(Edmonton, Canada) **AuMEGA Metals Ltd (ASX: AAM | TSXV: AUM | OTCQB: AUMMF)** ("AuMEGA" or "the Company") is pleased to announce the successful closing of its previously announced ~C\$30.1 million financing (the "Financing"), marking a transformational step in strengthening the Company's balance sheet and positioning it for accelerated exploration and discovery.

The Financing was completed in two tranches in accordance with ASX Listing Rules 7.1 and 7.1A. The first tranche ("Tranche One") closed on March 5, 2026, raising gross proceeds of approximately C\$5.4 million, with the second tranche ("Tranche Two") closing following shareholder approval at the Company's special meeting held on April 10, 2026 (Australia) / April 9, 2026 (North America), contributing gross proceeds of approximately C\$24.7 million.

AuMEGA Metals Managing Director and CEO, Sam Pazuki commented:

“The successful completion of this financing represents a pivotal moment for AuMEGA. Not only have we materially strengthened our balance sheet, but we have also significantly enhanced the quality of our shareholder register with the addition of several globally recognized institutional investors.

We emerge from this process with a predominantly institutional shareholder base, anchored by Condire Investors and supported by our long-term strategic investor, B2Gold. This level of backing reflects growing confidence in both the scale of our land position and the discovery potential we see across our district.

With this capital in place, we are fully funded to execute expanded exploration programs including inaugural drilling of the Isle aux Morts Granite, potential expansion of our resource¹ and additional exploration activities and drilling at Bunker Hill. Our focus remains on disciplined, systematic exploration across our 110-kilometre land package along the Cape Ray Shear Zone and Hermitage.

We have long believed that Newfoundland is the next major mining jurisdiction in Canada, and we believe AuMEGA is uniquely positioned with a defined resource base¹, district-scale control, and a strong technical and leadership team—to unlock significant long-term value for shareholders.”
