AGM Presentation

ASX:CML | NOVEMBER 2025

Disclaimer

This presentation has been prepared by Connected Minerals Limited (“CML”). The information contained in this presentation is a professional opinion only and is given in good faith. Certain information in this document has been derived from third parties and though CML has no reason to believe that it is not accurate, reliable or complete, it has not been independently audited or verified by CML.

Any forward-looking statements included in this document involve subjective judgment and analysis and are subject to uncertainties, risks and contingencies, many of which are outside the control of, and may be unknown to, CML. In particular, they speak only as of the date of this document, they assume the success of CML’s strategies, and they are subject to significant regulatory, business, competitive and economic uncertainties and risks. Actual future events may vary materially from the forward-looking statements and the assumptions on which the forward-looking statements are based. Recipients of this document (Recipients) are cautioned not to place undue reliance on such forward-looking statements. CML makes no representation or warranty as to the accuracy, reliability or completeness of information in this document and does not take responsibility for updating any information or correcting any error or omission which may become apparent after this document has been issued. To the extent permitted by law, CML and its officers, employees, related bodies corporate and agents (Agents) disclaim all liability, direct, indirect or consequential (and whether or not arising out of the negligence, default or lack of care of CML and/or any of its Agents) for any loss or damage suffered by a Recipient or other persons arising out of, or in connection with, any use or reliance on this presentation or information.

This presentation is not an offer, invitation, solicitation or recommendation with respect to the subscription for, purchase or sale of any security, and neither this presentation nor anything in it shall form the basis for any contract or commitment whatsoever.

Competent Persons Statement

The information in this announcement that relates to exploration results is based on and fairly represents information and supporting documentation, and has been reviewed and approved by Mr Herbert Roesener, a competent person who is a member of the South African Council for Natural Scientific Professions (SACNAP), a JORC Recognised Professional Organisation. Mr Roesener is a consultant to Connected Minerals Limited. Mr Roesener has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 edition of the JORC Code. Mr Roesener has provided his prior written consent as to the form and context in which the exploration results and the supporting information are presented in this announcement.

Year in Review

2025 Highlights

- **Successful Readmission to ASX as mineral explorer ASX: CML raising \$5.1m**
- **Multiple successful drilling programs carried out at standout asset Etango-North East, Namibia, adjacent to ASX: BMN world class Etango Uranium Project**
- **Results delivered in line with the first drilling results Bannerman reported from Etango Uranium Project in 2006¹**
- **Systematic assessment of portfolio of Namibian and Australian projects**
- **Seeking strategic acquisition to compliment existing African asset base**

Etango North-East Project, Namibia

- Granted EPL 6933 located in the western part of Namibia covering 30km²
- Proximate to advanced projects including:
 - Rossing² (246Mt @ 250ppm U₃O₈)
 - Husab³ (241Mt @ 480ppm U₃O₈)
 - Etango⁴ (416Mt @ 225ppm U₃O₈)
 - Langer Heinrich⁵ (140.1Mt @ 415ppm U₃O₈)
- Infrastructure, electricity, communication and water supply accessible
- Mineralisation at Etango North-East remains open at depth

Maiden Exploration Success

Phase 1 drilling delivered exceptional results⁶

- Geological similarities to BMN's world class Etango Uranium Project which boasts 429Mt @ 225ppm U_3O_8
- 14 of 15 holes delivered economic uranium grades

HOLE	RESULT
OPRC0008	5m @ 358 ppm eU_3O_8 from 88m
including	2m @ 643 ppm eU_3O_8 and 1m @ 814 ppm eU_3O_8 from 89m
OPRC0010	4m @ 230 ppm eU_3O_8 from 47m
including	2m @ 283 ppm eU_3O_8 and 1m @ 345 ppm eU_3O_8 from 47m
OPRC0003	3m @ 237 ppm eU_3O_8 from 122m
including	1m @ 302 ppm eU_3O_8
OPRC0006	3m @ 312 ppm eU_3O_8 from 68m
including	1m @ 340 ppm eU_3O_8
OPRC0015	3m @ 249 ppm eU_3O_8 from 129m
including	1m @ 319 ppm eU_3O_8

Phase 2 Continued Success

Strong economic grades continue in Phase 2⁷

- Grades from drilling in the western portion of Ondapanda outlined mineralisation requiring follow-up in future programmes
- 17 of 23 holes delivered economic uranium grades

HOLE	RESULT
OPRC0020	3m @ 265 ppm eU ₃ O ₈ from 34m
<i>including</i>	1m @ 435 ppm eU ₃ O ₈
OPRC0020	6m @ 295 ppm eU ₃ O ₈ from 42m
<i>including</i>	2m @ 485 ppm eU ₃ O ₈
OPRC0024	2m @ 467 ppm eU ₃ O ₈ from 14 m
<i>including</i>	1m @ 635 ppm eU ₃ O ₈
OPRC0035	4m @ 456 ppm eU ₃ O ₈ from 36m
<i>including</i>	1m @ 716 ppm eU ₃ O ₈
OPRC0016	8m @ 199 ppm eU ₃ O ₈ from 68m
<i>including</i>	4m @ 300 ppm eU ₃ O ₈ 1m @ 446 ppm eU ₃ O ₈

Future Drilling

- Phases 1 and 2 results to date demonstrate multiple, stacked and mineralised, Alaskites (leucogranite)
- CML views the Etango North-East geology follows the model of the world-class Etango Uranium Project
- Planning for next steps underway
- Mineralisation at Etango North-East remains open at depth and along strike

Pallingup Project, WA

- ~88km² prospective for REE and heavy minerals located in the Great Southern Region
- Expansion of Pallingup Project, now comprising:
 - Granted exploration licence (E70/6165) totalling 16 sub-blocks for ~45km²
 - Newly granted application exploration licence (E70/6731) totalling 15 blocks for ~43km²
- CML geologists interpreted up to two carbonatites which may have the potential to host REEs from aeromagnetic survey dataset
- Land access agreements currently being negotiated for the next field season to commence in Q1 2026
- Planning is underway for the upcoming aircore drilling programme, subject to successful land access agreements

Corporate Profile

Board of Directors

Adam Sierakowski | Non-Executive Chairman

A lawyer and founder of the firm Palisade Corporate (formerly Price Sierakowski), Adam is the founder and MD of corporate advisory firm, Trident Capital. Mr Sierakowski has held numerous board positions with ASX listed companies for over 20 years including many as chairman.

Warrick Clent | Managing Director

A geologist with over 30 years technical experience in the mining industry, having worked on greenfield through to advanced exploration projects, open cut and underground mines across the commodity spectrum. Warrick's career has seen him manage teams >100 people, manage social licence and heritage responsibilities and compliance reporting for companies operating in multiple countries and jurisdictions including Australia, Papua New Guinea and Indonesia.

Barend Morkel | Non-Executive Director

A Chartered Accountant having qualified with Ernst & Young South Africa, Barend has over 19 years of mining sector experience, gained in various senior positions held with Endeavour Mining group, Glencore, China General Nuclear Power Group, Vale, and Norilsk Nickel. Mr Morkel's mining experience in uranium included his role as a Senior Financial professional with Swakop Uranium during the greenfield project construction & commissioning of the \$2.5 billion Husab Mine, the world's largest Uranium only mine.

Corporate Overview

Corporate Structure

Shares on Issue	58,283,212
Options	17,000,000
Fully diluted share capital	75,283,212
Share price @ 18 Nov 2025	\$0.15
Market Cap @ 18 Nov 2025	\$8.7M
Cash @ 30 Sept 2025	\$3.4m

”

The Future Looks Bright

- **Australia**
 - Planning underway for the upcoming Pallingup aircore drilling programme Q1 2026, subject to successful land access agreements
- **Namibia**
 - 2026 field exploration programme currently being reviewed
- Continue to systematically assess existing portfolio based on exploration results
- Seeking strategic acquisition opportunities to compliment existing asset base
