

Counter-Drone Solutions

AI-Powered, Field-Proven, Deployed Globally

Presentation to Canaccord Genuity Growth Conference

August 2026

Important Notices and Disclaimer

This presentation has been prepared by DroneShield Limited ACN 608 915 859 ("**DroneShield**" or "**Company**"). This presentation contains summary information about DroneShield and its associated entities, and their activities current as at the date of this presentation. The information contained in this presentation is for information purposes only and is provided as at the date of this presentation (unless otherwise stated). It should be read in conjunction with DroneShield's most recent financial report and other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange ("**ASX**"), which are available at www.asx.com.au under the Company's ticker code (ASX:DRO). Unless stated otherwise, all references are to a financial year ("**FY**") ended 31 December and all currency amounts are in Australian dollars (\$). Due to rounding, numbers in this presentation may not add up precisely to the totals provided and percentages may not precisely reflect the absolute figures.

Not an offer

This presentation is for information purposes only and does not constitute or form any part of any offer or invitation to sell or issue, or any solicitation of any offer to purchase or subscribe for, any securities in the Company in any jurisdiction. This presentation and its contents must not be distributed, transmitted or viewed by any person in any jurisdiction where the distribution, transmission or viewing of this document would be unlawful under the securities or other laws of that or any other jurisdiction.

Not investment advice

This presentation is for information purposes and does not constitute investment or financial product advice (nor taxation, accounting, or legal advice), is not a recommendation to acquire or dispose of DroneShield's shares or other securities and is not intended to be used or relied upon as the basis for making an investment decision. In preparing and providing this presentation, the Company has not considered the investment objectives, financial position or needs of any particular recipients.

Future performance

This presentation may contain forward-looking statements. Forward-looking statements can generally be identified by the use of words such as, "expect", "anticipate", "likely", "intend", "should", "could", "may", "predict", "plan", "propose", "will", "believe", "forecast", "estimate", "target" and other similar expressions. Indications of, and guidance or outlook on, plans, strategies, management objectives, sales and financial performance are also forward-looking statements. Forward-looking statements involve inherent risks and uncertainties, both general and specific, many of which are outside the control of DroneShield. No representation is made or will be made that any forward-looking statements will be achieved or will prove to be correct. As such, undue reliance should not be placed on any forward-looking statement. Forward-looking statements are based on information available to DroneShield as at the date of this presentation. Circumstances may change and DroneShield assumes no obligation to update such statements.

Past performance

Past performance information (including past share price performance of DroneShield and historical financial information) included in this presentation is given for illustrative purposes only and is not a guarantee of, and is not necessarily a guide to, future performance. Information in this presentation includes Non-IFRS measures as we believe they provide useful information to assist in understanding the Company's financial performance. Such financial measures do not have a standardised meaning and should not be viewed in isolation or considered as substitutes for measures reported in accordance with IFRS. These measures have not been independently audited or reviewed.

Disclaimer

No representation or warranty, express or implied, is made as to the accuracy, reliability, completeness or fairness of the information, opinions and conclusions contained in this presentation. DroneShield does not represent or warrant that this presentation is complete, free from errors, omissions, or misrepresentations or that it contains all material information about DroneShield or which a prospective investor or purchaser may require in evaluating a possible investment in DroneShield or an acquisition or other dealing in shares. This presentation may contain information from third parties believed to be reliable, but no representations or warranties are made as to the accuracy or completeness of such information.

To the maximum extent permitted by law, DroneShield expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any direct, indirect, consequential or contingent loss or damage arising from the use of information contained in this presentation including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions or matters, express or implied, contained in, arising out of or derived from, or for omissions from, this presentation including, without limitation, any financial information, any estimates or projections and any other financial information derived therefrom.

Statements made in this presentation are made only at the date of the presentation. DroneShield is under no obligation to update this presentation. The information in this presentation remains subject to change by DroneShield without notice to you.

Acceptance

By attending an investor presentation or briefing, or accepting, accessing, or reviewing this presentation, you acknowledge and agree to the terms set out in this 'Important Notices and Disclaimer'.

The World Has a Drone Problem. We Solve It

Our Position

- DroneShield is the global leader in counter-drone technology
- Representation in 70+ countries: Tier 1 militaries, government agencies, law enforcement, and critical infrastructure operators
- Deployed across conflict zones, airports, prisons, utilities, public safety operations, and major events

Our Mission

Lead the world in reliable, operationally effective, and scalable counter-drone solutions. Protecting the people, places, and assets that matter.

Our Approach

Integrated detection, identification, and defeat. Multi-technology sensing, AI-driven classification, electronic warfare, delivered in multi-mission platforms.

Our Edge

Thousands of deployments. A decade of operational experience. Unique, real-world threat datasets built from global environments. Operationally proven platforms refined against real adversaries. A lead that compounds every year.

Multi-Layered Counter-UxS Ecosystem

C-UxS is not a product. It's a system designed around the end-user, the area of operation, and the threat
"There is no silver bullet to protect against drones"*

DroneShield Solutions	LAYER 1	RF Detect & Defeat DroneShield Flagship Sensors & Effectors		Next-generation product launches commence 3Q 2026 through 2027
	LAYER 2	DroneSentry-C2 / C2 Enterprise DroneShield Software Ecosystem		
DroneShield & Partner Solutions	LAYER 3	Core Extensions Radars / Optical Sensors / Specific Accessories & Kits		
	LAYER 4	Situational Extensions Cyber / Acoustic / Seismic / Passive Radar / Kinetic Interceptor / Cellular / Satcomm / USV/UGV		
	LAYER 5	Soft Kill & Non-Kinetic Effectors High Power Microwave / Laser		
Not Offered	LAYER 6	Hard Kill & Kinetic Effectors Remote Weapons Stations / Explosive Interceptor / C-UAS Missile		

Hardware Wins the Deal. Software Compounds the Value

Enterprise
Architecture

Command-and-
Control (C2)

- C2 offers automated situational awareness, monitoring and threat response with real-time alerts, analytics and reporting operating system
- Recurring revenue is building via quarterly software updates*, services and support

DroneSentry-C2 Enterprise

DroneSentry-C2 (Cloud / On-Prem)

Every deployed sensor becomes more valuable when connected through DroneSentry-C2, increasing platform stickiness and customer retention

Deployment
Scenarios

- ~5,800 units deployed
- ~4,000 software enabled units* with updates via DroneShield's Access Portal

Dismounted

On-the-Move

RfAI-3: The Shift From Recognition to Intelligence

Deploys adaptive AI for next-generation sensing, beyond the signatures of existing RF libraries

- DroneShield's RF detection capabilities have long provided industry-leading identification of known drone technologies
- As drone threats continue to evolve, operators increasingly face RF activity they have never encountered before
- Using advanced artificial intelligence, RfAI-3 analyses the physical characteristics of RF transmissions to generate intelligent classifications of both known and previously unseen drone activity
- RfAI-3 is a significant evolution in counter-drone doctrine, with ultra-broadband detection which:
 - Provides operators with deeper RF intelligence
 - Reduces uncertainty when confronting unfamiliar signals
 - Enables faster, more confident operational decisions in rapidly changing spectrum environments
- Specifically designed for DroneShield's next-generation hardware platforms being introduced in 2026 and 2027

RfRecon: The First of the Next-Generation

Powered by RfAI-3, RfRecon is the beginning of a new generation of adaptive AI for RF sensing

Principles

- Combines RF sensing with adaptive AI capable of recognising both known and previously unseen drone signals in real time
- AI is now integral to detection, classification and situational awareness, creating a foundation for future AI-enabled counter-drone capabilities
- Rather than relying solely on predefined signal libraries, the system continuously adapts as the RF environment evolves

Features

- Ultra-wideband RF awareness
- Known and previously unseen signal detection
- Precision direction finding
- Versatile mission-sets: dismounted, vehicle mounted, fixed site

Illustrative Growth in Military End-User

DroneShield's consistency with proven solutions ultimately results in strong growth with its end-users, and a leading reputation in the market

Case Study

- Long-standing partnership with a distributor to provide solutions to a leading Western European military end-user
- In-field usage, long-term efficacy, and product innovation translates to an acceleration in engagement, with an increasing pace in repeat and expanding orders
- The Ukraine conflict commenced in Year 4, creating significant awareness and demand for C-UAS, noting that this end-user is not involved in this conflict
- The velocity and ramp-up with newer end-users has accelerated, meaning larger orders are secured at a fast rate
- Over time, order product mix expands with more scope for layered-solutions and wider network coverage

Cumulative Order Value of Western European Military End-User

Mission Critical Need for Counter-Drone Solutions

Segments are significant, with each supported by multi-channel tailored **Go-To-Market Strategy**

MILITARY & GOVERNMENT (US\$35B TAM)

Special Forces

Army

Air Force

Navy

Federal Agencies

Law Enforcement

- High urgency for C-UxS solutions
- Federal or central government funded
- Longer, complex tender processes
- Larger, long-term programs

LOCAL & COMMERCIAL (US\$28B TAM)

Transportation

Public Safety

Critical Infrastructure

Commercial

Specialist Situations

- Quickly developing C-UxS market
- Local or commercially funded
- Faster procurement process
- Smaller, more frequent orders

DIRECT

- 30+ sales personnel in 7 countries to service core markets
- Support end-users, partners and distributors in nearby regions
- Expanding team in coming periods

PARTNERS

- Growing network of leading partnerships with interoperable third-party products and solutions
- DroneShield is core to multi-layered solutions
- Adding more 'best-of-breed' capabilities

DISTRIBUTORS

- Representation in 70+ countries
- Provides in-country relationships and local regulatory knowledge
- Enhancing distributor network to support both market segments

C-UxS Thematics and Developments: Funding

Worldwide acknowledgement of the drone threat, goes well beyond the battlefield and spans government and commercial sectors, with unlocking in regulations and significant funding

USA

- **2027 budget request: US\$21B** for munitions, C-UAS and advanced capabilities
- **JIATF401** Streamlining C-UAS acquisition with US\$900M committed for 2026, **with DroneShield on JIATF-401 C-UAS Marketplace platform**
- **Safer Skies Act** unlocks 17,500 local and state law enforcement agencies

Europe & UK

- €800B Re-Arm Europe Plan / Defence Readiness Roadmap 2030
- NATO commitment for **US\$40B in counter-drone capabilities over next 5 years**
- UK committed **£790 million** to integrated air, drone and missile defence
- Increasing inbound interest for non-military applications
- Working in close partnership with COBBS-Anduril-Nokia on significant opportunity

LATAM, MENA, Other

- **LATAM:** Renewed & increasing focus on narco-cartels
- **MENA:** Meaningful enquiries in response to conflict, across both military & non-military arena

Asia-Pacific

- **Australia:** Integrated Investment Program: Up to A\$7B allocated over 10 years for C-UAS and missile defence, with ~A\$1.5B for C-UAS
- **Asia:** ASEAN-Australia Counter-Terrorism Practical Exchange conference sees drones as the leading threat to protect crowded spaces, vulnerable targets and critical infrastructure

C-UxS Thematics and Developments: Commercial

Beyond the battlefield, the counter-drone imperative is growing with escalating incidents in public safety, critical infrastructure and broader commercial settings

Commercial demand is evolving into a long-term growth market alongside defence, creating recurring opportunities across aviation, critical infrastructure, public safety, corrections, and major events.

"if there is one threat that keeps me up at night, it is from drones"
Jessica Tisch, NYPD Police Commissioner (February 2026)

Commercial Drone Threats by Numbers

100+

Airport drone reports every month in the U.S.

3,000+

Drone incidents near U.S. airports

1,712

Prison drone incidents in England & Wales in 2024/25 up 43% YoY

27,000+

Drones detected near the U.S. southern border

Record Results in FY2025 and Building into FY2026

FY2025 was a pivotal year reflecting the strength of DroneShield's offering, the growing global appetite for its solutions, and its position as the technology leader in C-UxS

Key Metrics (\$M)	FY2025	FY2024	Change
Revenue	216.5	57.5	276%
Underlying Gross Profit	140.3	41.2	240%
Underlying EBITDA	36.5	(4.0)	1,013%
Underlying PBT	33.3	(2.1)	1,686%
Profit/(loss) after income tax	3.5	(1.3)	367%
Operating cash flow	15.9	(62.6)	126%
Cash & term deposits (no debt)	209.5	219.5	(4%)

FY2025 Revenue by Region

FY2025 Revenue by Type

1H Trading Update & Outlook

After 7 months, FY2026 Committed Revenue is already at \$206M, which is 95% of the record revenue achieved in FY2025.

Revenue

- 1H 2026: \$125.8M, up 74% on PCP with \$14.2M (11.3%) from Recurring Revenue
- FY2026 Committed Revenue: \$206M (~13% Recurring Revenue). 95% of FY2025, with 5 months to run in year
- FY2026 Outlook: \$250M to \$270M, 15% to 25% growth on FY2025

Gross Margin

- 1H 2026: Estimated at 60% (compares to 65% PCP), due to sales mix, currency movements and raw material impairment (identified in facility move and ERP transition)
- 2H 2026: Blending up from recurring revenue and initial sales of next generation solutions
- Company targets a blended Gross Margin ~65%

FY2027 & Beyond

- \$26M in Committed Revenue and growing, with mix of hardware, software, added services and warranty income

Strategic Priorities for Sustainable Growth

Compounding our lead: wider reach, deeper capability, broader markets

1. Accelerate Global Operational Reach

- Scaled regional headquarters across the United States and Europe
- Expanded headcount and locations of commercial team
- Regional commercial and operations hubs across Asia, the Middle East and LATAM
- Regional manufacturing in core markets

2. Activate Next Generation C-UxS Capabilities

- Delivering a range of platforms and solutions to address the threats of the future
- Deploying “whole of lifecycle” C-UxS solutions and services as a strategic capability partner to end users
- Strategic technology-focused M&A based on alignment in vision and solution eco-system

3. Expand and Diversify Markets and End-Users

- Deep presence across both military and non-military markets
- Rich multi-channel go-to-market via partnerships with Primes, regional distributors and direct to end-users
- Diversification across end-users, geographies and solutions

Board Composition

A considered evolution of the Board, with varied skills to support the next stage of growth

**Hamish
McLennan**

Independent
Non-Executive
Chairman

Director since May 2026

Background: Tech, media & marketing, growth companies, corporate governance

ASX Roles: REA Group (Chair), ARN Media (Chair), Light & Wonder

**Angus
Bean**

Chief Executive Officer
&
Managing Director

Director since April 2026

Joined 2016 as employee #7. Prior roles include Chief Technology Officer and Chief Product Officer

**Simone
Haslinger**

Independent
Non-Executive
Director

Director since 2024

Background: Investment banking, equity capital markets, legal

ASX Roles: National Storage REIT (former)

**Lee
Goddard CSC**

Independent
Non-Executive
Director

Director since July 2026

Background: Retired Rear Admiral, defence, national security, Government and industry

ASX Roles: Austal Limited

**Jethro
Marks**

Independent
Non-Executive
Director

Director since 2020

Background: Retail, services, logistics and outsourcing

**Richard
Joffe**

Independent
Non-Executive
Director

Director since 2024

Background: Technology, strategy and rapid scaling globally
