

Dome Gold Mines Ltd

and its controlled entities

The Group's Corporate Governance Statement is current and was approved by the Board on 30 September 2025. The Corporate Governance Statement is available on the Company's website at www.domegoldmines.com.au.

This statement outlines the main Corporate Governance practices that were in place throughout the financial year, which comply with the Australian Stock Exchange ('ASX') Corporate Governance Principles and Recommendations 4th Edition ('Recommendations'), unless otherwise stated.

Corporate Governance Statement

The Board of Directors is committed to maintaining the highest standards of Corporate Governance. Corporate Governance is about having a set of core values and behaviours that underpin the Group's activities and ensure transparency, fair dealing and protection of the interests of stakeholders.

The Board of Directors supports the Principles of Good Corporate Governance and Best Practice Recommendations developed by the ASX Corporate Governance Council ('Council'). Whilst the Group's practices are largely consistent with the Council's guidelines, the Board considers that the implementation of some recommendations are not appropriate having regard to the nature and scale of the Group's activities and size of the Board. The Board uses its best endeavours to ensure exceptions to the Council's guidelines do not have a negative impact on the Group and the best interests of shareholders as a whole. When the Group is not able to implement one of the Council's recommendations, the Group applies the 'if not, why not' explanation approach by applying practices in accordance with the spirit of the relevant principle.

The following discussion outlines the ASX Corporate Governance Council's eight principles and associated recommendations 9.1 through 9.3 and the extent to which the Company complies with those recommendations.

Details of all of the Council's recommendations can be found on the ASX website at <http://www.asx.com.au>.

Principle 1 – Lay solid foundations for management and oversight

Board roles and responsibilities

The Board is responsible for, and has the authority to determine, all matters relating to the policies, practices, management and operations of the Group. The Board is also responsible for the overall corporate governance and management oversight of the Group and recognises the need for the highest standards of behaviour and accountability in acting in the best interests of the Group as a whole.

The Board also ensures that the Group complies with all of its contractual, statutory and any other legal or regulatory obligations. The Board has the final responsibility for the successful operations of the Group.

Where the Board considers that particular expertise or information is required, and which is not available from within their members, appropriate external advice may be taken and reviewed prior to a final decision being made by the Board.

Without intending to limit the general role of the Board, the principal functions and responsibilities of the Board include the following:

- formulation and approval of the strategic direction, objectives and goals of the Group;
- the prudential control of the Group's finances and operations and monitoring the financial performance and approving budgets and major expenditures of the Group;
- the resourcing, review and monitoring of executive management;
- ensuring that adequate internal control systems and procedures exist and that compliance with these systems and procedures is maintained;
- the identification of significant business risks and ensuring that such risks are adequately managed;
- the timeliness, accuracy and effectiveness of communications and reporting to shareholders and the market;
- the establishment and maintenance of appropriate ethical standards;
- overseeing the integrity of the accounting and corporate reporting systems and the external audit process;
- approving the Group's remuneration framework; and
- monitoring the effectiveness of corporate governance practices.

Dome management is responsible for providing the Board with accurate and relevant information in a timely manner to assist the Board in developing appropriate policies and decision making.

Although the Board has not established a Board Charter, the Company has followed Recommendation 1.1 by establishing the functions reserved to the Board and those delegated to senior executives as disclosed above.

Appointment as a Director

The Company has followed Recommendation 1.2 by ensuring that the Directors who will come before shareholders for re-election at the Company's Annual General Meeting are suitable for the Group and equipped with the knowledge and information to discharge their roles adequately. In addition, the Company ensures that all relevant information that it possesses is disclosed in the notice of meeting to enable shareholders to make a decision on whether or not to elect or re-elect a Director. The Board ensures that appropriate checks are undertaken on a person before appointing that person to the Board. The Company confirmed that it has conducted appropriate checks of a candidate background and experience before its appointment.

The Company has followed Recommendation 1.3 by having a written agreement with each Director and senior executive setting out the terms of their appointment.

Company Secretary

The Company has followed Recommendation 1.4 by ensuring that the Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper function of the Board.

Diversity policy

The Company's Board does take into account the gender, age, ethnicity, and cultural background of potential Board members, Company executives and employees. However, given the small size of the Group, a formal diversity policy has not been established and therefore, Recommendation 1.5 has not been followed. The Company advises that as at the date of this report, 50% of the Company's employees are females. The Company has two male directors and one female director. The Company has a well diversified Board and workforce and, consequently, no specific diversity objectives have been set.

Board performance review and evaluation

The Board is responsible for the evaluation of its performance and the performance of individual Directors. This evaluation shall involve evaluating the performance of each Director against appropriate measures (including if warranted by considering the use of external advisers to conduct this performance review). The Board must also set out its future goals and objectives. The performance evaluation shall be conducted in such manner as the Board deems appropriate.

The review of the Board's performance also addresses the ability of Directors to access continuing education to update and enhance their skills and knowledge as they relate to the Company's strategy and objectives.

The Chairman monitors the performance of the Board, individual Directors and committees, and speaks to Directors individually regarding their role as a Director. In doing so, the Company has followed Recommendation 1.6.

Senior executives' performance review and evaluation

Having regard to the size of the Group and the small number of employees, other than the Directors, the Company does not have a formal process to evaluate the performance of its senior executives. However, the Chairman monitors the performance of the CEO, if one is in office, on an ongoing basis and speaks to the executive individually regarding their roles. In doing so, the Company has followed Recommendation 1.7.

Principle 2 – Structure the Board to add value

The Board has been formed so that it has effective composition, size and commitment to adequately discharge its responsibilities and duties given the Group's current size, scale and nature of its activities.

Nomination committee

The Board has not formally established a nomination committee as the Directors consider that the Company is not of a size nor are its affairs of such complexity as to justify the formation of a nomination committee. The Board considers that it is able to deal efficiently and effectively with Board composition and succession issues without establishing a separate nomination committee. The Company will review this position annually and determine whether a nomination committee should be established, however, in accordance with Recommendation 2.1, the full Board has the responsibility for and performs the functions of a Nomination Committee.

Having regard to the current membership of the Board and the size and scope of operations of the Group, the Board has suspended the Audit Committee and the functions of the Audit Committee are instead performed by the entire Board. The Board has not followed recommendation 4.1

CEO and CFO declarations

The Company has followed Recommendation 4.2. The Board has required that the CEO or if no CEO, a Director of the Company and the CFO make the CEO and CFO declarations as required under section 295A of the *Corporations Act* before it approves the Company's financial statements for a financial period.
