DRILLING RIG MOBILISED FOR MAIDEN DRILL PROGRAM AT YATAGA

Emu NL (ASX: **EMU** or **the Company**) announces that the drilling rig and support vehicles are currently being mobilised to site to begin the maiden drilling program at its Yataga Copper Project (Figure 1), Queensland.

The program is for approximately 2500m of reverse circulation (RC) drilling within the Fiery Creek prospect and consists of approximately 15 drill holes (refer to ASX Announcement dated 20 October 2025). Weather permitting, the drilling program is expected to be completed in December.
