Brisbane, Australia – Audeara Limited (ASX: AUA), a leading provider of advanced hearing health technology, is pleased to provide the following trading update, which highlights strong revenue momentum for Q1 FY26.

Unaudited revenue for the quarter currently stands at \$1.05m marking a 46% increase on the prior quarter unaudited revenue (Q4 FY25: \$0.72m). This is underpinned by strong sales into Australian wholesale channels, which continue to grow on a quarter by quarter basis, as well as the receipt of payment from Avedis Zildjian for deliveries in connection with a follow-up purchase order through the Company's AUA Technology division.

Strong revenue momentum for the period follows the Company's recent agreement with Eastech (Huizhou) Co., Ltd., a wholly owned subsidiary of Eastech Holding Limited (TWSE: 5225), to support the entry of Audeara's proprietary hearing technology into the Chinese medical device market (refer ASX announcement: 12 August 2025), which has potential to deliver further sales growth during H2 CY25.

Global expansion opportunities with Eastech will be complemented by additional sales through Australian wholesale groups, retail sales and channels and key resellers, as well as ongoing collaborations with international counterparties and the AUA Technology division.

Dr James Fielding, CEO and Managing Director of Audeara Limited, said:

"We are pleased to present this trading update, which highlights ongoing consolidation of revenue momentum during Q1 FY26. Growth can be attributed to the recognition of the follow-up purchase order from Zildjian, one of the world's largest music instrument manufacturers, which reflects pleasing market traction for the AUA Technology division and provides a strong foundation for additional high-margin revenue. This is complemented by strong sales into the Australian wholesale channels for our established product suite. Looking ahead, the Company anticipates additional growth to be demonstrated through ongoing international expansion opportunities and hardware sales."
