Update on FY26 Financial Performance

Australian technology and debt collection provider Credit Clear Limited (ASX: CCR) ("Credit Clear" or "the Company") provides an update on its unaudited financial results for the financial year ended 30 June 2026 (FY26).

Key Highlights:

- **Revenue growth of 28% to $60.0m. This exceeded the guidance range of $57m-59m[1] and highlights strong momentum in the business in the final quarter.**
- **Underlying EBITDA growth of 41% to $10.4m. This is at the upper end of the guidance range of $9.5m-10.5m and highlights the continuing efficiency gains and scale benefits across the business in the financial period.**

The financial results are attributed to both strong organic revenue and EBITDA growth and a sound and on-expectation debut contribution from the ARC Europe and DTS acquisitions completed in the second half of the financial period. The Company's investment in the UK debt collection market provides a further growth platform for the business.
