

Adherium Investor Webinar – Revised Date

Now on Thursday, 11 June, 2026 at 11:30am AEST

Melbourne, Australia – 1 June 2026: Leading digital health company [Adherium Limited](#) (ASX:ADR), advises that its forthcoming investor webinar has moved to Thursday, 11 June, 2026 at 11:30am AEST. During the special virtual briefing, Dawn Bitz, CEO and John Perry, Senior Vice President, Value Based Care will outline how the Company is positioning itself to secure Value Based Care (VBC) contracts with major U.S. insurers.

Recent results across Adherium's Remote Patient Monitoring (RPM) channel - including three consecutive quarters of accelerating recurring revenue, a 40,000-patient-strong insurance-verified pipeline, and a growing body of positive clinical evidence - demonstrate the Company's readiness to scale into VBC arrangements. Ongoing platform optimisation is further strengthening the commercial model, supported by tailwinds from improved 2026 RPM/RTM reimbursement codes.

The briefing will cover:

- An update on how Adherium's corporate strategy is being rolled out
- The commercial pathway with U.S. payers and health systems
- Near-term milestones for achieving VBC contracts in the U.S. respiratory market
- How Adherium's RPM infrastructure, clinical evidence and US FDA-cleared Hailie® Smartinhaler® platform underpin its VBC strategy

Register now – new date / time info:

- **When:** Thursday, 11 June, 2026, from 11:30 AEST (Canberra, Melbourne, Sydney)

About Adherium (ASX: ADR):

Adherium is a provider of integrated digital health solutions and a worldwide leader in connected respiratory medical devices, with more than 180,000 sold globally.

Adherium's Hailie[®] platform solution provides clinicians, healthcare providers and patients access to remotely monitor medication usage parameters and adherence, supporting reimbursement for qualifying patient management. The Hailie[®] solution includes a suite of integration tools to enable the capture and sharing of health data via mobile and desktop apps, Software Development Kit (SDK) and Application Programming Interface (API) integration tools, and Adherium's own broad range of sensors connected to respiratory medications. Adherium's Hailie[®] solution is designed to provide visibility to healthcare providers of medication use history to better understand patterns in patient respiratory disease. Learn more at
