PROPOSED CHANGE OF COMPANY NAME

Haranga Resources Limited (ASX: HAR; FRA: 65E0) ("Haranga" or "the Company") advises that the Board has approved a proposed change of the Company's name to **American West Gold Ltd.**

The proposed name change will be subject to shareholder approval by way of a special resolution, which is intended to be put to shareholders at the Company's next Annual General Meeting. Further details will be provided in a Notice of Meeting to be released in due course.

If approved, the name change will take effect from the date that ASIC updates its register to reflect the new name. It is intended that the Company's branding, including logo and corporate materials, will also be updated at that time.

The ASX code **AWG** has been reserved and, subject to shareholder approval and ASX confirmation, is expected to be adopted following the name change.

NAME CHANGE RATIONALE

The proposed name change reflects the Company's strategic focus on gold, specifically its wholly owned Lincoln Gold Project ("**Project**"), located within the Motherlode Gold Belt in California, USA.

The Company believes that recent workstreams are materially de-risking the development pathway for the Project, which benefits from existing key mining permits (Conditional Use Permit) and ~$90 million of historical capital investment, including a 315ktpa processing plant and extensive underground development.[2] The Company is focused on leveraging these advantages to advance the Project towards development.

TARGETED NEAR-TERM DEVELOPMENT MILESTONES[3]

Anticipated near-term catalysts:

- Assay results from XC3-XC8 (supporting the JORC Resource): **April.**
- JORC Compliant MRE for Lincoln-Comet & Medean: **Late April to early May.**
- Exploration target at Medean: **Late April to early May.**
- Results from deep repetition holes DDH0280 and DDH0281: **Early May**

Further resource growth opportunities include:

- Additional deep and targeted drilling: **July.**
- Additional Exploration Targets: **Second half of year.**

Company Secretary
HARANGA RESOURCES LIMITED

Competent Person's and Compliance Statement

The information in this announcement that are footnoted below (1-3) relates to exploration results and mineral resources that have been released previously on the ASX. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that, in the case of mineral resources estimates (including foreign estimates), all material assumptions and technical parameters underpinning the estimates continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's finding is presented have not been materially modified from the original market announcements.

Saraya - Mineral Resource[1]

The Company confirms it is not aware of any new information or data that materially affects the information included in the Mineral Resource estimate and all material assumptions and technical parameters underpinning the estimate continue to apply and have not materially changed when referring to its resource announcement made on 27 August 2024[1]. The Company confirms that the form and context in which the Competent Person's finding is presented have not been materially modified from the original market announcements.

Saraya - Mineral Resource Estimate

The resource as reported at 27 August 2024 is as follows:

Classification	Tonnage	Grade	Contained eU_3O_8	
	Mt	eU_3O_8 ppm	Mlbs	Tonnes
Indicated	4.1	740	6.7	3,038
Inferred	10.4	475	10.9	4,946
Total	14.5	550	17.6	7,984

Table 1: Saraya Mineral Resource Estimate[1] – 250ppm cutoff, Indicator Kriging

Disclaimer

Forward-looking statements are statements that are not historical facts. Words such as "expect(s)", "feel(s)", "believe(s)", "will", "may", "anticipate(s)", "potential(s)"and similar expressions are intended to identify forward-looking statements. These statements include, but are not limited to statements regarding future production, resources or reserves and exploration results. All of such statements are subject to certain risks and uncertainties, many of which are difficult to predict and generally beyond the control of the Company, that could cause actual results to differ materially from those expressed in, or implied or projected by, the forward-looking information and statements. These risks and uncertainties include, but are not limited to: (i) those relating to the interpretation of drill results, the geology, grade and continuity of mineral deposits and conclusions of economic evaluations, (ii) risks relating to possible variations in reserves, grade, planned mining dilution and ore loss, or recovery rates and changes in project parameters as plans continue to be refined, (iii) the potential for delays in exploration or development activities or the completion of feasibility studies, (iv) risks related to commodity price and foreign exchange rate fluctuations, (v) risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals or in the completion of development or construction activities, and (vi) other risks and uncertainties related to the Company's prospects, properties and business strategy. Investors are cautioned not to place undue reliance on these forward-looking statements that speak only as of the date hereof, and the Company does not undertake any obligation to revise and disseminate forward-looking statements to reflect events or circumstances after the date hereof, or to reflect the occurrence of or non-occurrence of any events.

About Haranga Resources

Haranga Resources is a gold exploration and development company with assets across California's legendary Mother Lode Gold Belt and Senegal's Kéniéba Inlier. In California, the Company has recently finalised the acquisition of the advanced, high-grade Lincoln Gold Project, which benefits from significant existing infrastructure and is fully permitted for mining. The Company has commenced an underground diamond drilling programme designed to support the delivery of a maiden JORC Resource for the Project and to test for potential repetitions at depth.

In Senegal, Haranga holds the highly prospective Ibel South Gold Project, which has returned spectacular near-surface high-grade gold mineralisation from recent maiden drilling. In addition, Haranga holds the Saraya Uranium Project, previously owned by Uranium giant Orano (previously Areva) and which has in excess of 65,000m of historical drilling and a defined mineral resource of 14.5Mt @ 550ppm eU3O8 for 17.6 Mlbs contained eU3O8 Indicated and Inferred.

Haranga's collective expertise includes considerable experience running ASX-listed companies and financing, operating and developing mining and exploration projects in Africa, Australia, and other parts of the world.
