

ASX RELEASE 17 September 2025

EPSILON HEALTHCARE LIMITED

TGA issues Domestic and EU/UK MRA GMP Certificates for Epsilon Pharma - strengthening export readiness and validating Southport quality systems

Epsilon Healthcare (ASX: EPN) (Epsilon or the Company), is pleased to announce that the Therapeutic Goods Administration (TGA) has issued updated Certificates of GMP Compliance for its manufacturing subsidiary Epsilon Pharma Pty Ltd. The updated Certificates covering Domestic (PIC/S) and Mutual Recognition Agreement (MRA) pathways for the European Community (EU) and the United Kingdom (UK). All three certificates were authorised on 15 September 2025 and are valid until 16 June 2026.

The renewed certification underpins EPN's contract development and manufacturing (CDMO) growth agenda and international sales pipeline from the Southport facility and validates the quality systems & frameworks.

Peter Giannopoulos, CEO & Managing Director, commented:

"This is a terrific endorsement of our robust quality systems and the excellent work performed by our Southport team. With TGA GMP coverage now providing our CDMO business EU/UK Mutual Recognition Agreement pathways, we are positioned to accelerate client onboarding and exports into regulated markets, while continuing to deliver a high-quality range of products to our clients for Australian patients.

We are immensely proud to be expanding our capacity via our Southport manufacturing facility and take great pride in building a strong sovereign manufacturing ecosystem. I thank the Southport team for their commitment to delivering quality excellence on behalf of all our Australian and international clients".

These certifications complement the Company's existing TGA manufacturing licence and reinforce Epsilon's commitment to GMP-compliant pharmaceutical manufacturing and international regulatory alignment.

ENDS

This announcement has been unanimously approved for release by the Board.

Alan Beasley
Chairman
