

Quarterly Activities Report to 30 June 2026

30 July 2026

EMC Gold (ASX:EM3; “EMC” or “the Company”) is pleased to provide the following quarterly activities report for the period ending 30 June 2026.

Operational update

Salave Gold Project

Following the High Court of Asturias ruling handed down on 1 April 2026 (refer ASX announcement 1 April 2026), which upheld the Tapia de Casariego Municipal Council's decision not to consider the Company's proposed amendment to the municipal urban plan for the Salave Project, the Company has continued to advance Salave through ongoing engagement with local and regional stakeholders and continued assessment of alternative development pathways. The ruling was procedural in nature and did not relate to the technical, environmental or economic merits of the Project. The company is still evaluating a drilling program to investigate strategic mineral occurrence and inert sand usage in the future.

WA exploration and tenement holding

Following the surrender notice submitted in the March 2026 quarter for the 115km² Ivan Well exploration tenement (E69/3818) in Western Australia, the Company lodged its final surrender mineral exploration report in April 2026 in accordance with the WA Mining Act 1978. The company confirms that the process is now complete and it holds no other tenure in Western Australia.

Corporate update

Board and management changes

Subsequent to quarter end, the Company announced the appointment of Mr Agne Ahlenius as Chief Executive Officer and Executive Director, effective from 6 July 2026, reinforcing EMC Gold's strategic focus on Spain and the development of the Salave Gold Project (refer ASX announcement 3 July 2026). As part of the transition, Non-Executive Director Alberto Lavandeira was appointed Non-Executive Chairman, and then Executive Chairman Dominic Roberts transitioned to Non-Executive Director.

On 1 April 2026, the Company (EMC Gold Corp.) changed its functional currency from CAD\$ to AUD\$. In determining its functional currency, the Company considered its status as an ASX-listed entity, the location of its head office in Australia, the increasing significance of Australian dollar-denominated financing, transactions and cash flows, and its predominantly Australian financial reporting obligations. The Group's presentation currency also changed from CAD\$ to AUD\$ this period, with all amounts reported in this Appendix 5B expressed in AUD\$.

Cash position

At 30 June 2026, EMC Gold Corporation held AUD\$4.420m in cash reserves.

Related party costs

During the quarter, the company paid a total of AUD\$98,000 to related parties for Director fees and salaries.

EMC Gold confirms that it is not aware of any new information or data that materially affects the information included in the original announcement and that all material assumptions and technical parameters underpinning the estimate in the previous announcement continue to apply and have not materially changed.

A full technical report summarising the Mineral Resource estimate completed by Bara Consulting is available on the Company's web site (www.emcgold.com.au) and posted on SEDAR. In addition to the current Mineral Resource, historical exploration work suggests there is the potential for additional mineralisation within EMC Gold's landholdings.
