Stepping Up in Cote D'Ivoire

Drilling new gold mineralisation & growing ground portfolio
Team led by one of West Africa's most accomplished gold finders

CORPORATE PRESENTATION • JULY 2026

Important Notices & Disclaimer

FAMIEN RESOURCES

FAMIEN RESOURCES LIMITED ACN 160 818 986 (FAMIEN OR THE COMPANY) IS THE ISSUER OF THIS PRESENTATION. THE ISSUE OF THIS PRESENTATION IS INTENDED ONLY FOR THE PERSON OR ENTITY TO WHICH IT HAS BEEN TRANSMITTED.

These presentation materials and any accompanying verbal presentation (together, the Presentation Materials) have been prepared by Famien Resources Ltd (Company) as at 20 July 2026 and statements are current only as at that date. Information in the Presentation Materials remains subject to change without notice. The Company has no responsibility or obligation to inform you of any matter arising or coming to its notice, after the date of this document, which may affect any matter referred to in this document. By receiving the Presentation Materials, you acknowledge and represent to the Company that you have read, understood and accepted the terms of this disclaimer. It is the responsibility of all recipients of these Presentation Materials to obtain all necessary approvals to receive these Presentation Materials and receipt of the Presentation Materials will be taken by the Company to constitute a representation and warranty that all relevant approvals have been obtained.

These Presentation Materials are for information purposes only. The Presentation Materials do not comprise a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with the Australian Securities and Investments Commission) or any other law. The Presentation Materials also do not constitute or form part of any invitation, offer for sale or subscription or any solicitation for any offer to buy or subscribe for any securities nor shall they or any part of them form the basis of or be relied upon in connection therewith or act as any inducement to enter into any contract or commitment with respect to securities. In particular, these Presentation Materials do not constitute an offer to sell or a solicitation to buy, securities in the United States of America.

NOT INVESTMENT ADVICE

The Presentation Materials are not investment or financial product advice (nor tax, accounting or legal advice) and are not intended to be used for the basis of making an investment decision. Recipients should obtain their own advice before making any investment decision.

SUMMARY INFORMATION

The Presentation Materials do not purport to be all inclusive or to contain all information about the Company or any of the assets, current or future, of the Company. The Presentation Materials contain summary information about the Company and its activities which is current as at the date of the Presentation Materials. The information in the Presentation Materials is of a general nature and does not purport to contain all the information which a prospective investor may require in evaluating a possible investment in the Company or that would be required in a prospectus or product disclosure statement or other offering document prepared in accordance with the requirements of Australian law or the laws of any other jurisdiction, including the United States of America.

While reasonable care has been taken in relation to the preparation of the Presentation Materials, none of the Company or its directors, officers, employees, contractors, agents, or advisers nor any other person (Limited Party) guarantees or makes any representations or warranties, express or implied, as to or takes responsibility for, the accuracy, reliability, completeness or fairness of the information, opinions, forecasts, reports, estimates and conclusions contained in this document. No Limited Party represents or warrants that this document is complete or that it contains all information about the Company that a prospective investor or purchaser may require in evaluating a possible investment in the Company or acquisition of shares in the Company.

To the maximum extent permitted by law, each Limited Party expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of or reliance on information contained in this document including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions, forecasts, reports or other matters, express or implied, contained in, arising out of or derived from, or for omissions from, this document including, without limitation, any financial information, any estimates or projections and any other financial information derived therefrom.

FORWARD- LOOKING STATEMENTS

Certain statements contained in the Presentation Materials, including information as to the future financial or operating performance of the Company and its projects, are forward looking statements. Such forward looking statements involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company and which may cause actual results, performance or achievements to differ materially from those expressed or implied by such statements. Forward looking statements are provided as a general guide only, and should not be relied on as an indication or guarantee of future performance. Given these uncertainties, recipients are cautioned to not place undue reliance on any forward looking statement.

Subject to any continuing obligations under applicable law the Company disclaims any obligation or undertaking to disseminate any updates or revisions to any forward looking statements in this document to reflect any change in expectations in relation to any forward looking statements or any change in events, conditions or circumstances on which any such statement is based.

JORC DISCLAIMER

The Presentation Materials are not a “public report” for the purposes of 2012 Edition of the ‘Australasian Code for Reporting of Exploration results, Mineral Resources and Ore Reserves’ (JORC Code). As such, the information in this Presentation Materials that relate to exploration results, exploration targets, mineral resources and ore reserves is not reported in accordance with the JORC Code and has not been reviewed by a competent person for the purposes of the JORC Code.

The Company confirms that it is not aware of any new information as at the date of the Presentation Materials that materially affects the information included in the Presentation Materials and that all material assumptions and technical parameters underpinning the estimates in the Company’s previous announcement[s] continue to apply and have not material changed.

COMPETENT PERSONS STATEMENT

The information in this release that relates to Exploration Results as those terms are defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserve”, is based on information compiled by Mr Paul Roberts.

Mr Roberts is the managing director the Company and a Fellow of the Australian Institute of Geoscientists and has sufficient experience of relevance to the styles of mineralisation and types of deposits under consideration, and to the activities undertaken to qualify as Competent Persons as defined in the 2012 Edition of the Joint Ore Reserves Committee (JORC) Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Roberts consents to the inclusion in this report of the matters based on this information in the form and context in which they appear.

The information in this report that relates to exploration results is extracted from the following announcements made by the company: “Acquisition of Highly Prospective Gold Projects in Côte D’Ivoire” (23 September 2025), “Strong Auger Results Define Large Aircore Drill Target at Tougbe” (19 January 2026), “Strong Gold Intercepts From Maiden Tougbe AC Drill Program” (31 March 2026), New Gold Prospective Zone Identified at Tougbe, Cote D’Ivoire” (20 April 2026), RC Drilling Starts at Gogo & AC Drilling Confirms AW1 Target (14 May 2026) “Exploration Update – Cote D’Ivoire” (21 July 2026).

The Company confirms that it is not aware of any new information or data that materially affects the information included in the previous announcements.

Large Ground Position In Elephant Country

COTE D'IVOIRE PROJECTS • WHAT YOU NEED TO KNOW

In Oct 2025, Enegex acquired private company Famien Resources, led by Paul Roberts:

MD Paul Roberts, Managing Director,
Founder of Predictive Discovery Ltd (ASX:PDI), responsible for 5.4Moz Bankan Discovery in Guinea, became MD in November 2025.

Portfolio
Very large ground portfolio in Cote D'Ivoire with drill ready targets

Team in place
Famien's in-country team exploring in-country, and RC drilling in progress

BOARD AND MANAGEMENT

Paul Roberts
Managing Director

Founder of Predictive Discovery Limited (ASX:PDI) responsible for discovery of the 5.4Moz Bankan Gold Project in Guinea, several other gold discoveries in West Africa and the Henty gold deposit in Tasmania.

Roger Steinepreis
Non-Executive Chairman

Corporate and resources lawyer. Executive Chairman of Perth based corporate law firm, Steinepreis Paganin. Practised law for over 30 years, acting as legal advisor to a number of public companies, particularly in the energy and resources sector.

Eric Kondo
Non-Executive Director

Ivoirian lawyer and important mining industry figure, with extensive networks across government and the private sector in Côte d'Ivoire and wider Francophone West Africa.

Nick Castleden
Non-Executive Director

Geologist with over 25 years of experience in the mineral exploration and development industry. Former Managing Director of Apollo Consolidated Limited which was acquired by Ramelius Resources Limited in an agreed takeover, valuing Apollo at circa $180 million.

Tony Tomba
Company Secretary

Currently Company Secretary for DeSoto Resources (ASX: DES), Mr Tomba has extensive corporate governance, compliance, and company administration experience, having worked with a range of ASX-listed resource companies.

Dr Barry Murphy
Technical Advisor

Structural geologist and project generation specialist with more than 15 years experience working in West Africa. Barry played a major role in the regional targeting work that led to the Bankan Discovery.

Team Members

FAMIEN RESOURCES

GOLD-PLATED IVOIRIAN EXPLORATION & IN-COUNTRY EXPERIENCE

Paul Roberts
Managing Director

Paul founded Predictive Discovery Limited (ASX:PDI) and served as CEO from 2008 to 2021. He was the driving force behind PDI's business model, assembling its West African project portfolio and exploration team. Under his leadership, PDI made the world-class Bankan gold discovery in Guinea.

Prior to Predictive, Paul built a long and successful career in mineral exploration and mine geology across Australia and internationally. His achievements include the discovery of the Henty gold deposit in Tasmania, resource evaluations of the Kuridala copper deposit in North Queensland and the Bongara zinc deposit in Peru, as well as multiple gold resources in the Cue and Meekatharra districts of Western Australia.

"Having spent 14 years exploring the Birimian Belt in West Africa, resulting in a series of gold discoveries in Cote D'Ivoire, Guinea and Burkina Faso including the 5.5Moz Bankan Discovery, I am very happy to be back in Cote D'Ivoire embarking on this new chapter especially as there is so much opportunity to make more large gold discoveries, backed by a very supportive government and operating environment."

FMN MANAGING DIRECTOR, MR PAUL ROBERTS

Eric Kondo
Non-Executive Director

A highly experienced Ivorian lawyer and mining industry figure, with extensive networks across government and the private sector in Côte d'Ivoire and wider Francophone West Africa.

As founder and managing partner of Mining Services & Consulting, he has advised numerous mining companies on legal, tax, and regulatory matters, and played a key role in negotiating mining conventions with the Government of Côte d'Ivoire. A former Executive Board member of the Ivorian Chamber of Mines and President of its Tax, Legal and Custom Commission, Mr Kondo brings unparalleled in-country expertise, a proven track record in acquiring exploration permits, and deep relationships that will be invaluable in advancing Enegex's projects.

Dr Barry Murphy
Technical Advisor

Barry has built a highly successful career in mineral exploration, consulting, and research. From 2008 to 2022 he served as Chief Geologist at Predictive Discovery Limited, where he played a key role in the Bankan gold discovery in Guinea.

A specialist in structural geology, geophysics, remote sensing, and GIS analysis, Barry has extensive base and precious-metal exploration experience across Australia, West Africa, Sudan, the DRC, South America, Indonesia, and Europe.

Gogo & Tougbo – Geological Setting

BIRIMIAN BELT

BEST GEOLOGICAL SETTING GLOBALLY FOR GREENFIELDS DISCOVERY

+95Moz discovered in West Africa since 2004 vs. Canada's 61Moz, Australia's 29Moz & Colombia 59Moz

Côte D'Ivoire hosts 35% of the Birimian Belt in West Africa

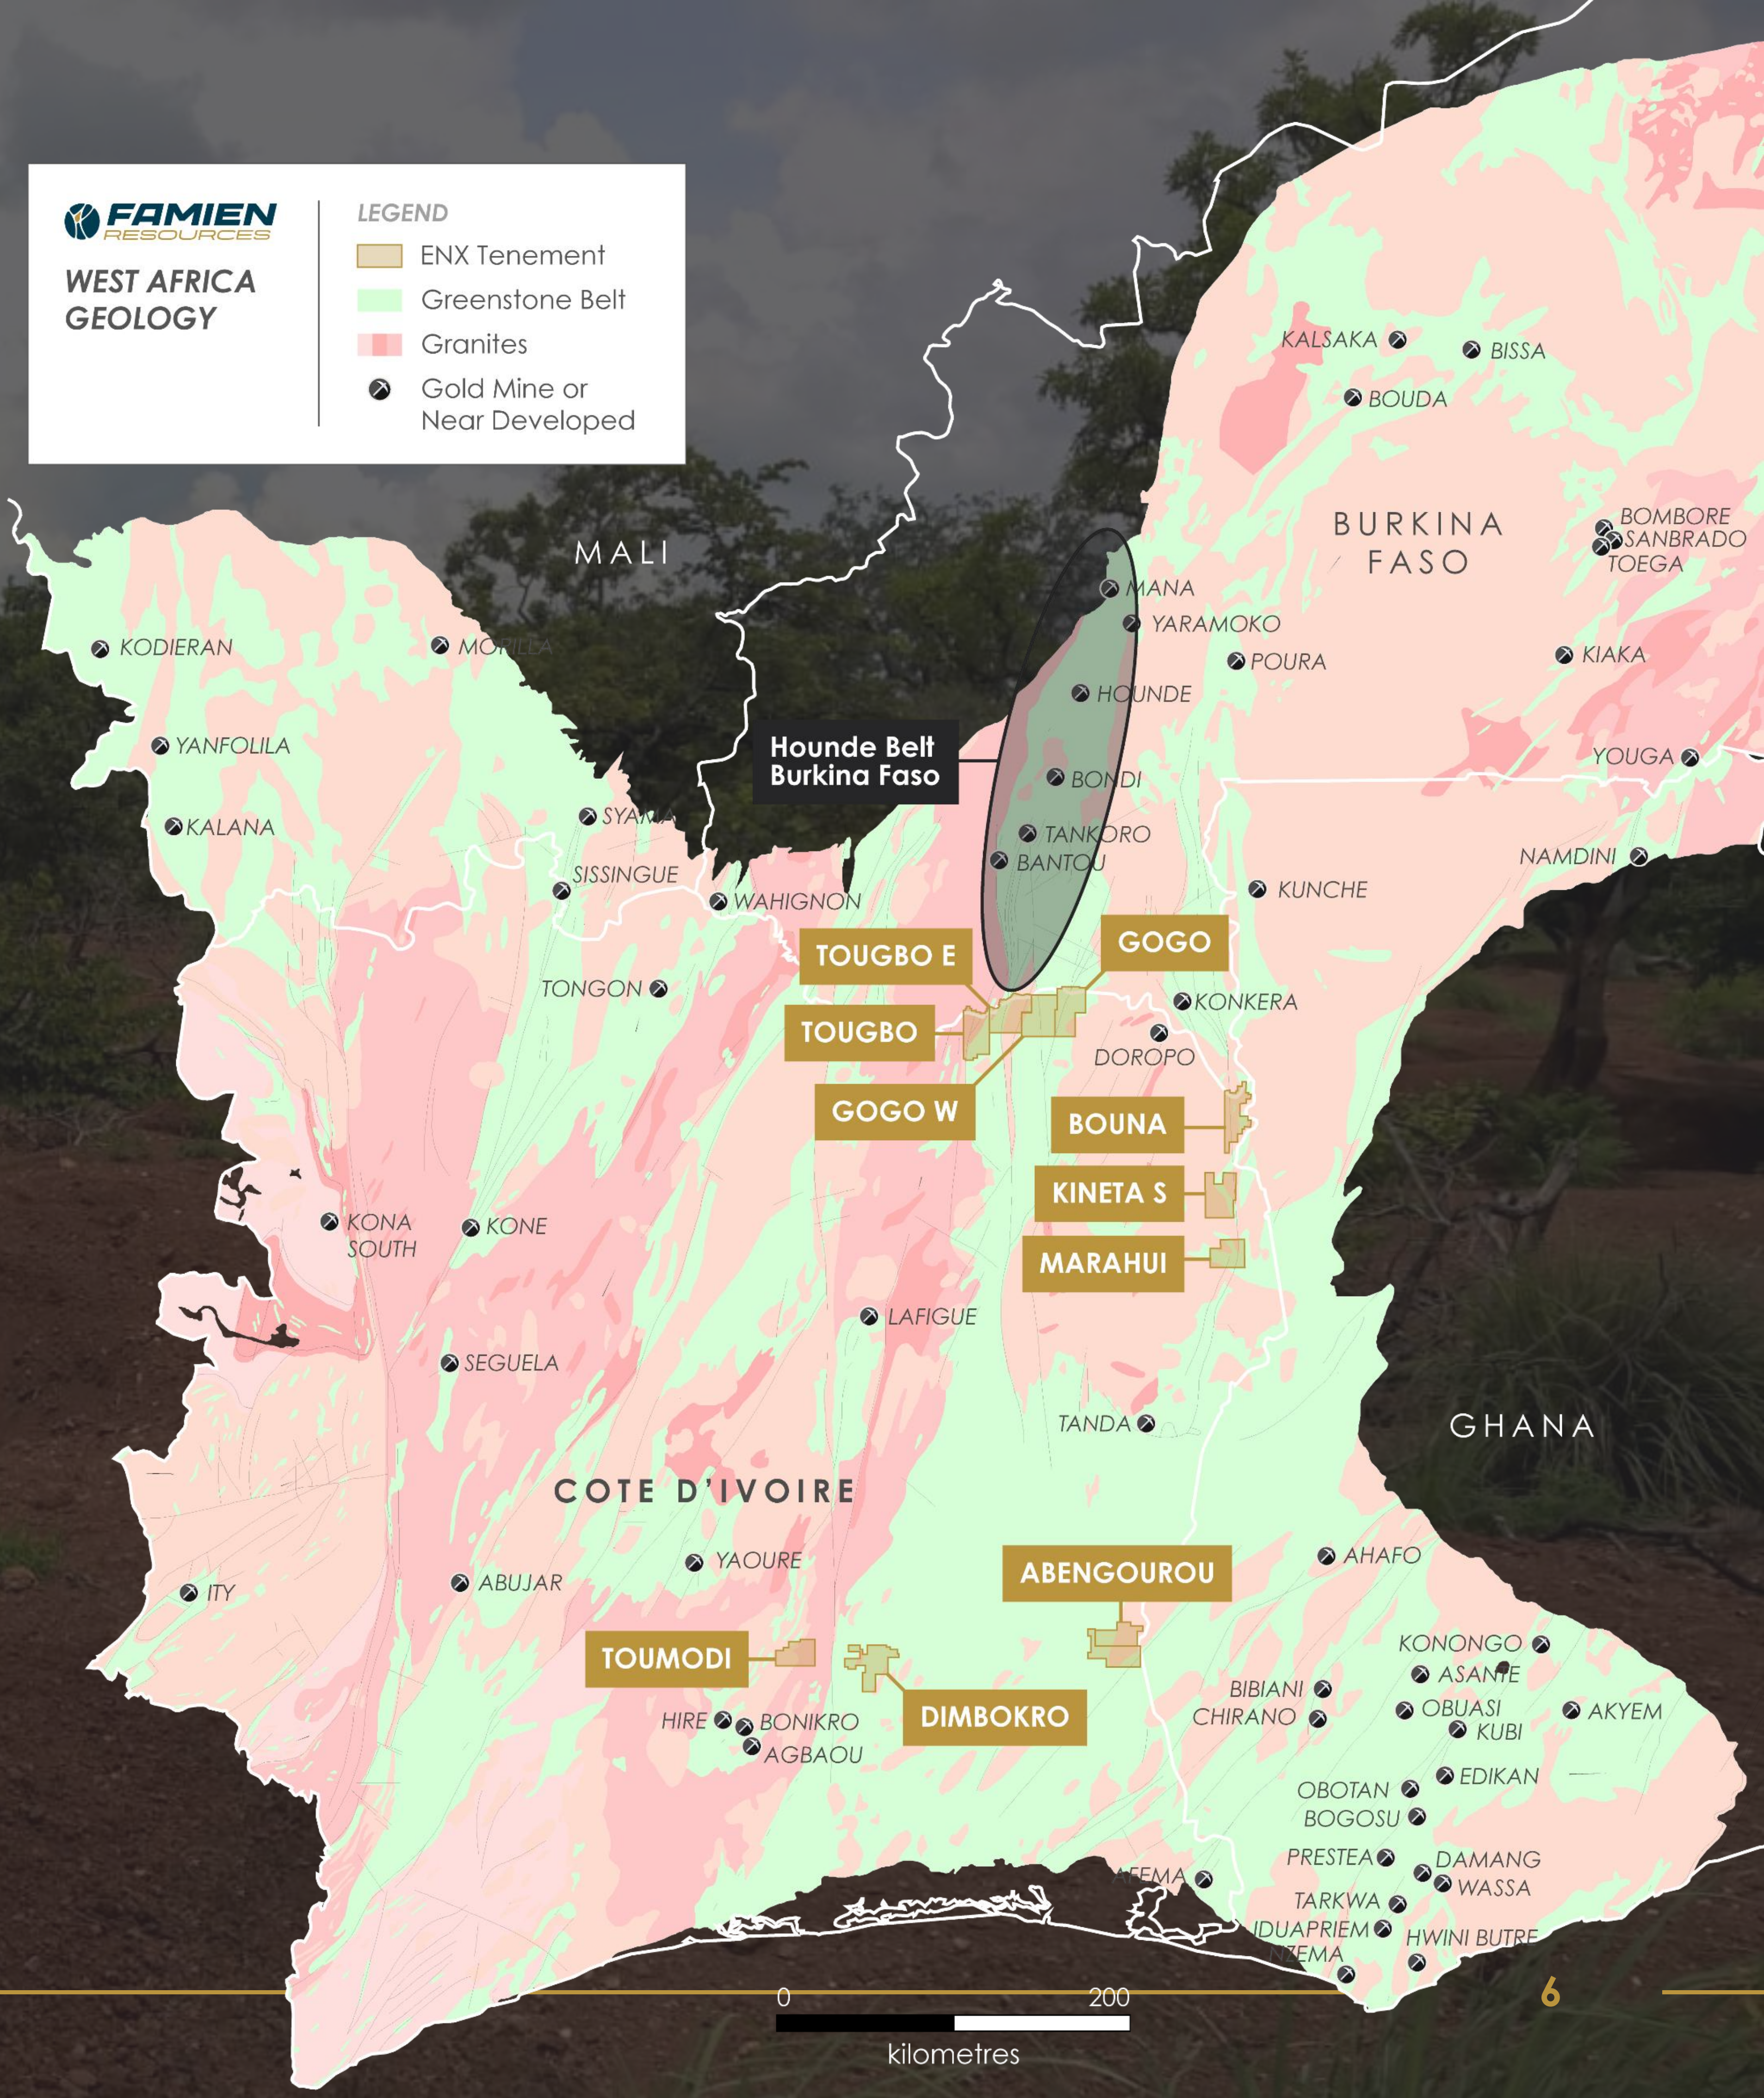
Large tracts of prospective Birimian Belt rocks unexplored - enormous potential for new discoveries

Gogo and Tougbo Projects

South extension of exceptionally well-endowed Hounde Belt in Cote D'Ivoire (including Mana, Yaramoko, Hounde, Bondi gold deposits in Burkina Faso)

Favourable host lithologies, major structural controls, extensive surface geochemical anomalism, and limited historical exploration

Historical soil sampling defined large gold-in soil anomalies with high grade rock chip samples



Tougbo Projects*

BUILDING A PIPELINE OF RC DRILL TARGETS

Tougbo

Kalama Bave discovery:

- AC drilling completed with **very promising initial results**
- **Follow-up RC drilling in August**

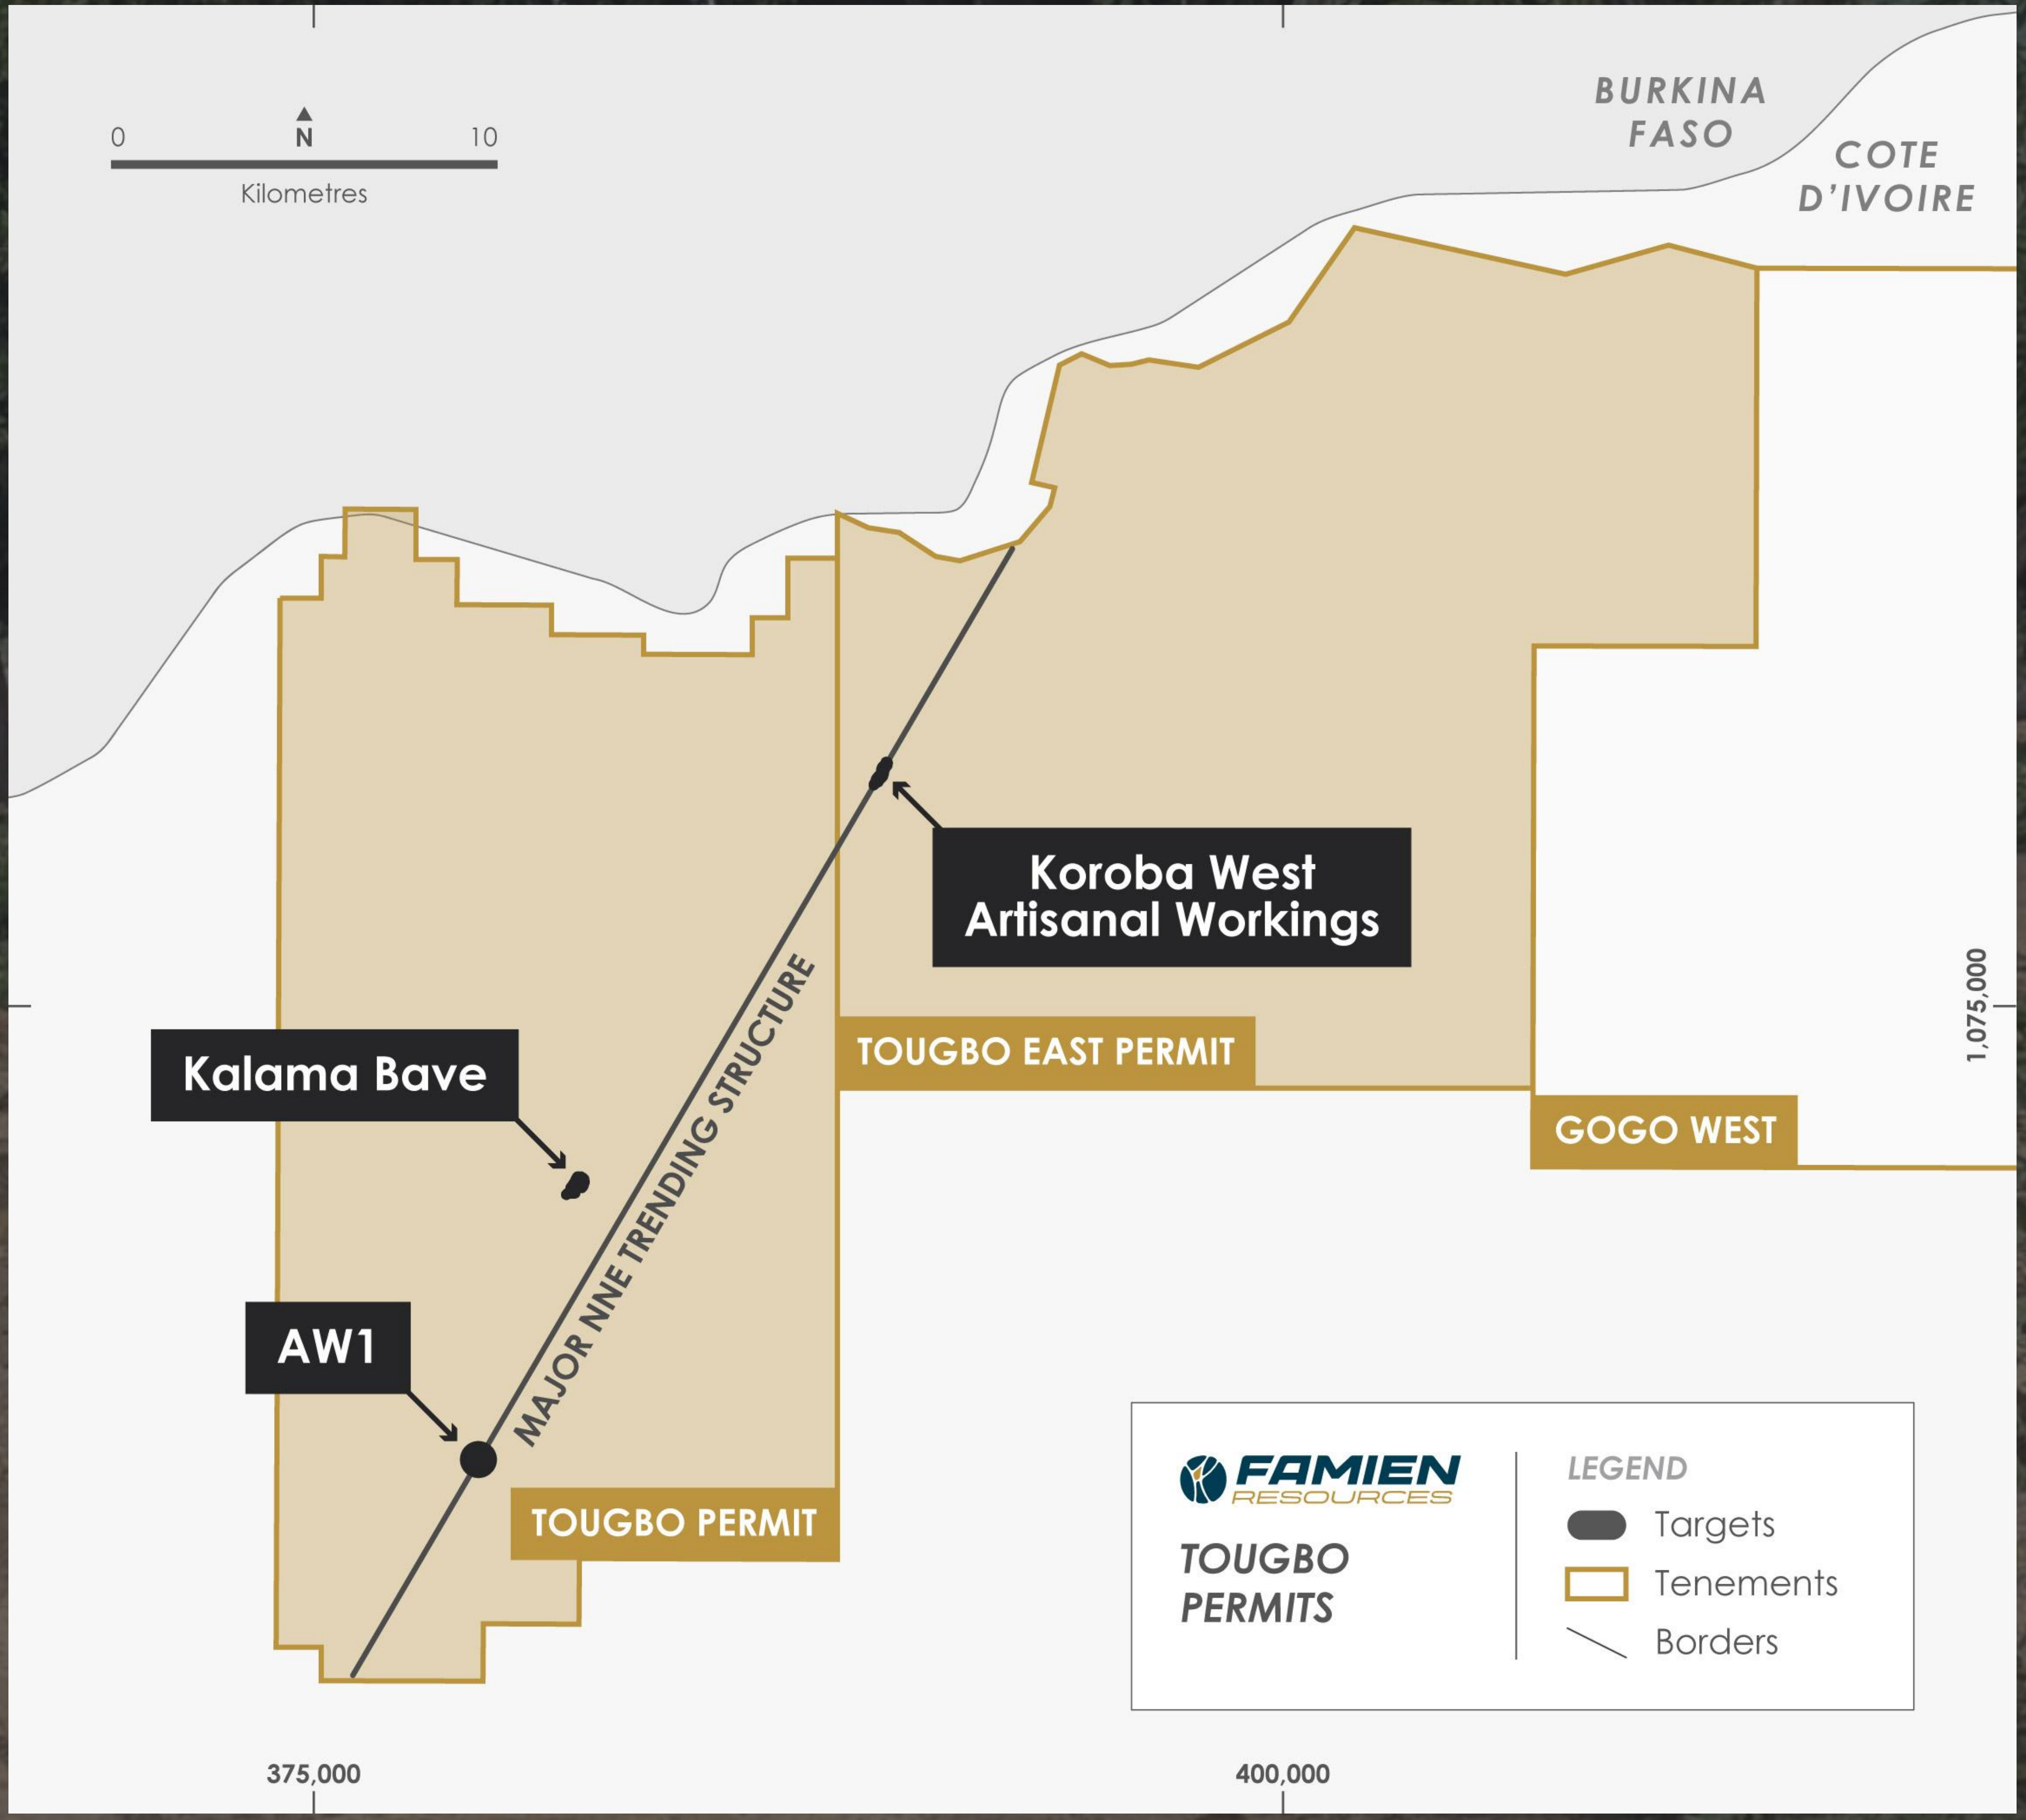
AW1 prospect:

- AC drilling – **encouraging initial results**
- follow up **with RC drilling in September**

Tougbo East

Substantial **Koroba West** artisanal workings provide additional potential

RC drilling planned in September



*Refer ENX ASX releases: (1) Strong Auger Results Define Large Aircore Drill Target at Tougbe" (19 January 2026) (2)"Acquisition of Highly Prospective Gold Projects In Côte D'Ivoire" (23 September 2025), and (3) "Exploration Update – Tougbe and Gogo Projects" (9 February 2026).

Tougbo Projects*

KALAMA BAVE – DEFINED BY POWER AUGER

Initial power auger drill program intercepts:

18m @ 1.6g/t Au incl. **8m @ 3.2g/t Au**

10m @ 1.2g/t Au incl. **7m @ 1.7g/t Au**

Angled aircore drilling intercepts:

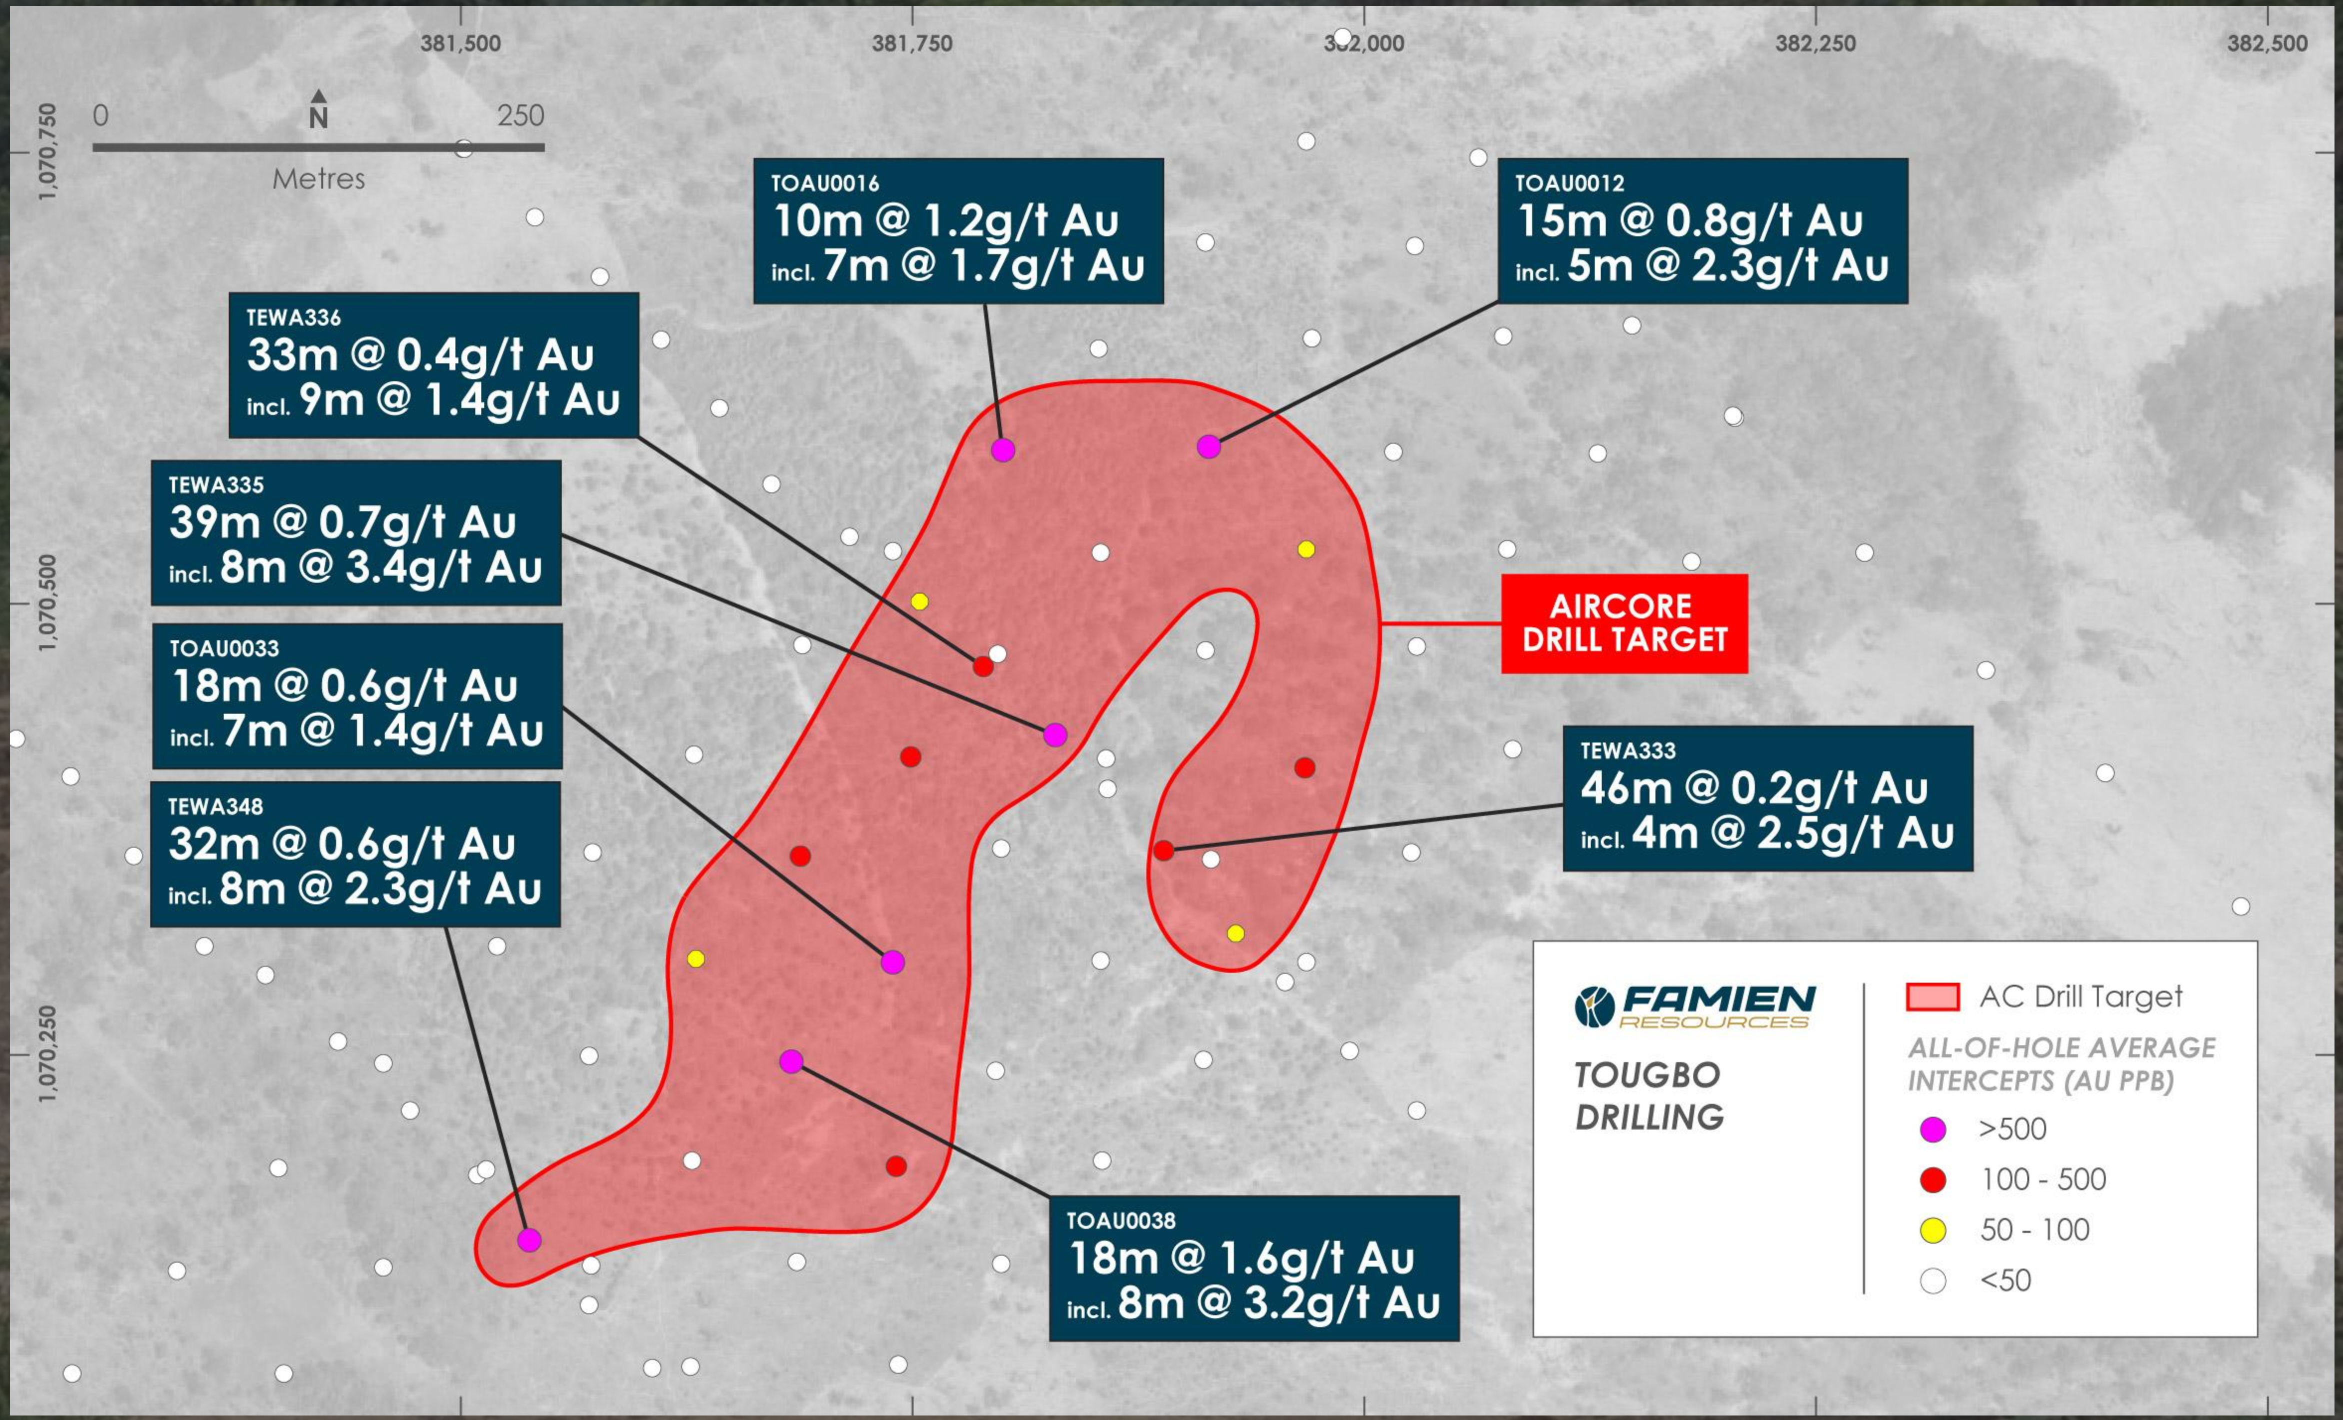
TOAC074: **24m @ 3.72 g/t Au** from 0m, including **4m @ 20.40 g/t Au**

TOAC045: **10m @ 4.98g/t Au** from 20m to end-of-hole (EOH), incl. **4m @ 10.80g/t Au**

TOAC064: **16m @ 2.84g/t Au** from 8m incl. **4m @ 10.30g/t Au**

TOAC067: **4m @ 6.89g/t Au** from 24m

TOAC030: **8m @ 3.36g/t Au** from 0m



*Refer ENX ASX releases: (1) Strong Auger Results Define Large Aircore Drill Target at Tougbe" (19 January 2026) and (2)"Acquisition of Highly Prospective Gold Projects In Côte D'Ivoire", (23 September 2025) (3) "Strong Gold Intercepts From Maiden Tougbe AC Drill Program" (31 March 2026)

Tougbo Projects*

KALAMA BAVE - AC DRILLING

Initial power auger drill program intercepts:

18m @ 1.6g/t Au incl. **8m @ 3.2g/t Au**

10m @ 1.2g/t Au incl. **7m @ 1.7g/t Au**

32m @ 0.6g/t Au, incl. **4m @ 3.7g/t Au**

Angled aircore drilling intercepts:

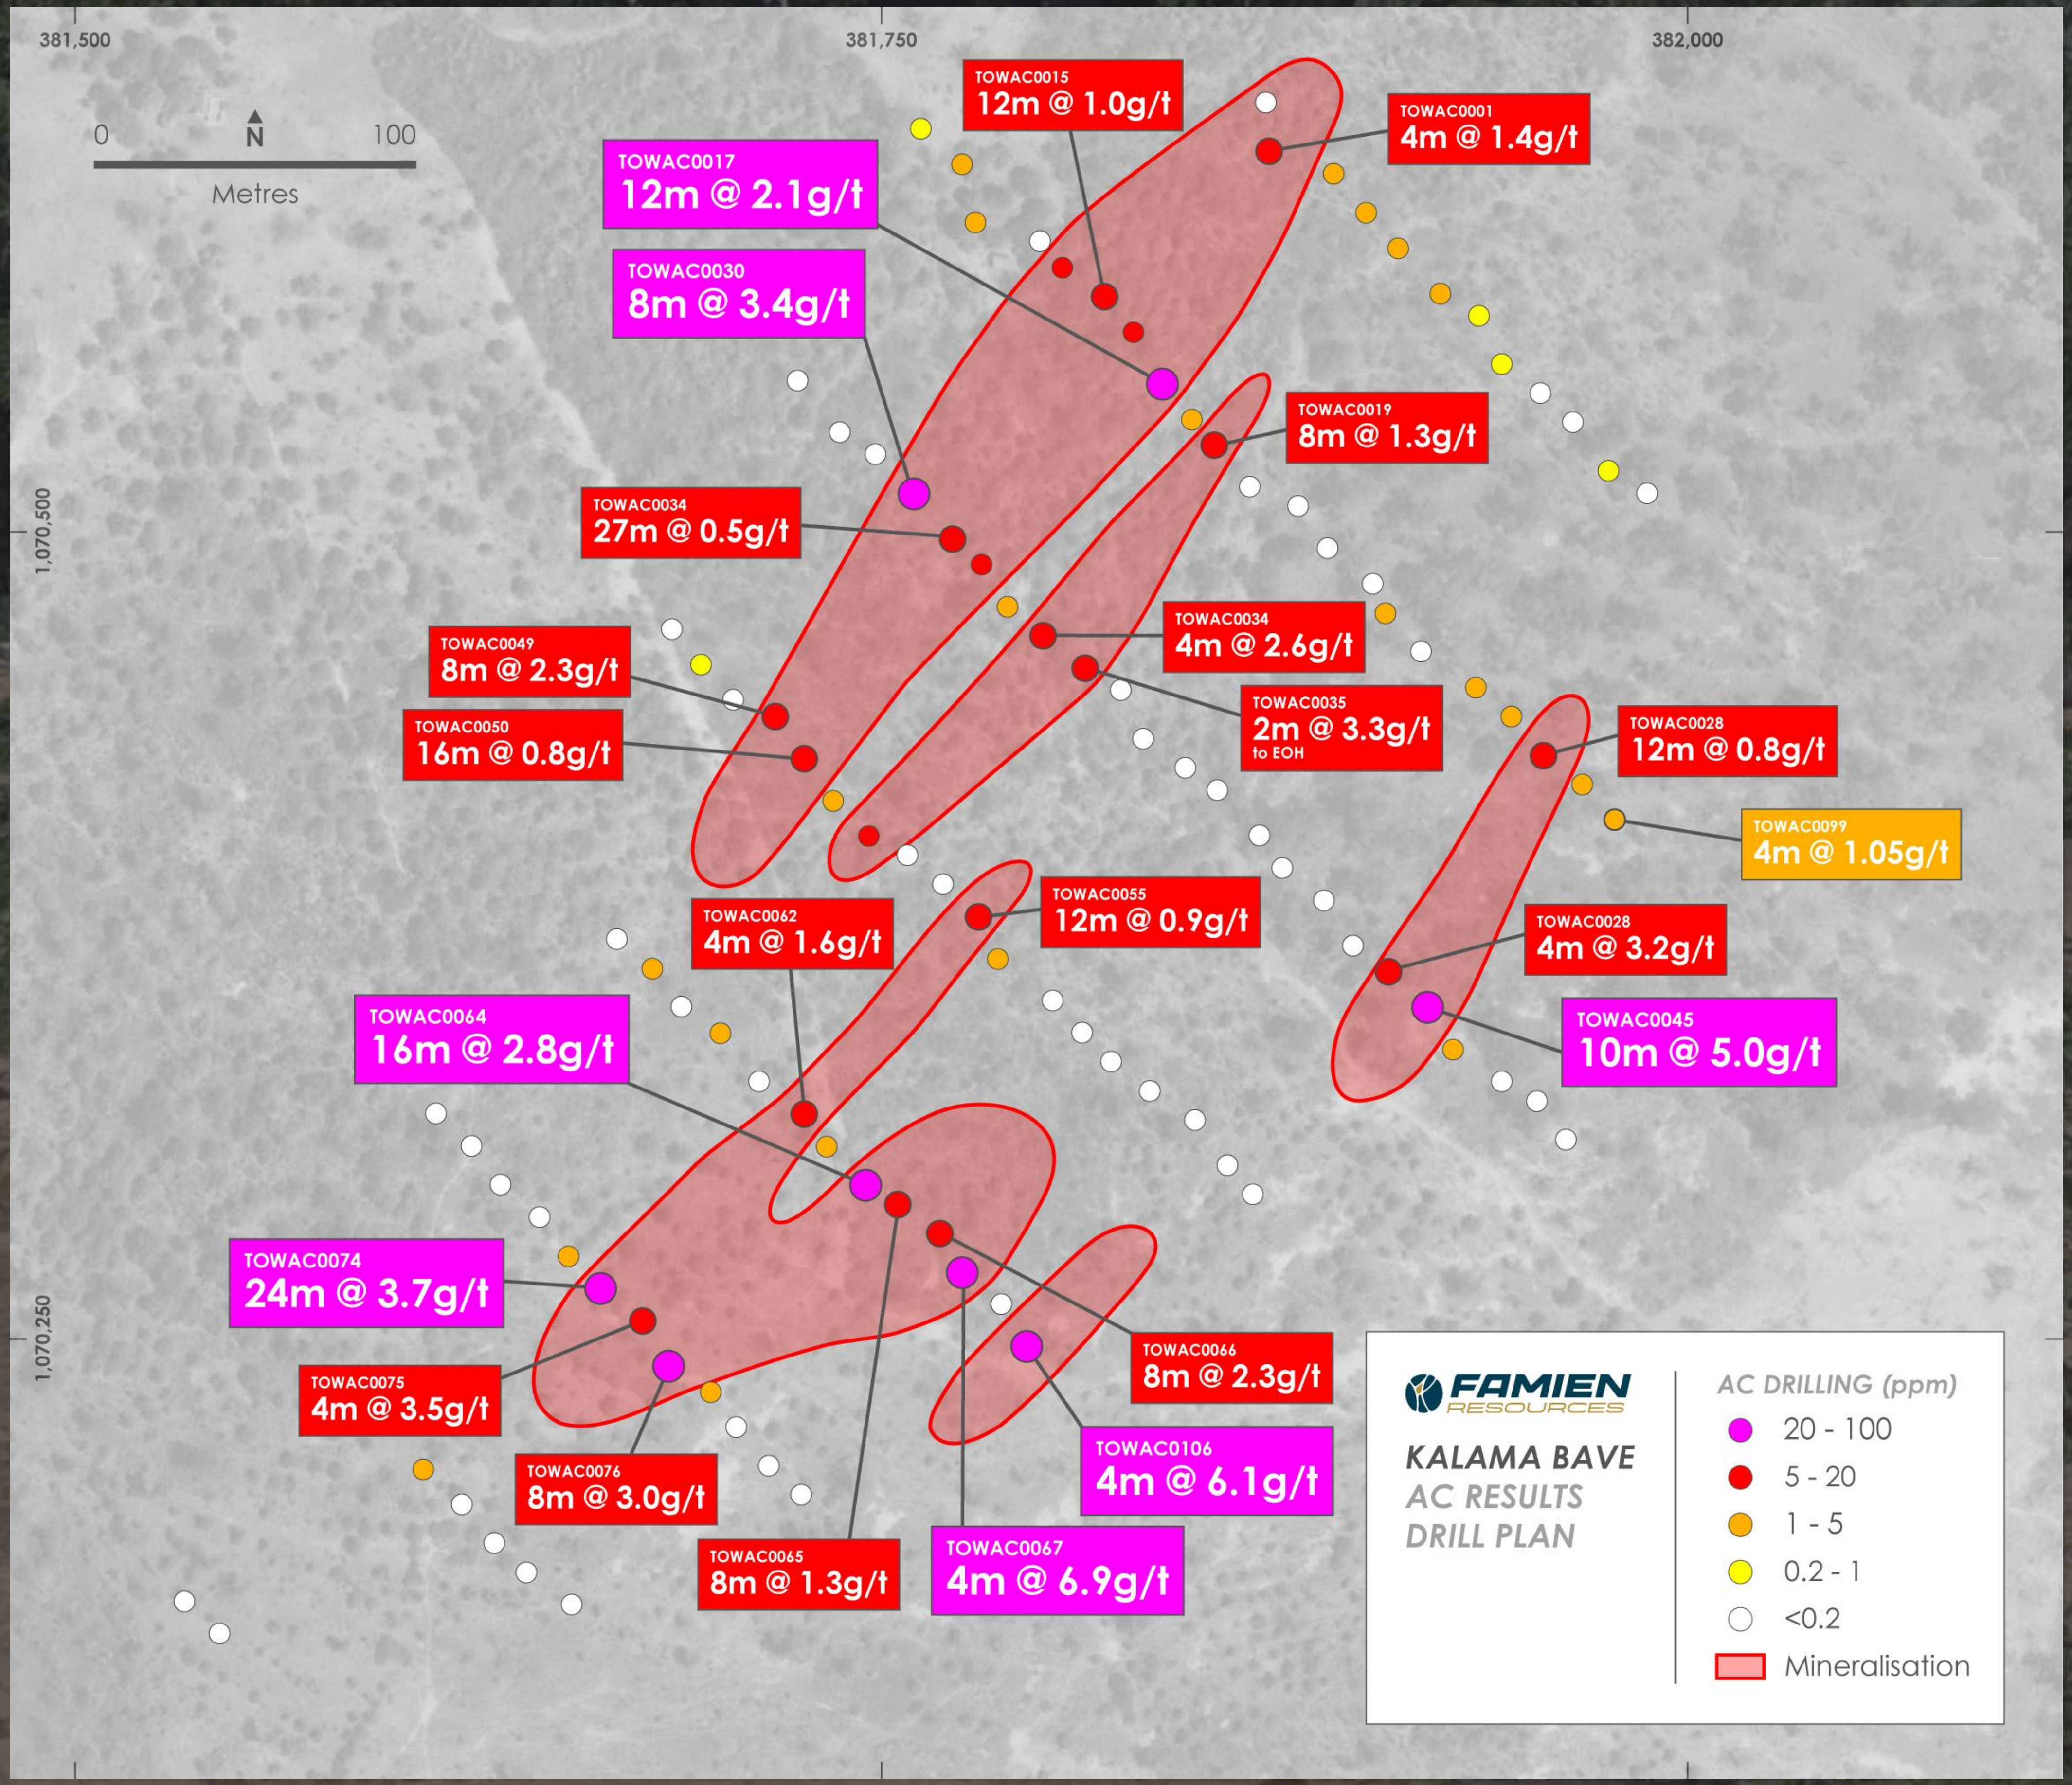
TOAC074: **24m @ 3.72 g/t Au** from 0m, incl. **4m @ 20.40 g/t Au**

TOAC045: **10m @ 4.98g/t Au** from 20m to end-of-hole (EOH), incl. **4m @ 10.80g/t Au**

TOAC064: **16m @ 2.84g/t Au** from 8m incl. **4m @ 10.30g/t Au**

TOAC067: **4m @ 6.89g/t Au** from 24m

TOAC030: **8m @ 3.36g/t Au** from 0m



*Refer ENX ASX releases: (1) Strong Auger Results Define Large Aircore Drill Target at Tougbe" (19 January 2026) (2)"Acquisition of Highly Prospective Gold Projects In Côte D'Ivoire" (23 September 2025), and (3) "Exploration Update – Tougbe and Gogo Projects", (9 February 2026).

Tougbo Projects*

KALAMA BAVE - AC DRILLING

Angled aircore drilling intercepts:

TOWAC0074: **24m @ 3.72 g/t Au**, incl. **4m @ 20.40 g/t Au**

TOWAC0045: **10m @ 4.98g/t Au** from 20m to end-of-hole (EOH), incl. **4m @ 10.80g/t Au**

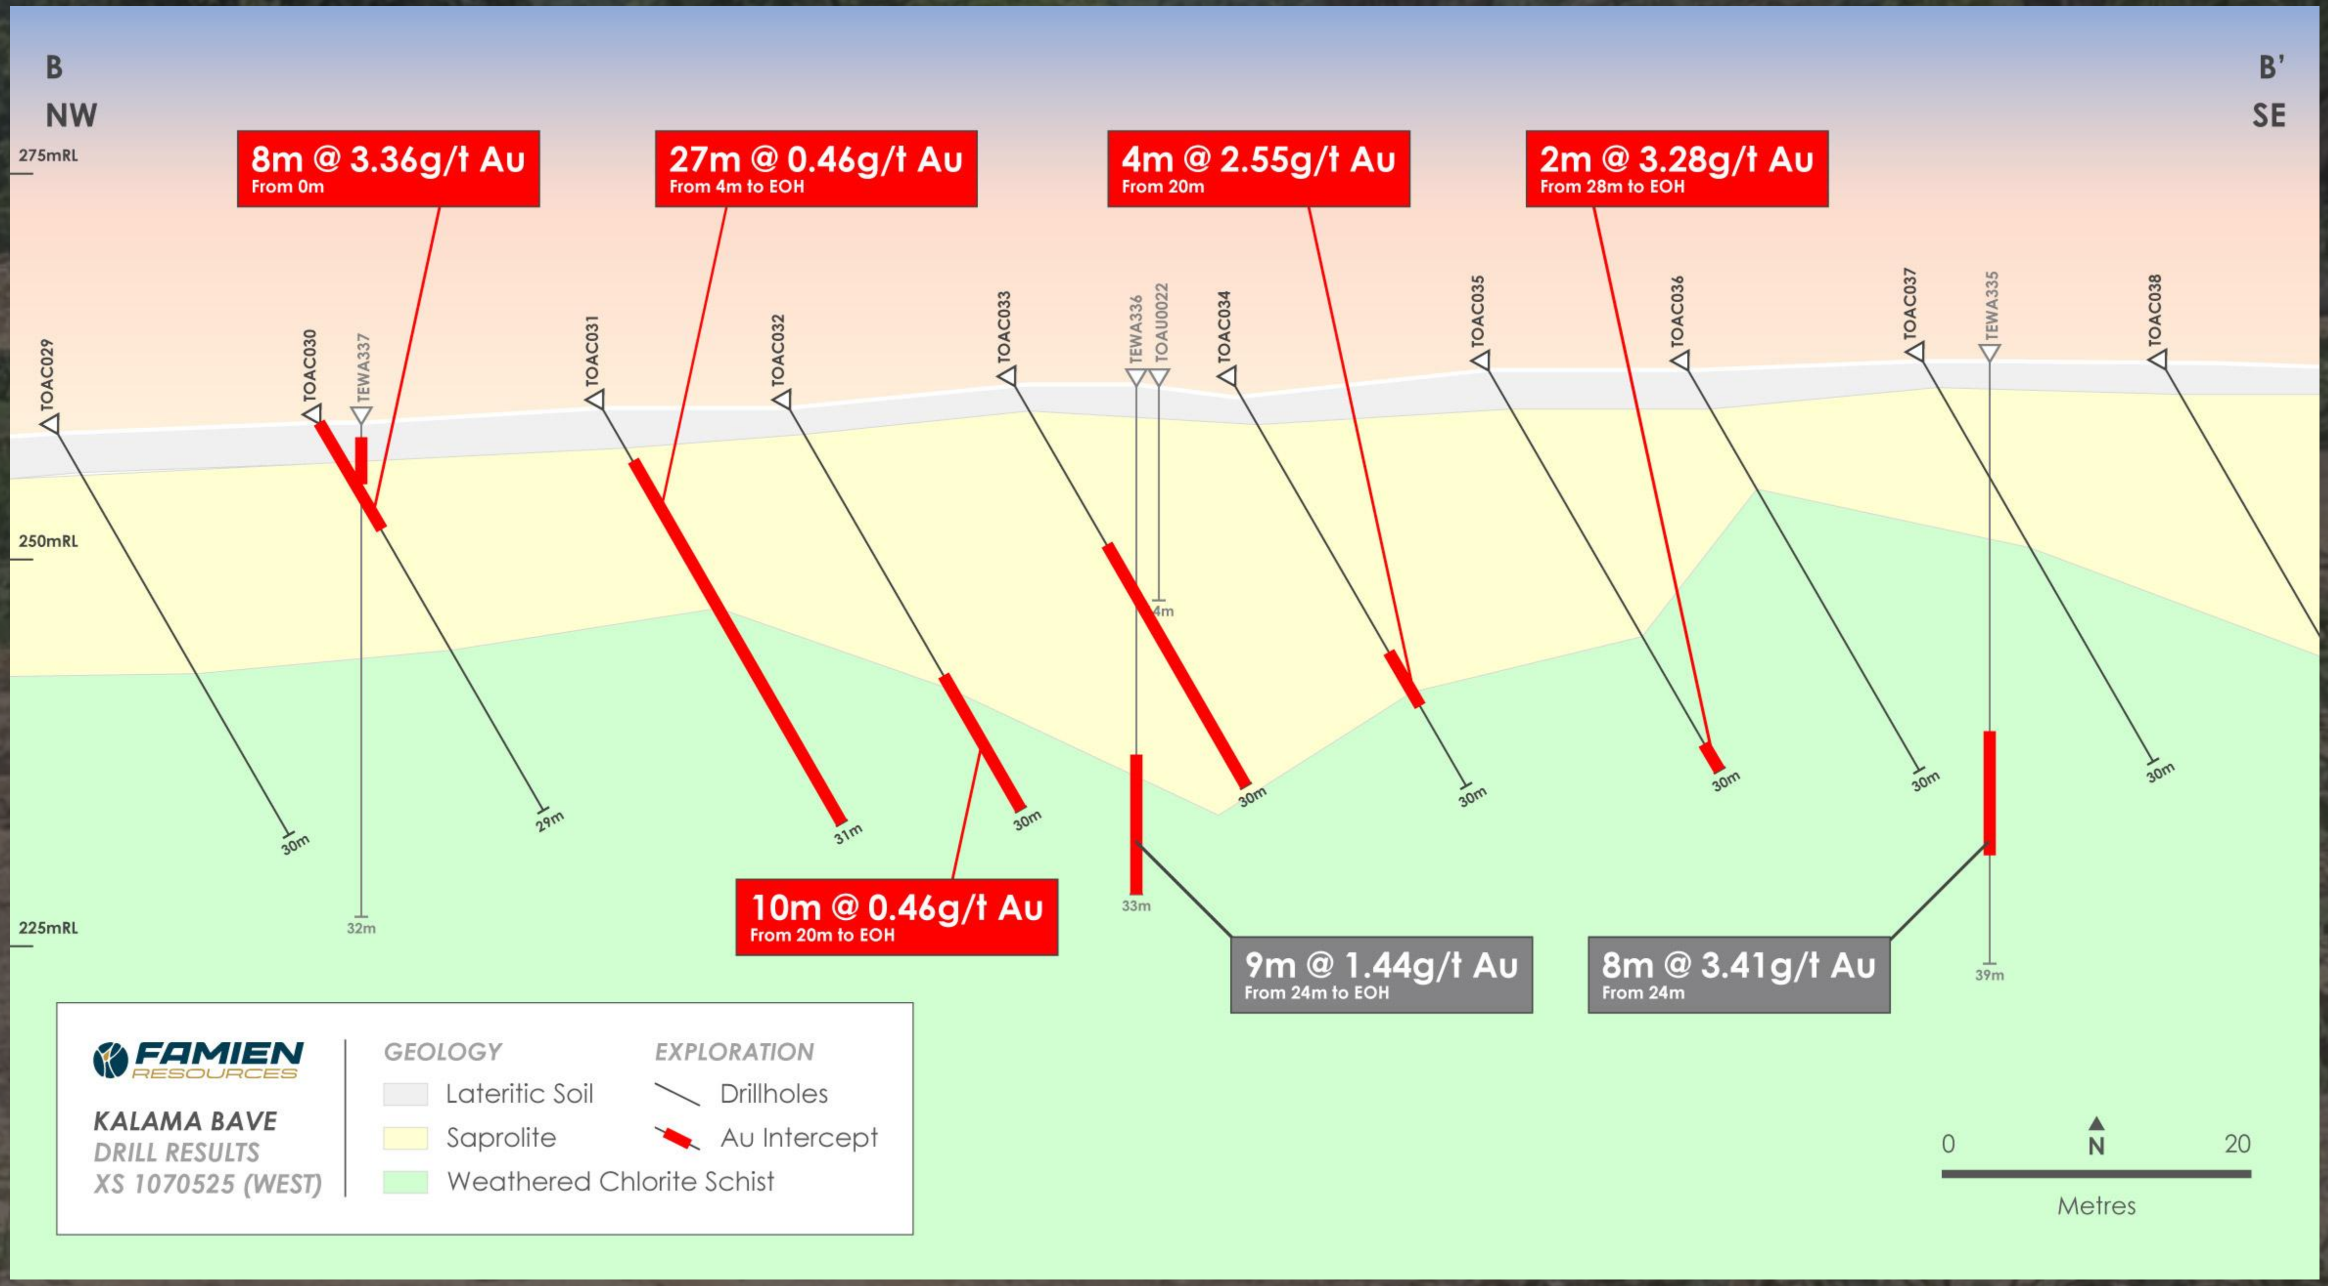
TOWAC0064: **16m @ 2.84g/t Au** incl. **4m @ 10.30g/t Au**

TOWAC0067: **4m @ 6.89g/t Au**

TOWAC0030: **8m @ 3.36g/t Au**

Shallow SE Dip/Stacked System?

RC follow-up(August)



*Refer ENX ASX releases: (1) Strong Auger Results Define Large Aircore Drill Target at Tougbe" 19 January 2026, (2)"Acquisition of Highly Prospective Gold Projects In Côte D'Ivoire", 23 September 2025 and (3) "Strong Gold Intercepts From Maiden Tougbe AC Drill Program" (31 March 2026)

Tougbo Projects*

KALAMA BAVE - AC DRILLING

Initial power auger drill program intercepts:

18m @ 1.6g/t Au incl. **8m @ 3.2g/t Au 10m @ 1.2g/t Au** incl. **7m @ 1.7g/t Au 32m @ 0.6g/t Au**, incl. **4m @ 3.7g/t Au** **Angled**

Aircore drilling intercepts:

TOAC074: **24m @ 3.72 g/t Au** from 0m, incl. **4m @ 20.40 g/t Au**

TOAC045: **10m @ 4.98g/t Au** from 20m to end-of-hole (EOH), incl. **4m @ 10.80g/t Au**

TOAC064: **16m @ 2.84g/t Au** from 8m incl. **4m @ 10.30g/t Au**

Tougbo Permit - New Target

AW1 TARGET

Vertical channel samples on a grid including:

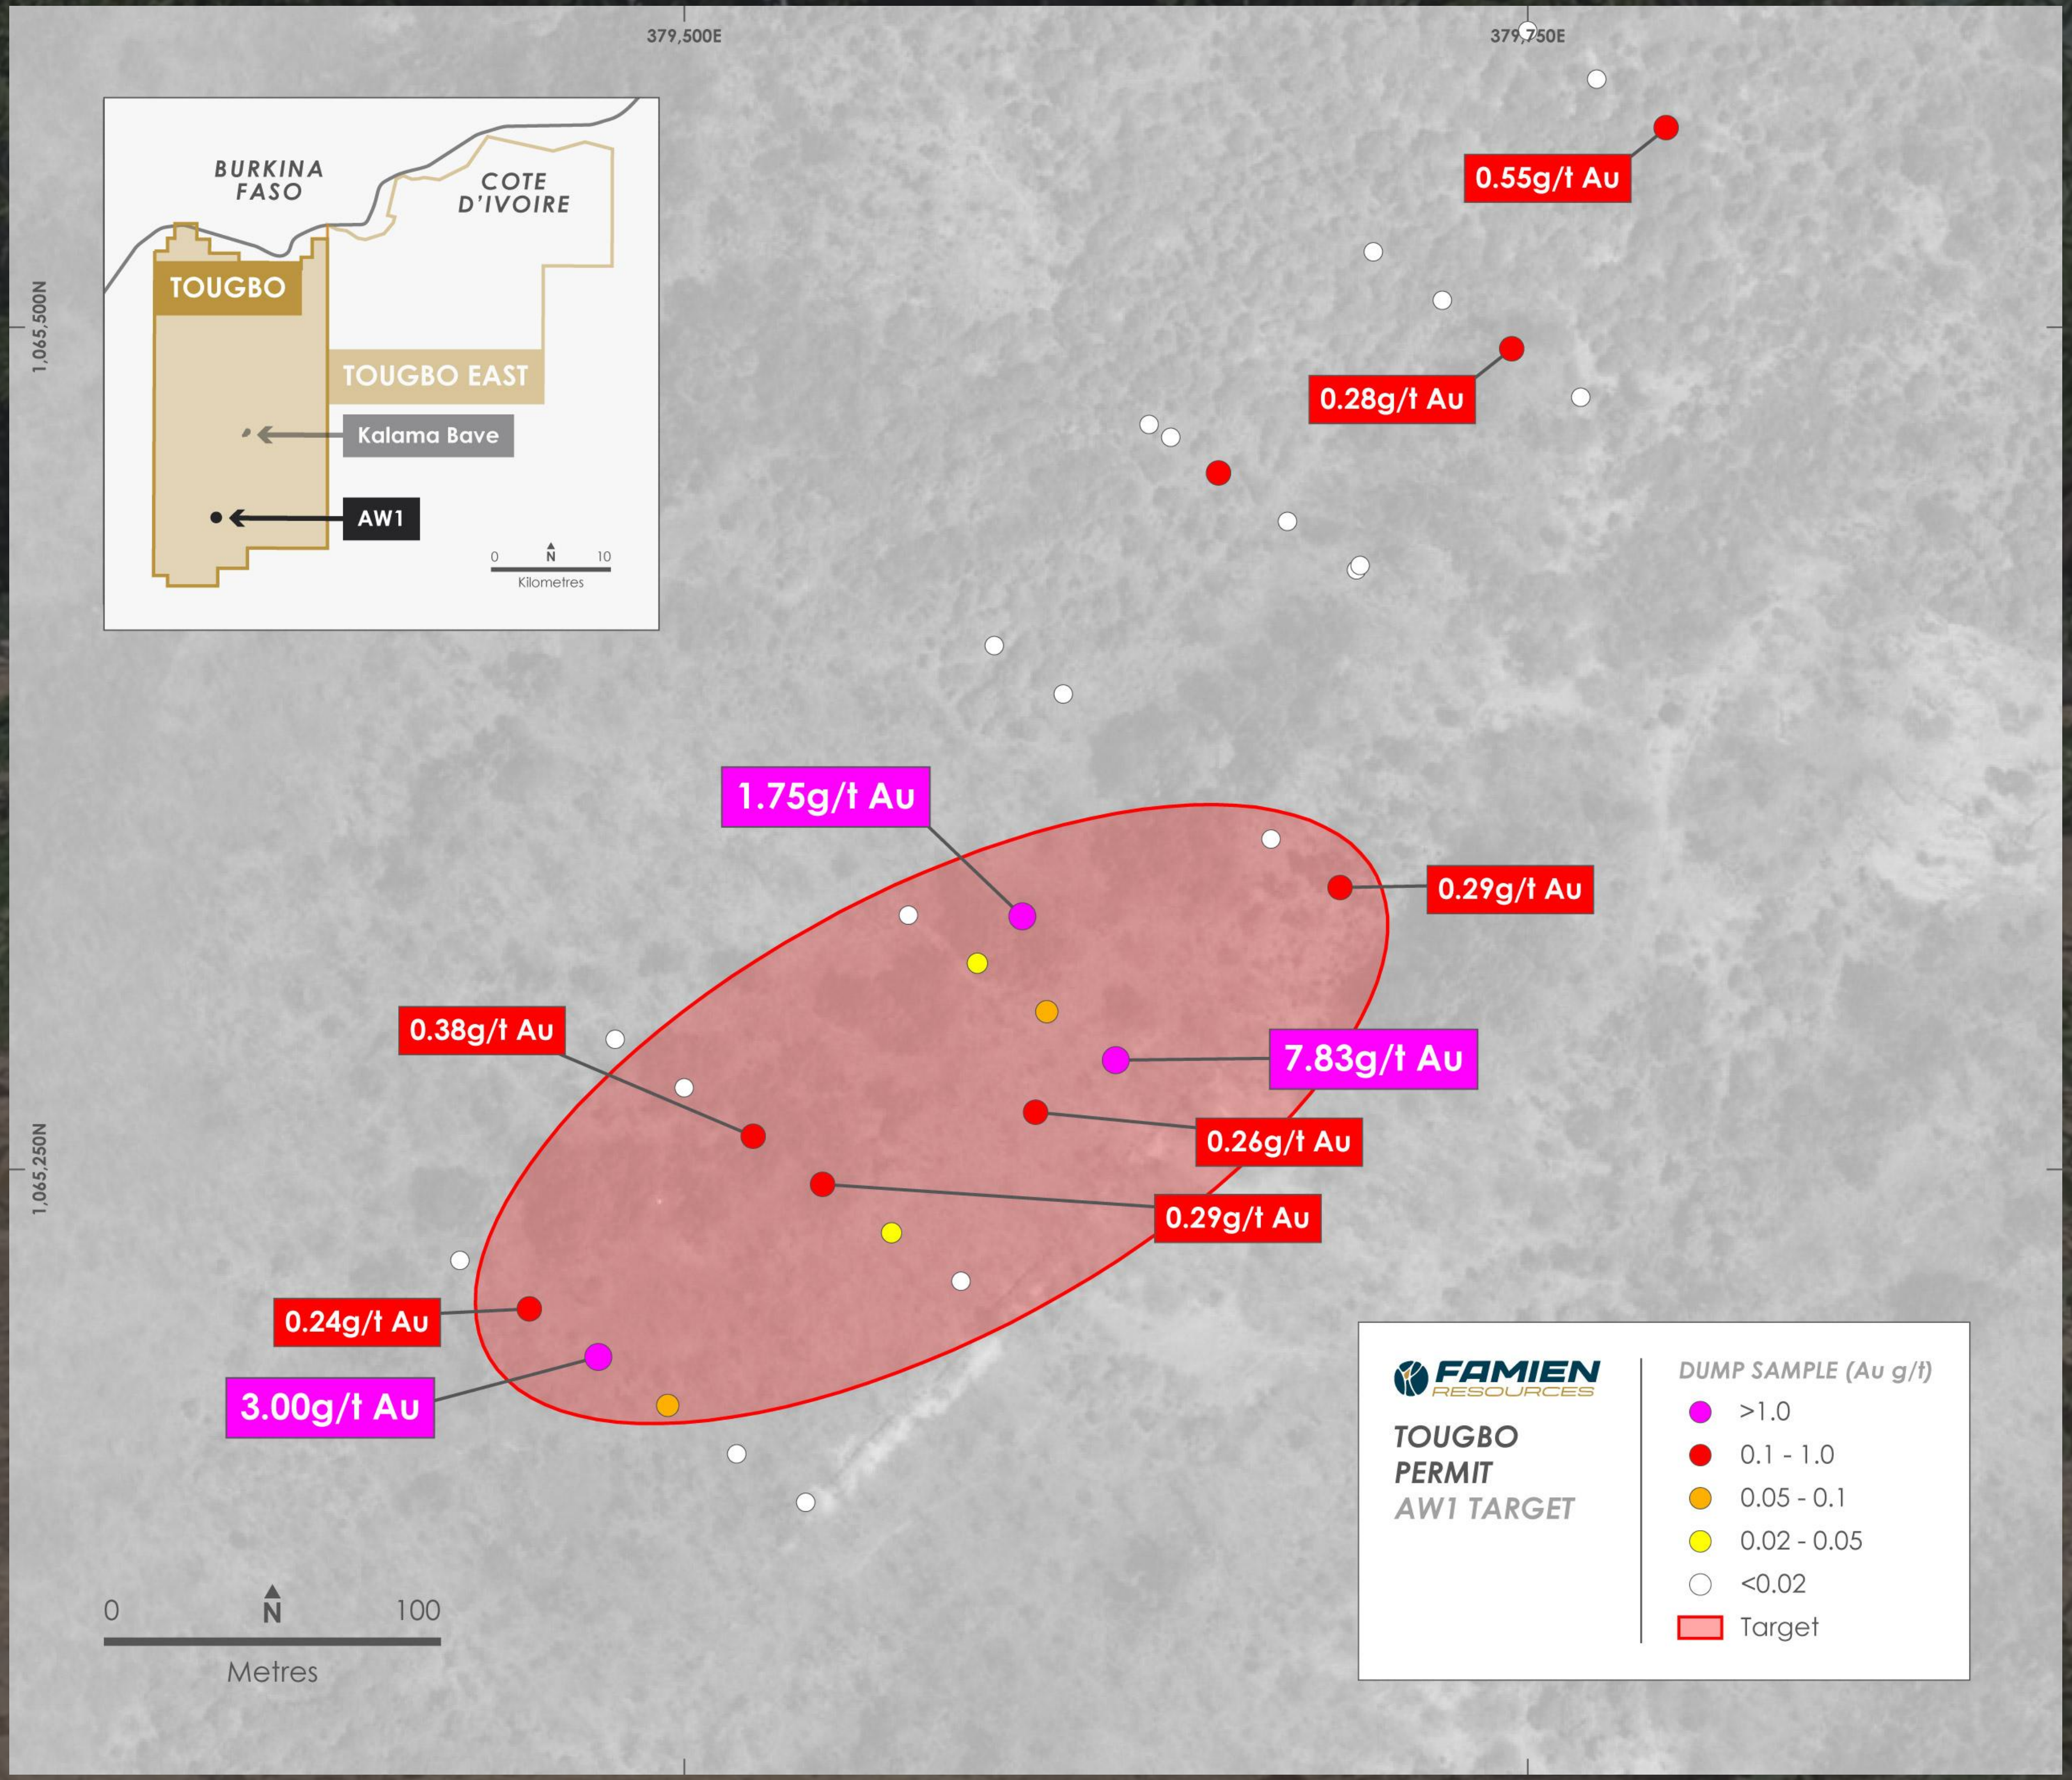
- **7.83g/t Au**
- **3.00g/t Au**
- **1.75g/t Au**

Of 36 samples, 13 samples >0.1g/t Au, **with average value of 1.26g/t Au*.**

Most gold-anomalous samples saprolite of metasediments without quartz veining- **disseminated style of gold mineralization?**

On major NE-trending structure extending north to Koroba West artisanal site

660m of AC completed



*Refer ENX ASX release: "New Gold Prospective Zone Identified at Tougbe, Cote D'Ivoire" (20 April 2026).

Tougbo Permit - AW1 Target

AW1 - FIRST AC DRILLING

Initial sampling obtained peak value of **7.83g/t Au**

Small initial program: 19 holes, 660m

Better intercepts:

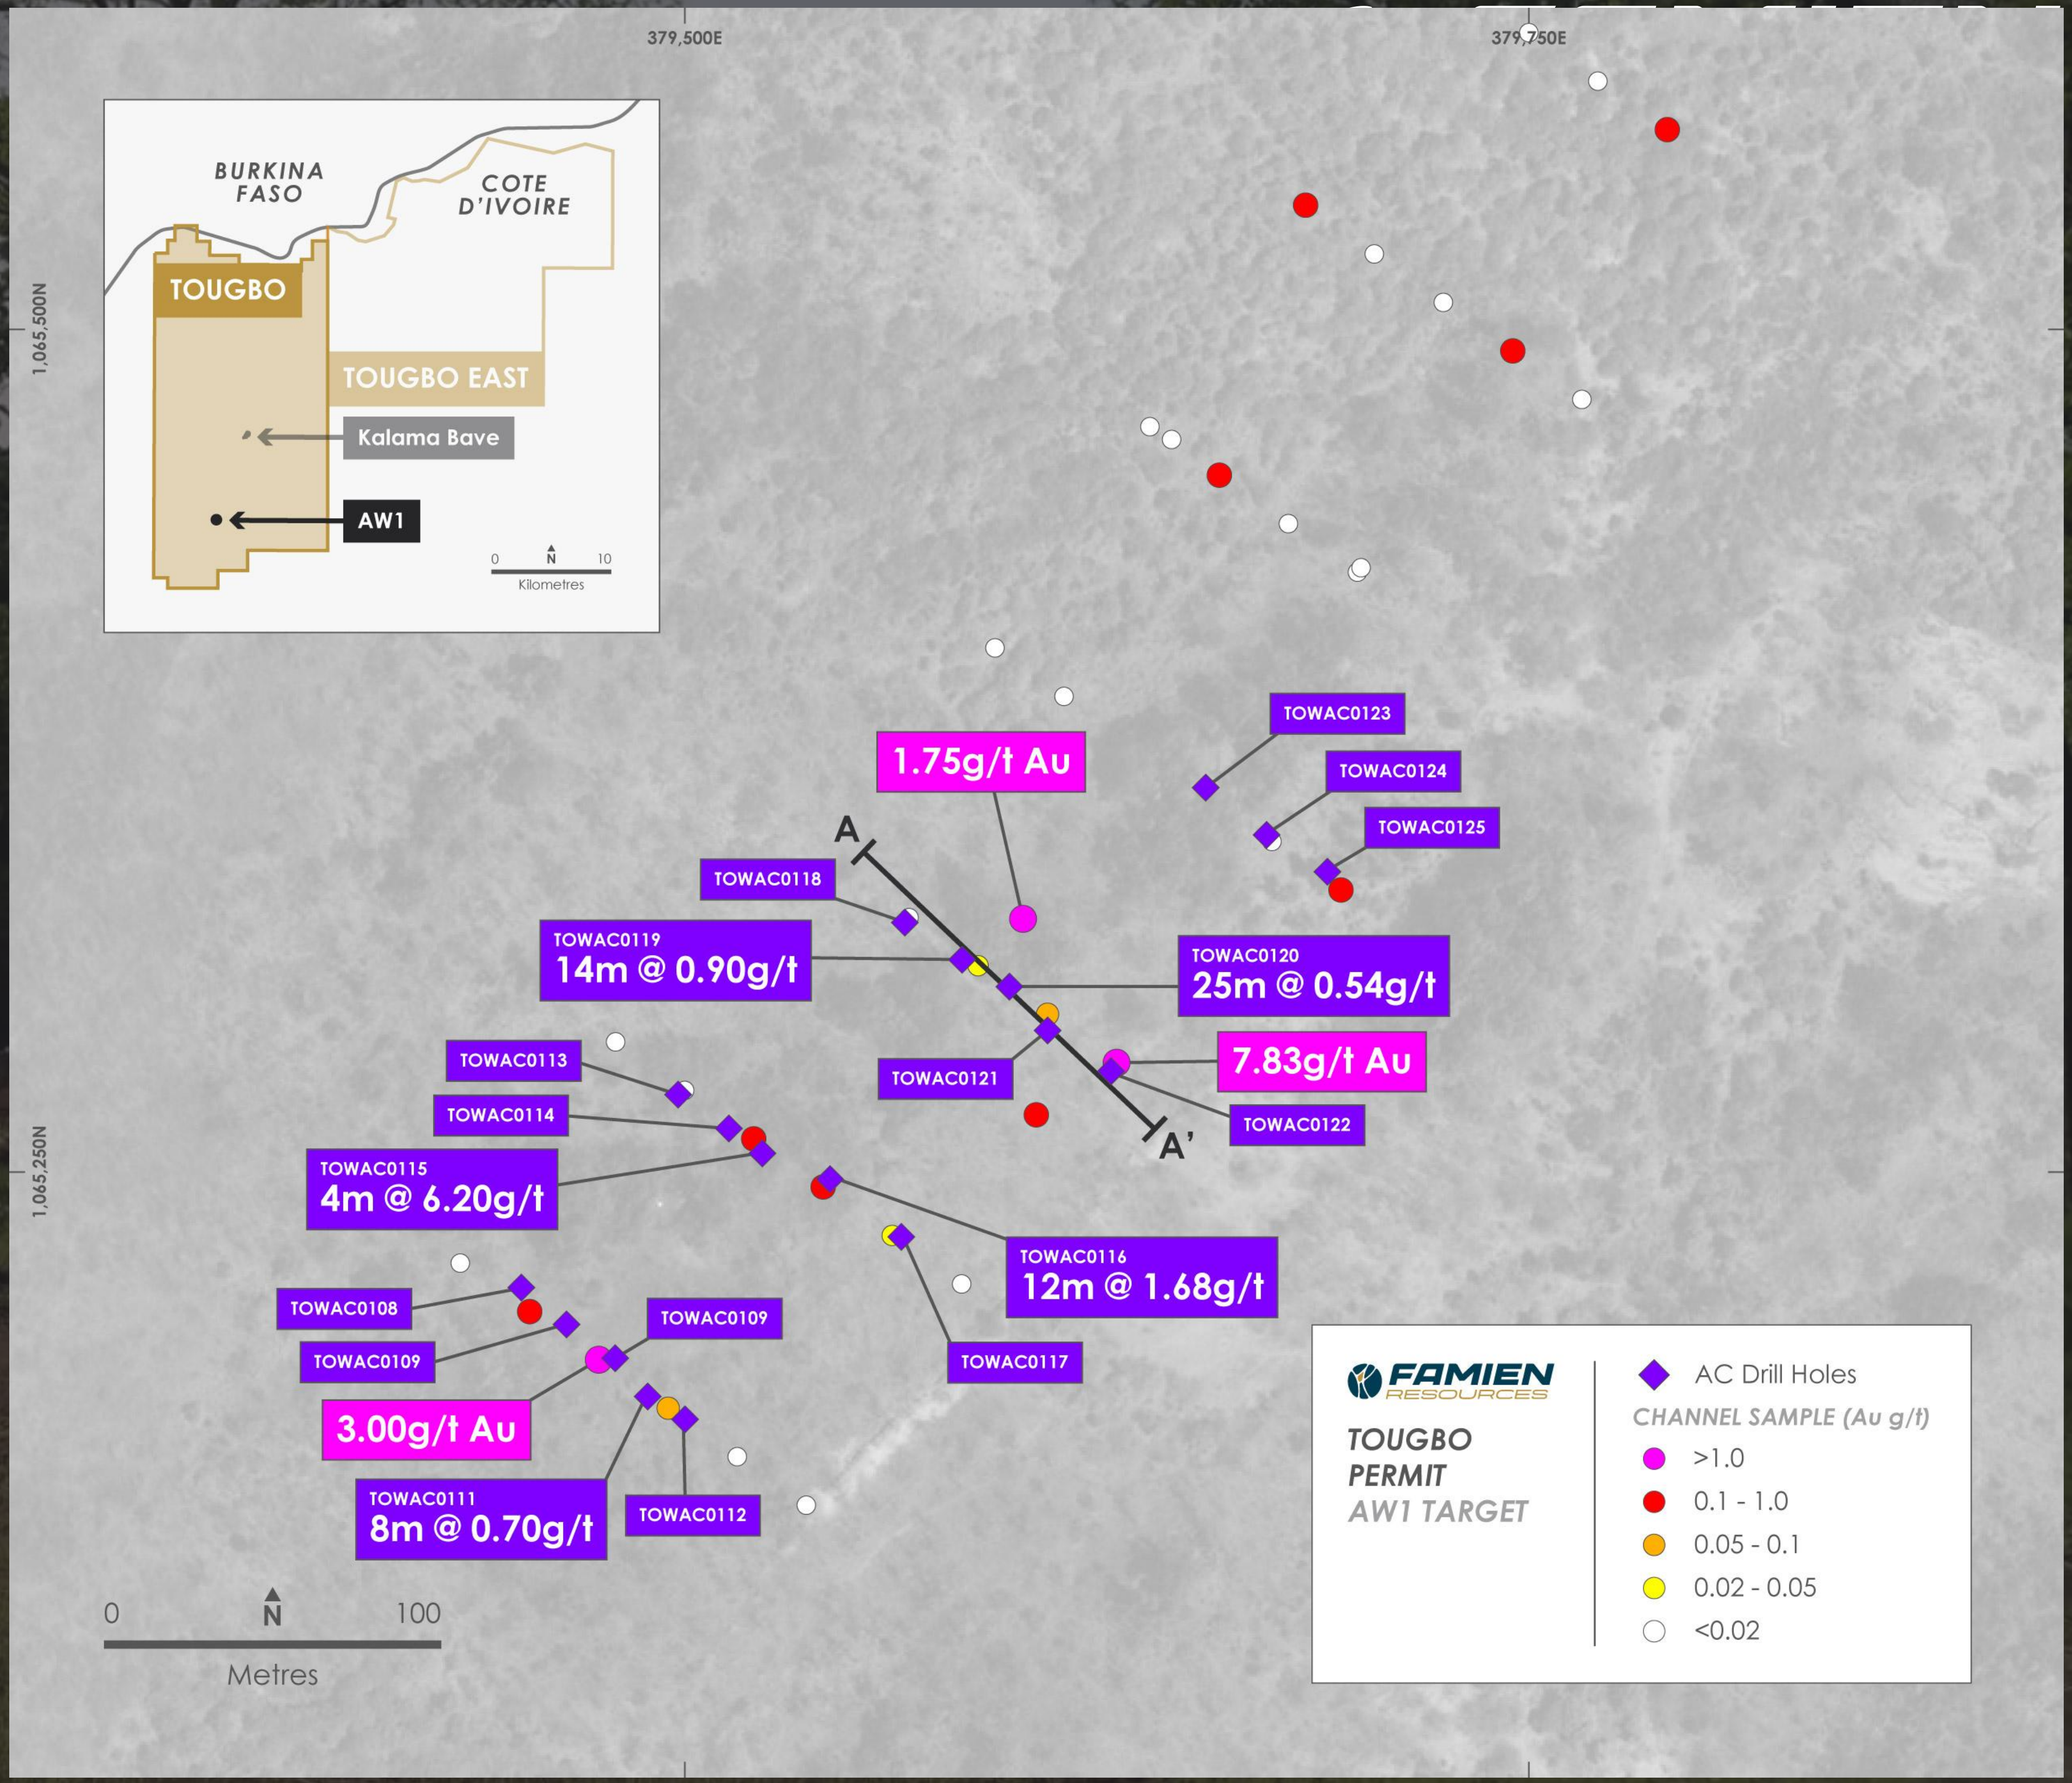
TOWAC0115: **4m @ 6.2g/t Au**

TOWAC0116: **12m @ 1.7g/t Au**, incl. **4m @ 3.9g/t Au**

TOWAC0119: **14m @ 0.9g/t Au**, incl. **6m @ 1.50g/t Au** (ending in mineralisation)

TOWAC0120: **26m @ 0.54g/t Au** (ending in mineralisation)

RC follow-up planned



*Refer ENX ASX release: "New Gold Prospective Zone Identified at Tougbe, Cote D'Ivoire" (20 April 2026) and RC Drilling Starts at Gogo & AC Drilling Confirms AW1 Target (14 May 2026)

Tougbo Permit - AW1 Target*

AW1 - FIRST AC DRILLING

Small initial program: 19 holes, 660m

Better intercepts:

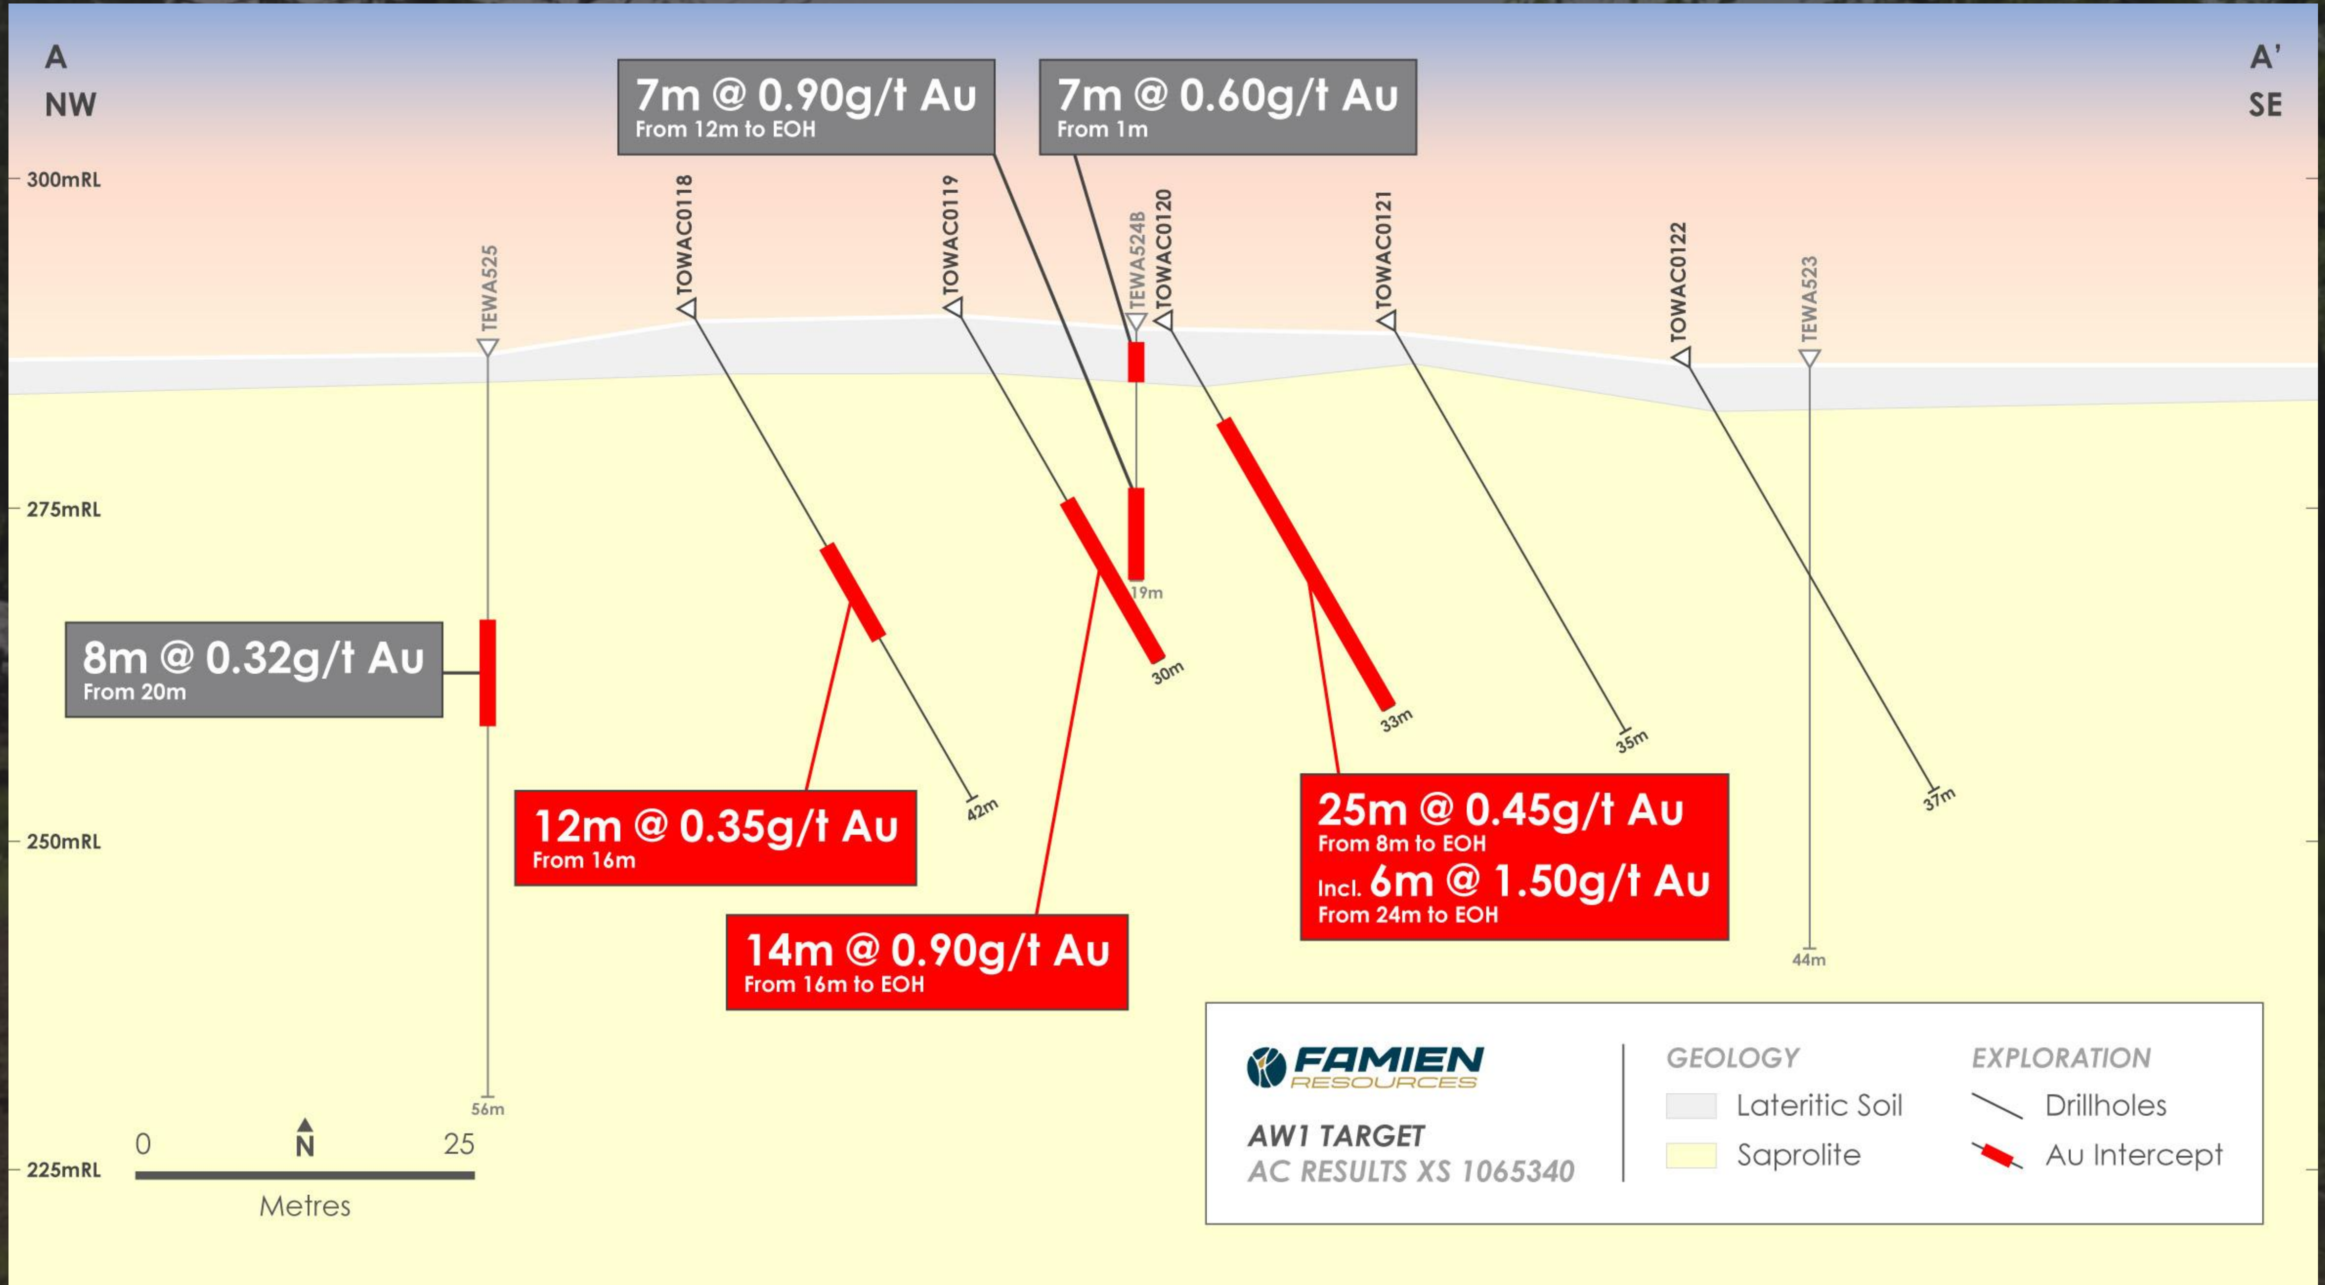
TOWAC0115: **4m @ 6.2g/t Au**

TOWAC0116: **12m @ 1.7g/t Au,**
incl. **4m @ 3.9g/t Au**

TOWAC0119: **14m @ 0.9g/t Au,**
incl. **6m @ 1.50g/t Au (ending in mineralisation)**

TOWAC0120: **26m @ 0.54g/t Au (ending in mineralisation)**

RC follow-up warranted



*Refer ENX ASX release: "New Gold Prospective Zone Identified at Tougbe, Cote D'Ivoire" (20 April 2026) and RC Drilling Starts at Gogo & AC Drilling Confirms AW1 Target (14 May 2026)

Tougbo East Permit *

NEW TARGET AREA

Koroba West Artisanal Site

Undrilled artisanal mine site

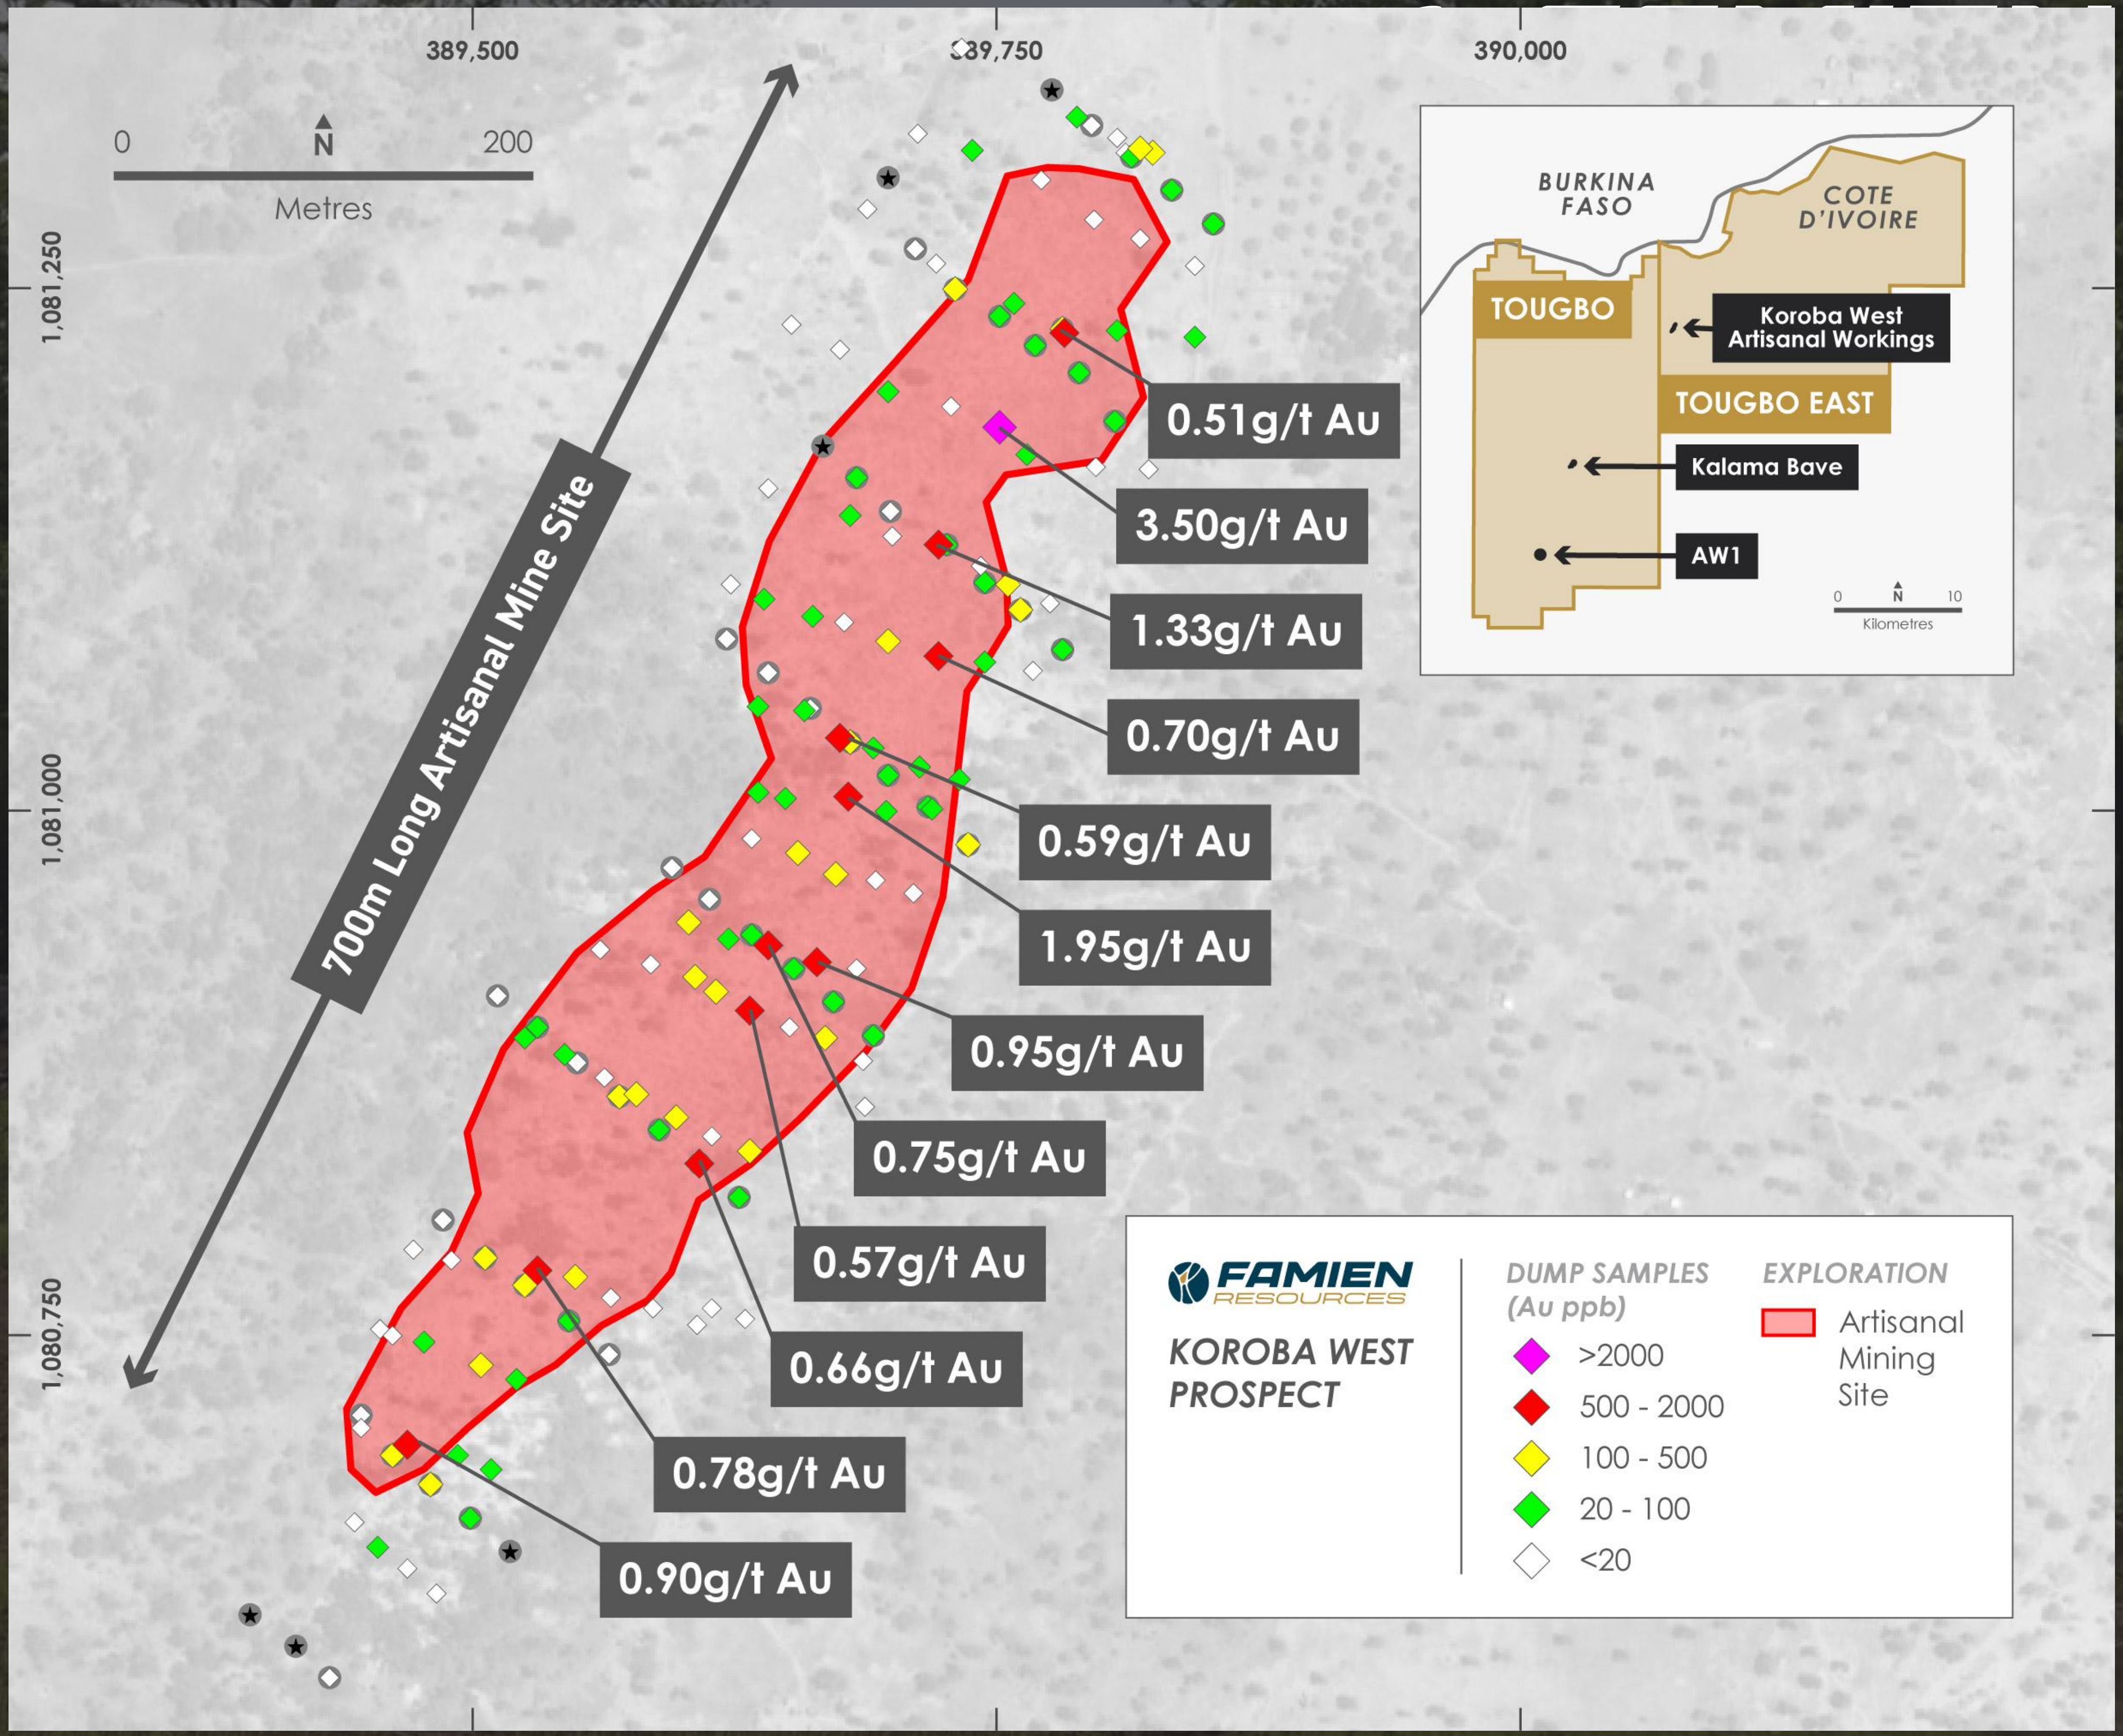
(artisanal shafts 5-10m apart in entire red-shaded area)

Covering 7 hectares

13km NE of Tougbe AC drill target on same structural trend

Grid dump sampling with peak value of 3.5g/t Au

Granitic host to gold values cf. Bongou (Burkina Faso), Ouarigue South (Cote D'Ivoire) and Bankan (Guinea)



*Refer ENX ASX release: 1. "Exploration Update – Tougbe and Gogo Projects", (9 February 2026), 2. "Exploration Update – Cote D'Ivoire" (21 July 2026).

Tougbo East Geological Context *

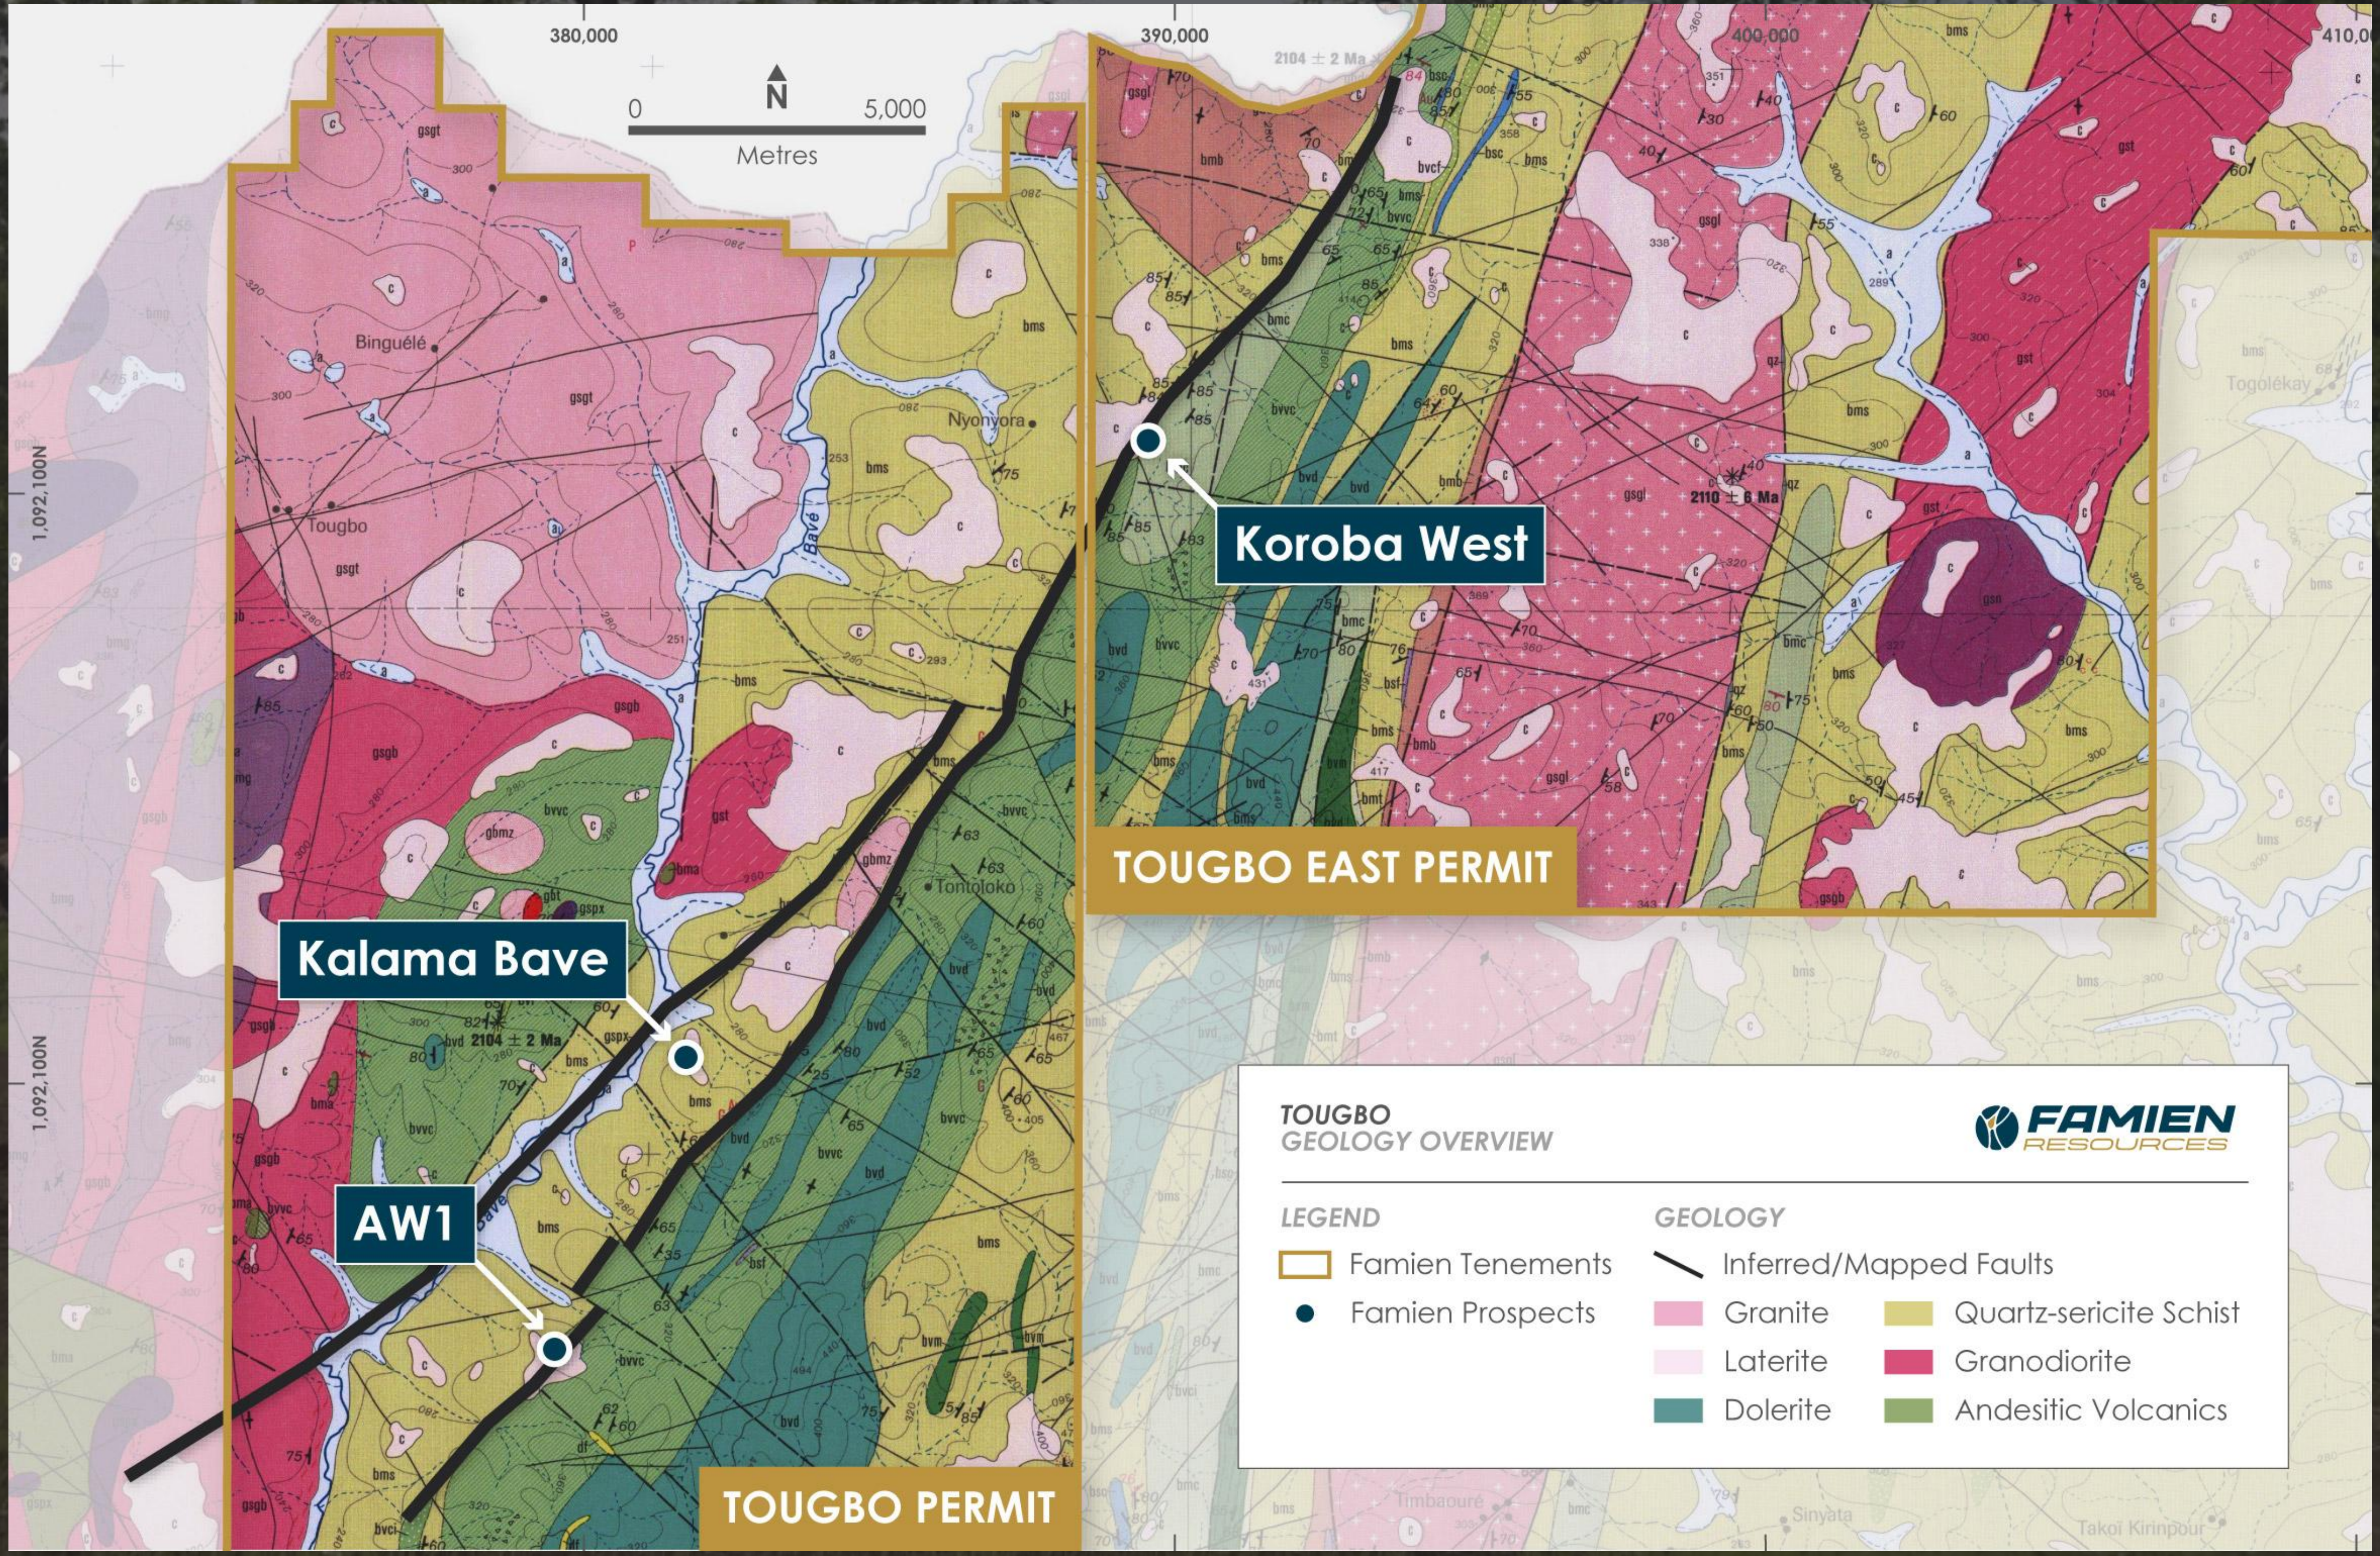
GEOLOGY – TOUGBO PROJECTS

Two **major inferred mineralization-related faults** apparently coalescing near Tougbo-Tougbo East permit boundary

Kalama Bave – close to west structure

AW1 and Koroba West on east structure

Targeting more **granite-hosted mineralization** on eastern fault



*Refer ENX ASX release: "Exploration Update – Cote D'Ivoire" (21 July 2026).

Gogo Permit, Bonougbara Trend *

RC DRILLING IN PROGRESS

3,500m RC drill program in progress on 3 targets:

Northern target:

High grade rock chip values to 92g/t Au

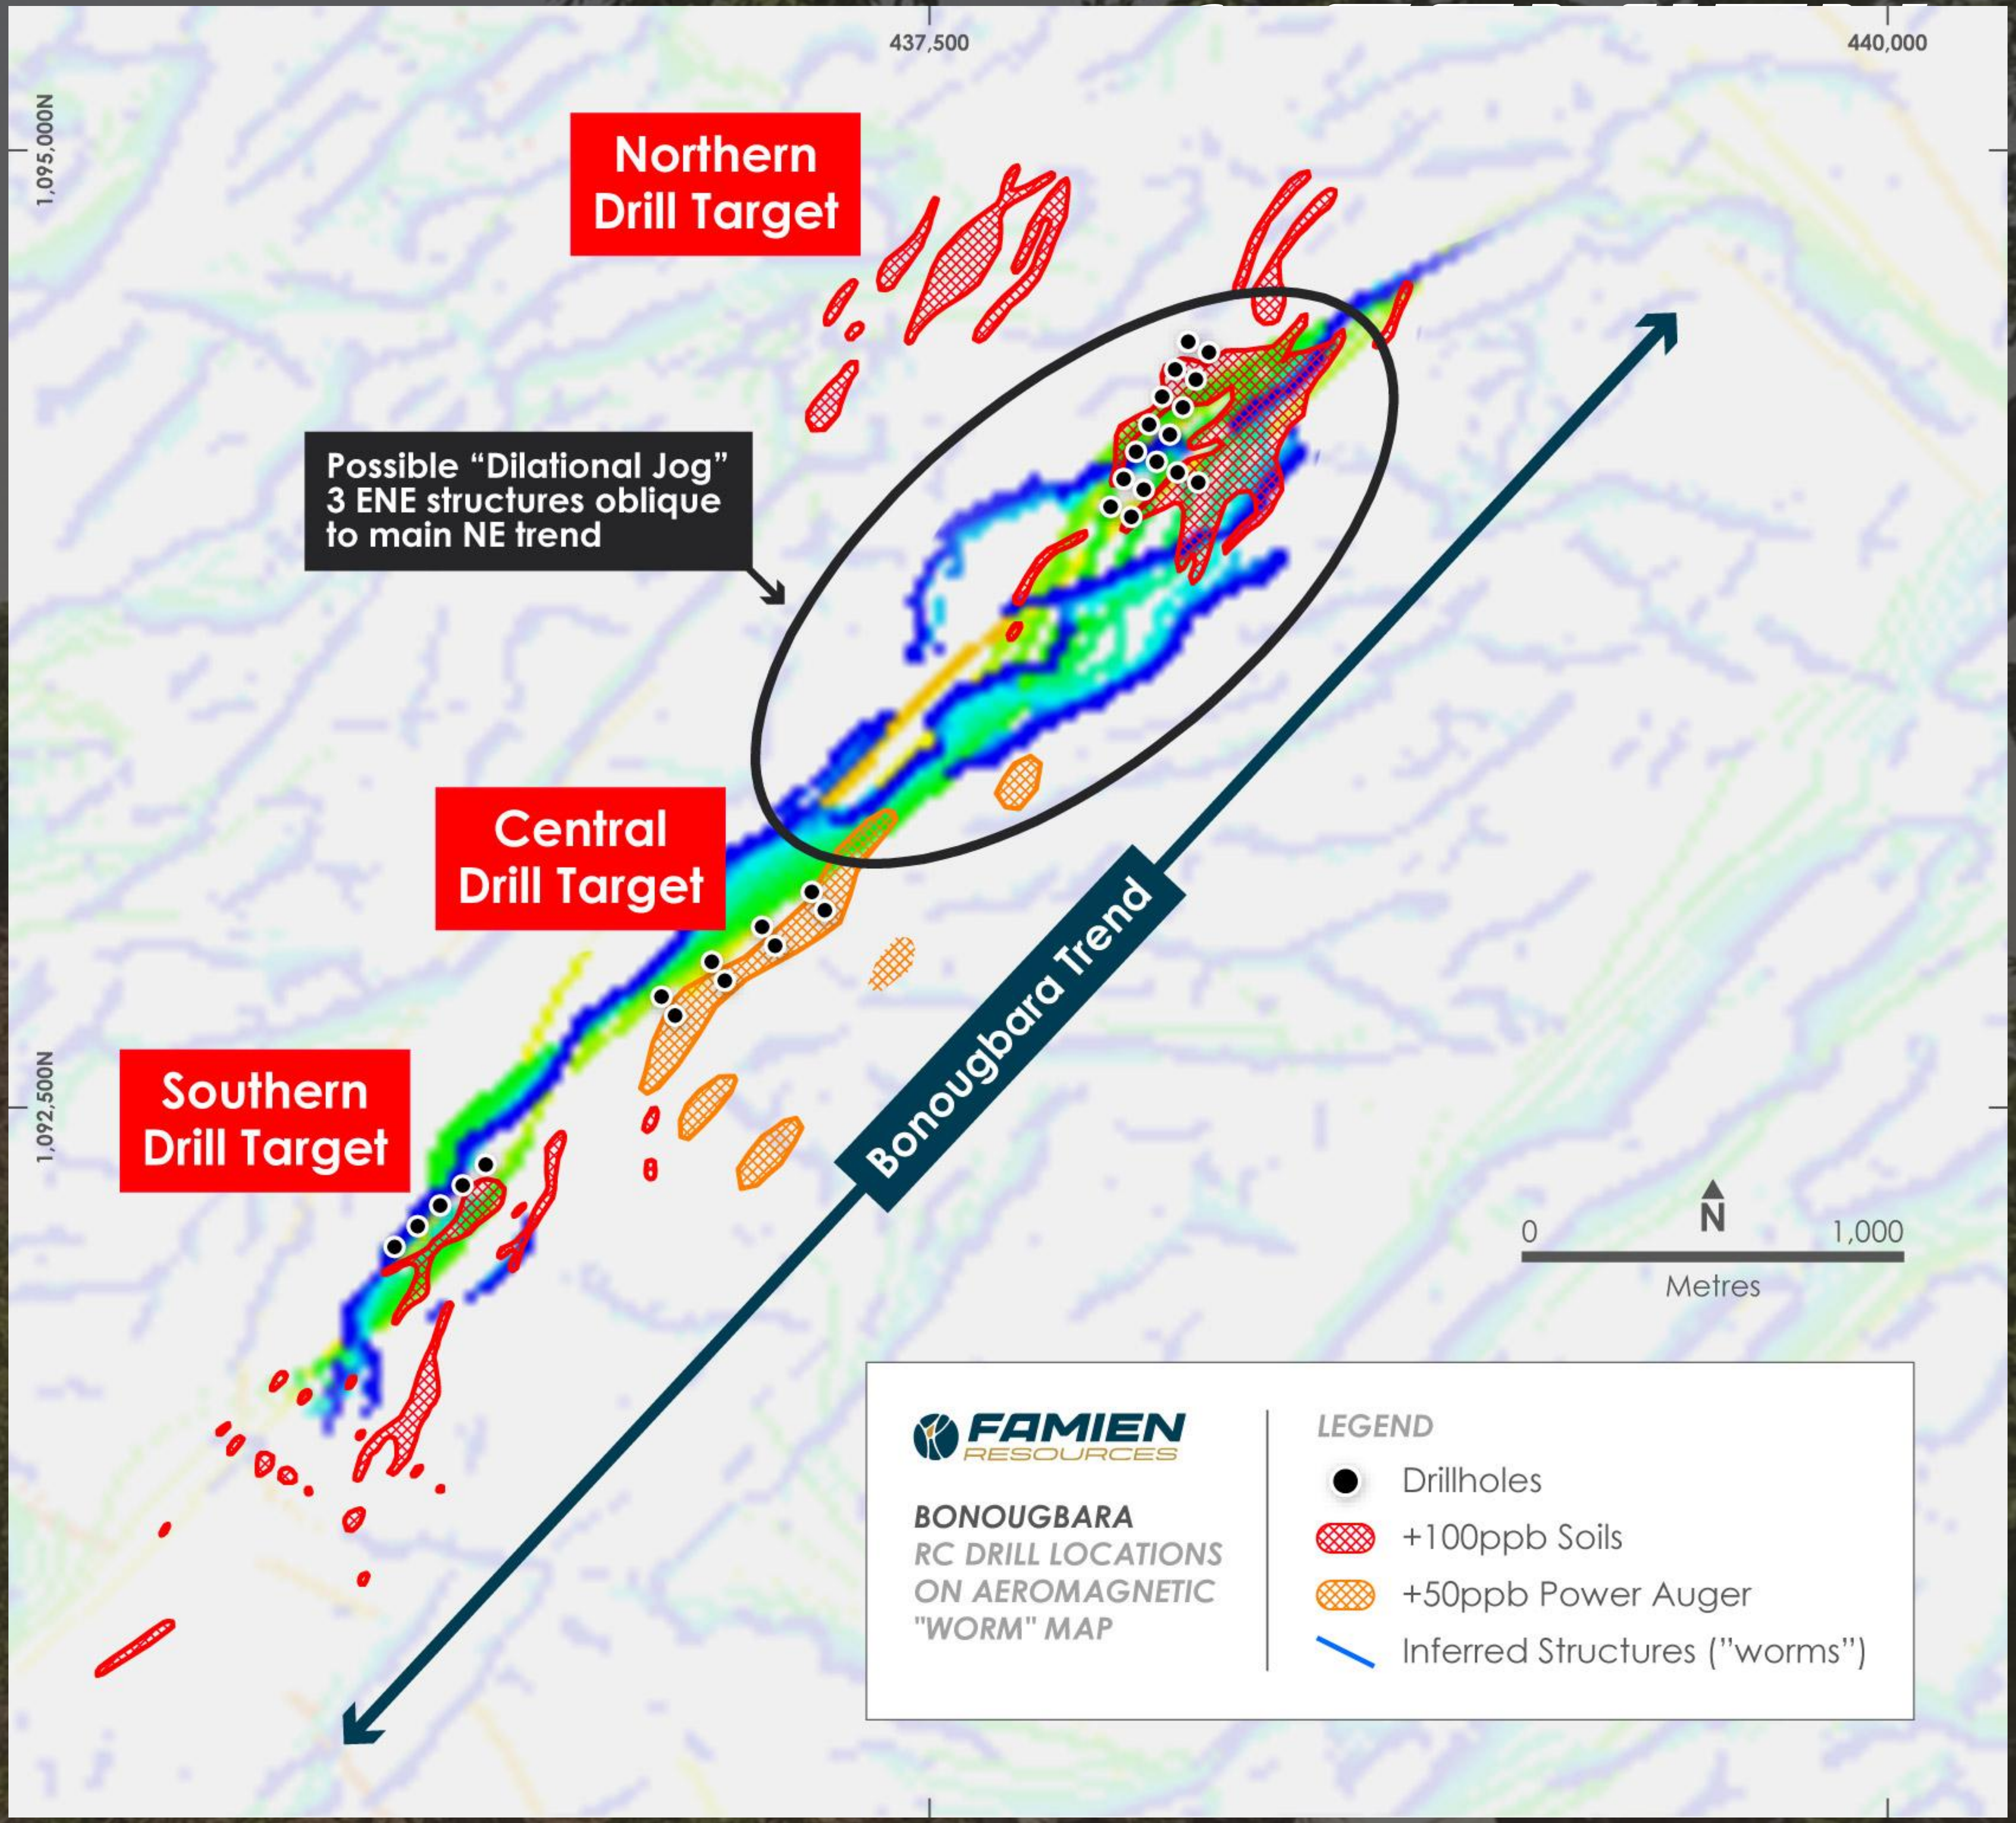
Strong structural target defined by aeromagnetics ("worming")

Central target:

Auger anomaly under cover

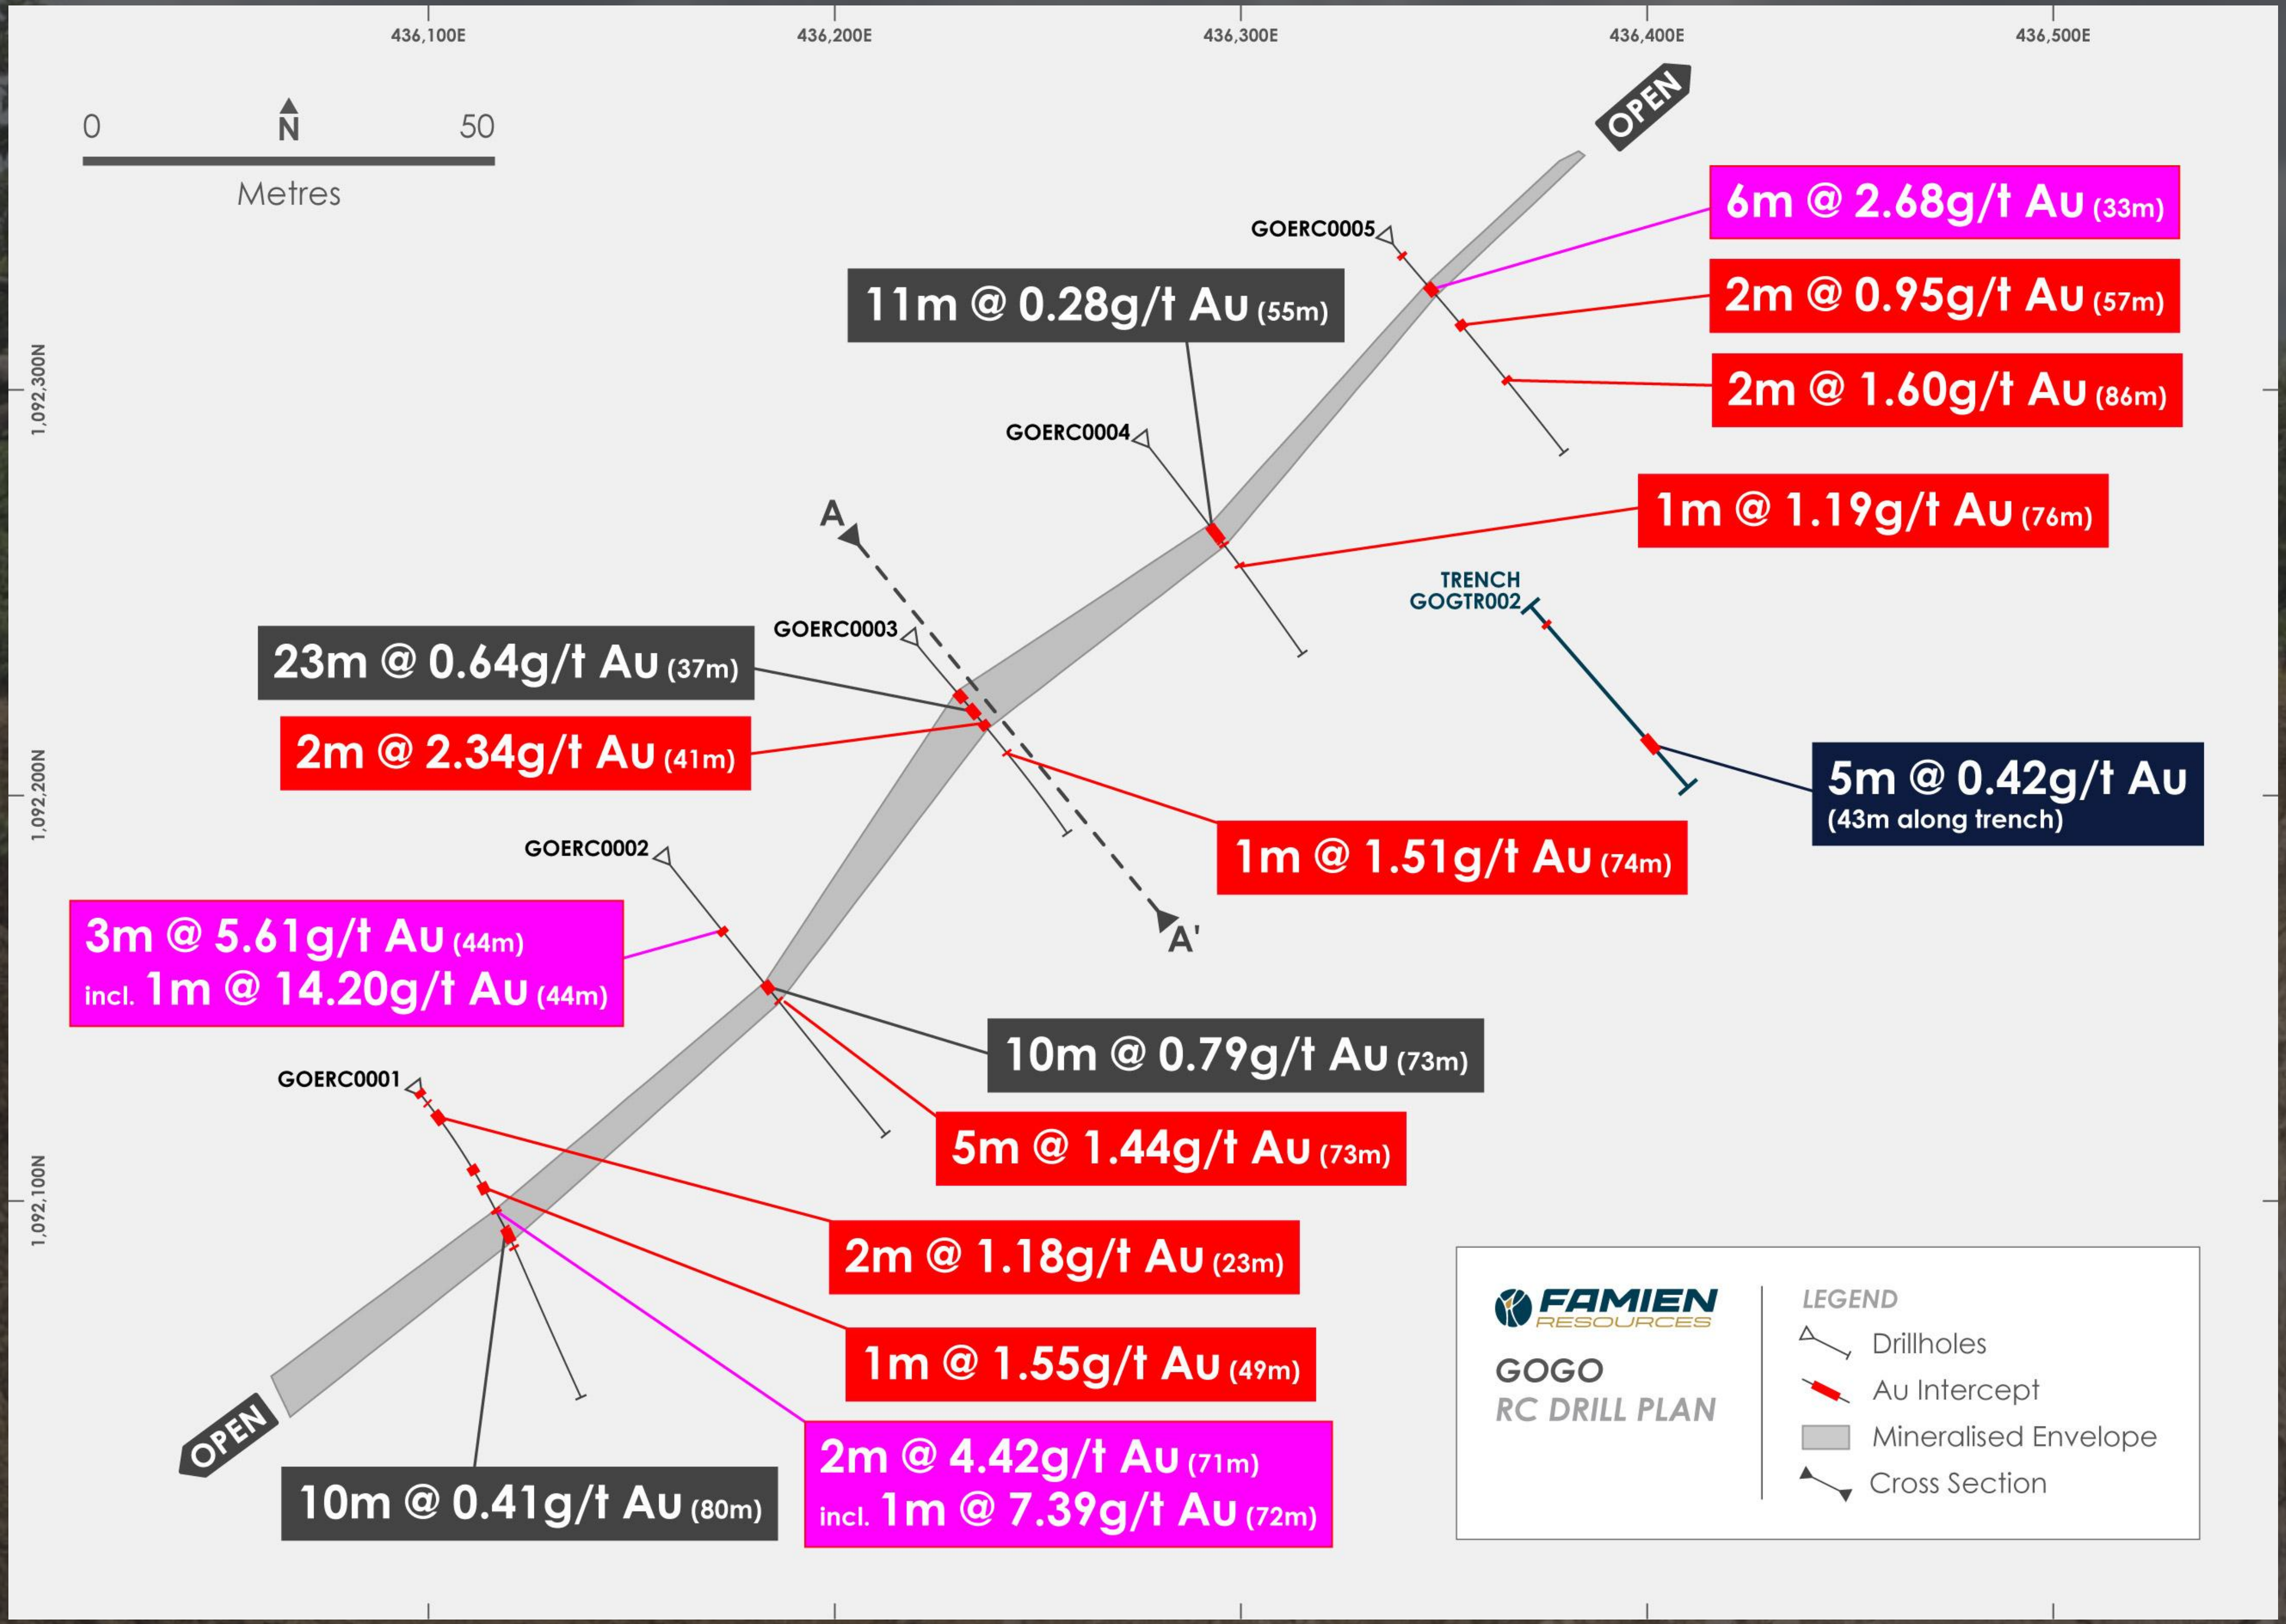
Southern target:

Artisanal site coincident with strong structure and alteration



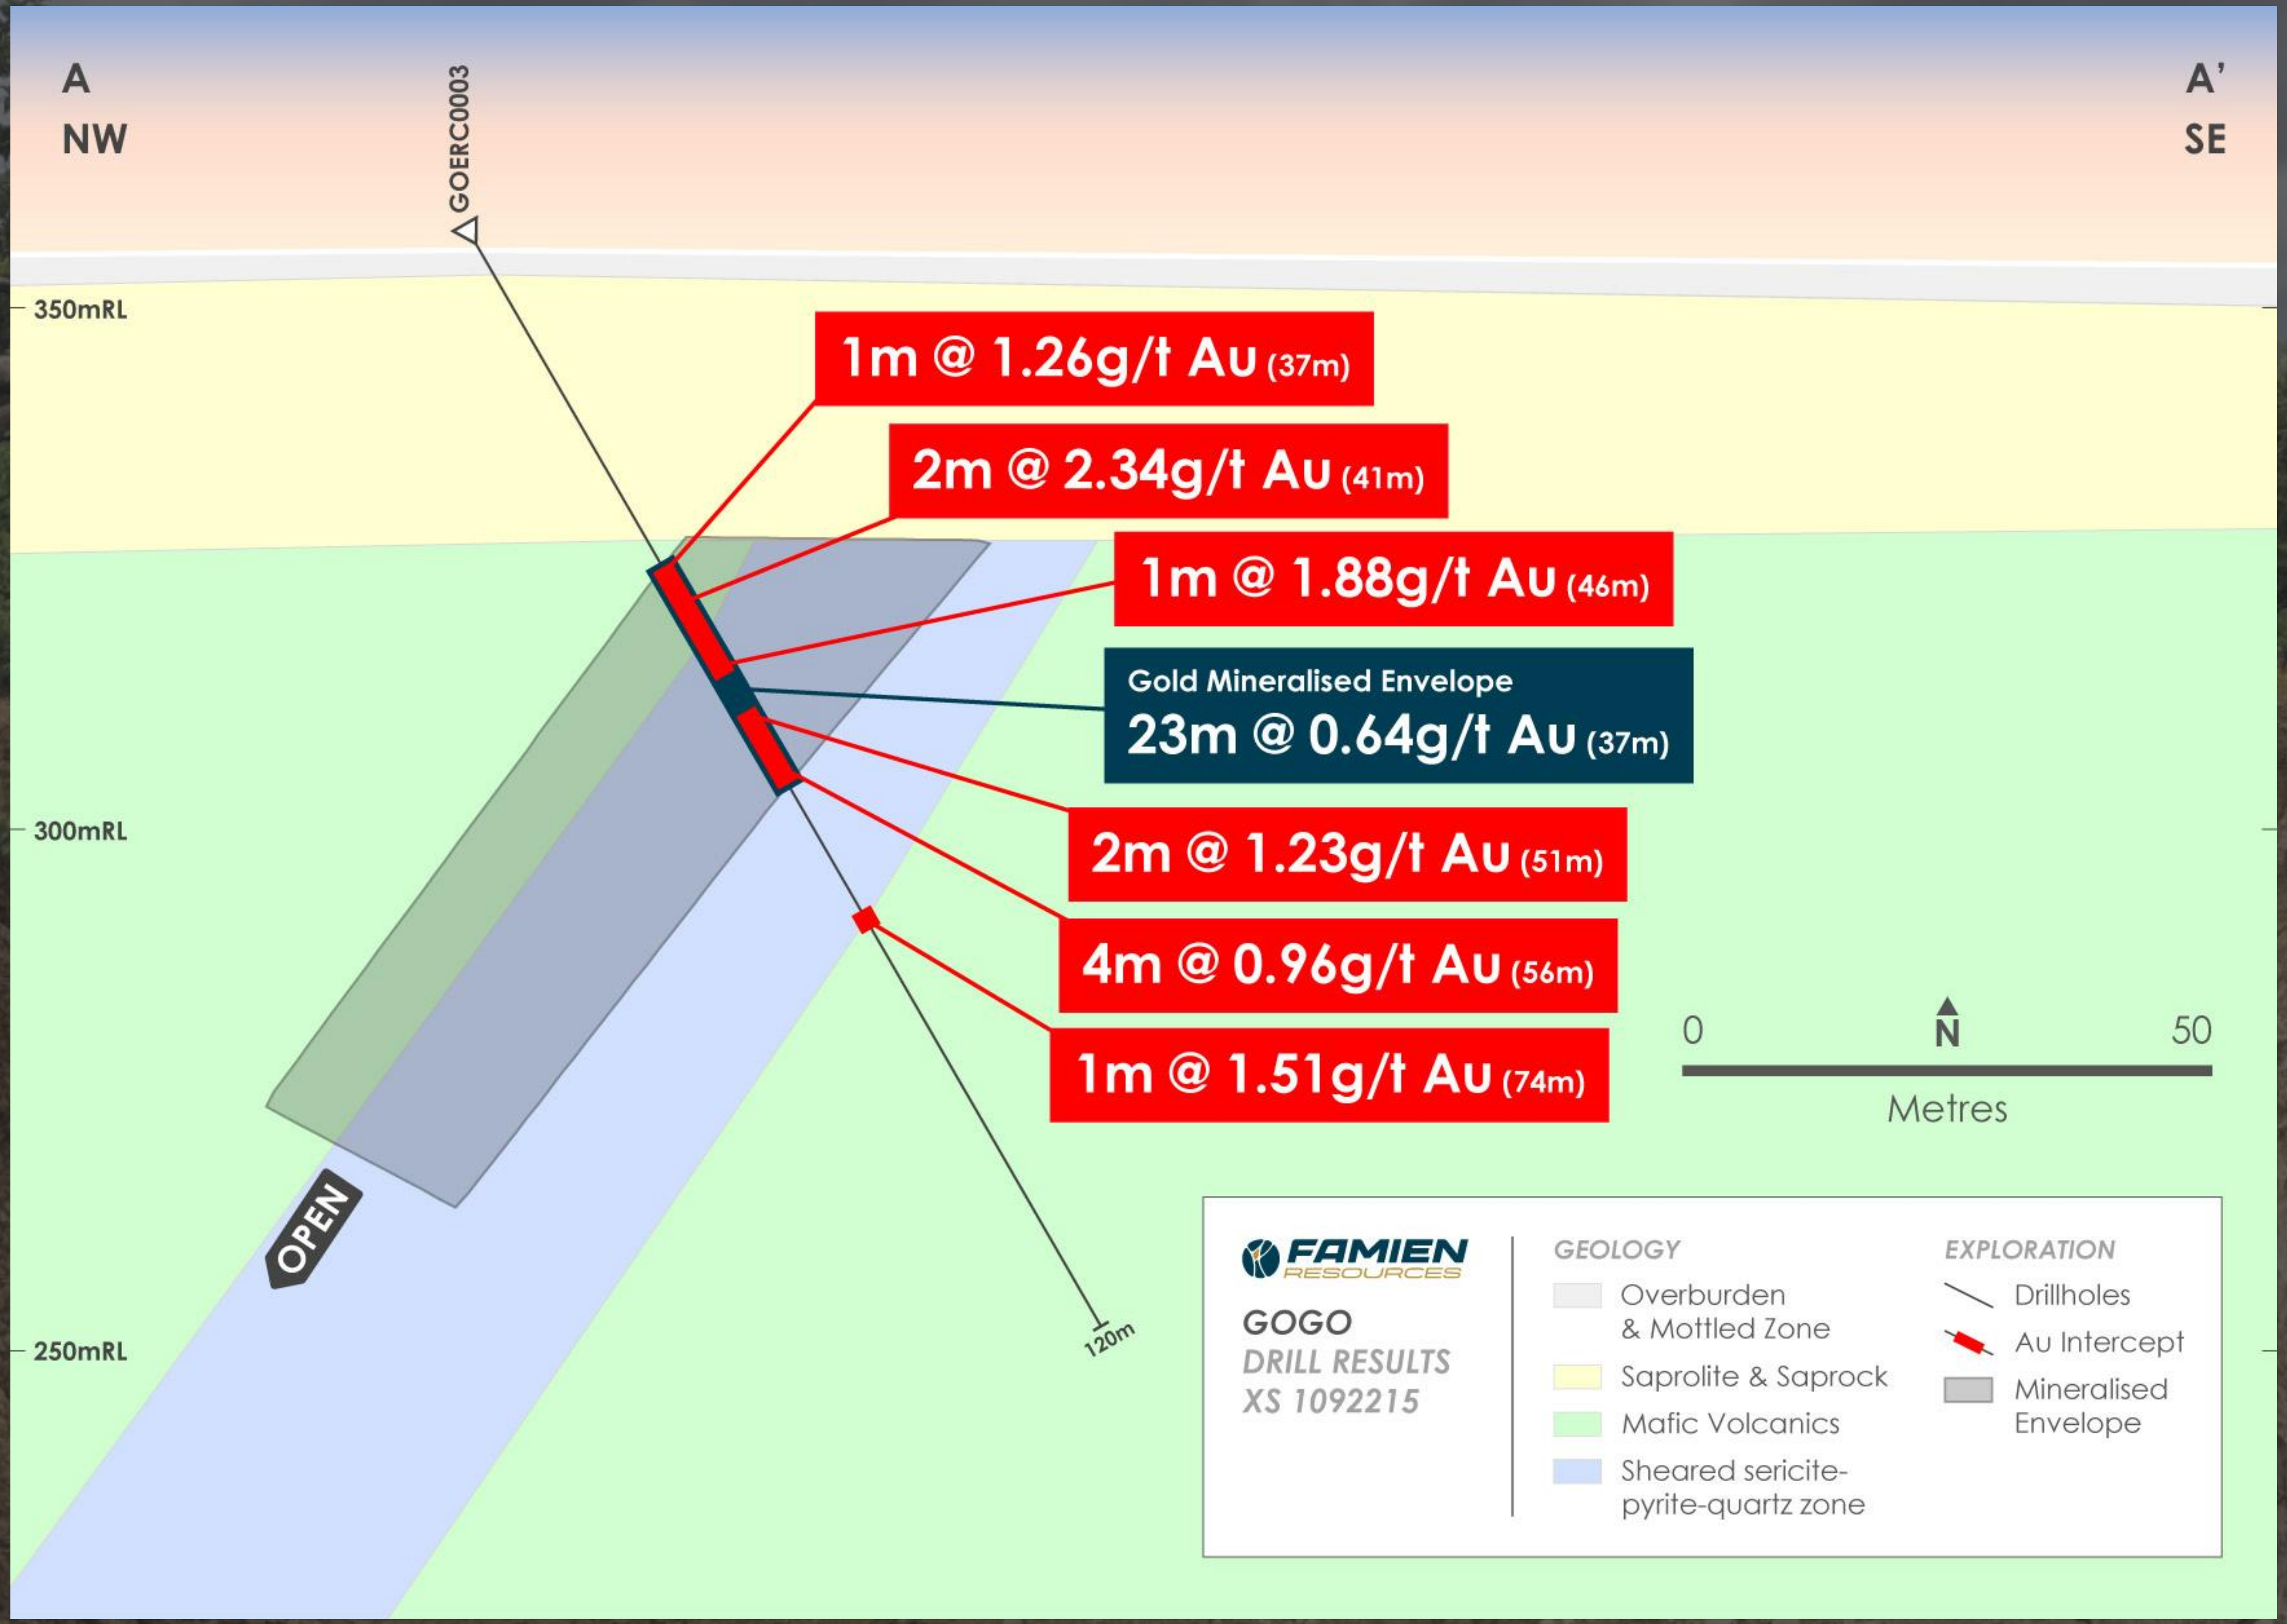
* Refer ENX ASX releases: 1. "Acquisition of Highly Prospective Gold Projects In Côte D'Ivoire", (23 September 2025), 2. "Extensive high-grade gold soil anomalies in Cote D'Ivoire" (24 November 2025), 3 "Exploration Update – Tougbe and Gogo Projects" (9 February 2026), 4. "Exploration Update – Cote D'Ivoire" (21 July 2026).

Gogo Permit - Southern Drill Target *



* Refer ENX ASX release: "Exploration Update – Cote D'Ivoire" (21 July 2026).

Gogo Permit - Southern Drill Target *



* Refer ENX ASX release: "Exploration Update – Cote D'Ivoire" (21 July 2026).

Other Projects*

MARAHUI

Complex geological setting is prospective, with large untested areas

Anomalous gold values obtained in historical auger drilling.

Trenching by Famien - best result of 13m at 2.1g/t Au

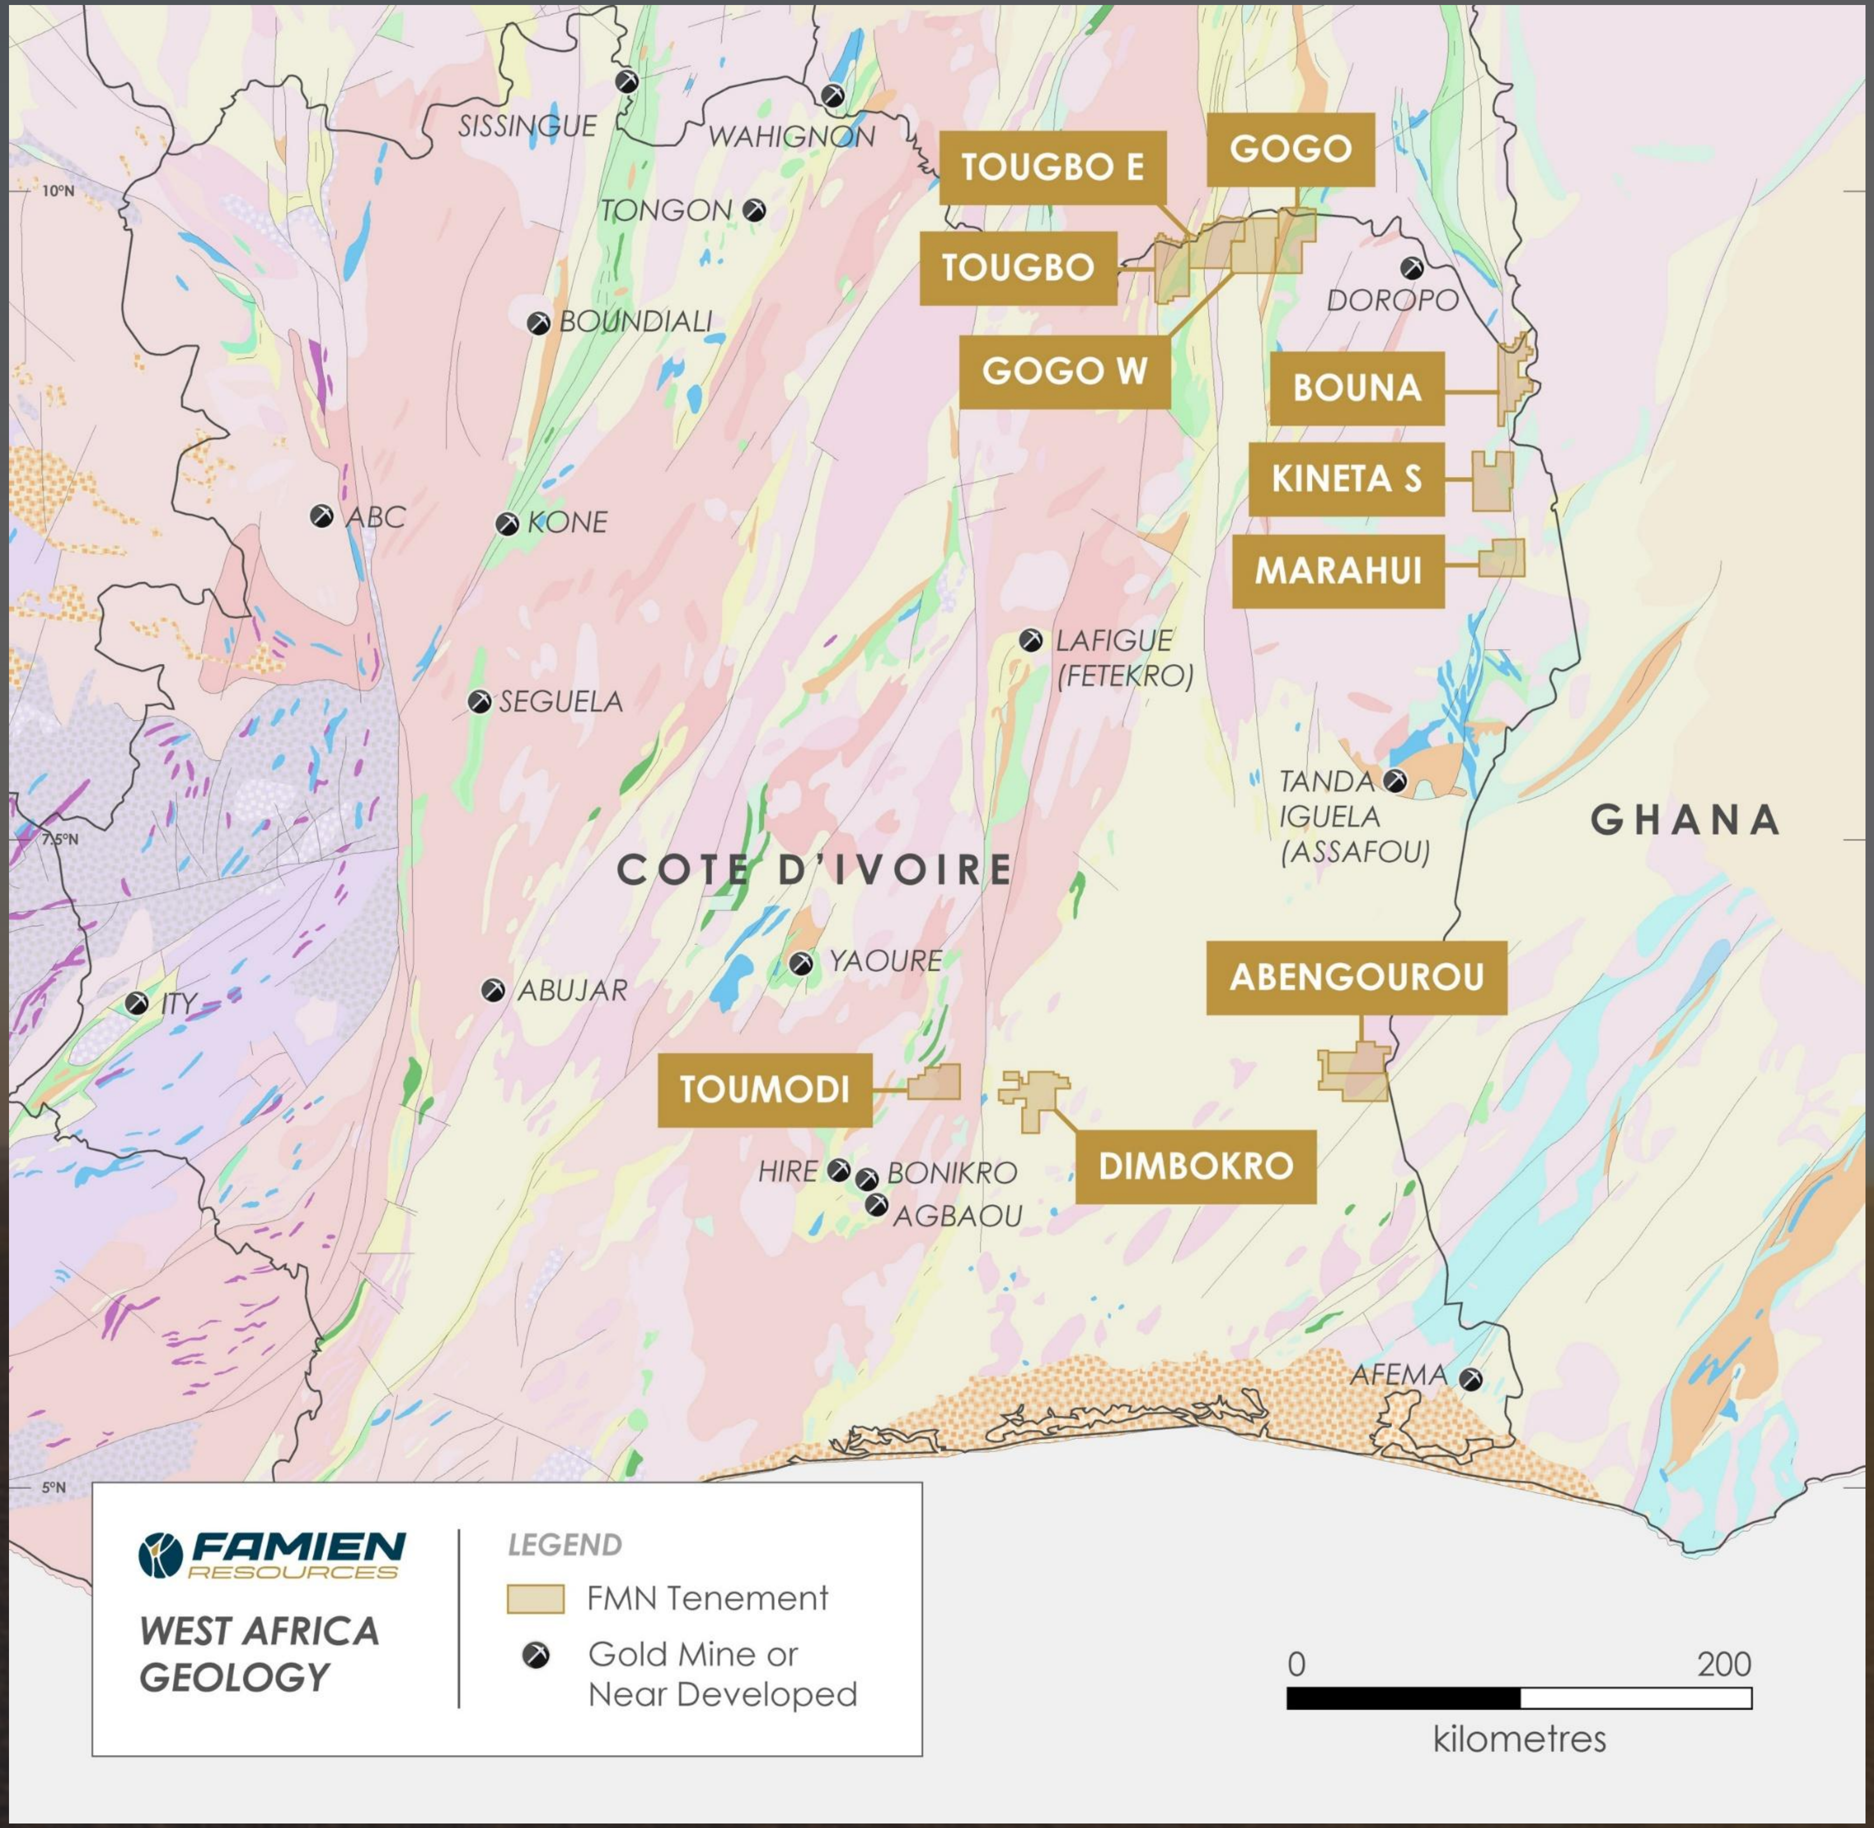
OTHER PERMITS

4 new permits now granted (Gogo West, Tougbo East, Toumodi and Dimokro)

Roberts/Murphy targeting system has identified exciting discovery potential in very underexplored permits – Toumodi, Dimbokro, Abengourou and Bouna.

Initial geochemical exploration in progress across portfolio.

More ground to be granted/acquired in coming months



* Refer ENX ASX release: "Acquisition of Highly Prospective Gold Projects In Côte D'Ivoire" (23 September 2025)

Exploring For Plus-2 Moz, Open-Pittable Gold Discoveries In The Birimian

DISCIPLINED APPROACH WITH STRICT FOCUS ON VALUE CREATION

Acquire large, highly prospective ground positions -currently >3,700km

Ground selection guided by Roberts-Murphy targeting system – focus on deep structure

Country-scale targeting enables identification of highly prospective, underexplored areas while minimising acquisition costs

Drop/farm out ground early if targets lack required scale/grade potential

Proven geochemical tool kit - BLEG (Bulk Leach Extractable Gold) stream sediment sampling to detect broad gold anomalies then soil geochemistry and geological mapping to refine target areas

Power auger drilling to sample beneath surface cover, providing a rapid and low-cost vector toward primary mineralisation

Promising targets advanced to Aircore or RC drilling

Africa’s Emerging Mining Powerhouse

ABOUT COTE D’IVOIRE

Tax and Royalty Regime: Competitive corporate tax rates (25% in first 3 years of operation)

Licensing Process: Streamlined procedures for obtaining exploration and exploitation permits.

New recent developments (Tietto’s Abujar, Perseus’s Yaoure underground, Fortuna’s Seguela etc) demonstrate rapid path to production

Exploitation Permit – 20 year term

Reliable Power Supply: The national grid, powered by hydro and thermal energy, ensures consistent electricity for industrial-scale operations

Pro-Investment Policies: Government’s emphasis on mining as a pillar of economic diversification ensures ongoing support and incentives for investors

ABIDJAN

6-Month Program Sets The Stage For Value Creation

FAMIEN RESOURCES

WHY INVEST?

NEW MANAGING DIRECTOR

One of West Africa's most prolific gold finders, supported by new Director, Eric Kondo, with excellent relationships in Cote D'Ivoire

STRONG PORTFOLIO IN A STRONG GOLD INVESTMENT ENVIRONMENT

Acquisition of highly prospective Greenfield projects, with plans to expand position, in a strong gold price environment sets the platform for value creation

THE RIGHT ADDRESS

Cote D'Ivoire one of the most attractive regions for gold exploration globally

EXPLORATION RAMP UP

Strong pipeline of projects, with RC drilling ongoing leverages FMN for potential re-rate

In-country team in place and expanding

SUPPORTIVE REGISTER & FUNDING

Tightly-held register strongly supporting exploration approach of Managing Director and team with the Company well funded to deliver significant exploration programs
