Adheris Health Non-Deal Roadshow Presentation and Operating Cost Update

Melbourne, Australia, 02 February 2026 – Adheris Health Limited (ASX: AHE) (“Adheris Health” or “the Company”) is pleased to provide its latest non-deal roadshow presentation, which has been released to the market today.

The presentation includes an update on the Company’s operating cost-out program. Adheris Health advises that previously announced initiatives targeting operating cost savings of approximately 15%¹ in FY26 over FY25¹, have now been extended through FY27. As a result of these expanded initiatives, the Company now expects to achieve total operating cost savings in excess of 30% over the two-year period.

These savings are expected to be delivered through a combination of organisational efficiencies and process optimisation, delivered from the implementation of the new tech platform, while maintaining the Company’s strategic priorities and service delivery capabilities.

Agenda

1. Operating Model & Cost Discipline
2. Commercial Realignment
3. Solidifying Our Relationships
4. Product Suite Improvements

Operating Model & Cost Discipline

Rebased Cost Structure & Renewed Operating Discipline

Substantial cost-out program and new tech platform to improve scalability and enable faster path to profitability

New Tech Platform Launched (Dec 2025)

- Provides more efficient omnichannel program delivery
- Enables scalable growth
- Additional features / functionality coming in Q3 FY26
- Efficiencies expected to increase as platform usage ramps
 - Smaller hosting footprint
 - Lower offshore tech spend

Labor Cost Normalization

- Lower labor run rate
- Full benefits of cost-out program anticipated to be realised in Q4 FY26

Leadership Incentive Alignment

- Performance-based executive compensation philosophy
- Emphasis on equity upside vs. high fixed salaries and cash bonuses
- Alignment between leadership outcomes and shareholder value

Productivity Gains: Internal AI Enablement

- Internal pilot/launch of AI-powered productivity tools (i.e. ChatGPT, Gamma, Copilot)
- Focus: faster execution, reduced manual effort, higher output per FTE

Targeting in Excess of **30% OPEX Reduction** from FY25 to FY27

Commercial Realignment

Sharpened Commercial Focus

Focusing where growth is the strongest

	Vaccines: Reduced Reliance Given Low Volume	- Continued decline in vaccine administrations & revenue (FY23 – 48% to FY25 – 23% of total) - Represent a smaller portion of future mix
	Pipeline Diversification: Toward High-Growth Categories	- Increased focus on: - Immunology - Respiratory - Diabetes - Complex specialty conditions
	GLP-1/Obesity: A Core Growth Engine	- Large and expanding market opportunity - US ~\$50B sales in 2025 ~15% CAGR projected over next three years
	BD Re-focus: Optimising Mix Toward Higher-Margin Solutions	- Efforts are being re-focused towards higher margin solutions (THRiV, digital messaging) - Will result in more favourable revenue mix
