

ASX RELEASE (ASX: AQC)

Quarterly Activities Report for the period ended 30 June 2026

During the quarter, Australian Pacific Coal Ltd (**AQC** or the **Company**) continued to monitor developments relating to the significant events impacting the Dartbrook Mine, and its associated financing arrangements that were announced in the September 2025 Quarterly Report¹. The Company also continued to assess its available options in response to these matters.

The Receivers and Managers (FTI Consulting) appointed to the secured property of the Dartbrook Mine continue to progress a sales process. AQC continues to engage with FTI Consulting and the secured creditor, Vitol Asia Pte Ltd, with regards to the sales process.

The directors continue to assess these circumstances and will provide further updates when available.

Having regard to the suspension of the Company's securities under Listing Rule 17.5, and subsequent to the end of the quarter having released its outstanding financial statements (annual report for year ended 30 June 2025 and interim report for six months ended 31 December 2025), the Company has commenced engagement with the ASX in relation to the reinstatement of the Company's securities on the exchange.

The Company held \$0.69 million of available cash at the end of June at the AQC group level as outlined in the accompanying Appendix 5B.

Sale of Non-Core Legacy Asset

Subsequent to the end of the quarter, the Company has today entered into a binding agreement subject to conditions precedent to sell its 100% interest in the Mantuan Downs Bentonite Project (ML 70360), located in Queensland to Terrequip Miles Pty Ltd (*Terrequip*). The conditions precedent are standard for a transaction of this nature, including obtaining Ministerial Indicative Approval of the tenement transfer, and obtaining land access arrangements.

The Mantuan Downs Bentonite Project is a non-core legacy asset which has not formed part of the Company's principal operating activities or strategic focus for some time.

This sale enables the Company to realise \$0.6 million value from a non-core legacy asset that is not aligned with its strategic priorities while strengthening the Company's working capital position. The proceeds will provide additional financial flexibility to support the Company's ongoing focus on coal and the efficient allocation of capital and management resources.

8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
Answer:	No. As a result of the circumstances described in Qs 8.8.1 above, the Company's current working assumption is that there is no value in its interest in the Dartbrook Mine. The directors of AQC are continuing to assess the circumstances.
