for an expansion project in Burgettstown, Pennsylvania that will support over 50 new American jobs (**EXIM Loan**). The US\$27m financing under the EXIM Loan supports the construction of four new buildings and the acquisition of advanced equipment to refine titanium, nickel, and alloy powders at the Burgettstown, Pennsylvania site.

The project is the latest approval under EXIM's Make More in America Initiative (**MMIA**), designed to revitalise US manufacturing and secure critical supply chains and is the first deal in history conducted in coordination with the US Department of War's Defense Production Act (**DPA**) Title III program. It is also the largest MMIA loan to have been awarded in support of advanced materials and additive manufacturing.

This transaction also marks the first board meeting chaired by President and Chairman of EXIM, John Jovanovic, who signed off on the approval.

The EXIM Loan was approved following an extensive due diligence process involving internal underwriting, reviewing the transaction, approval from the credit committee, and engaging third-party consultants. This resulted in 6K Additive's receipt of a final approval from EXIM's bipartisan Board of Directors, with the EXIM Loan subjected to fully executed loan documentation.

"This expansion is proof that American manufacturing is innovating and growing," said EXIM Chairman John Jovanovic. "My first Board action is about rebuilding America's industrial base, securing critical supply chains, and making sure America leads in the industries of the future. Partnering with the Department of War on this effort underscores EXIM's role as an economic tool to effectuate President Trump's agenda for revitalising our domestic manufacturing and bringing supply chain security to America."

"This US EXIM Bank loan will scale domestic production capacity for advanced metals needed for defense applications and strategic economic sectors," said the Honorable Michael Cadenazzi, the Assistant Secretary of War for Industrial Base Policy. "This loan also builds upon the Department of War's 2023 Defense Production Act Title III investment in 6K Additive and exemplifies the whole-of-government approach to building and scaling critical mineral capabilities."

"6K Additive has a unique ability to domestically produce a variety of materials critical for applications in the defense, hypersonic and aerospace markets," explained Frank Roberts, President of 6K Additive. "Expanding our production capacity with the help of Government funding like the US\$27M EXIM loan and the \$23M DPA Title III grant ensures both our military and commercial customers get high-value powder, ingots and alloy additions like titanium, nickel, C-103/niobium and other refractory metals originating from a US-based supply chain."

ABOUT EXIM:

As the United States government's official export credit agency, the Export-Import Bank of the United States (EXIM) supports American jobs by facilitating US exports. As an independent agency, EXIM plays a critical role in supporting economic growth, securing critical supply chains, and ensuring American businesses are given a fighting chance. To achieve this mission, EXIM offers financing including export credit insurance, working capital guarantees, loan guarantees, and direct loans. Learn more at www.exim.gov

About 6K Additive

6K Additive, Inc. (ASX:6KA) is a US-based manufacturer and trusted supplier of premium metal powders for additive manufacturing and alloy additions for the aluminum melt industry, all made from sustainable sources.

Headquartered in Burgettstown, PA, the Company's manufacturing process produces the highest quality metal powders that are truly spherical, void of porosity and satellites with better unit economics than competing technologies. 6K Additive utilizes proprietary UniMelt® microwave plasma system to produce the industry's most comprehensive portfolio of metal powder including a variety of Nickel, Titanium, Copper, and refractory powders that include, Tungsten, Rhenium, Niobium/C-103 and Tantalum. 6K Additive leverages feedstock such as certified turnings, millings, used additive powder, support material and failed builds that provide customers sustainable, domestically sourced metal powder.

This announcement has been approved for release by Frank Roberts, Managing Director and Chief Executive Officer.

Forward Looking Statements

This announcement contains forward-looking statements. Forward-looking statements may include statements regarding 6K Additive's intentions, objectives, plans, expectations, assumptions and beliefs about future events, including 6K Additive's expectations with respect to the financial and operating position or performance of its business, its capital position and future growth. Forward-looking statements are based on assumptions and contingencies that are subject to change without notice and are not guarantees of future performance. They involve known and unknown risks, uncertainties and other important factors, many of which are beyond the control of 6K Additive, its directors and management and which may cause actual outcomes to differ materially from those expressed or implied in this announcement, including but not limited to, the factors described in the "Risk Factors" section of the Company's Replacement Prospectus dated 11 November 2025. Readers are cautioned not to place undue reliance on forward-looking statements, which are provided for illustrative purposes only and are not necessarily a guide to future performance. No representation or warranty is made by any person as to the likelihood of achievement or reasonableness of any forward-looking statements, and to the maximum extent permitted by law, responsibility for the accuracy or completeness of any forward-looking statements is disclaimed, and except as required by law or regulation (including ASX Listing Rules), 6K Additive undertakes no obligation to update any

forward-looking statements. 6K Additive also notes that past performance may not be a reliable indicator of future performance.

Restriction on purchases of CDIs by US persons

6K Additive is incorporated in the US State of Delaware and its CDIs have not been registered under the US Securities Act of 1933 or the laws of any state or other jurisdiction in the United States. Trading of the CDIs on the ASX is not subject to the registration requirements of the US Securities Act in reliance on Regulation S under the US Securities Act and a related 'no action' letter issued by the US Securities and Exchange Commission to the ASX in 2000. As a result, the CDIs are "restricted securities" (as defined in Rule 144 under the US Securities Act) and may not be sold or otherwise transferred except in transactions exempt from, or not subject to, the registration requirements of the US Securities Act. For instance, US persons may purchase CDIs if they are "qualified institutional buyers" ("QIBs", as defined in and in reliance on the exemption from registration provided by Rule 144A under the US Securities Act). To enforce the transfer restrictions, the CDIs bear a FOR Financial Product designation on the ASX. This designation restricts any CDIs from being sold on ASX to US persons excluding QIBs. In addition, hedging transactions with regard to the CDIs may only be conducted in compliance with the US Securities Act.
