

## ASX ANNOUNCEMENT

30 January 2026

# QUARTERLY ACTIVITIES REPORT

For the quarter ended 31 December 2025

## HIGHLIGHTS

- **Large Scale Bulk Trials:** Successfully produced, loaded, transported and delivered Eco-Clay to two commercial batching plants in Melbourne to a National concrete supplier. The delivery confirmed the compatibility of Eco-Clay with existing handling systems and demonstrates the ability for the Company to support a robust, scalable supply chain to the concrete industry.<sup>1</sup>
- **Independently Verified:** University of Melbourne independently verified that Eco-Clay meets AS 3582.4:2022 (*Supplementary Cementitious Materials – Pozzolans*)
- **Solid cash position:** approximately \$3.0 million in available cash as at 31 December 2025, consisting of \$2.6 million of cash on hand and an additional \$0.4m received subsequent to the quarter end related, to the FY25 R&D tax incentive<sup>2</sup>
- **Board and management additions:** Appointments of Mr. Nicholas Anderson as Non-Executive Director and Mr. Andrew Taylor as Chief Financial Officer to expand the capabilities of the Company as it progresses Eco-Clay towards commercialization in 2026.

Green360 Technologies Limited (ASX:GT3) ("GT3" "Green360" or "the Company") is pleased to report on its activities for the quarter ending 31 December 2025.

## LOW CARBON CEMENT DEVELOPMENT (Eco-Clay)

During the quarter, the Company achieved several significant milestones in the development of its proprietary low-carbon cement technology as it progresses towards the commercialisation of Eco-Clay in 2026. Eco-Clay is a low carbon supplementary cementitious material that can replace up to 40% of Portland cement in concrete, significantly reducing carbon emissions while maintaining high performance.

The Company continued its progress towards commercialisation of Eco-Clay during the quarter and has now demonstrated the following to date:

- Independent verification from the University of Melbourne confirming Eco-Clay meets the requirements for a Grade 1 pozzolan under AS3582.4:2022<sup>3</sup>;
- Ability to manufacture commercial quantities (~500T) of Eco-Clay<sup>4</sup>;
- Successful integration with existing industry supply chain to deliver commercial quantities of Eco-Clay to a National concrete supplier for trials<sup>5</sup>; and

Following the production of over 500 tonnes of metakaolin<sup>6</sup> in the September quarter, Green360 successfully delivered approximately 60 tonnes of Eco-Clay to a national concrete supplier at two concrete batching plants in Melbourne. The material was transported using industry-standard pneumatic tankers and demonstrated the Company's ability to supply commercial quantities of Eco-Clay into existing supply chains. The successful delivery provides a high level of confidence that Eco-Clay can support a robust, industry ready supply chain, meeting a key barrier to widespread industry adoption.

Progress also continued on supply-chain build-out, with the Company progressing negotiations to calcine commercial quantities of Eco-Clay at a third-party Victorian facility. The Company expects to formalise an agreement in Q1 2026. This agreement, if formalised and executed, will enable near-term supply of Eco-Clay to the market with minimal capital outlay (estimated at less than \$0.5 million) and avoid the lead time associated with constructing new calcining infrastructure.

Market interest in Eco-Clay continued to grow, with ongoing enquiries from concrete producers, construction firms and engineering companies regarding Eco-Clay's availability for major infrastructure projects. Trial quantities continue to be supplied to industry participants for performance testing.

In addition to the advancement of Eco-Clay during the period, the Company continued to progress the validation and certification of low-carbon cement blends with JV partner PERMAcast incorporating red mud and other industrial waste products to develop low-carbon precast concrete products. Results to date have demonstrated suitability for commercial-scale applications as a 35% replacement of Portland cement<sup>7</sup>. During the quarter several discussions were held with large construction groups and government departments to progress the commercialisation of noise panel walls in infrastructure projects.

Noise panels manufactured using the JV's proprietary low carbon cement formulation which replaced 35% of traditional Portland cement with an Industrial byproduct

## CORPORATE

During the quarter, following shareholder approval, the Company received the residual \$0.8 million of funds (before costs) from the \$4.0 million placement conducted in the September quarter.

As at 31 December 2025, Green360 had available cash of approximately \$3.0 million consisting of cash on hand of \$2.6 million and the receipt post-quarter end of \$0.4 million related to the FY25 R&D tax refund. The Company is in a strong financial position to advance the commercialisation of its low-carbon concrete this year.

Cashflow for the quarter included receipts from customers of \$3.0 million, generated from kaolin sales to both domestic and international markets. Payments for production costs for the same period totaled \$2.5 million. The Company invested in additional sales capabilities during the quarter to service domestic and international customers of kaolin products.

Management of the Company was further strengthened with the appointment of Mr Nicholas Anderson as Non-Executive Director and Mr Andrew Taylor as Chief Financial Officer and Joint Company Secretary.

Mr Anderson is a chemical engineer and accomplished executive leader with a track record of building and scaling businesses. He brings extensive experience in capital markets and mergers and acquisitions. Mr Anderson is a graduate of the Australian Institute of Company Directors and is currently Managing Director and CEO of Golden Horse Minerals Ltd (ASX: GHM)

Mr Taylor has over 15 years' experience in listed organisations most recently with PYC Therapeutics Ltd (ASX: PYC) as Chief Financial Officer and Joint Company Secretary.

Mr Taylor is a Chartered Accountant (CAANZ) and a graduate of the Australian Institute of Company Directors.

### ABOUT ECO-CLAY

Eco-Clay is a high-reactivity calcined kaolinite (metakaolin) material that can replace up to 40% of Portland cement in concrete, significantly reducing carbon emissions while maintaining high performance.

Eco-Clay is produced from Green360's own kaolin by-products – specifically tailings and settlement pond residues generated during the refining of high-purity kaolin. It is then calcined to a temperature of around 750 degrees Celsius where it transforms into metakaolin. The significantly lower energy intensity compared to traditional Portland cement manufacture, which requires heating of up to 1,450 degrees Celsius, enables Eco-Clay to provide a lower carbon solution to concrete manufacturing. This circular economy model transforms what was once an industrial by-product into a valuable low-carbon construction material.

### DISCLOSURE REQUIREMENTS (Guidance Note 23 Disclosures)

#### Details of mining exploration activities:

There were no exploration activities undertaken during the quarter ended 31 December 2025.

#### Details of mining production and development activities:

The Company spent A\$2.5 million on hydrous kaolin mining and processing costs and A\$0.1 million on development activities (excludes exploration & evaluation) during the quarter ended 31 December 2025.

#### Details of tenement activities:

The Company holds the following tenements at the end of the quarter:

| TENEMENT | PROJECT         | OWNERSHIP | CHANGE |
|----------|-----------------|-----------|--------|
| E70/5039 | Gabbin Kaolin   | 100%      | Nil    |
| M5408    | Pittong Kaolin  | 100%      | Nil    |
| M5409    | Trawalla Kaolin | 100%      | Nil    |
| M5365    | Lal Lal Kaolin  | 100%      | Nil    |

E = Exploration License (granted)

M = Mining Lease (granted)

### Details of related party payments:

During the quarter the Company paid A\$86k to Directors for Salaries and Wages.

Approved for release by the Board

Information on the Mineral Resources presented is contained in the ASX announcement dated 25 September 2025. Green360 confirms that it is not aware of any information or data that materially affects the information included in this announcement and that all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

## About Green360 Technologies Limited

Green360 Technologies (ASX:GT3) is an Australian-based building materials company leading the development of low-cost, low-carbon cement to address an immediate demand in the market. Traditional cement production is a major industrial polluter; Green360 Technologies is using innovative methods to produce an alternative, delivering improved performance and a reduced emissions profile.

Green360 Technologies is executing a commercialisation plan alongside a reputable market leader, focused on near-term and widespread industry adoption of the Company's low-carbon cement.

## FORWARD-LOOKING STATEMENTS

This release may contain certain forward-looking statements with respect to matters including but not limited to the financial condition, results of operations and business of GT3 and certain of the plans and objectives of GT3 with respect to these items.

These forward-looking statements are not historical facts but rather are based on GT3's current expectations, estimates and projections about the industry in which GT3 operates and its beliefs and assumptions.

Words such as "anticipates," "considers," "expects," "intends," "plans," "believes," "seeks," "estimates", "guidance" and similar expressions are intended to identify forward looking statements and should be considered an at-risk statement. Such statements are subject to certain risks and uncertainties, particularly those risks or uncertainties inherent in the industry in which GT3 operates.

These statements are not guarantees of future performance and are subject to known and unknown risks, uncertainties, and other factors, some of which are beyond the control of GT3, are difficult to predict and could cause actual results to differ materially from those expressed or forecasted in the forward-looking statements. Such risks include, but are not limited to resource risk, product price volatility, currency fluctuations, increased production costs and variances in product grade or recovery rates from those assumed in mining plans, as well as political and operational risks in the countries and states in which we sell our product to, and government regulation and judicial outcomes. For more detailed discussion of such risks and other factors, see the Company's Annual Reports, as well as the Company's other filings.

GT3 cautions shareholders and prospective shareholders not to place undue reliance on these forward-looking statements, which reflect the view of GT3 only as of the date of this release.

The forward-looking statements made in this announcement relate only to events as of the date on which the statements are made.

GT3 will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this announcement except as required by law or by any appropriate regulatory authority.

| 8.6                                                                                                                                                                                                                                 | Total available funding (item 8.4 + item 8.5)                                                                                                                                                                    | 3,228   |
| 8.7                                                                                                                                                                                                                                 | <b>Estimated quarters of funding available (item 8.6 divided by item 8.3)</b>                                                                                                                                    | 5.03    |
| <i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i> |                                                                                                                                                                                                                  |         |
| 8.8                                                                                                                                                                                                                                 | If item 8.7 is less than 2 quarters, please provide answers to the following questions:                                                                                                                          |         |
| 8.8.1                                                                                                                                                                                                                               | Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?                                                                      |         |
| Answer: N/A                                                                                                                                                                                                                         |                                                                                                                                                                                                                  |         |
| 8.8.2                                                                                                                                                                                                                               | Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful? |         |
| Answer: N/A                                                                                                                                                                                                                         |                                                                                                                                                                                                                  |         |

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

*Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.*

## Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 January 2026

Authorised by: The Board of Directors  
(Name of body or officer authorising release – see note 4)

## Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
