Woodlark Gold Project

Technically robust, long-life gold project with strong free cash flow and rapid payback.

June 2026 (ASX: GPR)

Disclaimer and Competent Persons Statement

This presentation is for information purposes only. This presentation does not constitute financial product advice and has been prepared without taking into account the recipient's investment objectives, financial circumstances or needs and the opinions and recommendations herein are not intended to represent recommendations of particular investments to particular persons. Recipients should seek professional advice when deciding if an investment is appropriate. All securities transactions involve risks, which include (among others) the risk of adverse or unanticipated market, financial or political developments.

Competent Person's Statement: The information in this presentation that relates to Mineral Resources is based on and fairly represents information and supporting documentation compiled by Chris De-Vitry MEconGeol, a full-time employee of Manna Hill Geoconsulting Pty Ltd and a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM Membership No. 210853). Chris De-Vitry has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in JORC 2012. Chris De-Vitry consents to the inclusion in the report of the matters based on his information in the form and context in which they appear. This Mineral Resource estimate has been compiled in accordance with the guidelines defined in the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves (The JORC Code, 2012 Edition).

The information in this presentation that relates to Ore Reserves is based on and fairly represents information and supporting documentation compiled by Michael Wood BEng (Mining Engineering), a Competent Person who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM Membership No. 225408). At the time of preparing the Ore Reserve Estimate Michael Wood was a full-time employee of AMC Consultants Pty Ltd. Michael Wood has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in JORC 2012. Michael Wood consents to the inclusion in the report of the matters based on his information in the form and context in which they appear. This Ore Reserve estimate has been compiled in accordance with the guidelines defined in JORC 2012.

Geopacific confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters in the market announcements continue to apply and have not materially changed. Geopacific confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Forward Looking Statements: All statements other than statements of historical fact included in this announcement including, without limitation, statements regarding future plans and objectives of Geopacific Resources Limited are forward-looking statements. When used in this announcement, forward-looking statements can be identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects' or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this announcement, are expected to take place. Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the company, its directors and management of Geopacific Resources Ltd that could cause Geopacific Resources Limited's actual results to differ materially from the results expressed or anticipated in these statements.

Geopacific Resources Ltd cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this announcement will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements. Geopacific Resources Ltd does not undertake to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this announcement, except where required by applicable law and stock exchange listing requirements. Woodlark is permitted by the PNG Government, subject to meeting the conditions of the licence.

Non-IFRS Financial Information: Investors should also be aware that certain financial data included in this presentation may be 'non-IFRS financial information' under Regulatory Guide 230 Disclosing non-IFRS financial information published by ASIC. The Company believes this non-IFRS financial information provides useful information to users in measuring the financial performance and condition of the Company. The non-IFRS financial information does not have a standardised meaning prescribed by Australian Accounting Standards and, therefore, may not be comparable to similarly titled measures presented by other entities, nor should they be construed as an alternative to other financial measures determined in accordance with Australian Accounting Standards. Investors are cautioned, therefore, not to place undue reliance on any non-IFRS financial information and ratios (if any) included in this presentation.

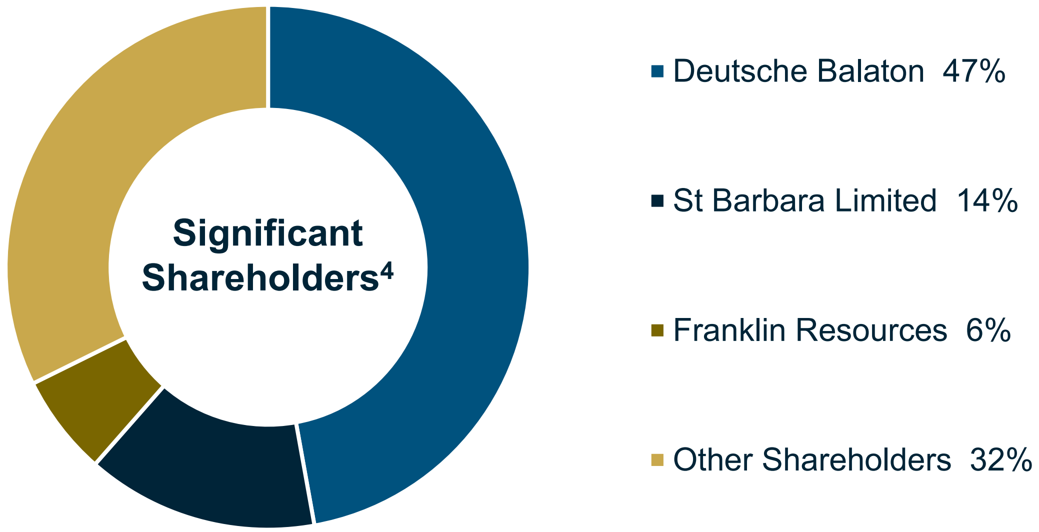
Board and Management

Rowan Johnston	Non-Executive Chairman
Hamish Bohannan	Managing Director
Graham Ascough	Non-Executive Director
Hansjoerg Plaggemars	Non-Executive Director
Michael Brook	Non-Executive Director
Matthew Smith	Chief Financial Officer

Board and Management re-set to support Project development[3]



Directors Experience

GEOPACIFIC RESOURCES LIMITED

Name & Position	Biography
 **Rowan Johnston** *Non-Executive Chairman*	Experienced corporate executive with a track record of adding value from discovery to production across challenging assets. Qualified Mining Engineer from the Western Australian School of Mines with a first-class Mine Manager's Certificate, holding international experience in France, Africa, Indonesia, and Australia. Previous executive and Board positions at Integra Mining, Mutiny Gold, Excelsior Gold, and Bardoc Gold. Currently Non-Executive Chairman of Patronus Resources Limited (formerly KIN Mining). Previously served as Non-Executive Chairman of Spartan Resources Limited and Non-Executive Director of PNX Metals Limited.
 **Hamish Bohannan** *Managing Director*	Mining engineer (BSc and MSc Engineering, MBA) with extensive corporate and operational experience in public companies in Australia and overseas. Built a career developing projects around the world with a strong reputation for community liaison, environmental excellence, and safety culture development. Previously the Managing Director and CEO of Gulf Manganese Corporation. Earlier career experience includes Bathurst, IAMGOLD Corporation, Iluka, WMC, Cyprus, and Mount Isa Mines.
 **Graham Ascough** *Non-Executive Director*	Senior resources executive and geophysicist (BSc Engineering, Professional Geoscientist of Ontario, AusIMM member) with over 30 years of industry experience and a strong discovery track record. Has held numerous senior management positions and directorships, taking a leading role in setting strategic direction for exploration projects and junior mining companies. Currently Non-Executive Chairman of Black Canyon Limited and Non-Executive Director of Patronus Resources Limited. Previously Chairman of Musgrave Minerals (acquired by Ramelius Resources 2023), PNX Metals, and Sunstone Metals.
 **Hansjoerg Plaggemars** *Non-Executive Director*	Experienced company director with over 25 years in corporate finance, corporate strategy, and governance (Diplom-Kaufmann). Previously a senior M&A advisor at a global professional services firm before transitioning to commercial directorships across listed and unlisted companies in mining, agriculture, shipping, construction, e-commerce, and investments. Currently a Non-Executive Director of Altech Batteries, Patronus Resources, Theta Gold Mines, AIM-listed 4basebio plc, and TSX-listed Skeena Gold and Silver, among others. Representative of major shareholder the Deutsche Balaton Group.
 **Michael Brook** *Non-Executive Director*	Mining professional (BSc Hons, AusIMM member) with over 40 years of experience in the technical and commercial review and assessment of mining and minerals processing projects from an investment perspective, across multiple jurisdictions and commodities from early-stage exploration through to production. Previously Chairman/Manager of three successful African-focused resources investment funds (African Lion AFL1, AFL2, AFL3) over 16 years, responsible for investment selection and management and serving on multiple public and private company boards.
 **Matthew Smith** *Chief Financial Officer*	Chartered Accountant (BComm Accounting, CA ANZ) with over 20 years of experience in the resources industry across precious metals, industrials, and bulk commodities, spanning the Asia-Pacific region. Specialist knowledge in international taxation, corporate structuring, accounting, and corporate governance. Has led project funding transactions across debt and equity markets. Has been with the company continuously since 2016, providing significant institutional knowledge across the Woodlark project lifecycle.

PNG Snapshot & Woodlark Island Project Location

GEOPACIFIC RESOURCES LIMITED

PAPUA NEW GUINEA

- ✓ Pro-mining jurisdiction with a long & successful mining history
- ✓ Significant regional gold endowment & many world-class mines
- ✓ Island mining well established with stable environment at Woodlark
- ✓ Supportive PNG Government environment, current 2.5% royalty levy
- ✓ Australia, a major trade partner is <2 hrs flight

WOODLARK ISLAND

- ✓ Woodlark Island is located 600km east of Port Moresby in the Milne Bay Province
- ✓ The island is 65km by 25km with an area of 850km^2
- ✓ Access via air and sea - established landing strip and barge facilities
- ✓ Population: 8,000+
- ✓ Languages: Muyuw (Local), English & Melanesian Pidgin
- ✓ Commercial activities include gold exploration and logging

2026 DFS – Project Overview[1]

GEOPACIFIC RESOURCES LIMITED

Long-Life, Robust Production Profile

- 12-year open pit mining operation across Kulumadau, Busai & Woodlark King
- Total gold production: 1.1 Moz | Avg annual: 100 koz | Peak: 117 koz
- Average gold recovery: 89.7%
- Production schedule prioritises near-surface high-grade material
- Forecast to generate early cash flow and rapid Project payback

High Reserve Confidence[2]

- JORC 2012 Ore Reserve[3]: 34.3 Mt at 1.09 g/t for 1.2 Moz Au
- 96% of mined material underpinned by Measured & Indicated Resources
- First 3 years ~99% M&I informs the mine plan – de-risks capital recovery

Key Project Approvals in Place

- Granted Mining Lease ML 508, pathway for variation of Condition 7(ii)
- Approved Environment Permit
- Executed landowner agreements

Significant Learnings and Higher Gold Price

- The 2020 Woodlark Project Execution Update[4] assumed ~A$255 million in establishment capital which proved insufficient
- November 2020 Gold Price was ~A$2,400/oz versus May 2026 ~A$6,400/oz

KEY PROJECT PHYSICALS

Parameter	DFS Base Case
Mine life (including pre-strip period)	12 years
Open-pit material processed	35.6 Mt
Gold head grade	1.07 g/t
Strip ratio (waste:ore)	5.2
Plant throughput	3.5 Mtpa
Avg gold recovery	89.7%
Total gold produced	1.1 Moz
Average annual gold production - LoM	100 koz Au
Average annual gold production – Years 1–5	109 koz Au

1. Refer ASX announcement 20 May 2026 "DFS Confirms Robust Economics for the Woodlark Gold Project" for full details and a Cautionary Statement in relation to the 2026 DFS and the associated Production Target and Forecast Financial Information. GPR confirms that all material assumptions underpinning the Production Target and Forecast Financial Information derived from the Production Target continue to apply and have not changed materially.
2. Refer ASX announcement 20 May 2026 "Increased Mineral Resource and New Ore Reserve Underpin the Woodlark DFS" for details in relation to the Mineral Resource and Ore Reserve.
3. The 2026 Ore Reserve is based on Measured and Indicated Mineral Resources from each of the three respective deposits, contained within mine designs and above an economic 0.4 g/t gold cut-off.
4. Refer ASX announcement 30 November 2020 "Woodlark Gold Project Execution Update".

2026 DFS – Key Forecast Financial Information[1,2]

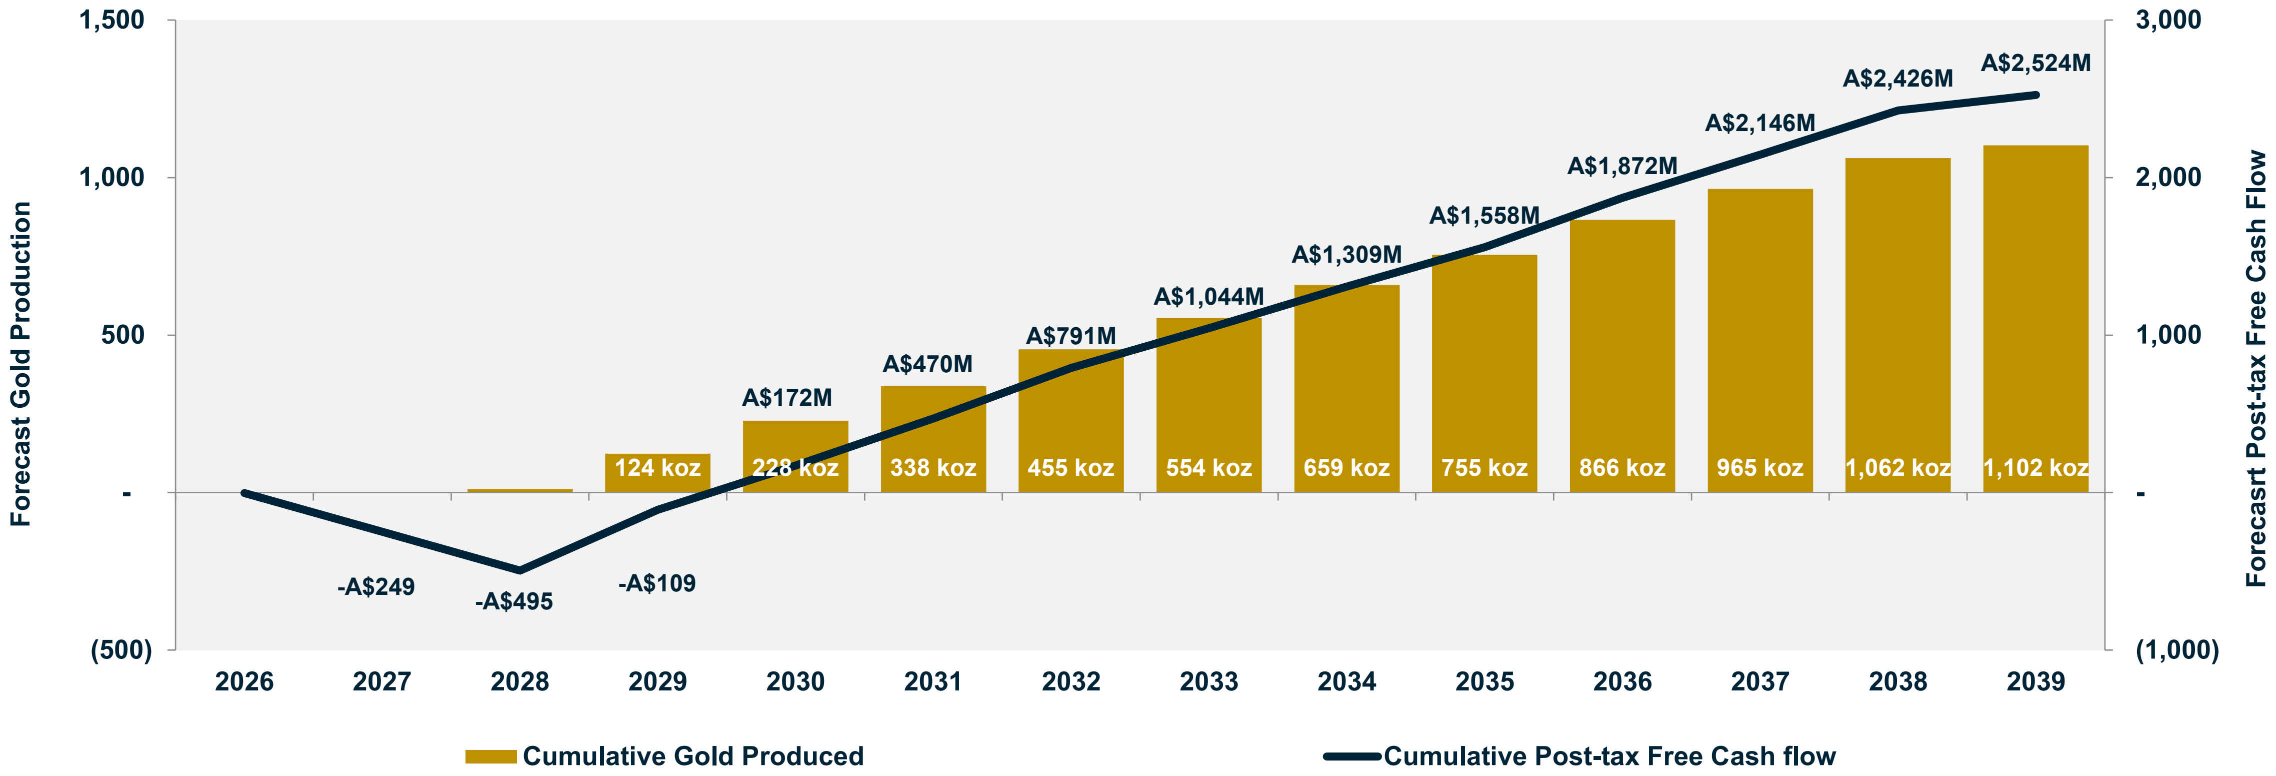
GEOPACIFIC RESOURCES LIMITED

A$1.3 Billion
Post-tax $NPV_{8\%}$
at A$5,500/oz gold price

50.6%
Post-tax IRR
resilient economics

18-month
Post-tax Payback Period
from first production

A$1,966/oz
All-in Sustaining Cost
forecast LOM average



1. Refer ASX announcement 20 May 2026 "DFS Confirms Robust Economics for the Woodlark Gold Project" for full details and a Cautionary Statement in relation to the 2026 DFS and the associated Production Target and Forecast Financial Information.
2. The cashflow is for the period post-FID, at a project level and unlevered. FID is assumed in December 2026.

Capital Cost Summary [1]

GEOPACIFIC RESOURCES LIMITED

A$535M	**A$57M**	**A$592M**	**A$485 /oz**
Pre-Production Capital	**Sustaining Capital**	**Total LOM Capital**	**Capital Intensity**
Incl. contingency & pre-strip	Incl. closure costs	All-in	Reflects island location

PRE-PRODUCTION CAPITAL ±15% Level of Accuracy

Capital Area	A$'M
Process Plant EPC and DSTP	274.8
Non-Process Infrastructure	92.5
Owners Construction Costs	89.1
Owners Contingency	38.5
Mining Pre-Strip	39.8
Total Pre-Production Capital*	**534.6**
Sustaining Capital	46.0
Closure Costs	10.9
Total Life of Mine Capital*	**591.5**

* Category totals may not add due to rounding.

KEY CAPITAL NOTES

- Capital costs reflect the island location
- Allowances included for logistics, establishment of a new wharf facility, camp and owner's cost
- Process plant costs based on an EPC execution approach.
- DSTP designed to comply with existing environmental approvals, PNG regulatory requirements and EQUATOR Principles
- Total contingency allowance of A$56.9M across Owners' contingency of A$38.5M and A$18.4M of Contractors' contingency

1. Refer ASX announcement 20 May 2026 "DFS Confirms Robust Economics for the Woodlark Gold Project" for full details and a Cautionary Statement in relation to the 2026 DFS and the associated Production Target and Forecast Financial Information.

Operating Cost Summary[1]

GEOPACIFIC RESOURCES LIMITED

A$1,966/oz	A$25.28	A$28.62	A$33/oz
All-in Sustaining Costs (AISC) LOM average	**Mining Cost** Per tonne ore	**Processing and G&A Cost** Per tonne ore	**Silver Credit** 525 koz Ag recovered over LOM

UNIT COST BREAKDOWN ±15% Level of Accuracy

Cost	A$/oz Au
Mining	817.20
Processing	607.93
G&A	317.23
Royalties	138.08
Transport & Refining	9.59
Silver Credit	(32.96)
C1 Costs	**1,857.07**
Corporate Costs	56.98
Sustaining Capital	41.75
Mine Closure	9.86
AISC	**1,965.66**

KEY OPERATING COST NOTES

- Operating cost estimate includes estimates for mining, processing and general and administration (G&A) costs, PNG Government Royalties and allowances for transport/refining of gold doré
- Operating costs developed on a first principles basis
- Mining costs based on a contract mining execution approach, inclusive of an 8% contractor margin applied across labour, equipment ownership, consumables, and maintenance costs
- Processing costs include all plant consumables, maintenance, wear items, process labour and freight

1. Refer ASX announcement 20 May 2026 “DFS Confirms Robust Economics for the Woodlark Gold Project” for full details and a Cautionary Statement in relation to the 2026 DFS and the associated Production Target and Forecast Financial Information.

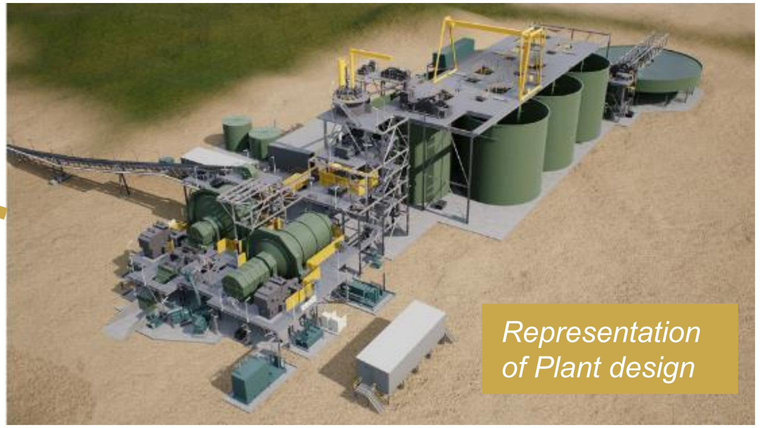
2. See Appendix for source references
3. Includes cash & equivalents of A$4.99m and A$8.98m in term deposits

Key Project Locations

GEOPACIFIC RESOURCES LIMITED

The 2026 DFS reflects an improved site layout including a new Plant location and a streamlined Project footprint

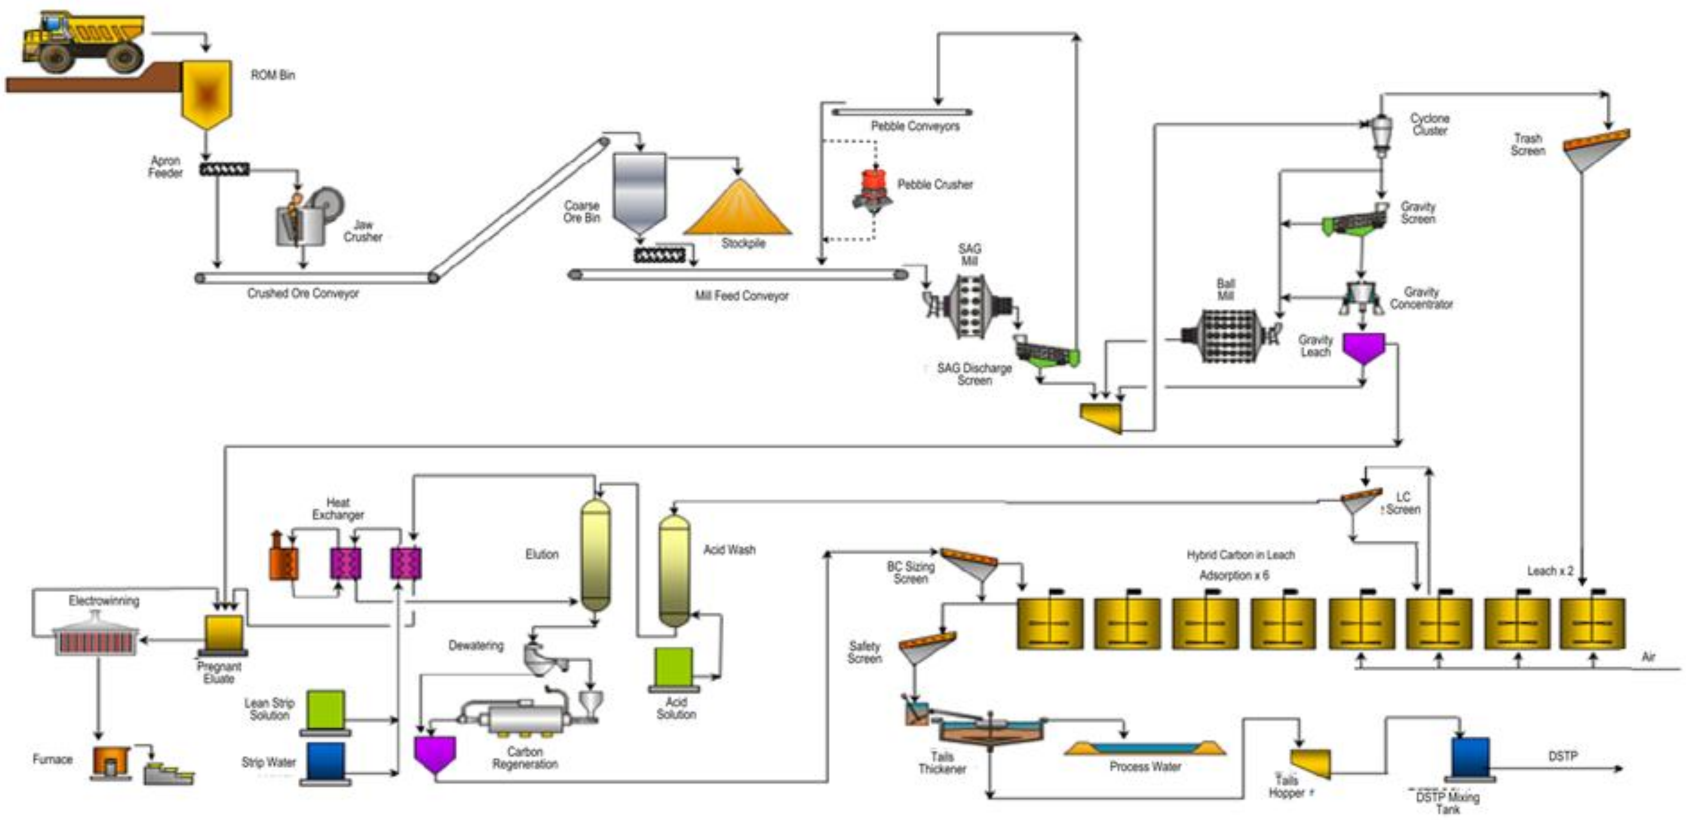


Processing – CIL Flowsheet

GEOPACIFIC RESOURCES LIMITED

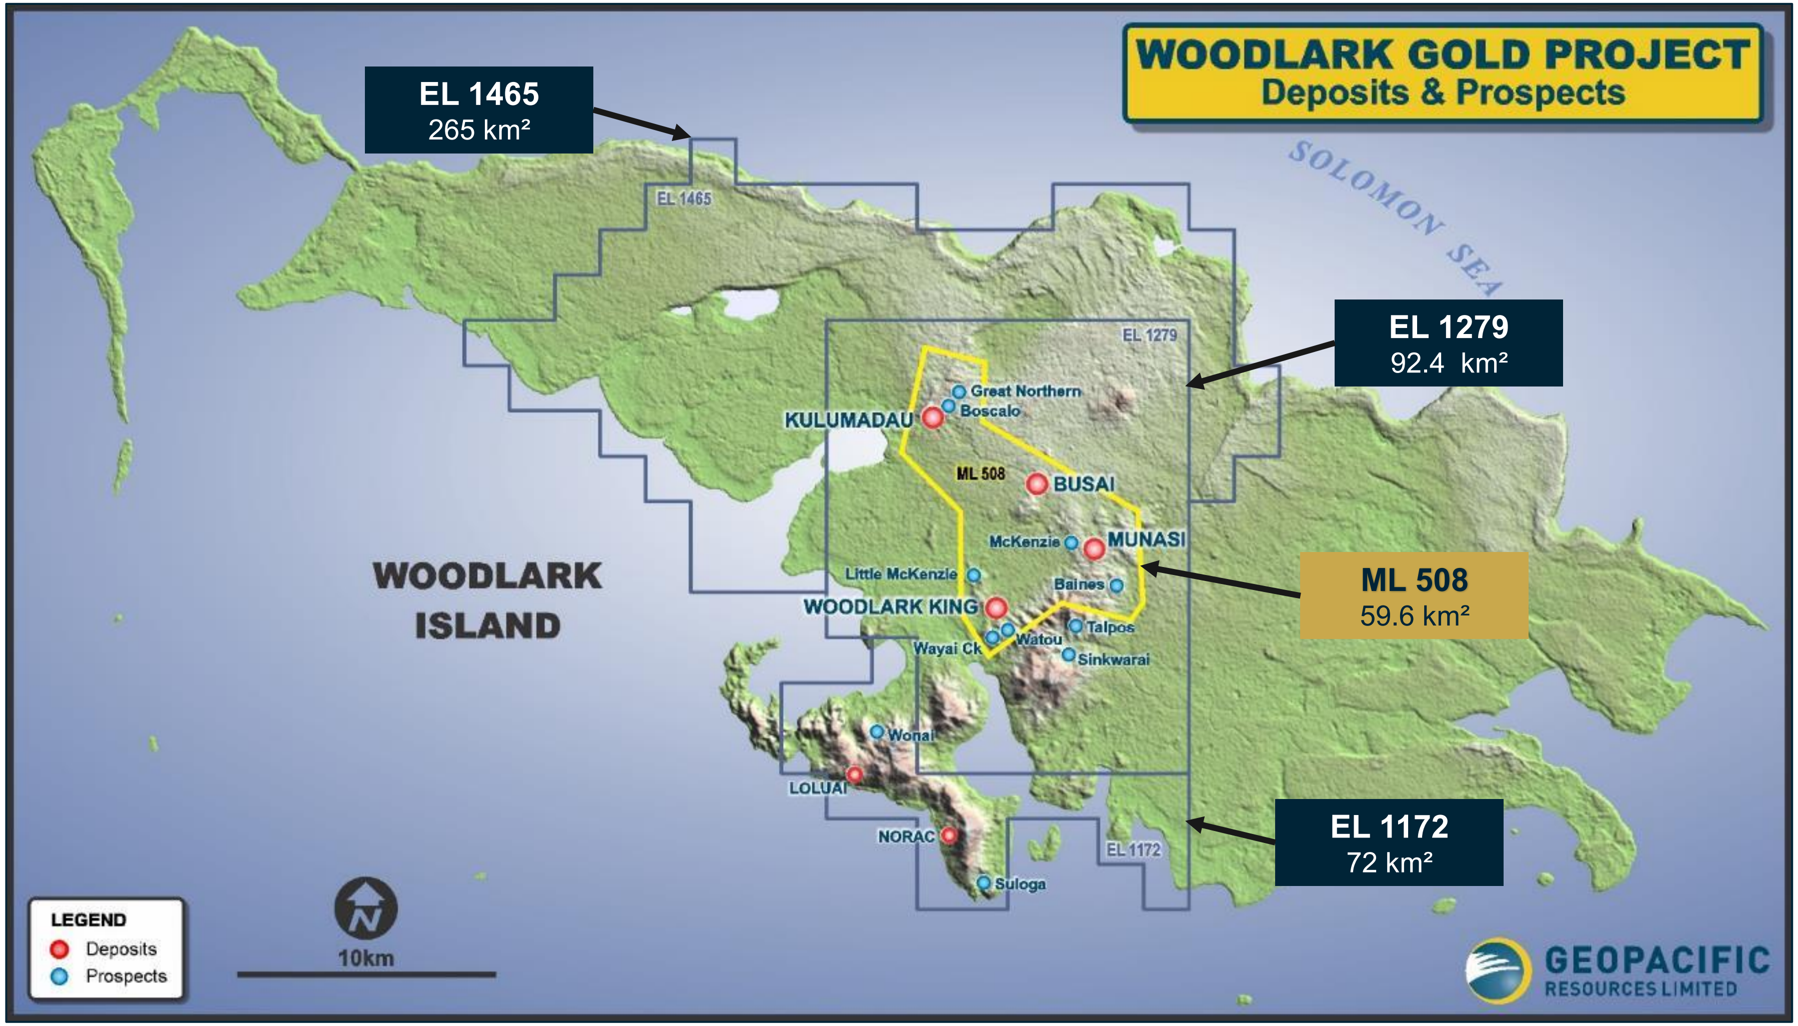
Simple conventional CIL process to pour gold doré on site with expected gold recoveries of 89.7%

- Free-milling gold, straightforward processing route, well-understood metallurgy
- Plant design by GR Engineering
- Overall LOM average gold recovery of 89.7%
- Gravity gold recovery 45%
- Overall LOM average silver recovery of 60.1%
- Primary grind P80 106 µm
- BWi 17.4 kWh/t
- Leach residence time 24 hours at 42% solids
- Low reagent usage
- Gold doré poured onsite



Mining Lease & State Participation

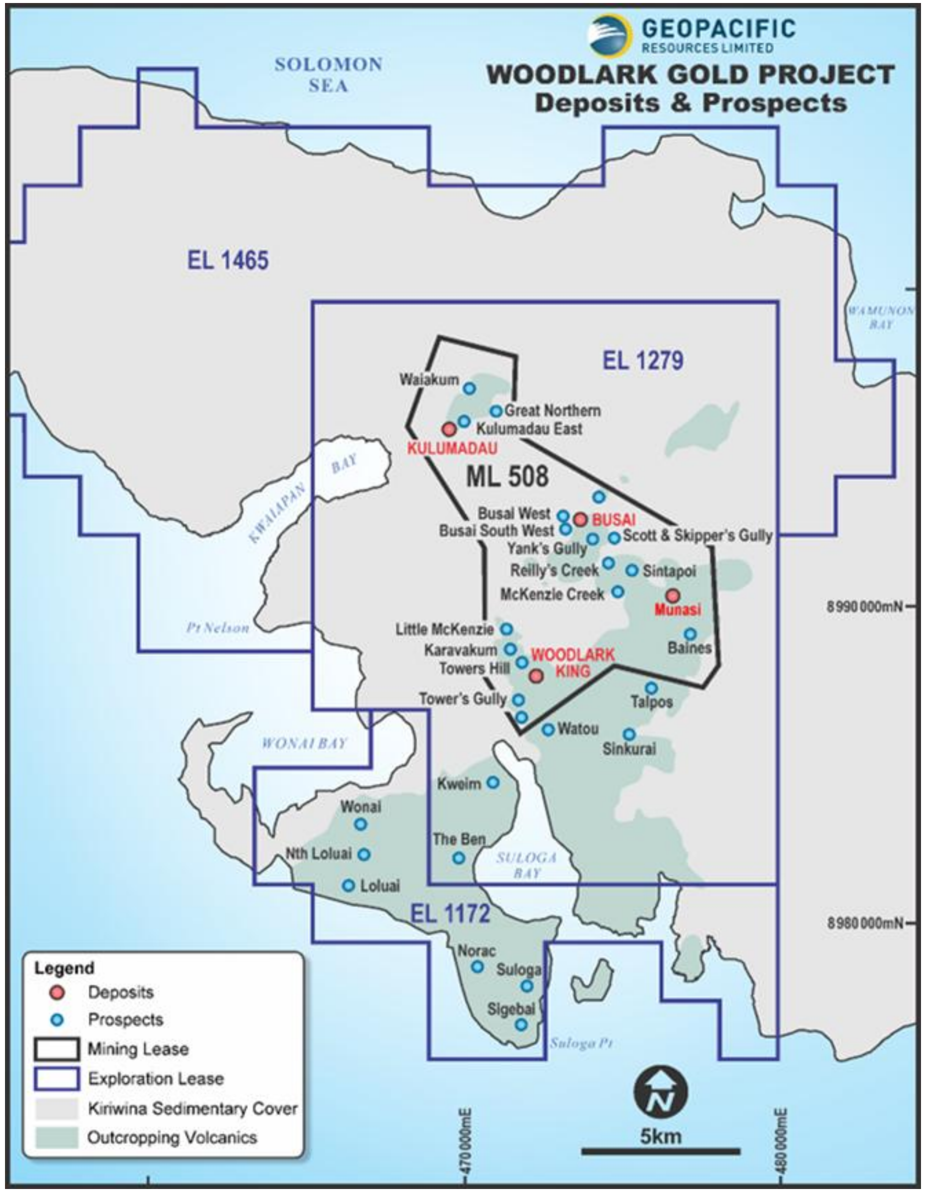
ML 508 already granted and held 100% by wholly owned subsidiary Woodlark Mining Limited



- Licenses held cover the central and western portions of Woodlark Island
- Adjoining tenements for Mining Purpose and Mining Easements (not shown)
    - LMP 89, LMP 90, LMP 91, LMP 92, LMP 93, ME 85, ME 105, and ME 111
- ML 508 Condition 7(ii), extended to October 2027
- Environmental Licence amendments approved in March 2026 for revised plant throughput and site layout

Key Local Issues Currently Being Addressed

GEOPACIFIC RESOURCES LIMITED



Discussions underway to amend Condition 7(ii) of ML 508

- ML 508 has a 20-year term, expiring in 2034
  - Framework allows for Mining Leases to be extended in 10-year increments
  - Extension typically prepared towards the end of the Mining Lease term
- Condition 7(ii) of ML 508 requires completion of construction by 5 October 2027
  - Application for variation to be lodged post DFS
  - This has been varied by GPR before
- There is a memorandum of understanding in place with the State to acquire a 5% stake in the Project
- The PNG State may take up to 30% of resource projects

Next Steps – Pathway to Production

Final Investment Decision (FID)

Target FID in December 2026, with first gold in November 2028

Early works including the upgrade of site access

Establish all weather roads to support construction and mining in this high rainfall area

Complete village relocation

196 completed - 53 buildings left to build to be completed before the commencement of mining

Project financing

Complete financing with debt, equity, streaming and strategic partners

PNG approvals

ML 508 & Environmental Permit in place, amendments to reflect project development timeline

Advance Project Execution

Finalise contracting structures, procurement requirements, technical design work & FEED

Investment Summary

GEOPACIFIC RESOURCES LIMITED

Development-Ready, Long-life Project in Established Mining Jurisdiction

- Extensive technical work completed
- DFS completed, demonstrating robust project economics
- Financing and strategic partnership discussions progressing

Robust Mineral Resource underpinning Ore Reserves

- 1.98 Moz Mineral Resource Estimate; 88% Measured and Indicated
- 97% of the Production Target underpinned by Measured and Indicated Mineral Resources
- 1.2 Moz Ore Reserve

Strong Project Economics[1]

- Woodlark is technically robust and is forecast to generate substantial free cash flow over the life of mine with 18-month payback
- Strong Post-tax $NPV_{8\%}$ A$1.3B and IRR 51% at A$5,500/oz gold price – significant leverage to higher prices
- Conventional open cut mining and CIL processing forecast to deliver strong margins

Substantial Exploration Upside

- Extensive underexplored mineralised system
- Pipeline of near-mine targets with potential to extend mine life and regional exploration program targeting new discoveries
- Untested large-scale Cu-Au porphyry potential

Woodlark will be a near term gold operation with attractive margins and significant upside through resource conversion and growth

1. Refer ASX announcement 20 May 2026 "DFS Confirms Robust Economics for the Woodlark Gold Project" for full details and a Cautionary Statement in relation to the 2026 DFS and the associated Production Target and Forecast Financial Information.

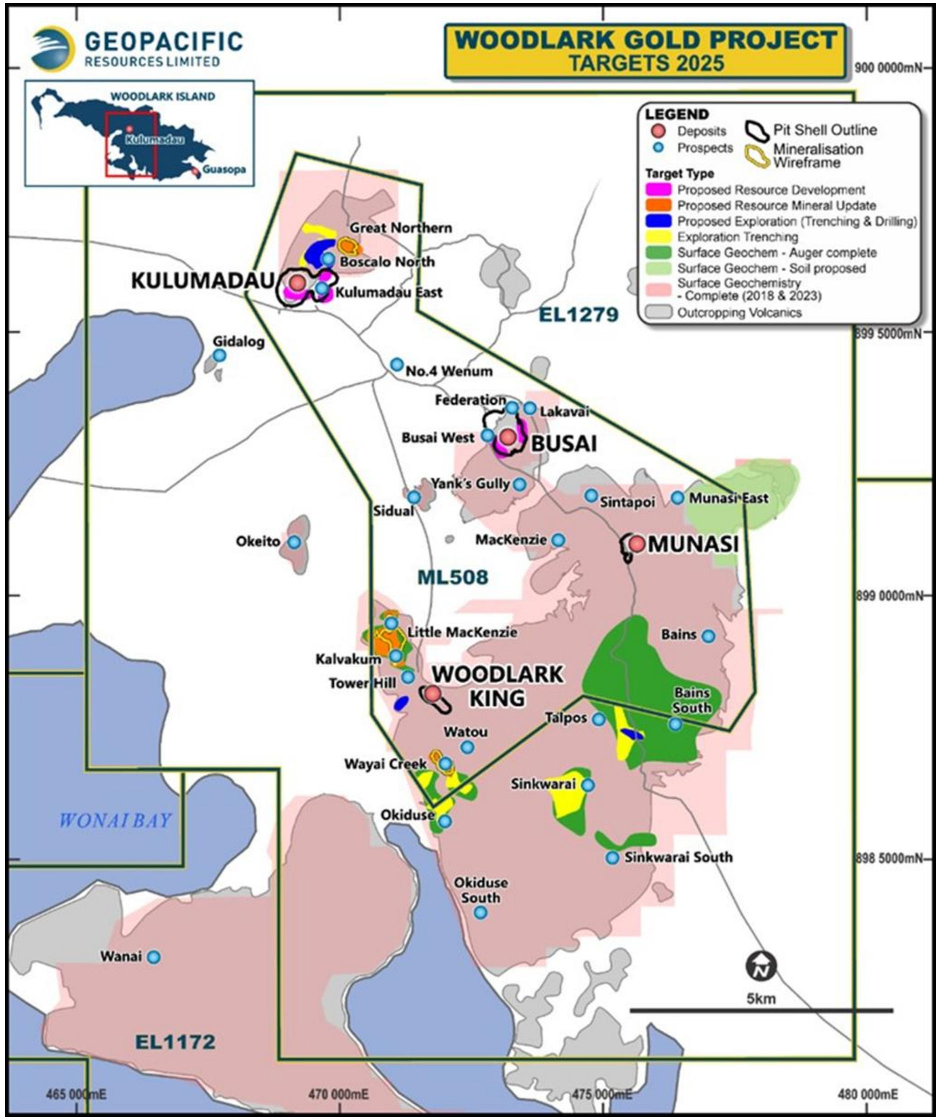
This presentation has been approved for release by the Board of Geopacific Resources Limited

Appendices

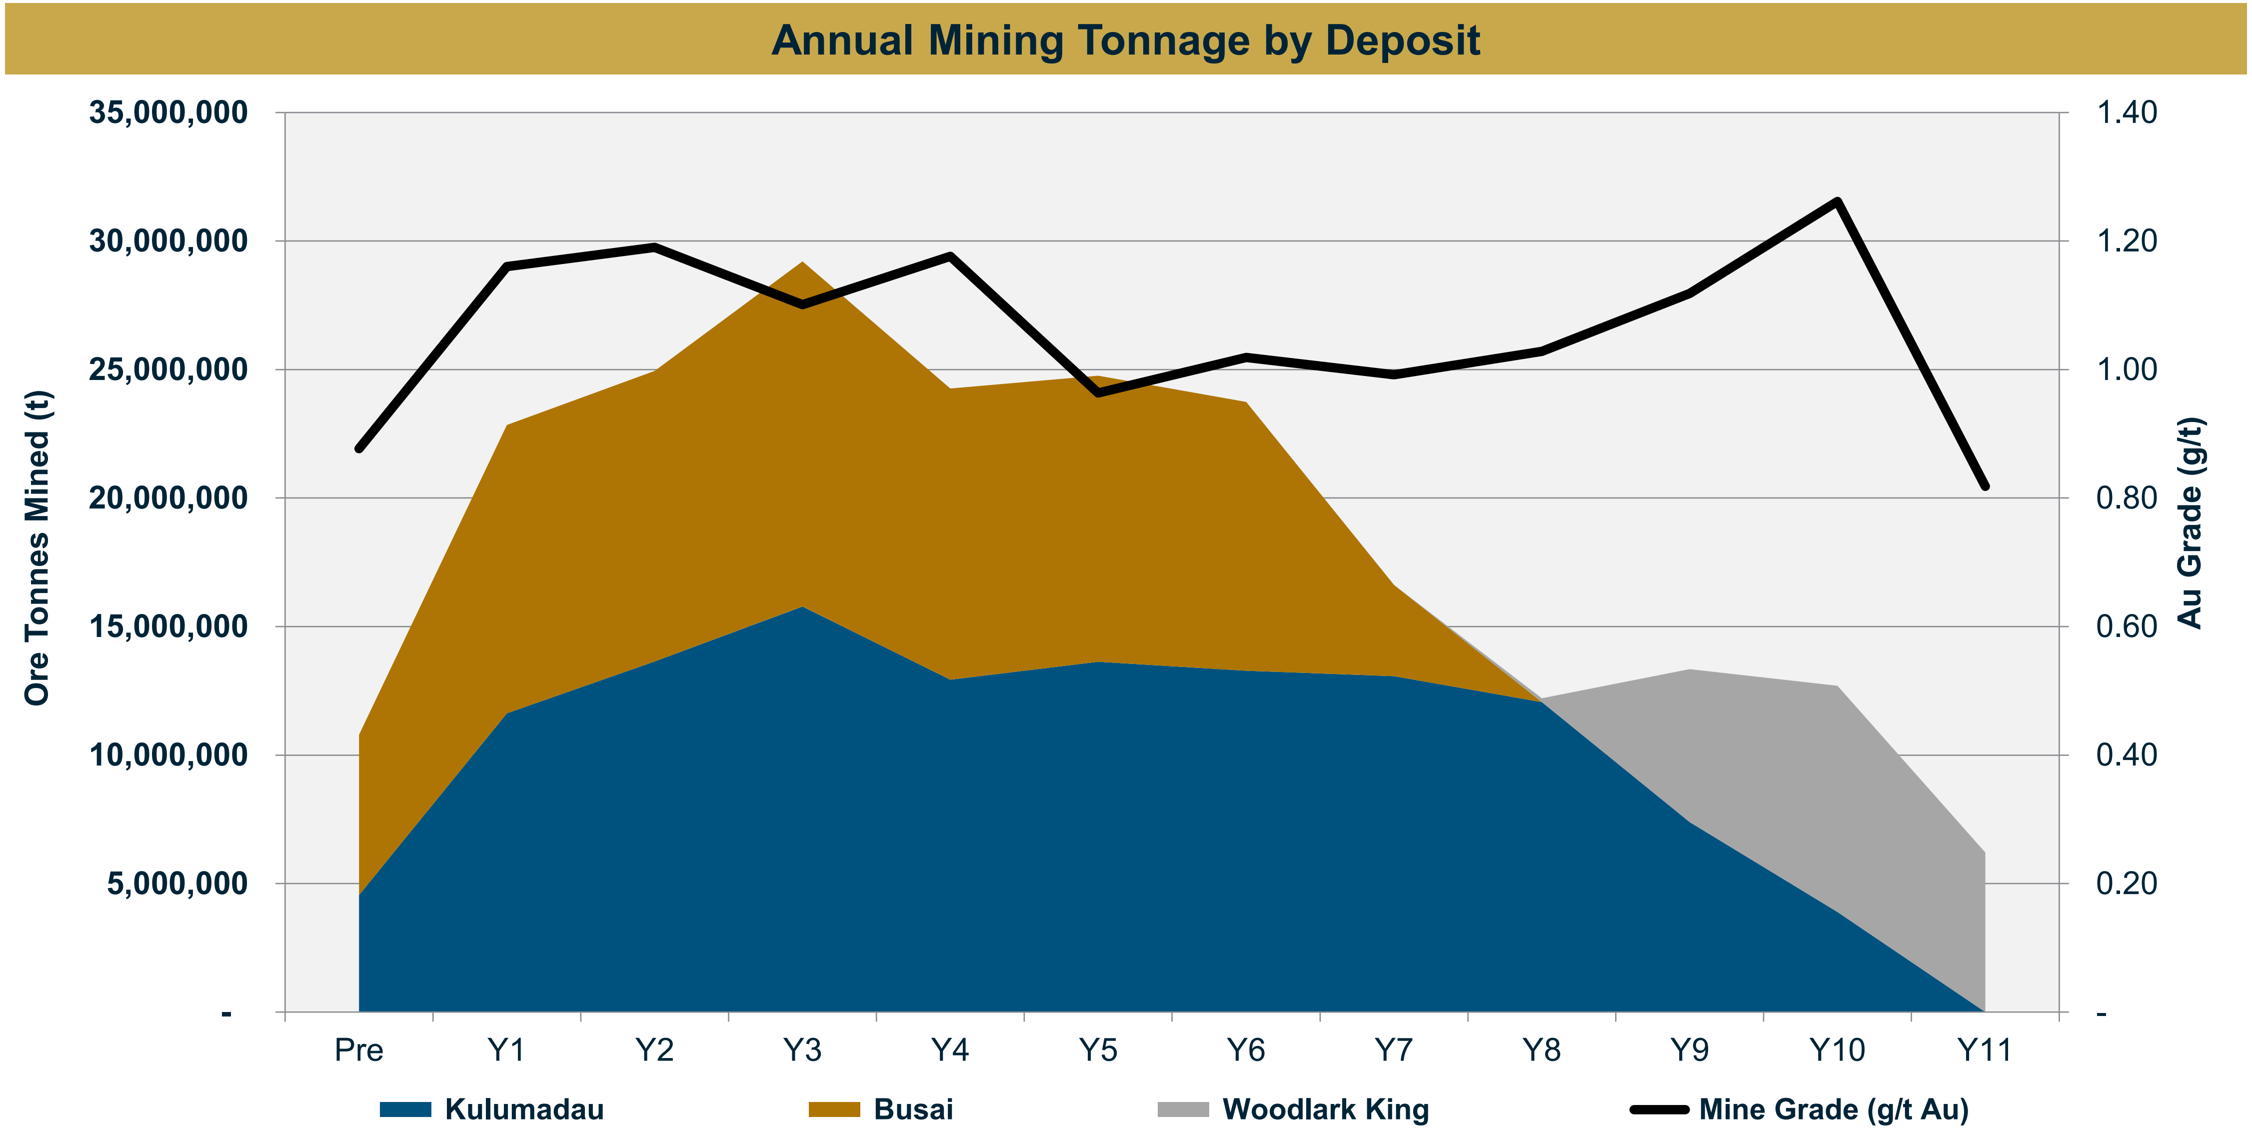
Additional Information

Woodlark Exploration Overview

- 529 km² 100% owned ML & ELs
- GPR are the only commercial explorers / miners on Woodlark Island
- <20% of tenure comprises outcropping host lithologies
- Deposits remain open, with significant potential to continue under cover
- Historically limited exploration outside of known areas; numerous areas to follow-up
- Leveraging knowledge from multiple generations of detailed exploration and historic high-grade mining operations
- Untested large-scale Cu-Au porphyry potential



Mine Plan[1]



1. Refer ASX announcement 20 May 2026 “DFS Confirms Robust Economics for the Woodlark Gold Project” for full details and a Cautionary Statement in relation to the 2026 DFS and the associated Production Target and Forecast Financial Information.

Woodlark Mineral Resources & Ore Reserves

GEOPACIFIC RESOURCES LIMITED

MINERAL RESOURCE ESTIMATE [1, 2]

Deposit	Resource Category	Tonnes (Million)	Grade (g/t Au)	Contained Ounces ('000 oz Au)
Kulumadau	Measured	0.5	5.52	95
	Indicated	28.9	0.84	780
	Inferred	1.1	0.84	29
