Quarterly Activities Report For the quarter ended 30 September 2025

Highlights

-  Placement completed raising \$2.14 million (before issue costs)
-  Funds to be applied towards near-mine resource development drilling at the Crawford Gold Project to fast track potential future mine stages
-  5,000m drill program was commenced at the Crawford Gold Project
-  The drill program is planned to target extensional zones beyond the Stage 1 starter pit

Daniel Tuffin, Executive Technical Director and CEO, commented:

“The start of extensional drilling at Crawford marked the next phase in unlocking the Project’s growth potential. With Stage 1 set to deliver strong early cash flow, the Company’s focus for the quarter shifted to expanding the resource base to underpin future mine stages.

The strong support for the \$2.14 million placement highlighted confidence in our strategy and the quality of our gold assets as the Company continues to advance toward production.”

Cavalier Resources Limited (ASX: CVR) (**‘Cavalier’** or **‘the Company’**) is pleased to report on its activities for the three months ended 30 September 2025.

Corporate:

Placement

In early September the Company conducted a share placement with sophisticated and professional investors to raise a total of \$2.14 million (before issue costs) at \$0.23 per new fully paid ordinary share.

The funds raised under the Placement were to be principally used for:

-  Resource development and extensional drilling at the Crawford Gold Project
-  Pre-mine development expenditure
-  General working capital

The Placement was conducted using the entire available equity issue capacities under LR 7.1 and 7.1A at a 11.9% discount to the 15-day VWAP.

The issue price represented a 14.8% discount to the last closing price on 2 September 2025 of \$0.270, a 10.1% discount to the 5-day VWAP of \$0.256 and a 11.9% discount to the 15-day VWAP of \$0.261.

Sanlam Private Wealth Pty Ltd (**“Sanlam”**) acted as Lead Manager to the Placement.

Sanlam received a 6% fee on the funds raised and will also receive 1 broker option for every 5 shares issued under the Placement, exercisable at 50 cents per option with a 2-year expiry date (subject to shareholder approval at the AGM).

For further information, please see the ASX announcement on 5 September 2025.

Crawford Gold Project:

Commencement of Extensional and Near-Mine Development Drilling

Following the receipt of funds from the Placement, the Company commenced a 5,000m drill program at the Crawford Gold Project.

The program targeted extensional zones beyond the Stage 1 starter pit, aiming to grow the Mineral Resource and support planning for future open pit mine stages.

The commencement of extensional drilling at Crawford represented a key step in unlocking the full potential of the greater Crawford project area.

The Stage 1 starter pit is planned to deliver strong early performance, with first gold poured within three months of production and generating gross revenue of A\$103.6 million at a gold price of AUD\$4,600/oz.

Mining of the starter pit is completed within fourteen months of production commencing, making it critical to get a head start on extensional drilling to expand the resource base and support planning for potential future stages or cutbacks.

The program's focus was near-mine resource development along strike and at depth, while also aiming to extend the northern oxide corridor up to the Miranda hard rock target.

For further information, please refer to the ASX announcement on 24 September 2025.

Cautionary Statement:

The production target and forecast financial information referred to in this announcement comprise Indicated Mineral Resources (99.8%) and Inferred Mineral Resources (0.2%) within the planned Stage 1 starter pit at the Crawford Gold Project. There is a low-level of geological confidence associated with Inferred mineral resources and there is no certainty that further exploration work will result in the determination of Indicated mineral resources or that the production target itself will be realised.

About the Crawford Gold Project:

Revised Pre-Feasibility Study

The Company completed a revised Pre-Feasibility Study (**PFS**) in April 2025, incorporating higher gold prices and updating the mining and heap leach capital cost estimates. The physical pit design of Stage 1 and the subsequent Ore Reserve estimate remained unchanged for the purposes of the update.

The key outputs of the revised PFS are set out in Table 1 below and include a range of comparisons based on various gold prices.

Note: Values in the table account for all existing royalties (state and NSR's) at their relative gold price, but exclude tax, depreciation and amortisation. Some errors may occur due to rounding.

The key updates to the revised PFS were:

- 📄 Optimisation parameters and pit design remain unchanged
- 📄 Gold price of A\$4,600 per ounce applied to financials
- 📄 Total capital costs of A\$9.8M, consisting of:
 - A\$1.2M site clearing and establishment,

- 📄 NPV₈ of A\$51.7M
- 📄 IRR of 580%

For further information on the Revised PFS, including the sensitivity analysis on the gold price, please refer to the ASX announcement on 1 April 2025.

Crawford Ore Reserve

The Ore Reserve relates specifically to the conversion of Indicated Resources to Probable Ore Reserves only within the Crawford Stage 1 pit design and includes consideration of the modifying factors.

Table 2: Crawford Ore Reserve

Reserve Classification	Ore Tonnes	Gold (g/t)	Gold Produced (Oz)
Probable	1,002kt	0.91	29,300
Total	1,002kt	0.91	29,300

Some errors may occur due to rounding. Mineral Resources are reported inclusive of Ore Reserves. Ore Reserves are based on a gold price of \$2,900/oz. A cut-off grade of 0.3g/t was calculated based on the base case cost and processing recovery inputs and was used to generate the production schedule and calculate the Ore Reserve. Note that Ore Reserves are susceptible to geological, economic, geotechnical, permitting, metallurgical, mining, processing and other factors.

For more information on the Ore Reserve, please refer to the ASX announcement on 14 March 2024.
