Beforepay Group Limited Q4 FY26 Quarterly Activities and Appendix 4C Cash Flow Report (Unaudited)

Beforepay delivers 43% Revenue increase and record Net Transaction Margin

Beforepay Group Limited (the Company) (ASX: B4P) has released its Quarterly Activities and Appendix 4C for the quarter ended 30 June 2026 (Q4 FY26).

Beforepay Group CEO, Jamie Twiss said, "We finished FY26 with a very strong quarter, delivering a record Net Transaction Margin of \$9.2m alongside Net Profit Before Tax of \$2.4m and Revenue of \$14.8m. During the quarter we substantially completed the rollout of interest on Pay Advances and continued to expand our Personal Loan offering with advances up 47% from last quarter. Together, these initiatives have strengthened our earnings profile and position Beforepay well as we enter FY27."

With the pricing transition now substantially complete, Beforepay expects FY27 to be the first full financial year to benefit from interest being charged across substantially all Pay Advances.

Q4 FY26 Business Highlights

- **Profitability:** The Company had a Net Profit Before Tax (NPBT) of \$2.4m, up by \$2.0m or 566% from the previous quarter and \$1.0m or 68% up from last year. Net Profit after Tax was \$3.4m, up 844% on last quarter and up 21% from last year including the recognition of \$1.0m of deferred tax assets.
- **Advances:** Quarterly advances reached \$255m, up 22% on Q4 FY25, driven primarily by a 16% increase in the average advance size to \$454.
- **Revenue:** Revenue increased 43% year-on-year to \$14.8m, driven by higher advance volumes, continued growth in Personal Loans and the progressive rollout of interest on Pay Advances.
- **Personal Loans:** Personal Loans continued to scale strongly, with total advances increasing by 47% from last quarter reaching \$7.2m as customers increasingly utilised higher loan limits and new 12-month loan terms (up from 6 months in the previous quarter).
- **Pay Advances:** During the quarter, Beforepay substantially completed the transition to charging interest on Pay Advances, with almost all new advances attracting interest by the end of June. Interest income from Pay Advances increased throughout the quarter, growing from \$0.1m in April to \$0.8m in June, reflecting the progressive rollout of the new pricing model. Based on FY26 advance volumes, a full year of interest charges would have generated approximately **\$12.5m** of annual interest income.
- **Net defaults:** Net defaults increased to 1.5% from 0.8% in Q4 FY25, reflecting the increase

in average advance size, the inclusion of Personal Loans, and an unseasonably low figure in Q4 FY25. Under the Company's provisioning methodology, 12 months of expected credit losses for Personal Loans are recognised upfront at origination.

- **Net transaction margin (NTM):** NTM increased to \$9.2m in the quarter, up 26% year-on-year from \$7.3m in the prior year, driven by higher advances and margin expansion.
- **Operating expenses:** Decreased by 13% to \$5.9m from \$6.8m in the prior quarter. A one-off reduction in employee costs and digital marketing contributed to the overall decrease.
- **Active users:** Increased 2% compared to the last quarter to 276,544. The average customer acquisition cost (CAC) in the quarter was \$53. This is a decrease from the prior quarter of \$10 or 16%.
- **Balance Sheet:** The Company maintained a strong balance sheet with an equity balance of \$48.6m and Total Cash of \$12.9m as at the end of the quarter (last quarter Total Cash of \$12.2m). Total Cash included \$7.4m of cash-at-bank and \$5.5m of cash held in our funding and settlement accounts. A further \$5.0m was drawn down on the debt facility during the quarter to support the growing Personal Loan book.
- **Carrington Labs** launched Cashflow Score as a Native App on the Snowflake Marketplace, enabling lenders to implement cash flow underwriting directly within their existing Snowflake environments.
- **New Debt Facility:** On 28 July 2026, the Company announced that it had entered into a new \$100 million senior secured asset-backed revolving credit facility with Australian Commercial Mortgage Corporation Pty Ltd as trustee for Australian AB Finance Trust, a subsidiary of Balmain NB Corporation Limited. The new facility provides materially lower funding costs, approximately 3–4 percentage points lower than the previous facility based on current benchmark rates. Based on the prevailing 90-day BBSY benchmark rate at signing and assuming a \$40 million drawn balance under both facilities, the new facility is expected to reduce annual funding costs by more than **\$1 million** compared with the previous facility.
