Quarter Activities

Highlights for the quarter ending 31 March 2026

- Pre-Feasibility Study ongoing for the Magnetite Range Project. (refer to ASX release 21 May 2025).
- Completed a 63 hole/5117.5 meters regional hydrogeological drilling program.
- Advanced an exploration target review and ranking exercise over the Magnetite Range project.

Accent Resources NL (ASX: ACS) has two projects in Western Australia, the Magnetite Range Project (Iron Ore) located in the Midwest region and the Norseman Gold project located in the Eastern Goldfields (Figure 1).

Accent is pleased to provide the following report on its activities for the quarter ending 31st March 2026.

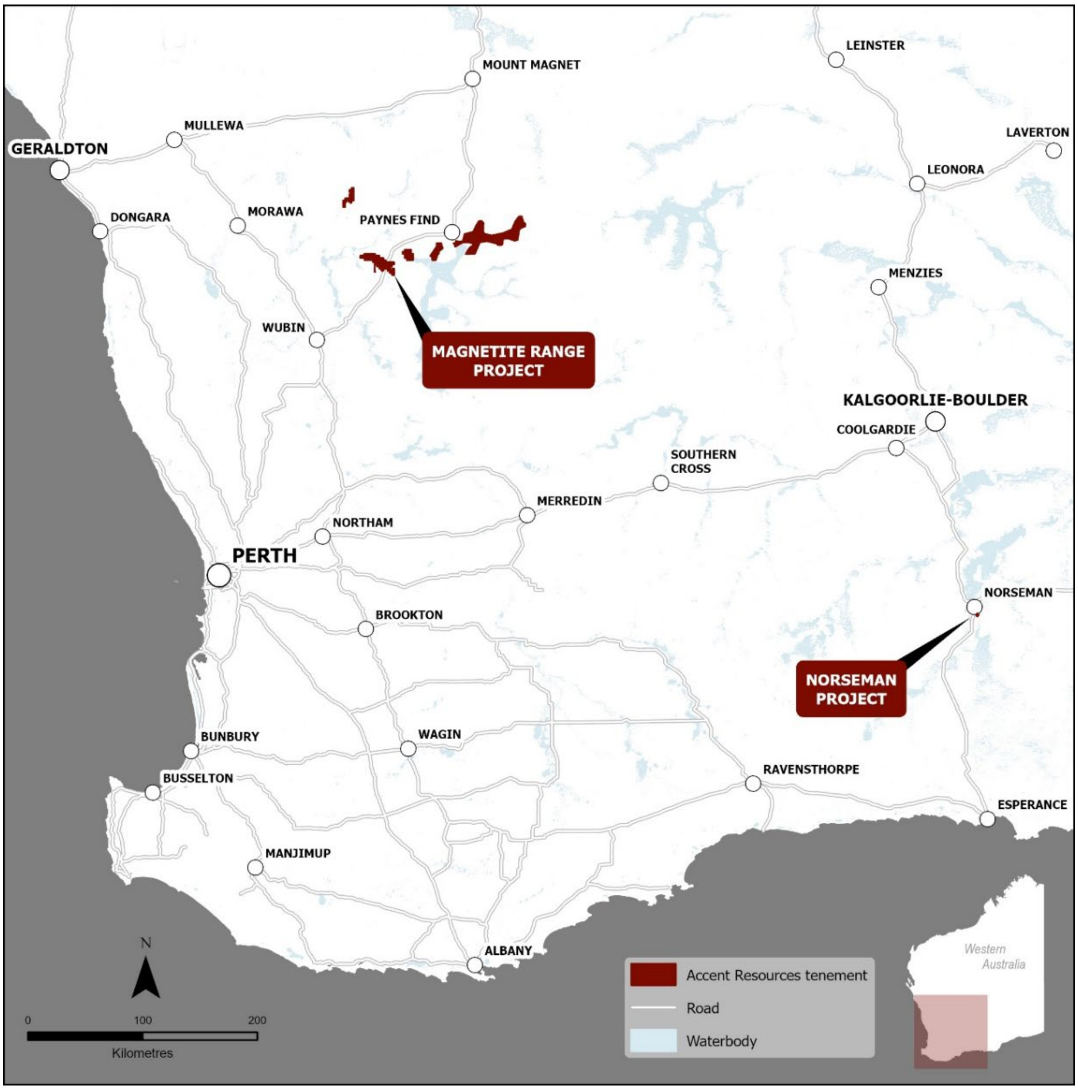

Figure 1: Accent Resources Project Location Plan

Magnetite Range Iron Ore Project (ACS 100%)

The Company's wholly owned Magnetite Range Project is located 350 km north of Perth and 250 km east of Geraldton in the Mid-West region of Western Australia. The tenements comprising the project straddle the boundary between Perenjori and Yalgoo shires (Figure 2 and Table 1).

The project contains a magnetite Mineral Resource of 523.3Mt grading 31.3% Fe (JORC2012) (Table 2).

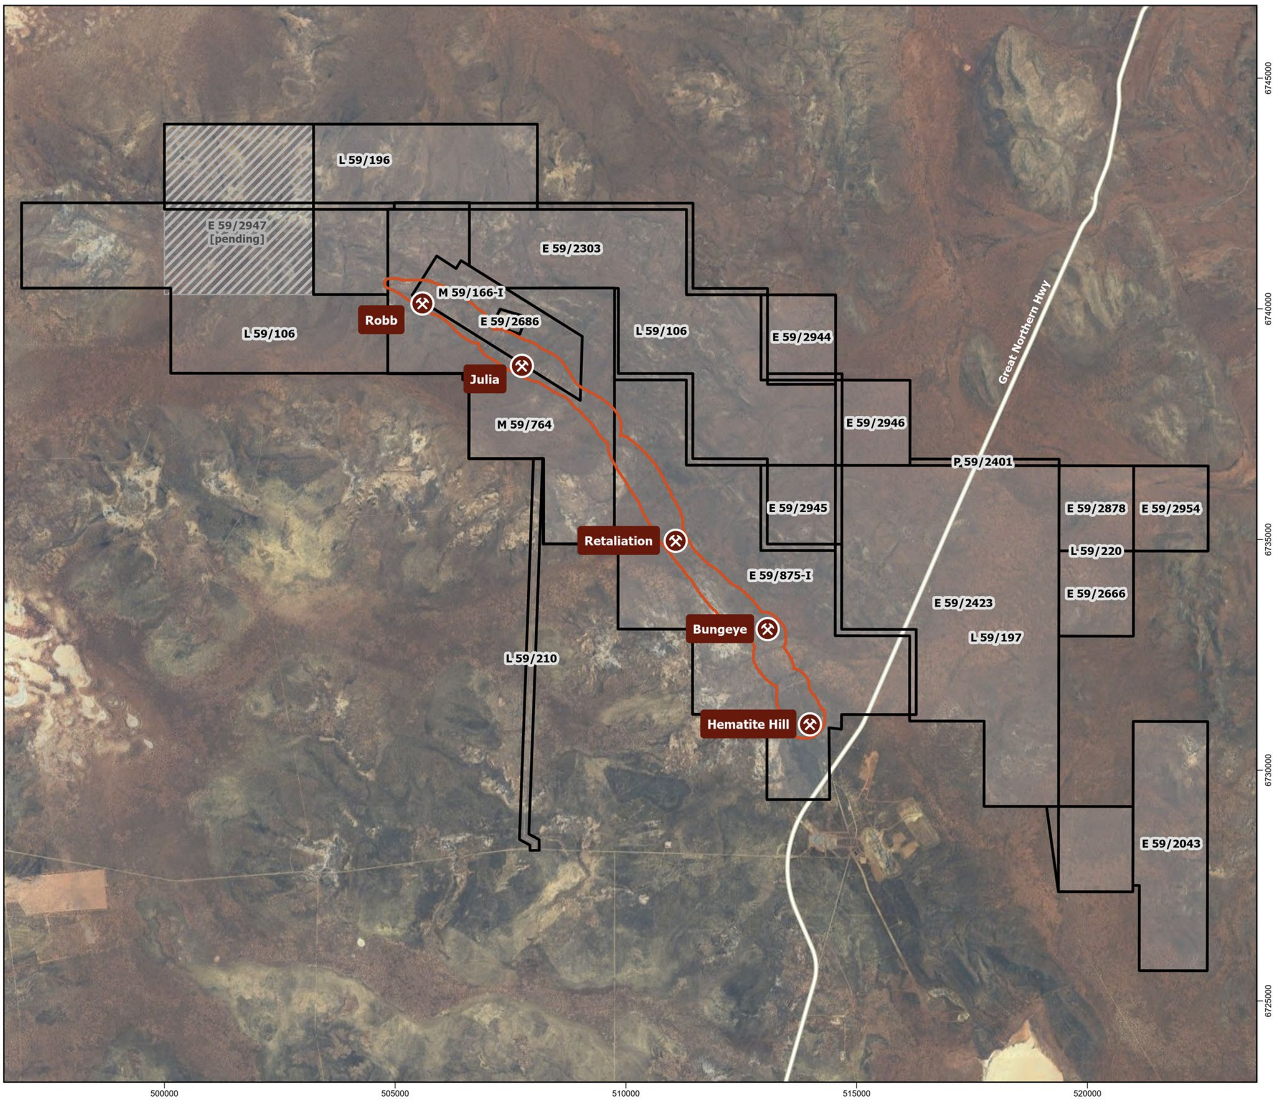

Figure 2: Accent Resources Magnetite Range Tenement Location Plan.

The Company's previously announced Pre Feasibility Study (PFS) (Refer ASX Announcement Magnetite Range Project "Commencement of Pre-Feasibility Study" – 21 May 2025) for the Magnetite Range Project is ongoing. The PFS has progressed with a regional search for water drill program being completed during the quarter. The program consisted of 63 Air Core drill holes being drilled for a total of 5117.5 metres across several regional pastoral station areas. The drill program was completed with no Health, Safety and Environment (HSE) incidents or near misses reported. Whilst many holes intersected ground water, the available flows and quality of the water remain the subject of technical analysis and will be reported when data is available.

Two engineering site visits were conducted during the quarter with technical professionals from mining, engineering, metallurgy and approvals in attendance to review the site for locations of major infrastructure. Preliminary locations have been shortlisted for the process plant, tailings storage facility, mine waste, access roads and accommodation village. These locations are being reviewed to ensure alignment with future exploration upside and any potential restrictions due to flora, fauna and heritage.

Other ongoing PFS activities include mine design and scheduling works with the mine production schedule being advanced to the PFS base case, engineering process design is also progressing to the PFS base case process flowsheet.

A review of exploration targets identified from an interpretation of airborne magnetic survey imagery was commenced during the reporting period. The review incorporated historical geological mapping data, surface geochemical sampling results and historical exploration drillhole data. Once finalized, the exploration targets will be ranked and follow up exploration programs designed.

Norseman Gold Project (ACS 100%)

The Norseman Gold Project occurs within a strongly mineralized portion of the southern Norseman-Wiluna greenstone belt and is located 5km south of the Norseman town site.

Prospecting licence P63/2270 was acquired by Accent during the reporting period (Table 1).

A mining lease application has been submitted to consolidate one mining lease (M63/657) and 4 prospecting licenses (P63/1997; P63/2200; P63/2154 and P63/2052) together into one mining lease application. The mining lease application 'M63/682' was submitted on 1 July 2024 and is currently pending grant.

A Norseman project tenement location plan is included as Figure 3.

A JORC 2004 Code Mineral Resource for Iron Duke and Surprise deposits of 1,039,400 tonnes @ 1.8 g/t Au for 59,500 ounces (99 percentile upper cut, 1.0 g/t Au lower cut off) was announced to the ASX on 26 November 2012 (Table 3). Over 70-80% of the resource is shallow, within 50m of surface.

The Company continues to concentrate on the identification of investment opportunities in the resources sector and are successfully targeting tenure and projects which are aligned with corporate strategy.
