8.6 If item 8.5 is less than 2 quarters, please provide answers to the following questions:

8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer:

Yes, however there are some important items to note.

The CONNEQT Pulse delivered sales growth of over 200% compared to the prior quarter, with the increase in cash receipts being over 100% (the difference due to revenue recognition policies – cash being received prior to the revenue being recognised). This revenue source (new in 2025), enhanced by the new sales model (Devices and subscriptions) initiated during the quarter is delivering increasing revenue and gross margin that is positively contributing to cash flow. Growth continues in the current quarter, a trend that is expected to continue on an ongoing basis.

Earlier in the year, CONNEQT Health had made substantial progress in its operational restructuring, successfully centralizing its engineering and development teams from the U.S. and other offshore locations to Sydney. This initiative, along with other ongoing efforts to optimize and streamline global operations, has reduced the company's cost base by approximately 30% compared to the prior year. Although not fully evident in this quarters cash flows due to continued repayment of historical trade creditors, the impact of the reduction is expected to continue to improve in future quarters.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer:

Yes. In December 2025, CONNEQT Health completed an Institutional Placement, raising \$3.1m (before costs), including C2V's participation of \$1.2m (with \$1m advanced in the quarter).

During the quarter, CONNEQT Health received their 2025 R&D Tax Incentive Refund of \$1.63m. The refund was partially used to repay the R&D loan facility in full, and the Company is currently in discussions regarding further R&D and inventory financing facilities of a range of \$1.5-2.5m, which are expected to be in place in the March 2026 quarter.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer:

Yes. The Directors believe that if required, the Company has the ability to raise additional capital on a timely basis and has a proven capability of doing so.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
