ASX Market Update: Appointment of New Director

Greenhy2 Limited (ASX: H2G) is pleased to announce the appointment of Mr. Michael Seder as a Non-Executive Director, effective immediately.

Mr. Seder brings extensive experience in Venture Capital and strategic investment to the Board. As a Principal at M&A Venture Capital, he has a proven track record in identifying and nurturing high-potential start-ups including technologies in the clean energy sector. His expertise in scaling innovative startups aligns perfectly with H2G's mission to advance sustainable energy storage solutions.

A firm believer in the transformative potential of H2G's Sodium Ion technology, Mr. Seder has expressed strong confidence in its ability to drive cost-effective, environmentally friendly energy storage at scale. His appointment is expected to strengthen the Company's strategic direction and enhance shareholder value as we continue to commercialize our proprietary technologies.

"Sodium-ion batteries are poised to be a game-changer in the transition to renewables, offering abundant resources, lower costs, and enhanced safety compared to traditional lithium-ion alternatives. At M&A Venture Capital, we see immense potential in this technology to accelerate global energy independence and sustainability, which is why we're thrilled to back and support innovative companies like Greenhy2." – Michael Seder, Principal, M&A Venture Capital.

The Board welcomes Mr. Seder and looks forward to his contributions.

Short Resume of Michael Seder Michael Seder is a seasoned venture capitalist with over 15 year's experience investing in over 15 ventures and businesses. Also with over 30+ years of operational business experience in retail and SaaS businesses, he currently serves as the Independent Non-Executive Director of PINCHme.com, Inc., a position he has held since 2020. With a background in strategic investments and technology scaling, Mr. Seder has been involved in various ventures, including real estate and innovation-driven enterprises. As a Founder at M&A Venture Capital, he and his team focus on emerging technologies including clean energy and sustainability.
