

Exploration & Corporate Update | July 2026

Altitude Minerals Ltd (ASX: ATT) (Altitude or Company) is pleased to provide an exploration and corporate update for July 2026.

Copper-Gold Porphyry Targets | Macquarie Arc, NSW

Byrock Project, Northern Macquarie Arc, NSW

June activities

- Completed 1,158m of RC drilling to test 3 of 4 highest ranked Pipe Targets
- 1 pipe target remains untested, due to rain

July 2026 plans

- To complete current drilling of a diamond core tail on P38 Target
- Submit samples to lab for assay
- Results expected August

Silver & Gold Targets | Nevada, USA

Firenze Project, LS epithermal Ag-Au

Prior activities

- Drill permits issued & bond paid
- Earthworks completed
- Drill contractor selected
- 100% drill ready

2026 plans

- 2,600m RC drill program
- Our drill program expected to commence post contractor completion of their current drilling commitments (currently September / October)
- Combined drill program with the W-Project

W-Project, LS epithermal Au-Ag

June activities

- CSAMT geophysics survey to refine structural controls completed – final data pending
- Drill contractor selected

July plans

- Analyse CSAMT & drone magnetics survey results to refine structural controls
- Field mapping and rock chip sampling
- Objective to be drill-ready by September
