

ASX Announcement 29 July 2026

Retraction Announcement

GoldArc Resources Limited (ASX:GA8) ('GoldArc' or 'the Company') refers to the ASX announcement titled "Yttria Aircore Project Discovers Two Major Gold Trends" released on 27 July 2026.

The Company advises that it has retracted the three rock chip samples reported. The rock chip samples reported was not disclosed and the Company was not able to provide the information required to be in compliance with ASX Listing Rule 5.6 and 5.7.

The rock chips were collected during earlier field reconnaissance of the prospect and are not required to support the drilling results reported. As surface samples, the relationship between the rock chips and the mineralisation intersected in drilling has not yet been established, and the Company considers their inclusion is not material to an investor's understanding of the drilling results. This change does not affect the drilling results reported, which remain unchanged.

Investors should not rely on this information to make any investment decisions in the Company.

This announcement has been authorised for release by the Board of Directors.
