

ASX Announcement
24 April 2026

MARCH 2026 QUARTERLY REPORT

Barlee Project – Gold

- First drilling program ever at the Barlee Gold Project commenced.
- Program consists of approximately 4,000m of aircore and 1,500m of RC drilling.
- Drilling is testing numerous large-scale, high amplitude “gold in soil” anomalies.
 - Sheared mafic and felsic lithologies intersected in initial holes.

Boodanoo Project – Gold

- The Boodanoo Project RC drill program was completed with 800m of drilling over twelve holes.
- Samples have been submitted for assaying.

Corporate

- Mr Richard Bevan appointed as non-executive director following the resignation of Mr Heath Hellewell.
 - **Cash and shareholdings at 31 March 2026 of \$10.8M** comprised of cash of \$8.8M and shareholdings of \$2.0M.
-

Barlee Project (Gold)

During the quarter **Duketon Mining Limited (Company or DKM)** commenced drilling at the Barlee Project located 230 km’s north of Southern Cross (Figure 1). The current program is testing six high-priority prospects identified from the Company’s 2025 geochemical sampling program (see Figure 2 and ASX Announcements 8 October 2025 and 26 March 2026), including:

- Astro Prospect - the highest priority target, defined by a 1,800m x 800m gold anomaly (open along strike and under cover), with a maximum value of 204ppb Au
- Scooby Prospect - 900m x 450m anomaly with maximum gold of 57ppb
- Tiger Prospect - 1,200m x 700m anomaly with maximum gold of 230ppb
- Gromit Prospect - 1,000m x 450m anomaly, with a maximum gold of 235ppb (highest value recorded in the program)
- Odie Prospect - a 350m x 250m anomaly with a maximum gold of 37ppb. The anomaly remains open to the north and south and is associated with sedimentary siliceous rocks, including banded iron formation (BIF).
- Lost Bolt Prospect - a 1,700m x 1,000m anomaly with a maximum gold of 211ppb Au. Previous drilling has been undertaken at this prospect; however, the current program will focus on the western margin within the Diemals Formation, adjacent to the Clampton Fault where there is no historical drilling.

The Astro, Scooby, Tiger, Gromit and Lost Bolt Prospects are located within the Archean Diemals Formation of the Marda–Diemals Greenstone Belt and are situated proximal to the domain bounding Clampton Fault. The Diemals Formation is a late basin comprising clastic metasedimentary rocks approximately 40km long and 15km wide. Odie is located in the more mafic dominate Marda Complex of the same greenstone belt.

During the quarter the Company commissioned an infill aeromagnetic survey in the central area of the Barlee Project. This area had not been flown with high detailed aeromagnetics. At quarter end, the final processing of this data had not been received by the Company. It is expected results of this survey will assist refining the structural interpretation of this area.

Figure 1: Barlee Project Location

Figure 2: DKM UFF soil coverage and Prospects over regional airborne magnetics, Barlee Project

Boodanoo Project (Gold)

During the quarter the Company completed a reverse circulation (RC) drill program at the Boodanoo Gold Project. The project is located approximately 80km's north-east of Paynes Find and approximately 40km east of Kirkalocka Gold Project (Gylden Resources, see Figure 3). Twelve holes were drilled for approximately 800 metres.

Drilling tested beneath the highest-grade Au anomalies identified in soil sampling (see ASX Announcement 26 November 2025 and Figure 4). The +10ppb Au contour of these anomalies are more than 650m in strike with widths of up to 190m and located to the immediate west and east of a small hill of outcropping gabbro. Anomalous results can be mapped over approximately 2km of strike.

Figure 3: Boodanoo Project Location

Figure 4: Boodanoo Project soil sample results and interpreted gold anomaly

Duketon Project (Nickel)

In addition to the active gold projects, Duketon maintains the Duketon Nickel Project, located 130km north of Laverton (WA). The current Mineral Resources are detailed below.

Rosie – Mineral Resource Estimate

The Indicated and Inferred Mineral Resource Estimate (**MRE**) for Rosie of **2.77 million tonnes at 3.27% nickel equivalent** is reported in accordance with the 2012 JORC Code (Table 1 and Table 2). The resource estimate is reported at >1% NiEq. Over **72% of the Resource has been classified as Indicated** with the remainder in the Inferred Category (Table 1 and Table 2). Mineralisation remains open in all directions.

The Mineral Resource contained metal stands at **56,300 tonnes of nickel, 11,800 tonnes of copper, 1,610 tonnes of cobalt and over 229,000 oz of total PGEs** (Table 3).

Figure 5: Plan of The Bulge Complex

Resource Category	Tonnes (kt)	Ni%	NiEq_ %
Indicated	2,012	2.11	3.35
Inferred	761	1.81	3.06
TOTAL	2,773	2.03	3.27

Table 1: Rosie Mineral Resource Statement (February 2022) >1.0% NiEq

Rosie Nickel Resource >1% NiEq							
Classification	Sulphide	Tonnes	Ni (%)	Cu (%)	Co (ppm)	Total PGEs (g/t)	NiEq %
Indicated	Pentlandite	1,191,555	2.4	0.42	642	2.7	3.76
	Violarite	820,999	1.7	0.39	504	2.5	2.75
	Sub-Total	2,012,553	2.1	0.41	585	2.6	3.35
Inferred	Pentlandite	694,751	1.8	0.48	580	2.5	3.13
	Violarite	66,179	1.5	0.42	442	1.7	2.36
	Sub-Total	760,930	1.8	0.48	568	2.4	3.06
Total	All	2,773,483	2.0	0.43	580	2.6	3.27

Table 2: Rosie Mineral Resource Grade

Note: For Tables 1 and 2.

- (1) Assumptions for the nickel equivalent are: Prices (in USD) \$8.00/lb Ni, \$3.65/lb Cu, \$15.30/lb Co, \$1,100/oz Pt, \$2,300/oz Pd and \$15,500/oz Rh.
- (2) Recovery assumptions from metallurgical test work are: Pentlandite domain 96.9% Ni, 99.5% Cu, 95.1% Co, 78.2% Pt, 97.6% Pd and 83.4% Rh. Violarite domain 88.7% Ni, 94.5% Cu, 88.5% Co, 57.6% Pt, 87.3% Pd and 64.8% Rh.
- (3) The following equations were used to calculate nickel equivalent – Cu and Co measured in ppm and PGEs measured in ppb – all converted to percentages for NiEq calculation:
 - a. Pentlandite domain: $NiEq = Ni\% + (Cu\% * 0.995 * (3.65/8)) + (Co\% * 0.951 * (15.3/8)) + (Pt\% * 0.782 * (1100 * 14.583/8)) + (Pd\% * 0.976 * (2300 * 14.583/8)) + (Rh\% * 0.834 * (15500 * 14.583/8))$.
 - b. Violarite domain: $NiEq = Ni\% + (Cu\% * 0.945 * (3.65/8)) + (Co\% * 0.885 * (15.3/8)) + (Pt\% * 0.576 * (1100 * 14.583/8)) + (Pd\% * 0.873 * (2300 * 14.583/8)) + (Rh\% * 0.648 * (15500 * 14.583/8))$
where 14.583 is the amount of troy ounces per pound.

Classification	Ore Type	Contained Metal			
		Ni (t)	Cu (t)	Co (t)	Total PGEs (oz)
Indicated	Pentlandite	28,524	4,978	764	104,868
	Violarite	13,966	3,230	414	64,869
	Sub-Total	42,490	8,208	1,178	169,737
Inferred	Pentlandite	12,786	3,337	403	55,740
	Violarite	987	279	29	3,551
	Sub-Total	13,774	3,616	432	59,291
	Total	56,264	11,824	1,610	229,028

Table 3: Rosie Mineral Resource Contained Metal

The resource includes a reportable nickel equivalent number based on metallurgical work completed to determine recoveries (see ASX announcements 8 July 2020 and 10 July 2020). It is the opinion of DKM that all the elements included in the metal equivalents calculation have a reasonable potential to be recovered and sold.

C2 – Mineral Resource Estimate

The Indicated and Inferred Mineral Resource Estimate for C2 is **8.06 million tonnes at 0.57% nickel** and is reported in accordance with the 2012 JORC Code. The resource estimate is reported at >0.4% Ni grade. Over **99% of the Resource is classified as Indicated** (Table 4). Mineralisation remains open in all directions (see ASX Announcement 12 December 2022).

The Mineral Resource contained metal stands at **46,263 tonnes of nickel, 2,339 tonnes of copper, 1,505 tonnes of cobalt and 25,684 oz of total PGEs** (Table 5).

C2 Nickel Resource >0.4%Ni						
Classification	Tonnes	Ni (%)	Cu (%)	Pd (ppb)	Pt (ppb)	S (%)
Indicated	7,955,751	0.57	0.03	56.7	42.8	1.7
Inferred	107,790	0.44	0.01	34.7	31.4	0.5
Total	8,063,541	0.57	0.03	56.5	42.7	1.7

Table 4: C2 Nickel Resource > 0.4% Ni with Auxiliary Attributes

Classification	Ni tonnes	Cu tonnes	Co tonnes	PGE oz
Indicated	45,790	2,325	1,490	25,455
Inferred	474	15	14	229
Total	46,263	2,339	1,505	25,684

Table 5: C2 Mineral Resource Contained Metal

Combined Rosie and C2 Resources

The total JORC compliant nickel resource for the Bulge Complex (Rosie and C2) now stands at **102,527 tonnes of nickel, 14,163 tonnes of copper and 254,712 ounces of PGEs** (Table 6).

Combined Metal Inventory, The Bulge Area			
Deposit	Ni tonnes	Cu tonnes	PGE oz
Rosie	56,264	11,824	229,028
C2	46,263	2,339	25,684
TOTAL	102,527	14,163	254,712

Table 6: Combined Metal Inventory, The Bulge Complex

Regional

Figure 6: Duketon Project Locations

Ongoing Strategy

The Company remains well positioned to drive value from three approaches:

1. Exploration opportunities on current tenure - assessing early-stage exploration opportunities across all projects looking at all commodities;
2. Acquiring new tenure – via opportunistic applications or by simple/low-cost commercial means; and
3. Expand/Study Nickel Resources - review mining study and target extensions to Rosie and C2 and the greater area for Ni-Cu-PGE's.

Corporate

At 31 March 2026, the Company had a cash and liquids balance of **A\$10.8M** comprised of cash of **A\$8.8M** and shareholdings of **A\$2.0M**.

During the quarter Mr Heath Hellewell resigned from his role as Non-Executive Director and Mr Richard Bevan was appointed to the Board to succeed Mr Hellewell. Mr Bevan is an experienced Managing Director/CEO/Chairperson and Non-Executive Director for listed and unlisted companies.

Mr Bevan was the founding Managing Director of Cassini Resources Limited and was a non-executive director of Cannon Resources Limited. Mr Bevan is currently Non-Executive Chairperson of Narryer Metals Ltd, Killi Resources Limited and TG Metals Limited.

ASX Additional Information

Exploration and evaluation expenditure during the quarter was \$305,000 associated with geological consultants, field related activities, and tenement compliance costs. Details of exploration activity during the quarter are set out in this report. There were no substantive mining production and development activities during the quarter. During the quarter, the Company made cash payments of \$109,000 to related parties and their associates. This was the aggregate amount paid to the directors including salary, directors' fees, consulting fees and superannuation.

The information in the announcement that relates to production targets or financial information derived from a production target is extracted from the ASX announcement 28 April 2021 for the Rosie Scoping Study and is available to view on the Company's website (www.duketonmining.com.au). The company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement and that all material assumptions underpinning the production target or the financial information derived from the production target in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in the announcement that relates to Mineral Resources for Rosie is extracted from the ASX announcement 10 March 2022 and is available to view on the Company's website (www.duketonmining.com.au). The information in the announcement that relates to Mineral Resources for C2 is extracted from ASX announcement 12 December 2023. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that relates to exploration results is based on information compiled by Ms Kirsty Culver, Member of the Australian Institute of Geoscientists (AIG) and an employee of Duketon Mining Limited. Ms Culver has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity that is being undertaken to qualify as a competent person as defined in the JORC Code 2012. Ms Culver consents to the inclusion in the report of the matters based on the information in the form and context in which it appears.

The information in this report that references previously reported exploration results is extracted from the Company's ASX market announcements released on the date noted in the body of the text where that reference appears. The previous market announcements are available to view on the Company's website or on the ASX website (www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Appendix 1: Summary of Mining Tenements

At 31 March 2026 the Company had an interest in the following tenements:

Tenement number	Project	State	Status	Interest at beginning of quarter	Interest at end of quarter	Acquired/Disposed
E28/3553	Eucla	WA	Application	100%	100%	N/A
E38/1997	Mt Mabel	WA	Granted	100% Ni (note 1)	100% Ni (note 1)	N/A
E38/2666	Duketon	WA	Granted	100% Ni (note 1)	100% Ni (note 1)	N/A
E38/2805	Duketon	WA	Granted	100% Ni (note 1)	100% Ni (note 1)	N/A

7.4	Total financing facilities	-	-
7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	N/A		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(390)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	-
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(390)
8.4	Cash and cash equivalents at quarter end (item 4.6)	8,773
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	8,773
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	22.5
	<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>	
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: N/A	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: N/A	
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer: N/A	
	<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>	

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 24 April 2026

'Signed electronically'

Authorised by: John Ribbons, Company Secretary
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
6. By the Company lodging this Appendix 5B, the Managing Director and CFO declare that the Appendix 5B for the relevant quarter:
 - presents a true and fair view, in all material respects, of the cashflows of the Company for the relevant quarter and is in accordance with relevant accounting standards;
 - the statement given above is founded on a sound system of risk management and internal compliance and control which implements the policies adopted by the Board; and
