1 Review of Operations

Highlights

- Hot Chili Limited (Hot Chili or the Company) significantly expands Cu-Au porphyry discovery La Verde, identifying higher-grade shallow starter pit potential and high-grade copper-gold core converging at depth
- Regulatory Approval received for expansion of drilling across La Verde
- Well-funded into 2026, with A\$40m private placement closing in February 2026
- Strategic Partnering Process Advancing
- 31 December 2025 cash position A\$4.6m cash and \$1.8m in VAT and JV recoup

Diamond Drilling at La Verde Exceeds Expectations

The second phase of drilling at La Verde commenced in September, focused on expanding the initial shallow porphyry discovery. Diamond drilling targeted depth extensions and higher-grade copper-gold (Cu-Au) centres to better define the system's scale and grade distribution.

The Company's 10,000m reverse circulation (RC) program confirmed a substantial +0.2% Cu discovery footprint measuring approximately 1,000m by 750m and extending 400m vertically. Diamond drilling significantly expanded the footprint, doubling the vertical extent from surface and confirming the convergence of +0.4% Cu material within a strengthening high-grade core.

Multiple wide, near-surface Cu-Au intercepts now highlight the potential for a high-grade starter pit at La Verde, which is located just 30km south of the planned central processing hub at Productora within the Costa Fuego project. Strong Cu-Au results from the diamond program continue to reinforce confidence in the continuity of mineralisation, which often begins immediately beneath the easily removed shallow gravel cover.

Impact modelling by Hot Chili indicates the potential to incorporate significant additional open pit material at the front end of Costa Fuego's 20-year mine schedule, supporting mine life growth and materially enhancing the financial metrics outlined in the March 2025 Pre-Feasibility Study (PFS).

Drillhole results released during the quarter confirmed significant expansion of La Verde's high-grade core:

- DKD032 recorded 529 m grading 0.56% CuEq (0.41% Cu, 0.21 g/t Au) from 41m to end of hole
 - Including 148 m grading 0.82% CuEq (0.60% Cu, 0.30 g/t Au) from 70 m depth
- DKD034 recorded 426 m grading 0.44% CuEq (0.37% Cu, 0.08 g/t Au) from 194 m depth
 - Including 107 m grading 0.55% CuEq (0.46 % Cu, 0.10 g/t Au) from 426 m depth and
 - Including 52 m grading 0.58% CuEq (0.50 % Cu, 0.08 g/t Au) from 566 m depth
- DKD033, a diamond twin, recorded 495 m grading 0.46% CuEq (0.38% Cu, 0.10 g/t Au) from 3 m depth
 - Including 123 m grading 0.61% CuEq (0.50% Cu, 0.13 g/t Au) from 289 m depth
 - DKP005D, diamond tail recorded 47 m grading 0.67% CuEq (0.57% Cu, 0.12 g/t Au) from 247.5 m depth (original end of hole), and 28 m grading 0.62% CuEq (0.49% Cu, 0.15 g/t Au) from 316 m depth

1 Review of Operations (Cont'd)

Further drillhole results reported in January and February 2026 include:

- DKD036 recorded 150 m grading 0.52% CuEq² (0.37% Cu, 0.21 g/t Au) from 30 m depth
 - Including 38 m grading 0.70% CuEq (0.55% Cu, 0.21 g/t Au) from 117 m
- DKD035 recorded 220 m grading 0.47% CuEq (0.37% Cu, 0.14 g/t Au) from 38 m depth
 - Including 68 m grading 0.64% CuEq (0.52% Cu, 0.15 g/t Au) from 187 m

The latest drillhole assay results have provided confidence to expand Hot Chili's Phase two drill program, with a second RC drill rig commencing in February 2026.

Initial metallurgical testwork for La Verde, also using seawater, has been completed, indicating similar recoveries to those recorded at Costa Fuego¹. Sample selection for further amenability metallurgical testwork is underway.

¹ Copper Equivalent (CuEq) reported for the drillhole intersections were calculated using the following formula: $CuEq\% = ((Cu\% \times Cu \text{ price } 1\% \text{ per tonne} \times Cu_recovery) + (Mo \text{ ppm} \times Mo \text{ price per g/t} \times Mo_recovery) + (Au \text{ ppm} \times Au \text{ price per g/t} \times Au_recovery) + (Ag \text{ ppm} \times Ag \text{ price per g/t} \times Ag_recovery)) / (Cu \text{ price } 1\% \text{ per tonne} \times Cu_recovery)$. The Metal Prices applied in the calculation were: Cu=4.50 USD/lb, Au=3,150 USD/oz, Mo=20 USD/lb, and Ag=30 USD/oz. The entirety of the intersection is assumed as fresh. The recovery and copper equivalent formula for La Verde uses Cortadera as a proxy, which is considered reasonable given both the similar mineralisation style and amenability testwork completed thus far at La Verde – Recoveries of 83% Cu, 56% Au, 83% Mo and 37% Ag. $CuEq (\%) = Cu(\%) + 0.69 \times Au(g/t) + 0.00044 \times Mo(ppm) + 0.0043 \times Ag(g/t)$.

Notes to Table 1: Significant intercepts for La Verde are calculated above a nominal cut-off grade of 0.2% Cu. Where appropriate, significant intersections may contain up to 30m down-hole distance of internal dilution (less than 0.2% Cu). Significant intersections are separated where internal dilution is greater than 30m down-hole distance. The selection of 0.2% Cu for significant intersection cut-off grade is aligned with marginal economic cut-off grade for bulk tonnage polymetallic copper deposits of similar grade in Chile and elsewhere in the world.

¹ Copper Equivalent (CuEq) reported for the drillhole intersections were calculated using the following formula: $CuEq\% = ((Cu\% \times Cu \text{ price } 1\% \text{ per tonne} \times Cu_recovery) + (Mo \text{ ppm} \times Mo \text{ price per g/t} \times Mo_recovery) + (Au \text{ ppm} \times Au \text{ price per g/t} \times Au_recovery) + (Ag \text{ ppm} \times Ag \text{ price per g/t} \times Ag_recovery)) / (Cu \text{ price } 1\% \text{ per tonne} \times Cu_recovery)$. The Metal Prices applied in the calculation were: Cu=4.50 USD/lb, Au=3,150 USD/oz, Mo=20 USD/lb, and Ag=30 USD/oz. The entirety of the intersection is assumed as fresh. The recovery and copper equivalent formula for La Verde uses Cortadera as a proxy, which is considered reasonable given both the similar mineralisation style and amenability testwork completed thus far at La Verde – Recoveries of 83% Cu, 56% Au, 83% Mo and 37% Ag. $CuEq\% = Cu(\%) + 0.69 \times Au(g/t) + 0.00044 \times Mo(ppm) + 0.0043 \times Ag(g/t)$.

1 Review of Operations (Cont'd)

Successful closing of financings

In September 2025 the Company Entitlement Offer to all eligible shareholders, raising A\$14.1M (before costs). Proceeds from the Entitlement Offer provided funding to deliver key milestones on the growth and development of Hot Chili's Costa Fuego Cu-project, specifically commencement of Phase-two diamond drilling at La Verde.

In February 2026, the Company closed a A\$40M (before costs) private placement to institutional, professional and other investors. The placement is intended to support Costa Fuegos position as one of the few globally significant copper projects not controlled by major mining companies, with the potential to contribute substantially to new copper supply this decade.

Proceeds will be used to accelerate drilling across the La Verde Cu-Au discovery to establish a maiden mineral resource and further define the potential size, scale and grade of a higher-grade starter pit for the Costa Fuego Project, development of the Company's Huasco Water Project, commencement of the Costa Fuego Feasibility Study, completion and submission of the Costa Fuego Environmental Impact Assessment, ongoing exploration, strategic funding activities and for general working capital purposes.

Regulatory Approval for Expansion Drilling at La Verde

In October 2025, the Company received approval¹ to expand drill coverage across La Verde. This will provide access to test lateral and along-strike extensions at La Verde, as well as first-pass drilling of three look alike targets to test potential for a district-scale copper porphyry cluster.

Strategic Partnering Process Advancing

Additional parties entered the Company's asset-level, strategic partnering processes during the period, in relation to the Costa Fuego and Huasco Water Projects, with several advancing through due diligence, including site visits.

The Company received further non-binding, indicative, incomplete and conditional proposals in relation to potential transactions for the Projects during the period and remains actively engaged in assessing these proposals.

The Partnering Process may result in a range of transactions for the projects. Investors are cautioned that there is no certainty the Partnering Process will result in a transaction or binding agreement.

EIA and Development Studies Advancing

Multiple workstreams related to progression of the Environmental Impact Assessment (EIA), scheduled for completion at the end of 2026 were advanced, as well as workstreams identified during the PFS which required additional value engineering focus before incorporation into the Feasibility Study (FS).

¹ Regulatory approval refers to a Sectoral Permit, which is the appropriate regulatory authorisation for a project of this scale. A full DIA (Environmental Impact Declaration) would be processed in a next drilling stage following current regulations. Hot Chili remains fully committed to transparency and environmental responsibility in every stage of the project.

2 Qualifying Statements

Conceptual Open Pit Shells

Conceptual open pit shells represent Exploration Targets as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (JORC Code). They are based on completed exploration activities reported in the announcement released 19 May 2025 ('Hot Chili Announces Latest Drill Results for La Verde, Doubling Porphyry Discovery Footprint').

The conceptual open pit shells were generated using copper (Cu) prices of US\$3.50/lb Cu and US\$6.00/lb Cu on a series of nested Cu grade shells. Other input parameters informing the conceptual open-pit shells (pit slope angles, mining cost, processing cost, etc.) were derived from values reported in the March 2025 Costa Fuego Pre-feasibility Study and are considered appropriate for the style of mineralisation encountered at the La Verde Cu-Au porphyry discovery.

Any potential quantity and grade of the Exploration Target shown is conceptual in nature. There has been insufficient exploration to estimate a Mineral Resource within the target area, and it is uncertain if further exploration will result in the estimation of a Mineral Resource.

Further exploration activities are detailed in this announcement and include (but may not necessarily be limited to) a program of diamond drillholes aiming to extend the mineralised footprint at La Verde. Drilling commenced on 22 September 2025, with the length of the program dependent on a number of considerations including (but not limited to) the results of the exploration activities and regulatory applications and approvals.

Qualified Person – NI 43-101

The technical information in this announcement has been reviewed and approved by Mr. Christian Easterday, MAIG, Hot Chili's Managing Director and a qualified person within the meaning of NI43-101.

Competent Person – JORC

The information in this announcement that relates to Exploration Results and Exploration Targets for the La Verde project is based upon information compiled by Mr Christian Easterday, the Managing Director and a full-time employee of Hot Chili Limited, who is a Member of the Australasian Institute of Geoscientists (AIG). Mr Easterday has sufficient experience that is relevant to the style of mineralisation and type of deposits under consideration and to the activity which he is undertaking to qualify as a 'Competent Person' as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' (JORC Code). Mr Easterday consents to the inclusion in this announcement of the matters based on their information in the form and context in which it appears.

The information in this announcement relating to previously reported Exploration Results for La Verde was previously reported in the Company's announcements 'Hot Chili Confirms Major Cu-Au Porphyry Discovery at La Verde', 'Hot Chili Announces Latest Drill Results for La Verde, Doubling Porphyry Discovery Footprint', 'District-Scale Porphyry Cluster Potential Emerging at La Verde Cu-Au Discovery', 'First Diamond Drillhole Confirms Gold-Rich Major Copper Discovery in Coastal Chile', 'Near-Surface Higher-Grade Core Confirmed at La Verde' and 'Rapid Growth of High Grade Core Continues at La Verde' released to ASX on 26 February 2024, 19 May 2025, 29 May 2025, 27 November 2025, 10 December 2025 and 20 January 2026, respectively, which are available to view on the Company's website at www.hotchili.net.au/investors/investor-centre/market-announcements. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this announcement.

Forward Looking Statements

This announcement contains certain statements that are "forward-looking information" within the meaning of Canadian securities legislation and Australian securities legislation (each, a "forward-looking statement"). Forward-looking statements reflect the Company's current expectations, forecasts, and projections with respect to future events, many of which are beyond the Company's control, and are based on certain assumptions. No assurance can be given that these expectations, forecasts, or projections will prove to be correct, and such forward-looking statements included in this announcement should not be unduly relied upon. Forward-looking information is by its nature prospective and requires the Company to make certain assumptions and is subject to inherent risks and uncertainties. All statements other than statements of historical fact are forward-looking statements. The use of any of the words "estimate", "expansion", "expectations", "likely", "may", "plan", "potential", "project", "reinforce", "large-scale", "could", "should", "will", "would", variants of these words and similar expressions are intended to identify forward-looking statements.

The forward-looking statements within this announcement are based on information currently available and what management believes are reasonable assumptions. Forward-looking statements speak only as of the date of this announcement.

In this announcement, forward-looking statements relate, among other things, to: the potential of the La Verde discovery; regulatory applications and approvals; the timing and results of future economic studies; and the Company's future exploration and other business plans.

Forward-looking statements involve known and unknown risks, uncertainties, and other factors, which may cause the actual results, performance, or achievements of the Company to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements. A number of factors could cause actual results to differ materially from a conclusion, forecast or projection contained in the forward-looking statements in this announcement, including, but not limited to, the following material factors: the ability of drilling and other exploration activities to accurately predict mineralisation; operational risks; risks related to the cost estimates of exploration; sovereign risks associated with the Company's operations in Chile; changes in estimates of mineral resources or mineral reserves of properties where the Company holds interests; recruiting qualified personnel and retaining key personnel; future financial needs and availability of adequate financing; fluctuations in mineral prices; market volatility; exchange rate fluctuations; ability to exploit successful discoveries; the production at or performance of properties where the Company holds interests; ability to retain title to mining concessions; environmental risks; financial failure or default of joint venture partners, contractors or service providers; competition risks; economic and market conditions; and other risks and uncertainties described elsewhere in this announcement and elsewhere in the Company's public disclosure record.

Although the forward-looking statements contained in this announcement are based upon assumptions which the Company believes to be reasonable, the Company cannot assure investors that actual results will be consistent with these forward-looking statements. With respect to forward-looking statements contained in this announcement, the Company has made assumptions regarding: future commodity prices and demand; availability of skilled labour; timing and amount of capital expenditures; future currency exchange and interest rates; the impact of increasing competition; general conditions in economic and financial markets; availability of drilling and related equipment; effects of regulation by governmental agencies; future tax rates; future operating costs; availability of future sources of funding; ability to obtain financing; and assumptions underlying estimates related to adjusted funds from operations. The Company has included the

above summary of assumptions and risks related to forward-looking information provided in this announcement to provide investors with a more complete perspective on the Company's future operations, and such information may not be appropriate for other purposes. The Company's actual results, performance or achievement could differ materially from those expressed in, or implied by, these forward-looking statements and, accordingly, no assurance can be given that any of the events anticipated by the forward-looking statements will transpire or occur, or if any of them do so, what benefits the Company will derive therefrom.

For additional information with respect to these and other factors and assumptions underlying the forward-looking statements made herein, please refer to the public disclosure record of the Company, including the Company's most recent Annual Report, which is available on SEDAR+ (www.sedarplus.ca) under the Company's issuer profile. New factors emerge from time to time, and it is not possible for management to predict all those factors or to assess in advance the impact of each such factor on the Company's business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statement.

The forward-looking statements contained in this announcement are expressly qualified by the foregoing cautionary statements and are made as of the date of this announcement. Except as may be required by applicable securities laws, the Company does not undertake any obligation to publicly update or revise any forward-looking statement to reflect events or circumstances after the date of this announcement or to reflect the occurrence of unanticipated events, whether as a result of new information, future events or results, or otherwise. Investors should read this entire announcement and consult their own professional advisors to ascertain and assess the income tax and legal risks and other aspects of an investment in the Company.

3 Directors' Report

The Directors of Hot Chili Limited present their report on the consolidated entity consisting of Hot Chili Limited (the Company or Hot Chili) and the entities it controlled (consolidated entity or the Group) at the end of, or during, the half-year ended 31 December 2025.

Directors

The following persons held office as directors of Hot Chili at the date of this report or were directors at any time during the half-year ended 31 December 2025, unless otherwise stated:

Stuart Mathews (Non-Executive Chairman)
Christian Easterday (Managing Director)
Roberto de Andraca Adriasola (Non-Executive Director)
Mark Jamieson (Non-Executive Director)
Fiona Van Maanen (Non-Executive Director)

Principal Activities

The principal continuing activity of the consolidated entity is mineral exploration.

Significant Changes in the State of Affairs

During the half year under review, significant changes in the state of affairs of the consolidated entity were as follows:

In September, the Company completed a A\$14.1M (before costs) Entitlement Offer to eligible shareholders which was fully subscribed.

Regulatory Approval was received in October 2025 for expansion drilling at La Verde and initiate first-pass drilling, to test adjacent look-alike targets with the potential for a district-scale copper porphyry cluster.

Diamond drilling confirmed significantly expansion of the La Verde Cu-Au discovery footprint and convergence of higher-grade mineralisation at depth. Multiple wide, near-surface Cu-Au intercepts from La Verde located only 30km south of the planned central processing hub at Productora, highlight the opportunity to incorporate a high-grade starter pit to Costa Fuego.

Strategic Partnering processes advanced, led by BMO Capital Markets, to introduce qualified partners with the financial, technical and operational capability to assist in funding and delivering of the Company's Costa Fuego and Huasco Water projects.

Results of Operations for the Half-Year Ended 31 December 2025

The results of the consolidated entity after providing for income tax and non-controlling interest for the half-year ended 31 December 2025 was a loss of A\$4,089,628 (half-year ended 31 December 2024: loss of A\$6,509,483).

Dividends

No dividends were paid or declared since the end of the previous year ending 30 June 2025. The Directors do not recommend the payment of a dividend.

3 Directors' Report (Cont'd)

Rounding Off of Amounts

The Company is of a kind referred to in *ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191*, dated 24 March 2016, issued by the Australian Securities and Investments Commission. Therefore, the amounts contained in the Directors' Report and in the financial report have been rounded to the nearest dollar in accordance with that Corporations Instrument, unless otherwise stated.

Review of Operations and Qualifying Statements

Refer to the Review of Operations report in Section 1 and associated Qualifying Statements in Section 2.

Matters Subsequent to Reporting Date 31 December 2025

On 2 February 2026, the Company announced it had engaged Veritas Securities Limited, Cormack Securities Inc and Desjardins Capital Markets as joint lead managers to undertake a capital raising by way of a private placement of 24,242,425 new fully paid ordinary shares to institutional, professional, and other investors to raise approximately A\$40.0m (before costs).

The Shares will be issued at a price of A\$1.65 per Share (C\$1.56 per Share) and will rank equally with all other Shares currently on issue.

On the 4 February 2026, the Company announced that the A\$40.0m placement had received strong demand from Australian, Canadian and overseas investors, as well as the Company's three largest shareholders (Glencore, Blue Spec and GS Group).

INDEPENDENT AUDITOR'S REVIEW REPORT

To the Members of HOT CHILI LIMITED

Report on the Half-Year Financial Report

Conclusion

We have reviewed the accompanying half-year financial report of Hot Chili Limited (the Company) and its subsidiaries (the Consolidated Entity), which comprises the statement of financial position as at 31 December 2025, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows for the half-year ended on that date, notes comprising material accounting policy information and other explanatory information, and the directors' declaration of the Consolidated Entity comprising the Company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Hot Chili Limited is not in accordance with the *Corporations Act 2001*, including:

- (a) Giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- (b) Complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

Basis for Conclusion

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the Auditor's Responsibilities for the Review of the Financial Report section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 Code of Ethics for Professional Accountants (including Independence Standards) (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Hot Chili Limited, would be in the same terms if given to the directors as at the time of this auditor's review report.

Directors' responsibility for the Half-Year Financial Report

The directors of Hot Chili Limited are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility for the Review of the Half-Year Financial Report

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the Consolidated Entity's financial position as at 31 December 2025 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

6 Directors' Declaration

In the opinion of the Directors:

- a) the attached financial statements and notes thereto comply with the *Corporations Act 2001*, the accounting standards (including Australian Accounting Standard AASB 134 *Interim Financial Reporting*), the *Corporations Regulations 2001* and other mandatory professional reporting requirements;
- b) the attached financial statements and notes thereto give a true and fair view of the consolidated entity's financial position as at 31 December 2025 and of its performance for the half-year ended on that date; and
- c) there are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

This declaration is made in accordance with a resolution of the Board of Directors made pursuant to section 303(5)(a) of the *Corporations Act 2001*.

11 Notes to the Financial Statements

For the Half-Year Ended 31 December 2025

1. SUMMARY OF MATERIAL ACCOUNTING POLICIES

Statement of Compliance

The half-year financial report is a general purpose financial report prepared in accordance with the requirements of the *Corporations Act 2001* and Australian Accounting Standard AASB 134 *Interim Financial Reporting*. Compliance with AASB 134 ensures compliance with International Financial Reporting Standard IAS 34 *Interim Financial Reporting*.

The half-year financial report does not include full disclosures of the type normally included in an annual financial report. Accordingly, it is recommended that this financial report be read in conjunction with the annual financial report for the year ended 30 June 2025 and any public announcements made by Hot Chili Limited and its controlled entities during the half-year in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

Basis of Preparation

The same accounting policies and methods of computation have been followed in this interim financial report as were applied in the most recent annual financial statements, unless otherwise stated. The accounting policies are consistent with Australian Accounting Standards and with IFRS Standards.

New or Amended Accounting Standards and Interpretations Adopted

The consolidated entity has adopted all new or amended accounting standards, interpretations and other accounting pronouncements issued by the Australian Accounting Standards Board (AASB) that are effective for reporting periods beginning on or after 1 January 2026 and therefore mandatory for the current reporting period.

Any new or amended accounting standards, interpretations and other accounting pronouncements that are not yet mandatory have not been early adopted.

2. OPERATING SEGMENTS

The Company's operations are in one reportable business segment, being the exploration for Copper. The Company operates in one geographical segment, being Chile.

The operating segment information is the same information as provided throughout the consolidated financial statements and therefore not duplicated. The information reported to the CODM is on at least a monthly basis.

- ¹ Marsellesa Antofagasta Minerals S.A. (AMSA) and Cometa Option agreements have been terminated due to unsuccessful exploration assessments by the Company. These terminations are not considered material to the exploration program.
- ² Payments required under option and purchase agreements to secure tenements together with associated taxes & registration costs.
The future realisation of these non-current assets is dependent on further exploration and funding necessary to commercialise the resources or realisation through sale.
- ³ Management have determined that the capitalised expenditure relating to the projects in Chile are still in the exploration phase and are to be classified as exploration and evaluation expenditure. In accordance with AASB 6 Exploration for and Evaluation of Mineral Resources, management have assessed whether there are any indicators of impairment on the capitalised expenditure as at balance date. In making this assessment management have considered whether sufficient data exists to conclude that the exploration and evaluation assets are unlikely to be recovered in full from successful development or sale. Based on this assessment, management are satisfied that there are no impairment indicators as at balance date.
- ⁴ Capitalised mineral exploration and evaluation is net of reimbursements of VAT recovered following approval for VAT refunds from the Chilean Tax Authorities.

7. CONTINGENT LIABILITIES

a) VAT

As at 31 December 2025, Hot Chili had accumulated:

- VAT refund payments of \$18,349,531 (30 June 2025: \$16,586,083) with respect to VAT recovered as at 31 December 2025 by Sociedad Minera El Águila SpA (refer to the table below); and
- VAT refund payments of \$11,528,576 (30 June 2025: \$10,990,802) with respect to VAT recovered as at 31 December 2025 by Sociedad Minera Frontera SpA (refer to the table below).

	Consolidated Entity	
	Dec 2025 \$	June 2025 \$
VAT recovered by Sociedad Minera El Águila SpA (CLP 11,190,512,200; 30 June 2025: CLP 10,140,567,058)	18,349,531	16,586,083
VAT recovered by Sociedad Minera Frontera SpA (CLP 7,030,734,064; 30 June 2025: CLP 6,719,667,817)	11,528,576	10,990,802
Total VAT Recovered by Chilean Subsidiaries (CLP 18,221,246,264; 30 June 2025: CLP 16,860,234,875)	29,878,107	27,576,885

Under the initial terms of the VAT refund payment, the consolidated entity initially had until 31 December 2019 to commercialise production from Productora and meet certain export targets, having the right to extend this term. The Company exercised its right to extend the deadline to meet the committed amount of exports with the Ministry of Economy. Sociedad Minera El Águila SpA obtained extensions until 30 June 2022, until 30 June 2026 and recently until 30 June 2033. Sociedad Minera Frontera SpA's extension ends on 31 December 2026 for exports related to the Cortadera deposit. However, a new extension will be required in the following months.

In the event that the term is not extended further and the Company does not meet certain export targets, the Company will be required to re-pay the VAT refund payments to the Chilean Tax Authority subject to certain terms and conditions. However, if Hot Chili achieves the export targets within that timeframe or its renewal, if required, any VAT refund payments will not be required to be repaid.

b) Future Royalty Payments

In July 2023, the Company closed an Investment Agreement with Osisko Gold Royalties Ltd (Osisko). Under the terms of the Investment Agreement Osisko purchased a net smelter return royalty comprising 1% of payable copper production and 3% of gold payable production. Hot Chili retains a buyback right if a change of control event occurs prior to the 4th anniversary of closing under the terms and conditions of the announcement dated 28 June 2023.
