COMPANY SNAPSHOT

PRODUCTION

PAULSENS PRODUCTION HUB

100% owned high-grade underground production hub

- Resource: 506 koz Au @ 5.1 g/t[1]
- Plant capacity: 450ktpa
- New discoveries at Regulus and Lynx

PRODUCTION

KAL EAST PRODUCTION HUB

100% owned open pit and underground production hub

- Resource: 1.4 Moz Au @ 1.9 g/t
- Plant capacity: 1.2Mtpa

DEVELOPMENT

COYOTE DEVELOPMENT HUB

100% owned high grade open pit and underground mine

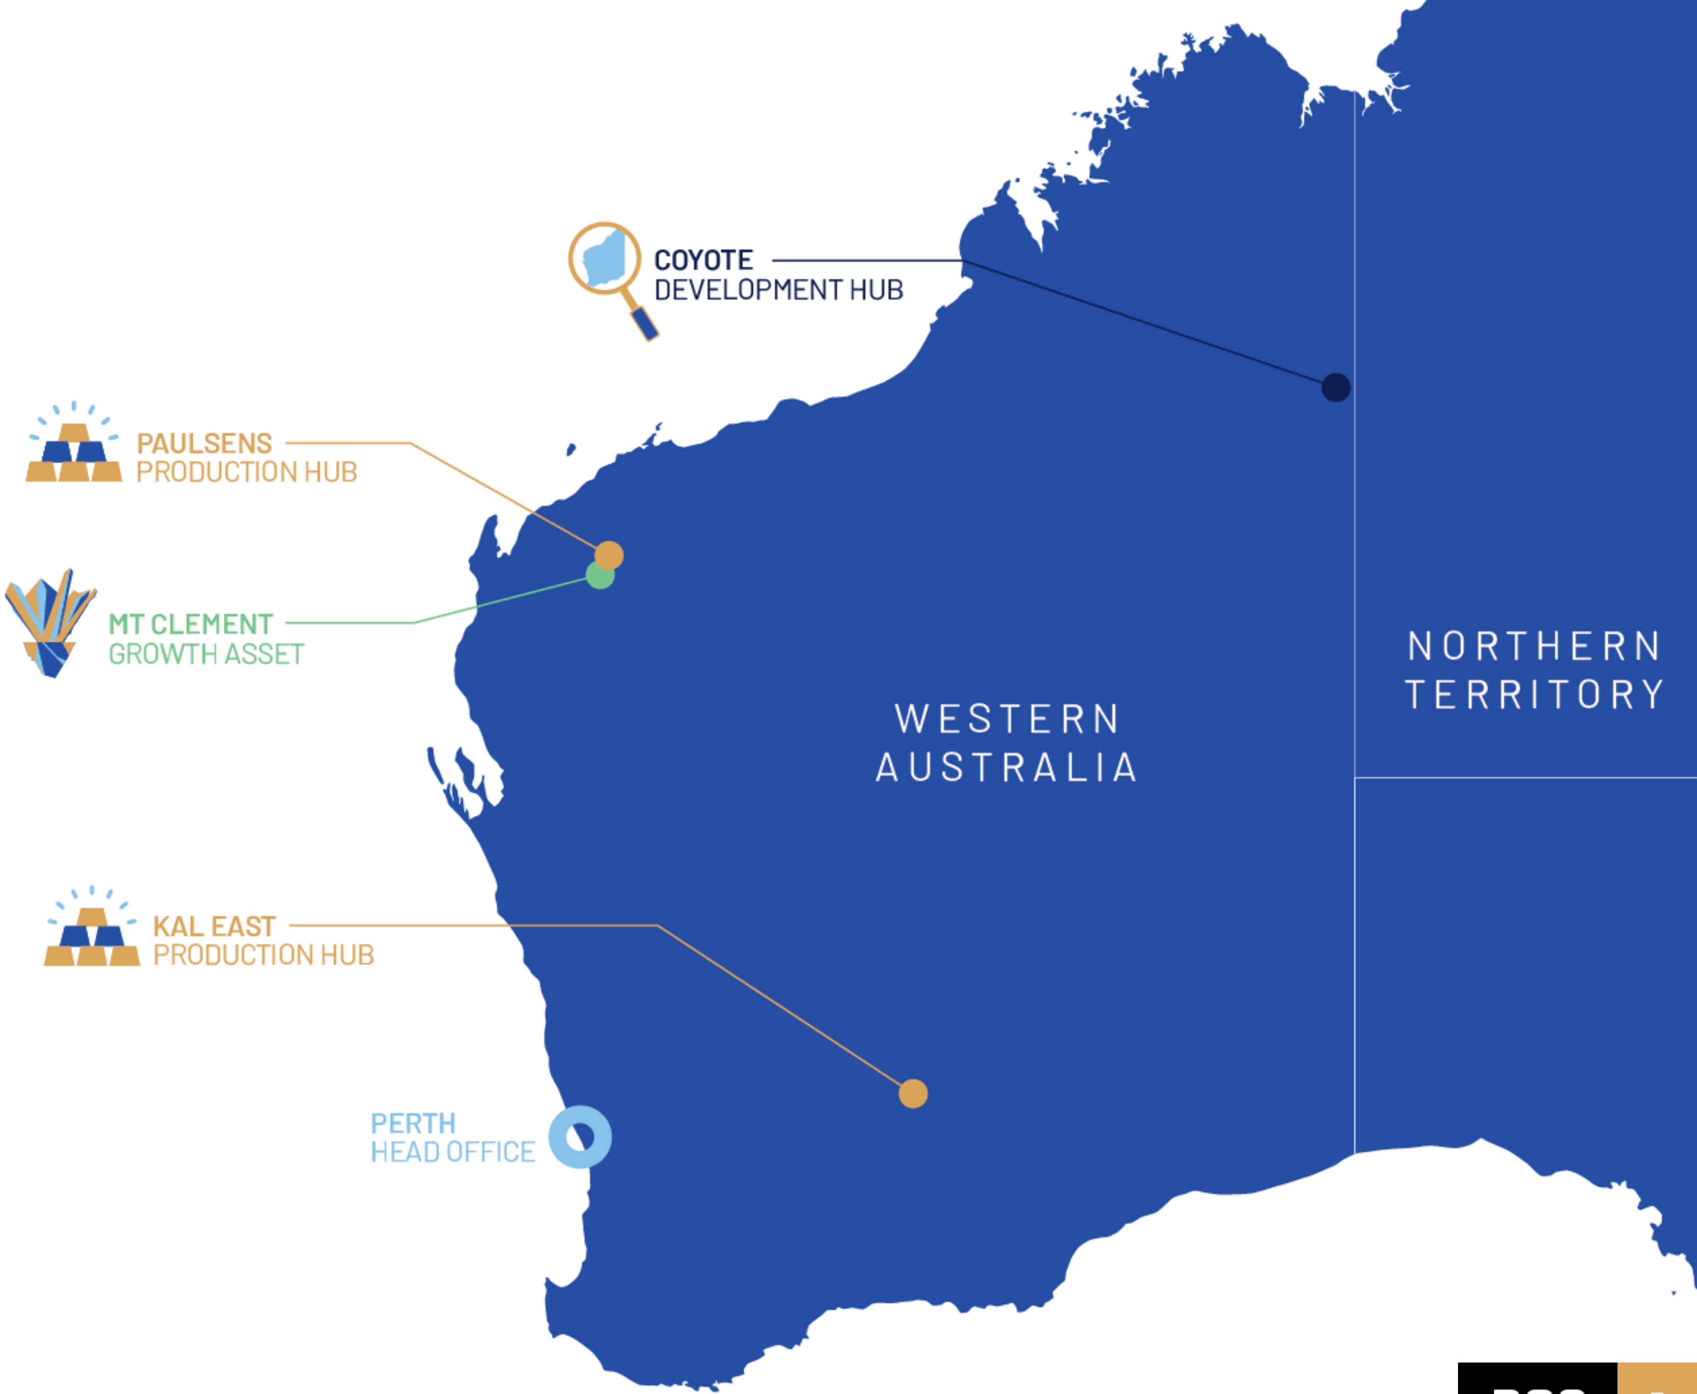
- Resource: 645 koz Au @ 5.5 g/t

GROWTH

MT CLEMENT GROWTH ASSET

100% owned high grade antimony deposit near Paulsens

- Resource: 25kt @ 1.2% Sb



1. ASX: 16 July 2026

PAULSENS PRODUCTION HUB OVERVIEW

High-grade gold production hub with 1Moz historical production, established infrastructure and significant exploration potential.

1997
High-grade gold discovered
Intrepid Mines Ltd ("Intrepid") produced at 75koz pa from 2005-2009.

2010
Intrepid sells to Northern Star

2014
Achieved production of 100koz

2017
Placed on care and maintenance

2022
Acquired by BC8 $14M[2]

2024
Restart Investment $18M
Processing facility refurbished. First gold poured on time and on budget.

2025
Cashflow positive
Cashflow positive within six months of first gold

2026
Total Investment Repaid
New discoveries
Regulus and Lynx

LANDHOLDING
3,650 km^2
(100% owned)

TOTAL RESOURCE
3.1 Mt
@ 5.1 g/t Au for 506 koz

TOTAL RESERVE
631 kt
@ 4.3g/t Au for 87 koz

PROCESSING CAPACITY **450 ktpa**

- 100% BC8-owned and operated

BC8 PRODUCTION TRACK RECORD

- Ore processed per quarter: 90-114 kt
- Grade: 2.4–3.7 g/t
- Gold Recovery 92-94%

BC8 INVESTMENT TRACK RECORD[1]
SINCE ACQUISITION IN 2022

- Acquired: $14M
- Capital invested: $92M
- Cumulative Operating Cashflow: $107M

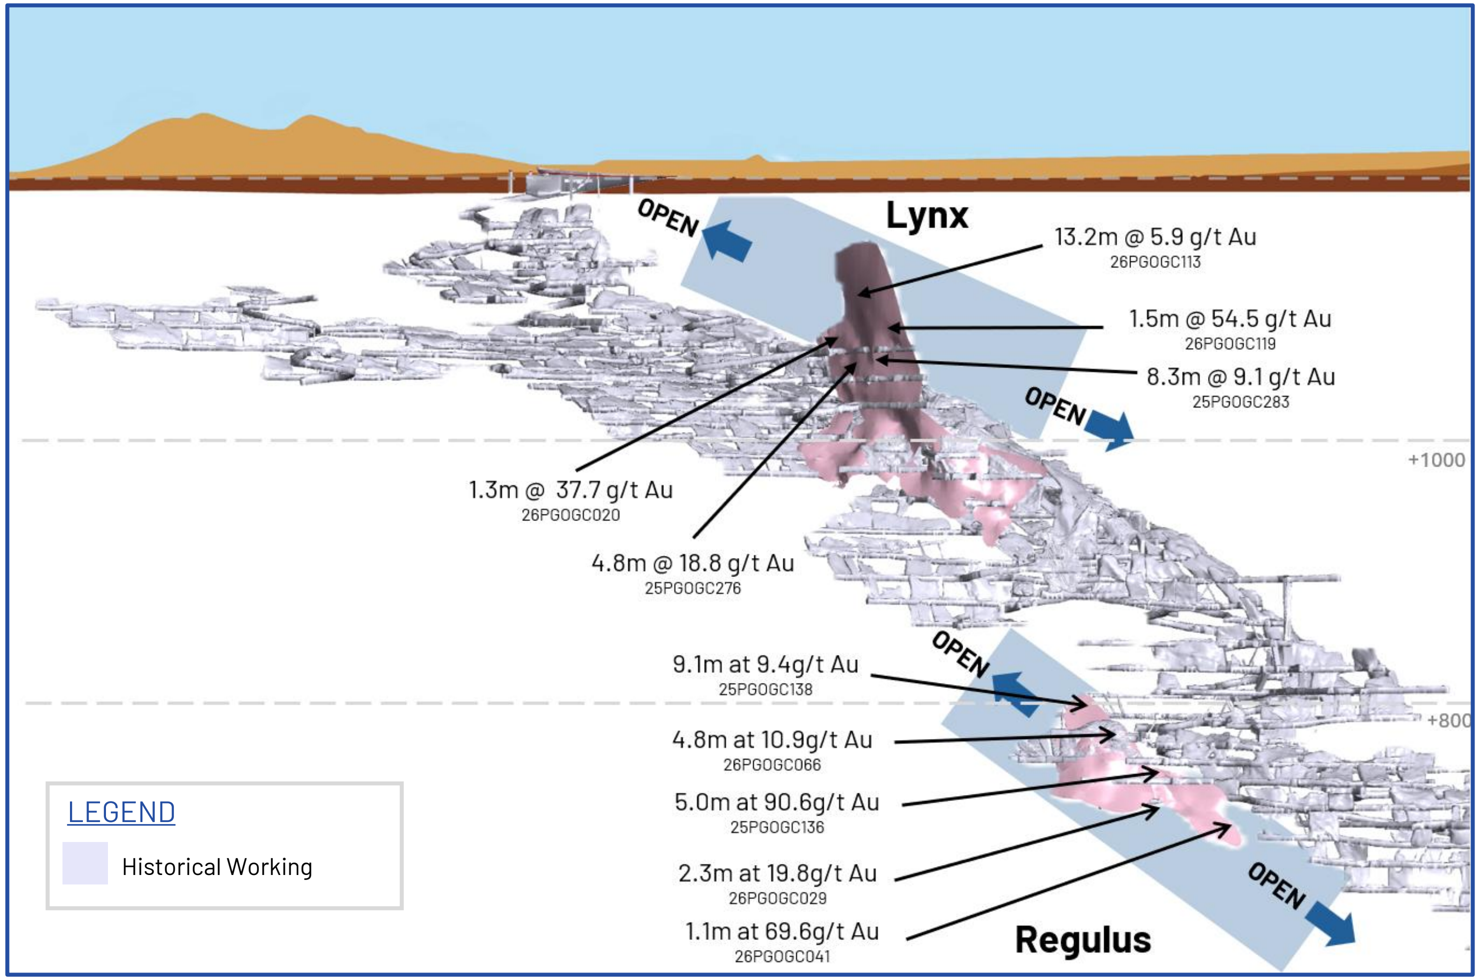
1. Unaudited financial figures up to 30 June 2026
2 ASX: 15 June 2022 (Paulsens proportion of the $45M initial acquisition)

PAULSENS PRODUCTION HUB NEW DISCOVERIES - REGULUS & LYNX

Near surface high grade discoveries, confirming Paulsens as a large, fertile gold system highlighting the potential for additional mineralisation outside the historical footprint.

Deposit	Recent mining development
Regulus	Ore development: 76m Ore mined: 4.9kt Diluted Grade: 9.7 g/t Production: 1,528oz
Lynx	Ore development: 88m Ore mined: 4.7kt Diluted Grade: 3.0 g/t Production: 454oz

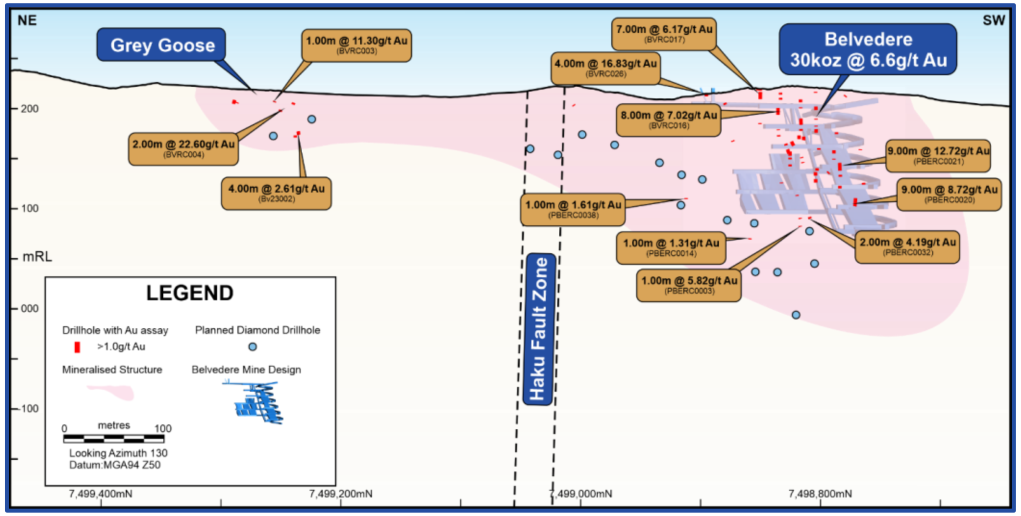
- Extends known mineralisation along strike.
- Oblique to the existing ore body.
- Multiple drives developed proving high grade continuity.
- Delivers immediate, cash-generating ounces.
- Confirms Paulsens as a large, fertile gold system with additional ounces beyond current resources.

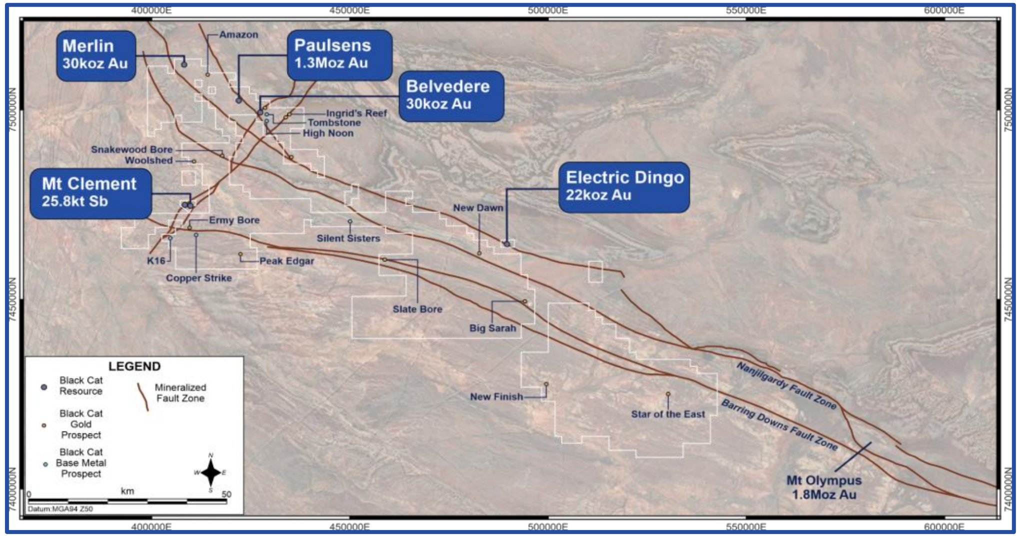


PAULSENS PRODUCTION HUB BELVEDERE

High-grade gold system in a 2.5km-long fault structure, located 5km from the Paulsens processing plant.

- Drill program focused on **expanding the Belvedere mineralised system**.
- **Targeting growth** of the current **30koz @ 6.6g/t Au Resource**.
- Potential to become an **additional source of high-grade feed** for the Paulsens operation.
- **Supporting extended mine life at Paulsens**.
- **Grey Goose (900m along strike)** – follow-up drilling targeting a potential additional material within the Belvedere corridor.





KAL EAST PRODUCTION HUB OVERVIEW

Established production hub with processing upgrades underway to support increased scale and flexibility.

2018

Bulong foothold acquired
Initial position east of Kalgoorlie

2020-2021

Position consolidated
Kal East Hub built out via multiple acquisitions

2025

Processing Plant acquired
Lakewood 1.2Mtpa processing capacity

2026

Mines delivered
Fingals and Majestic developed

LANDHOLDING
740 km^2
(100% owned)

TOTAL RESOURCE
22.4 Mt
@ 1.9 g/t Au for 1,372 koz

TOTAL RESERVE
3.7 Mt
@ 2.0g/t Au for 243 koz

PROCESSING Capacity **1.2 Mtpa**

- 100% BC8-owned and operated.

BC8 PRODUCTION TRACK RECORD

- Ore processed per quarter : 260kt – 314kt
- Grade: 1.10 g/t – 1.88 g/t
- Recovery: 90% - 92%

BC8 INVESTMENT TRACK RECORD[1]
SINCE ACQUISITION IN 2018

- Acquired: $97M (incl. Lakewood)
- Invested: $158M
- Cumulative Operating Cashflow: $88M

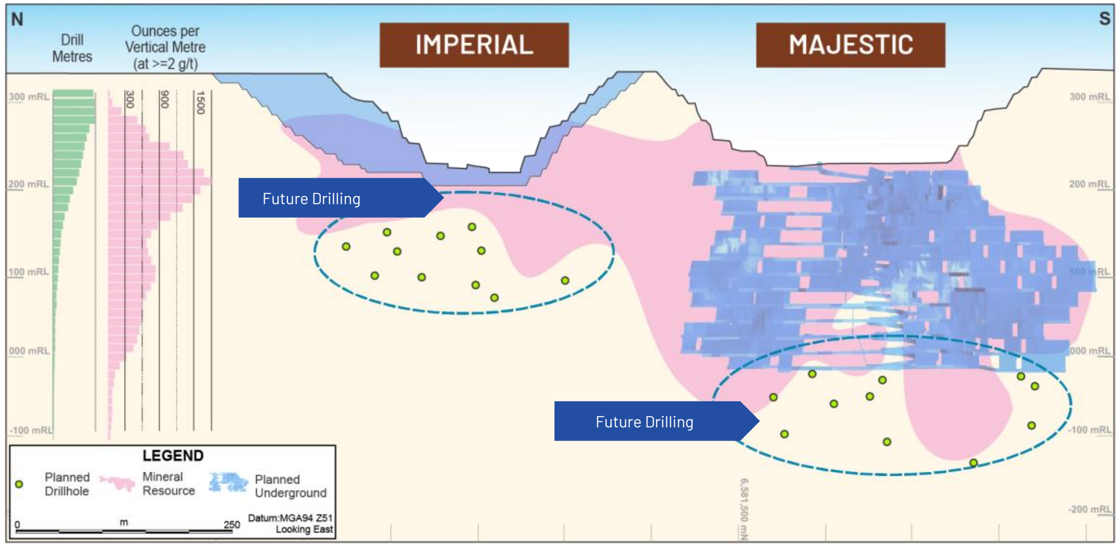
1. Unaudited financial figures up to 30 June 2026

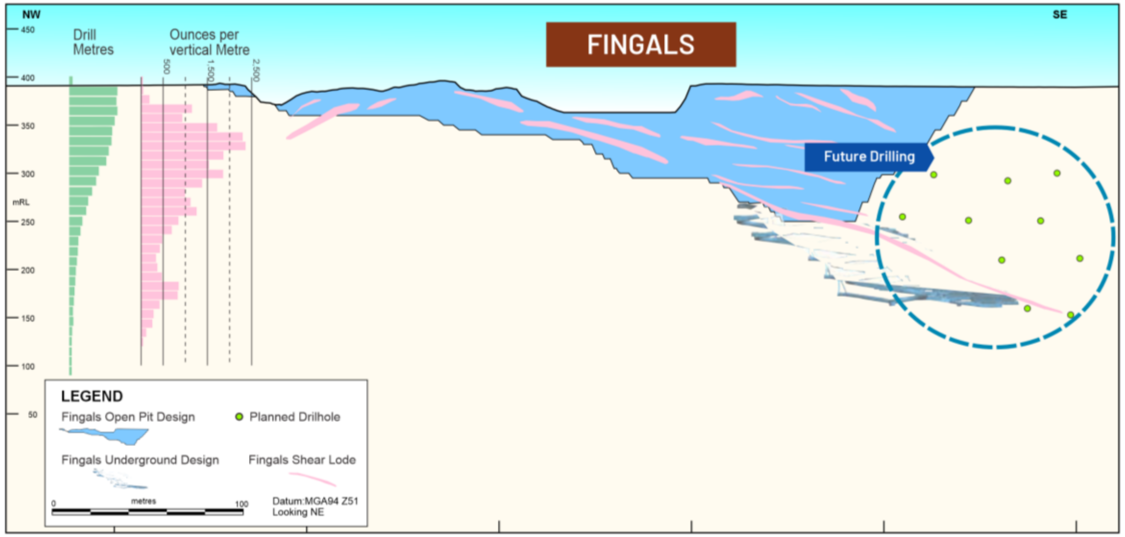
KAL EAST PRODUCTION HUB OPERATIONS

A growing portfolio of mines within 50km from the 100% owned Lakewood Processing Facility.

Expand the Resource base and extend mine life across multiple assets.

Asset	Operations and Key Metrics[1]
Majestic Underground	1.4 Mt @ 4.4 g/t Au for 199 koz
Imperial	1.6 Mt @ 1.6 g/t Au for 84 koz
Fingals Open Pit	3.5 Mt @ 1.8 g/t Au for 205 koz
Trojan Open Pit	5.7 Mt @ 1.1 g/t Au for 202 koz
Lakewood Processing	Mill throughput 1.2 Mtpa





1. ASX: 16 Jul 2026

COYOTE DEVELOPMENT HUB OVERVIEW

High-grade gold asset with potential of becoming third gold production hub

1998
Discovery
Discovered by AngloGold Ashanti.

2006
Production commences
Tanami Gold NL develops and operates Coyote underground. Produces 211 koz Au at average grade of 8.0g/t over seven years.

2013
Care and maintenance
Operations cease.

2022
Acquired by BC8
BC8 acquires Coyote from Northern Star.

2024
Scoping Study completed
200 koz mine plan.

2026
Discovery drilling commences
Results November 2026.

LANDHOLDING
1,160 km^2
(100% owned)

TOTAL RESOURCE
3.7 Mt
@ 5.5 g/t Au for 645 koz

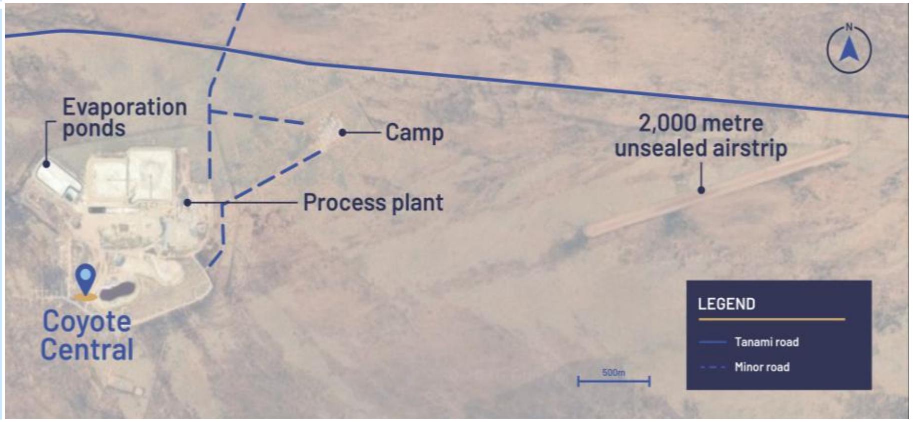
PROCESSING FACILITY 300 ktpa

- 100% BC8-owned and operated.
- Updated Scoping Study in FY27

EXPLORATION PROGRAM UNDERWAY

Tanami Orogen – a highly prolific gold corridor

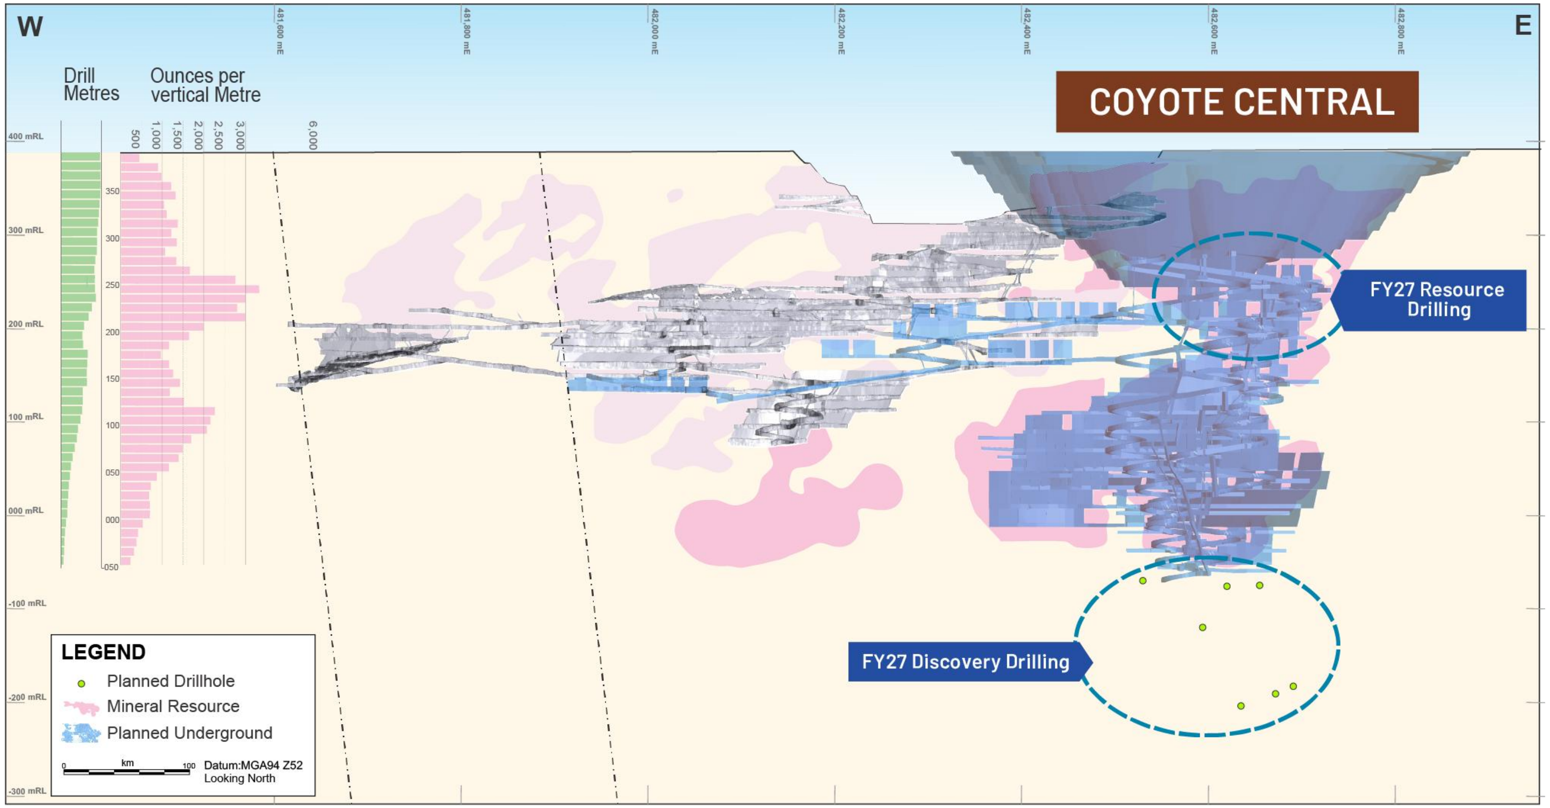
Coyote sits within the highly prospective Tanami Orogen and offers significant exploration upside across a large landholding.



COYOTE DEVELOPMENT HUB MINING ASSETS

A portfolio of high-grade deposits with underground and open pit growth potential

Asset	Key Study Metrics[1]
Coyote Open Pit	Ore mined: 546 kt Ore grade: 2.8g/t Strip ratio: 29:1
Coyote Underground	Ore mined: 714 kt Ore Grade: 5.4g/t Decline : 5.5mW x 5.5mH Level spacing: 20m Minimum mining width: 2.5m
Sandpiper Open Pit (30km from Coyote Central)	Ore mined: 101 kt Ore grade: 2.8g/t Strip ratio: 27:1



1. *ASX: 15 May 2024*

MT CLEMENT GROWTH ASSET OVERVIEW

Strategic critical minerals asset adding long-term growth optionality, leveraging Paulsens existing infrastructure.

Pre-2022
Historic discovery and exploration
Mt Clement identified as a polymetallic antimony-silver-lead-gold system, with historic drilling confirming high-grade mineralisation.

2022
Resource defined
Mt Clement antimony-silver-lead-gold resource defined.

2023
Exploration target published
JORC exploration target published for Mt Clement Sb.

2024
Strategic critical minerals context strengthens
Antimony market fundamentals strengthen, with China, Russia and Tajikistan controlling 90 per cent of global supply.

2026
Resource upgraded
Eastern Zone resource upgraded, with increases in contained Sb, Ag and Pb.

LANDHOLDING
677 km^2
(100% owned)

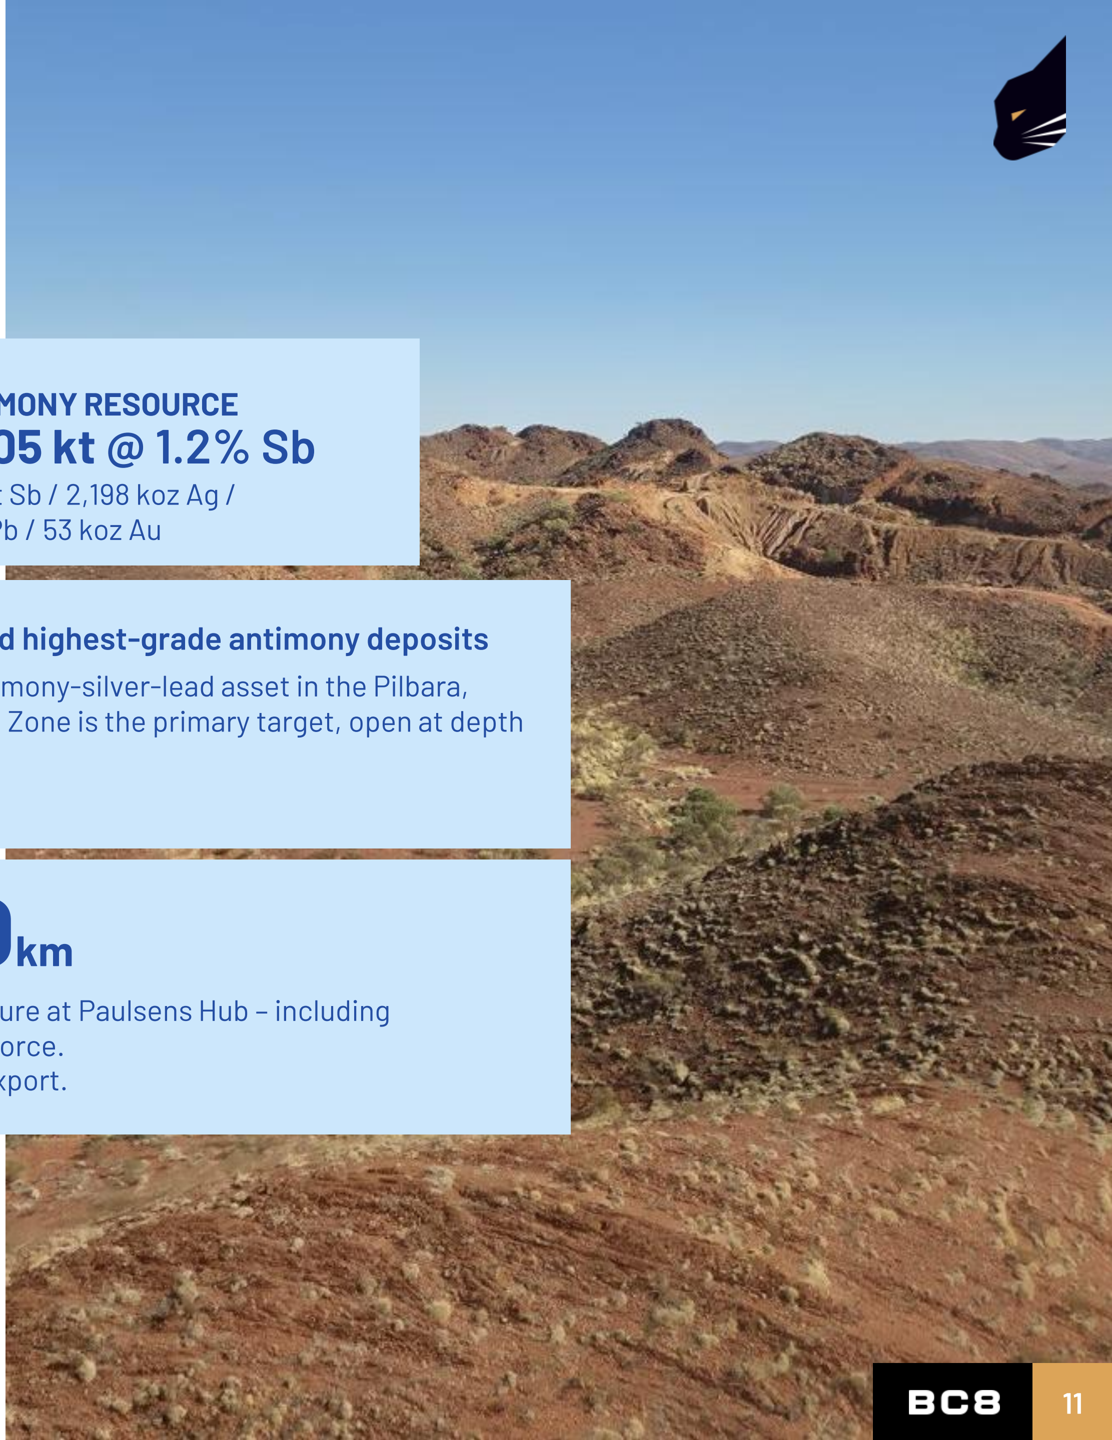
ANTIMONY RESOURCE
2,605 kt @ 1.2% Sb
26.5kt Sb / 2,198 koz Ag / 39kt Pb / 53 koz Au

One of Australia's largest and highest-grade antimony deposits

Mt Clement is a high-grade antimony-silver-lead asset in the Pilbara, Western Australia. The Eastern Zone is the primary target, open at depth to 225 metres.

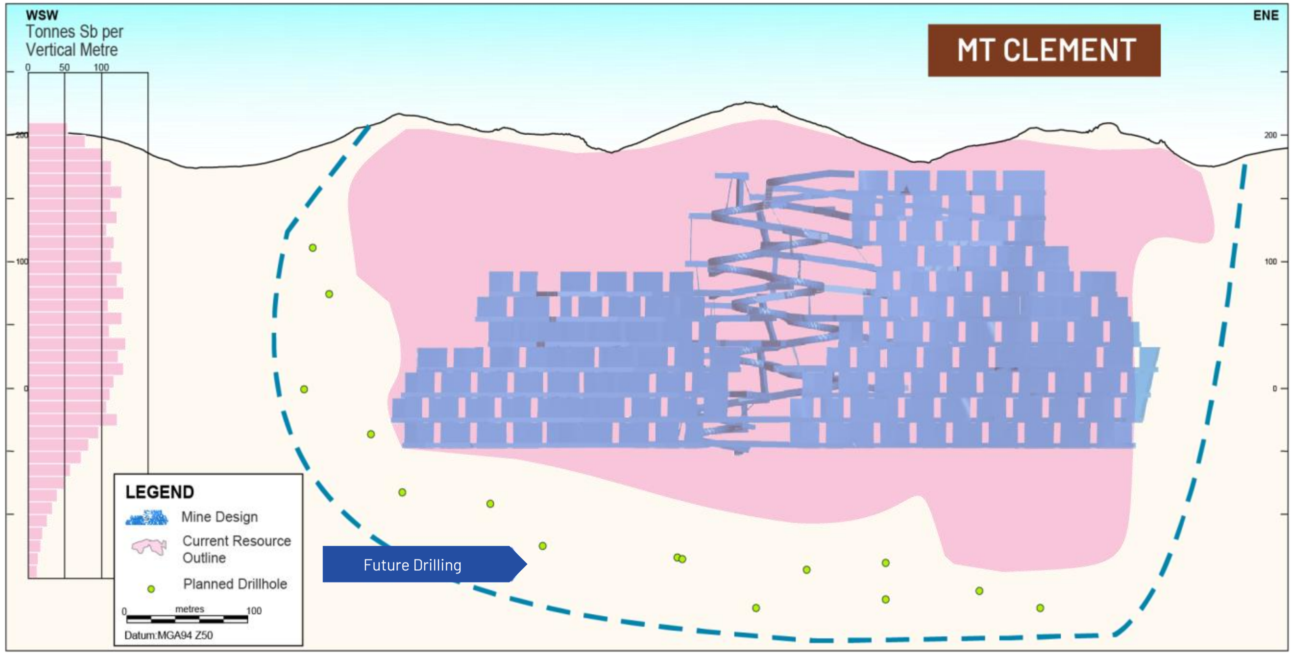
INFRASTRUCTURE within 30km

Established mining infrastructure at Paulsens Hub – including power, roads and skilled workforce.
Port access for concentrate export.



MT CLEMENT GROWTH ASSET ANTIMONY OPPORTUNITY

Regional access to established infrastructure at Paulsens, supporting future exploration and development studies.



WHY INVEST WITH BC8

A disciplined framework for creating shareholder value: Deliver, Discover, Develop

Cash generating, a strong balance sheet and a team that has done this before

01 DELIVER

Reliably operate Hubs with multiple ore sources

- Multiple ore source options per hub to reduce operational risk
- Strong safety culture with a productive "can do" attitude
- Low-risk growth around existing hubs, generating high shareholder value

02 DISCOVER

Substantial, growing resource base

- Over 5,500 km^2 across proven WA gold corridors
- 2.5 million ounces, underpinned by 100%-owned processing infrastructure.
- Grow Resources and Reserves

03 DEVELOP

Build, own and operate high-quality Australian gold assets

- Proven, repeatable build-own-operate (BOO) model
- Disciplined, milestone-gated development pathway
- Target assets supporting >100koz p.a. for 7+ years

KEY ENABLERS

Proven BOO model | Cash generation from existing operations | Existing infrastructure | Experienced operating team

YEAR 5 ASPIRATIONAL OUTCOMES

7-10 years mine life | Market credibility | ASX100

DISCLAIMER, DISTRIBUTION AND DISCLOSURE

Disclaimer and not for US distribution

This presentation includes forward-looking statements including, but not limited to, comments regarding the timing and content of upcoming work programs, geological interpretations, receipt of property titles, potential mineral recovery processes, and other related matters. Forward-looking statements address future events and conditions and therefore involve inherent risks and uncertainties. When used in this document, the words such as “could”, “plan”, “estimate”, “expect”, “intend”, “may”, “potential”, “should” and similar expressions are forward-looking statements. The Company’s current projects in Australia are at an early stage of assessment and all estimates and projections are based on limited, and possibly incomplete data. More work is required before geological and economic aspects can be fully modelled. Actual results may differ materially from those currently anticipated in this presentation. Although Black Cat Syndicate Limited. (“Black Cat”) believes that the expectations reflected in these forward-looking statements are reasonable, such statements involve risks and uncertainties, and no assurance can be given that actual results will be consistent with these forward-looking statements.

This document contains reference to certain targets and plans of Black Cat which may or may not be achieved. The performance of Black Cat may be influenced by a number of factors, uncertainties and contingencies, many of which are outside the control of Black Cat and its directors, staff and consultants.

This presentation has been prepared by Black Cat for the purpose of providing an overview of its current prospects and development strategy to recipients. This presentation and its contents are provided to recipients in confidence on the basis that it may not be reproduced or disclosed in whole or in part to any other person, without the written consent of Black Cat.

This presentation is provided on the basis that neither Black Cat nor its respective officers, shareholders, related bodies corporate, partners, affiliates, employees, representatives and advisers, make any representation or warranty (express or implied) as to the accuracy, reliability, relevance or completeness of the material contained in this presentation and nothing contained in the presentation is, or may be relied upon, as a promise, representation or warranty, whether as to the past or the future. Black Cat hereby excludes all warranties that can be excluded by law.

All persons should consider seeking appropriate professional advice in reviewing the presentation and all other information with respect to Black Cat and evaluating the business, financial performance and operations of Black Cat. Neither the provision of the presentation nor any information contained in the presentation or subsequently communicated to any person in connection with the presentation is, or should be taken as, constituting the giving of investment advice to any person.

This presentation has been prepared for publication in Australia and may not be released to US wire services or distributed in the United States. This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, securities in the United States or any other jurisdiction. Any securities described in this presentation have not been, and will not be, registered under the US Securities Act of 1933 and may not be offered or sold in the United States except in transactions exempt from, or not subject to, registration under the US Securities Act and applicable US state securities laws.

The distribution of this presentation in jurisdictions outside Australia may be restricted by law. Persons who come into possession of this presentation should observe any such restrictions. Any failure to comply with such restrictions may constitute a violation of law. Please refer to the international offer restrictions section of this presentation.

Gold intercepts are based on 1 g/t Au cut-off with <1m of internal dilution.

Unless otherwise indicated, all dollar amounts in this presentation are Australian dollars unless otherwise stated.

Competent Persons’ Statements

The information in this announcement that relates to geology, exploration results, and planning, was compiled by Dr. Wesley Groome, who is a Registered Professional Geoscientist (Mineral Exploration)in the AIG and an employee, shareholder and option holder of the Company. Dr. Groome has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Dr. Groome consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this announcement that relates to Mineral Resources was compiled by Mr. Iain Levy, who is a Member of the AIG and an employee, shareholder and option holder of the Company. Mr. Levy has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Levy consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this announcement that relates to Exploration Targets was compiled by Mr. Iain Levy, who is a Member of the AIG and an employee, shareholder and option/rights holder of the Company. Mr. Levy has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr. Levy consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this report that relates to Open Pit Ore Reserves or Production Targets is based on and fairly represents information compiled by Mr. Alistair Thornton. Mr. Thornton is a full-time employee of Black Cat. Mr Thornton has confirmed that he has read and understood the requirements of the 2012 Edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Thornton is a Competent Person as defined by the JORC Code 2012 Edition, having more than five years' experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity for which he is accepting responsibility. Mr. Thornton is a Member of the AusIMM and consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to the Underground Ore Reserves or Production Targets is based on and fairly represents information compiled or reviewed by Mr. Jake Rovacsek. Mr. Rovacsek was a full-time employee of Black Cat. Mr. Rovacsek has confirmed that he has read and understood the requirements of the 2012 Edition of the Australian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Rovacsek is a Competent Person as defined by the JORC Code 2012 Edition, having more than five years' experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity for which he is accepting responsibility. Mr Rovacsek is a Member of the AusIMM and consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The Company confirms that all material assumptions underpinning the Production Targets, or the forecast information derived from the Production Targets, included in the original ASX announcements dated, 8 May 2024 and 15 May 2024 continue to apply and have not materially changed.

The Company confirms that it is not aware of any new information or data that materially affects the information in the original reports, and that the form and context in which the Competent Persons’ findings are presented have not been materially modified from the original reports.

Where the Company refers to the Mineral Resources and Ore Reserves in this report (referencing previous releases made to the ASX), it confirms that it is not aware of any new information or data that materially affects the information included in that announcement and all material assumptions and technical parameters underpinning the Mineral Resource and Ore Reserve estimate with that announcement continue to apply and have not materially changed.

JORC Code

It is a requirement of the ASX Listing Rules that the reporting of ore reserves and mineral resources in Australia comply with the Joint Ore Reserves Committee’s Australasian Code for Reporting of Mineral Resources and Ore Reserves ("JORC Code"). Investors outside Australia should note that while ore reserve and mineral resource estimates of the Company in this document comply with the JORC Code (such JORC Code-compliant ore reserves and mineral resources being "Ore Reserves" and "Mineral Resources" respectively), they may not comply with the relevant guidelines in other countries and, in particular, do not comply with (i) National Instrument 43-101 (Standards of Disclosure for Mineral Projects) of the Canadian Securities Administrators (the "Canadian NI 43-101 Standards"); or (ii) Item 1300 of Regulation S-K, which governs disclosures of mineral reserves in registration statements filed with the SEC. Information contained in this document describing mineral deposits may not be comparable to similar information made public by companies subject to the reporting and disclosure requirements of Canadian or US securities laws.

This presentation has been approved for release by the Managing Director of Black Cat Syndicate Limited.

Mining Depletion within the Resource of 36kt @ 8.3g/t Au for 10koz for Paulsens and 378kt @ 3.0g/t Au for 36koz for Bulong open pit has not been taken into account in the above table. Notes on Resources:

1. *The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.*
2. *All tonnages reported are dry metric tonnes.*
3. *Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.*
4. *Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource.*
5. *Resources are reported inclusive of any Reserves.*

ASX: 16 July 2026

ORE RESERVES

Mining Centre	Proven Reserve			Probable Reserve			Total Reserve		
	Tonnes ('000)	Grade (g/t Au)	Metal ('000 oz)	Tonnes ('000)	Grade (g/t Au)	Metal ('000 oz)	Tonnes ('000)	Grade (g/t Au)	Metal ('000 oz)

Total Reserves	93	4.5	14	4,262	2.3	317	4,356	2.4	330

Mining Depletion within the Reserve of 43kt @ 4.1g/t Au for 6koz for Paulsens and 429kt @ 2.0g/t Au for 28koz for Kal East open pit has not been taken into account in the above table.

Notes:

1. The preceding statements of Mineral Reserves conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'.
2. All tonnages reported are dry metric tonnes.
3. Data is rounded to thousands of tonnes and thousands of ounces gold. Discrepancies in totals may occur due to rounding.
4. Cut-off Grade:
   - Open Pit - The Ore Reserves are based upon an internal cut-off grade greater than or equal to the break-even cut-off grade.
   - Underground - The Ore Reserves are based upon an internal cut-off grade greater than the break-even cut-off grade.
5. The commodity price used for the Revenue calculations for Kal East was AUD $2,300 per ounce.
6. The commodity price used for the Revenue calculations for Paulsens was AUD $2,500 per ounce.
7. The Ore Reserves are based upon a State Royalty of 2.5% and a refining charge of 0.2%.

Notes:

1. The preceding statements of Mineral Resources conforms to the 'Australasian Code for Reporting of Exploration Results Mineral Resources and Ore Reserves (JORC Code) 2012 Edition'. All tonnages reported are dry metric tonnes.
2. All tonnages reported are dry metric tonnes.
3. Data is rounded to thousands of tonnes and thousands of ounces/tonnes for copper, antimony, silver, and lead. Discrepancies in totals may occur due to rounding.
4. Resources have been reported as both open pit and underground with varying cut-offs based off several factors discussed in the corresponding Table 1 which can be found with the original ASX announcements for each Resource.
5. Resources are reported inclusive of any Reserves.
6. Gold is reported in the previous table for Mt Clement, and so is not reported here. A total of 66koz of gold is contained within the Mt Clement Resource.
