If the item asks for confirmation of a matter, you may simply enter “Confirmed” in the “Location/Confirmation” column. If an item is not applicable, please mark it as “N/A”.

Admission to the official list is in ASX’s absolute discretion and ASX may refuse admission without giving any reasons (see Listing Rule 1.19).

A reference in this Checklist and in any Annexures to the “Offer Document” means the listing prospectus, product disclosure statement or information memorandum lodged by the applicant with ASX pursuant to Listing Rule 1.1 Condition 3.

If the applicant lodges a supplementary or replacement prospectus, product disclosure statement or information memorandum with ASX, ASX may require it to update this Checklist and any Annexures by reference to that document.

If so, where in the Offer Document does it include a statement regarding: - the status of the material oil and gas project; - when development is anticipated; - the marketing arrangements that justify development; - access to transportation infrastructure; and - environmental approvals required (Listing Rule 5.31.6)?	Not applicable.
20.	Does the Offer Document include estimates of petroleum reserves relating to unconventional petroleum resources ¹⁰ for a material oil and gas project?	Not applicable.

⁷ An oil and gas project is "material" if the entity or child entity has an economic interest in the project (whether alone or jointly with others); and the interest is, or is likely to be, material in the context of the overall business operations or financial results of the entity and its child entities (on a consolidated basis): see Listing Rule 19.12.

⁸ If those economic assumptions are commercially sensitive to the entity, an explanation of the methodology used to determine the assumptions rather than the actual figure can be reported.

⁹ The type of information ASX would generally expect an entity to disclose for this item is a summary description of the types of tests performed, such as production and/or formation testing, and other analysis undertaken to determine commercial producibility of the accumulation. In the absence of production and/or formation testing, this could be on the basis of well logs and/or core analysis that indicates that the zone is hydrocarbon-bearing and where it is analogous to other reservoirs in the immediate area that have demonstrated commercial producibility by actual production and/or formation testing.

¹⁰ Refer to the definition of unconventional resources in *Appendix A: Glossary of Terms Used in Resources Evaluations* in SPE-PRMS.

24.	Where in the Offer Document does it include a description of: • the analytical procedures used to estimate the contingent resources; • the key contingencies that prevent the contingent resources from being classified as petroleum reserves; and • any further appraisal drilling and evaluation work to be undertaken to assess the potential for commercial recovery, and to progress the material oil and gas project (Listing Rule 5.33.3)?	Refer to Sections 5.1 and 5.2 of the ITSR.
25.	Does the Offer Document include estimates of contingent resources for a material oil and gas project which are contingent on technology under development? If so, where in the Offer Document does it include an explanation of whether: • the technology is under active development; • a pilot for that technology is planned and budgeted; and • the technology has been demonstrated to be commercially viable in analogous reservoirs and, if not, whether it has been demonstrated to be commercial viable in other reservoirs (Listing Rule 5.33.4)?	No
26.	Does the Offer Document include estimates of contingent resources for a material oil and gas project which are related to unconventional petroleum? If so, where in the Offer Document does it include the land area and the number of wells for which the estimates of petroleum resources are provided (Listing Rule 5.33.5)?	No

Prospective resources for material oil and gas projects

Complete this section if the Offer Document includes any reference to an estimate of prospective resources for a material oil and gas project

27.	Where in the Offer Document does it state the types of permits or licences held by the entity in respect of the reported estimates of prospective resources (Listing Rule 5.35.1)?	Not applicable.
28.	Where in the Offer Document does it include a brief description of: • the basis on which the prospective resources are estimated; and	Not applicable.

	any further exploration activities, including studies, further data acquisition and evaluation work, and exploration drilling to be undertaken and the expected timing of those exploration activities (Listing Rule 5.35.2)?	
29.	Where in the Offer Document does it state the entity's assessment of the chance of discovery and the chance of development associated with the reported estimates of prospective resources (Listing Rule 5.35.3)?	Not applicable.
30.	If risked estimates of prospective resources are reported, where in the Offer Document does it include an explanation of how the estimates were adjusted for risk (Listing Rule 5.35.4)?	Not applicable.

Oil and gas exploration entities

Complete this section if the entity is an oil and gas exploration entity?

31.	Where in the Offer Document is there a map or maps of the entity's petroleum tenements prepared by a qualified petroleum reserves and resources evaluator or other competent person, which: - indicate the geology and other pertinent features of the tenements, including their extent and location in relation to a capital city or major town, and relative to any nearby properties which have a significant bearing on the potential of the tenements; - are dated; and - identify the qualified petroleum reserves and resources evaluator or other competent person who prepared the map(s)?	Refer to Section 2 of the ITSR.
32.	Where in the Offer Document is there a schedule of the entity's petroleum tenements which states in relation to each petroleum tenement: - the geographical area where the petroleum tenement is situated; - the nature of the title to the petroleum tenement; - whether the title has been formally confirmed or approved and, if not, whether an application for confirmation or approval is pending and whether the application is subject to challenge; and - the person in whose name the title to the petroleum tenement is currently held?
