ASX ANNOUNCEMENT

27 April 2026

Magnetite Range Hydro Drilling Update

Highlights

- **Successfully completed a 63-hole aircore regional hydrogeological exploration program.**
- **Drilling targeting water for the Magnetite Range Project.**
- **Processing and interpretation of data collected will commence in the coming month.**

Accent Resources NL (ASX: ACS) (**Accent** or the **Company**) is pleased to announce that an initial round of regional hydrogeological drilling has been completed at the company's 100% owned Magnetite Range Project (**MRP**), located in the Mid-West region of Western Australia, approximately 260km southeast of Geraldton (Figure 1).

Hydrogeological drilling commenced on 05 February and concluded on 22 March. A total of 63 aircore (AC) holes were drilled for 5,117.5m targeting groundwater associated with interpreted paleochannels located to the northeast of the main Magnetite Range tenement group (Figure 2). No exploration results are being reported from the drilling.

Processing and interpretation of the water quality and water yield data collected from the drilling has commenced and will be used to target sites for additional test drilling.

Accent Resources Executive Director Yuzi (Albert) Zhou commented *"The completion of this drilling program is another exciting step in the Pre-Feasibility Study¹ works that are underway evaluating the potential development of the Magnetite Range Project. Securing a supply of water is a very high priority for the Project"*

Forward Looking Statements

This document may contain forward-looking statements including statements regarding our intent, belief or current expectations with respect to the Company's business and operations, market conditions, results of operations and financial condition, specific provisions and risk management practices. When used in this document, the words 'plan', 'will', 'anticipate', 'expect', 'may', 'should' and similar expressions, as they relate to the Company and its management, are intended to identify forward-looking statements.

Forward looking statements involve known and unknown risks, uncertainties and assumptions and other important factors that could cause the actual results, performances or achievements of the Company to be materially different from future results, performances or achievements expressed or implied by such statements. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date thereof.

Such forward-looking statements speak only as of the date of this document. There can be no assurance that actual outcomes will not differ materially from these statements. To the maximum extent permitted by law, Accent Resources and any of its affiliates and their directors, officers, employees, agents, associates and advisers:

- disclaim any obligations or undertaking to release any updates or revisions to the information to reflect any change in expectations or assumptions;
- do not make any representation or warranty, express or implied, as to the accuracy, reliability or completeness of the information in this document, or likelihood of fulfilment of any forward-looking statement or any event or results expressed or implied in any forward-looking statement; and
- disclaim all responsibility and liability for these forward-looking statements (including, without limitation, liability for negligence).

Competent Person Statement and JORC information

The Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (the "JORC Code") sets out the minimum standards, recommendations and guidelines for Public Reporting in Australasia of Exploration Results, Mineral Resources and Ore Reserves.

No exploration results, mineral resources or ore reserves are being reported.
