

JUNE 2026 QUARTERLY REPORT

Equatorial Resources Limited (ASX:EQX) (Equatorial or Company) presents its quarterly report for the quarter ended 30 June 2026. Highlights during and subsequent to the quarter include:

- Equatorial, through its Mauritian subsidiary, EEPL Holdings (**EEPL**), filed its final submission on costs in April 2026 at the International Centre for Settlement of Investment Disputes (**ICSID**) in Washington, D.C. in the Company's ongoing international arbitration proceedings against the Republic of Congo (**Congo**).
- The submission on costs is the final procedural step required of EEPL in the arbitration process following completion of the final hearing in November 2025. The Arbitral Tribunal will now render a final award. While there is no specified date for the Arbitral Tribunal to render its award, the Company anticipates a final award may be rendered in the first half of 2027 (indicative timing only).
- Separate to the final award, the Tribunal has already ordered Congo to pay A\$1.2 million to EEPL relating to costs incurred as a result of the previous postponement of the final hearing. This amount remains outstanding and is accruing interest from 13 July 2025 at a rate of 5.10% per annum.
- Equatorial, through EEPL, referred its investment dispute with Congo to ICSID arbitration in 2021. The dispute arose out of unlawful measures taken by Congo against EEPL's investments in two iron ore projects in Congo: the Badondo Iron Ore Project and the Mayoko-Moussondji Iron Ore Project.
- EEPL is claiming damages ranging from US\$395 million to US\$1.25 billion (depending on the valuation methodology adopted). These amounts do not include interest and costs, which are also claimed from Congo in an amount ranging from US\$134 million to US\$741 million (depending on the valuation and interest calculation methodology adopted).
- Having now filed the post-hearing submissions, Boies Schiller Flexner has been appointed to represent EEPL during the remaining annulment (if required) and enforcement phase of the international arbitration proceedings. The appointment of Boies Schiller Flexner followed the conclusion of EEPL's engagement with Clifford Chance following a dispute over fees.
- In Guinea, Equatorial continues to seek clarification as to the status of its Nimba West and Nimba North iron ore exploration permits.
- Equatorial remains in a strong financial position with significant cash reserves. At 30 June 2026, the Company had approximately \$7.1 million in cash with 131.4 million shares on issue.
- Equatorial continues to search for, and review, new opportunities in the resources sector which have the potential to build shareholder value.

Congo Projects

Equatorial, through EEPL, referred its investment dispute with Congo to arbitration at ICSID in 2021. The dispute arose out of unlawful measures taken by Congo against EEPL's investments in two iron ore projects: the Badondo Iron Ore Project (**Badondo**), located in the Sangha region of Congo, and the Mayoko-Moussondji Iron Ore Project (**Mayoko-Moussondji**), located in the Niari region of Congo (together, the **Congo Projects**).

EEPL brought its claims against Congo under the Agreement between the Government of the Republic of the Congo and the Government of the Republic of Mauritius for the Promotion and Reciprocal Protection of Investments (**Congo-Mauritius BIT**), under which EEPL's investments in Congo are protected by virtue of EEPL being a Mauritian company. EEPL's claims include that Congo unlawfully expropriated its investments in the Congo Projects, and failed to accord EEPL fair and equitable treatment, in violation of the Congo-Mauritius BIT.

The measures that Congo took against Badondo in December 2020 (which included expropriation) formed part of a wider campaign to dispossess foreign mining companies of their iron ore interests in Congo and grant them to a Chinese-linked company named Sangha Mining Development SASU. The measures that Congo took against Mayoko-Moussondji came later, in June 2021, when Congo unlawfully revoked the exploitation permit held over that tenement by Congo Mining Limited (**CML**), a company owned by Equatorial until 2015 and in which EEPL continues to participate (including through royalty arrangements).

In the arbitration, EEPL is claiming damages ranging from US\$395 million to US\$1.25 billion (depending on the valuation methodology adopted). These amounts do not include interest and costs, which are also claimed from Congo in an amount ranging from US\$134 million to US\$741 million (depending on the valuation and interest calculation methodology adopted).

The final hearing in EEPL's arbitration against Congo was held in November 2025 at the Washington, D.C. headquarters of ICSID. The final hearing provided the Company the opportunity to present its case in person before the ICSID Tribunal, and to cross-examine the single expert witness on whose testimony Congo relies in support of its case.

Following the final hearing, EEPL submitted its first post-hearing written submission in February 2026, its second post-hearing written submission in March 2026, and its submission on costs in April 2026 at the ICSID in Washington, D.C. These written submissions are the final procedural steps in the Company's arbitration against Congo following the completion of the final hearing.

The Tribunal will now render a final award in due course. While there is no specified date for the Tribunal to render its award, Equatorial anticipates a final award may be rendered in the first half of 2027 (indicative timing only). The ICSID arbitration and hearing are both confidential.

Separate to the final award, the Tribunal has already ordered Congo to pay EEPL A\$1.2 million relating to costs incurred as a result of the previous postponement of the hearing. This amount remains outstanding and is accruing interest from 13 July 2025 at a rate of 5.10% per annum.

Notwithstanding the dispute between EEPL and Congo, Equatorial remains committed to its investments in Congo and continues to be open to a constructive dialogue. Equatorial has expressed the Company's openness to reaching a mutually satisfactory settlement of EEPL's dispute and remains hopeful of a constructive dialogue with Congo to that end.

Having now filed the post-hearing submissions, Equatorial has appointed Boies Schiller Flexner to represent EEPL in the dispute with Congo. This transition follows the conclusion of EEPL's engagement with Clifford Chance, following a dispute over fees.

Subsequent to the end of the quarter, Equatorial and EEPL were served with a notice of arbitration by Clifford Chance in relation to the dispute over fees. Equatorial will vigorously defend the arbitration.

Guinea Projects

Nimba Alliance Project is a highly prospective and potentially large-scale iron ore project located in Guinea, West Africa which was acquired by Equatorial in July 2023. The Project is located within a cluster of major iron ore projects.

The Project covers a large landholding in Guinea's prolific Nimba Iron Ore Corridor and comprises majority ownership of two permits: 100% of the Nimba West permit covering ~198km²; and 56% of the Nimba North permit covering ~107km².

Transport solutions are already in place for the Project, with the Nimba West and Nimba North permits located approximately 350km and 290km respectively from Port Buchanan, and within 30km and 60km, respectively from Liberia's Lamco bulk commodity railway.

In May 2025, the Company received notification, via a news broadcast featuring Guinea's Minister of Information and Communication, that a number of mineral exploration permits had been cancelled by the Guinea government, including the Company's Nimba West and Nimba North iron ore permits which comprise Equatorial's Nimba Alliance Iron Ore Project.

The Company has not received any formal communication from the Guinea government in relation to a change to the status of its exploration permits in Guinea.

The Company understands that the Guinea government has so far announced the cancellation of over 120 mining exploration permits covering bauxite, diamonds, iron and gold, from companies including Resolute Mining Limited (ASX: RSG), AngloGold Ashanti plc (NYSE: AU), and Endeavour Mining plc (LSE: EDV) among others, as part of wider regulatory review in Guinea.

Equatorial had been actively engaged with the Ministry of Mines and relevant Guinea authorities to support its renewal applications for the Nimba West and Nimba North permits. Upon renewal, the Company had plans to implement revised work programs to meet regulatory requirements and project development objectives. Such work programs were expected to include an expanded surface sampling campaign to validate and extend previously identified high-grade Canga mineralization and, subject to the outcomes of the sampling campaign, the Company had plans for a maiden drill program.

Equatorial continues to seek clarification as to the status of its Nimba West and Nimba North iron ore exploration permits.

Corporate

During the quarter, Equatorial continued to search for, and review, new opportunities in the resources sector which have the potential to build shareholder value.

Equatorial remains in a strong financial position with approximately \$7.1 million in cash and 131,445,353 shares on issue as at 30 June 2026.

The cash balance as at 30 June 2026 does not include the A\$1.2 million awarded to EEPL by the ICSID Tribunal relating to costs. This amount remains outstanding from Congo and is accruing interest from 13 July 2025 at a rate of 5.10% per annum.

The Company is in a strong financial position to progress its dispute resolution processes and additional business opportunities in the resources sector.

ASX Additional Information

Mining Exploration Tenements

At the end of the quarter, the Company has an interest in the following mining exploration tenements:

Project Name	Tenement Type	Tenement Number	Percentage Interest	Status
Nimba West permit, Republic of Guinea	Exploration permit	A/2019/149/DIGM/CPDM	100%	Awaiting renewal (refer to discussion above)
Nimba North permit, Republic of Guinea	Exploration permit	A/2020/135/DIGM/CPDM	56%	Awaiting renewal (refer to discussion above)
Badondo permit, Republic of Congo	Exploration permit	Decree No. 2015-984	100%	In dispute (refer to discussion above)

Mining Exploration Expenditures

During the quarter, the Company made no payments in relation to mining exploration activities.

Related Party Payments

During the quarter, the Company made payments of approximately \$173,000 to related parties and their associates. These payments relate to director's fees and superannuation, and the provision of administrative, secretarial and corporate services.

This announcement has been authorised for release by the Company Secretary.

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
