8.8 If item 8.7 is less than 2 quarters, please provide answers to the following questions:

8.8.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: No, The Company has demonstrated during the December Quarter a sales ramp up that it expects to continue and has invested heavily in stock to support this anticipated activity. The benefits of this are expected to be realised in the current quarter and ongoing. In addition multiple issues arose with plant many of which have been addressed but further identified actions in this regard are being taken with expected significant improvement in production both in terms of cost and volumes.

8.8.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes. The Company is currently negotiating a fundraising to support both its aggregate operation and the optioning of a new copper project which has been under review for some time.

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes, based on the measures outlined above.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
