

Noosa Mining Conference 2026

22 July 2026

BCI is transitioning to revenue

Salt is a critical mineral

feedstock for a diverse range of traditional and emerging industries

Growth opportunity

alternate minerals and surplus Port capacity

Strong cashflows

underpinned by first quartile cost to produce and low sustaining capex

Sustainable returns

60+ year asset life

Our Business

 Complete  In progress  Trial

Industrial Salt: Essential feedstock for mature, large and diverse end markets

Industrial Salt: Essential today, critical for tomorrow

The value chain link: Salt – Caustic Soda – Critical minerals

Structural growth tailwinds:

Energy transition and digitalisation are driving expansion in critical minerals, creating long-term pull through for caustic soda – and industrial salt

Positive Asian Salt Market Outlook

Roadmap to Revenue

Mardie Port

20.0mt

Annual Capacity

14.5mt

Annual surplus capacity

Sulphate of Potash (SOP)

Bringing a premium fertilizer to market

- ✓ Preliminary engineering complete for the pilot plant
- ✓ Trial KTMS ponds commissioned and operating at steady state
- ✓ FEED awarded to Bluestar
- ✓ FID to the Board for the pilot plant in August
- ✓ 15 months from FID to construction complete

Investment in Mardie underpinned by predictable and resilient cash flows

Facility maturity profile: \$m

BCI investment fundamentals

The world needs salt

- ✓ Broad range of uses
- ✓ Increasing demand
- ✓ High entry barriers

Mardie is sustainable

- ✓ Abundant natural resource
- ✓ 99% of energy from the sun and the wind
- ✓ Byproducts

Annuity style return profile

- ✓ Long life assets
- ✓ Fully funded
- ✓ Strong free cashflow profile
- ✓ Low sustaining capex

Important Notices

Not an Offer of Securities

This document has been prepared by BCI Minerals Limited ABN 21 120 646 924 (BCI). This document does not constitute or contain an offer, invitation solicitation or recommendation with respect to the purchase or sale of any security in BCI. This document is not a prospectus, product disclosure statement or other offering document under Australian law or any other law, and will not be lodged with the Australian Securities and Investments Commission.

Mardie Project information and material assumptions

The Mardie Salt and Potash Project (Mardie, Mardie Project or Project) aims to produce salt and SOP from a seawater resource, which is abundant, readily accessible and has a known and consistent chemical composition. The JORC Code does not apply to a project of this nature and accordingly JORC Ore Reserves and Mineral Resources are not reported.

The Mardie base case is based on material assumptions as outlined throughout the ASX announcement dated 1 February 2024 titled "Corporate Update and Equity Raising Presentation", including capital and operating cost estimates, production targets, forecast financial information, the availability of funding and the finalisation of tenure and approvals. BCI has concluded that all material assumptions set out in that presentation are based on reasonable grounds and there is a reasonable basis for making the forward-looking statements included in this announcement. However, there is no certainty that they will prove correct, or the outcomes will be achieved. BCI confirms that all material assumptions and technical parameters that underpin the production targets and forecast financial information in the 1 February 2024 announcement continue to apply (as applicable) and have not materially changed unless otherwise disclosed in this document.

This document contains information about BCI and the Mardie Project that is current as at the date of this document unless otherwise stated. The information in this document remains subject to change without notice.

The information in this document is general in nature and does not contain all the information which a prospective investor may require in evaluating a possible investment in BCI or that would be required in a prospectus or a product disclosure statement prepared in accordance with the Corporations Act or the securities laws of any other jurisdiction. It should be read solely in conjunction with the information provided to ASX.

For further information in relation to:

- BCI's feasibility study and subsequent optimisation results, please refer to BCI's ASX announcements "Feasibility Study Confirms World Class Opportunity" dated 1 July 2020 and "Mardie Optimisation Results: Increased Production and Improved Economics" dated 21 April 2021;
- the Final Investment Decision for the Mardie Project (FID), please refer to BCI's ASX announcement dated 21 October 2021 ("Mardie Project – Financial Investment Decision Made") for the FID announcement, and BCI's ASX announcement dated 18 November 2021 ("Presentation – \$360M Capital Raising to Drive Development") for further details of FID estimates and assumptions that are referred to in this document;
- the cost review of the Mardie Project and updated base case, please refer to BCI's ASX announcements dated 7 July 2022 ("Mardie Project Update") and 20 June 2023 ("Mardie Project and Base Case Update – Presentation and Presentation Script").
- the fully underwritten equity raise of \$315m, please refer to BCI's ASX announcement dated 1 February 2024 ("Corporate Update and Equity Raising Presentation").

No Liability

The information contained in this document has been prepared in good faith by BCI. However, no guarantee, representation or warranty expressed or implied is or will be made by any person (including BCI and its affiliates and their directors, officers, employees, associates, advisers and agents) as to the accuracy, reliability, correctness, completeness or adequacy of any statements, estimates, options, conclusions or other information contained in this document. To the maximum extent permitted by law, BCI and its affiliates and their directors, officers, employees, associates, advisers and agents each expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this document including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this document including, without limitation, any financial information, any estimates or projections and any other financial information derived therefrom. Statements in this document are made only as of the date of this document unless otherwise stated and the information in this document remains subject to change without notice. No responsibility or liability is assumed by BCI or any of its affiliates for updating any information in this document or to inform any recipient of any new or more accurate information or any errors or omissions of which BCI and any of its affiliates or advisers may become aware. In particular, BCI takes no responsibility for third party statements for which consent has been provided (see next page).

This presentation has been approved by the Managing Director of BCI Minerals Ltd.

Important Notices (continued)

No Financial data

All dollar values are in Australian dollars (A\$ or AUD) unless otherwise stated.

This document includes certain historical financial information extracted from BCI's audited consolidated financial statements and information released to ASX (collectively, the Historical Financial Information). The Historical Financial Information is presented in an abbreviated form insofar as it does not include all the presentation and disclosures, statements or comparative information as required by the Australian Accounting Standards (AAS) and other mandatory professional reporting requirements applicable to general purpose financial reports prepared in accordance with the Corporations Act.

Forward-Looking Statements

This document contains forward-looking statements regarding project development and operations, production rates, project life, projected cash flow, capital expenditure, operating costs and other economic performance and financial condition as well as general market outlook. These forward-looking statements are based on BCI's current expectations and beliefs concerning future events at the date of this announcement and are expressed in good faith. BCI believes that the expectations reflected in such forward-looking statements are reasonable. However, these expectations and forward-looking statements are only predictions and are subject to risks, uncertainties and other factors, a number of which are set out in Appendix B to the ASX release dated 1 February 2024 titled 'Corporate Update and Equity Raising Presentation', which could cause actual results to differ materially from future results expressed or implied by such forward-looking statements. Consequently, forward-looking statements should not be relied on as a guarantee of future performance. Other than as required by law, including the ASX Listing Rules, BCI does not undertake or assume any obligation to update or revise any forward-looking statement contained in this announcement or its attachments. Except for statutory liability which cannot be excluded, BCI, its officers, employees and advisors expressly disclaim any responsibility for the accuracy or completeness of the material contained in these forward-looking statements and excludes all liability (including in negligence) for any loss or damage which may be suffered by any person as a consequence of any information in forward-looking statements or any error or omission.

Risks

There are a number of potential known and unknown risks which may impact BCI's ability to develop and operate the Project in accordance with the forecast presented in this announcement, some of which are beyond the control of BCI. For further information please refer to slide slides 51 to 60 (inclusive) of the ASX release dated 1 February 2024 titled 'Corporate Update and Equity Raising Presentation', and the Directors Report in BCI's 2024 Annual Report and Financial Statements.

Consent

Wood Mackenzie (Australia) Pty Ltd ('Wood Mackenzie') has provided a report on the salt market to BCI (April 2026), from which information has been incorporated into this announcement including with respect to salt demand forecasts. Wood Mackenzie consents to the inclusion of this information in this announcement in the form and context in which it appears. The data and information provided by Wood Mackenzie should not be interpreted as advice and you should not rely on it for any purpose. You may not copy or use this data and information except as expressly permitted by Wood Mackenzie in writing. To the fullest extent permitted by law, Wood Mackenzie accepts no responsibility for your use of this data and information. Wood Mackenzie's report and/or any data or information may contain forward looking statements including statements regarding Wood Mackenzie's intent, belief or current expectations. Undue reliance should not be placed on these forward-looking statements. Wood Mackenzie does not undertake any obligation to release the result of any revisions to these forward-looking statements to reflect events or circumstances after the relevant date of the issuance of its report. While due care has been used in the preparation of forecast information, actual results may vary in a materially positive or negative manner. Forecasts and hypothetical examples are subject to uncertainty and contingencies outside Wood Mackenzie's control. Past performance is not a reliable indication of future performance.

First Crystalliser Filling

Crystalliser Progress

Brine in crystallisers

An aerial photograph showing a large industrial facility for brine processing. The facility consists of several large, rectangular crystalliser ponds. The ponds are arranged in a grid-like pattern, with some containing a thick, white, crystalline precipitate and others containing a clear, light blue liquid. The surrounding area is a flat, brown, arid landscape. In the bottom right corner, there are some small, dark, rectangular structures, possibly storage tanks or equipment.
