IMPORTANT INFORMATION

This Prospectus is an important document and should be read in its entirety. You should seek professional advice if you have any questions about the Offers under this Prospectus, or any matter relating to an investment in the Company.

General	This Prospectus is dated 18 May 2026 (Prospectus Date) and was lodged with ASIC on that date. Neither ASIC nor ASX take any responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates. This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities and options to acquire continuously quoted securities (as defined in the Corporations Act). It has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering or “full form” prospectus. In preparing this Prospectus, regard has been given to the fact that the Company is a ‘disclosing entity’ for the purposes of the Corporations Act and that certain matters may reasonably be expected to be known to investors and their professional advisers. New Securities will not be issued on the basis of this Prospectus later than 13 months after the Prospectus Date.
Exemption to disclosure and Entitlement Offer	In certain circumstances, a listed company may undertake an entitlement offer without a prospectus if it complies with the disclosure exemption in s708AA and 1012DAA of the Corporations Act and the relief in <i>ASIC Corporations (Non-Traditional Rights Issues) Instrument 2026/98</i>. As the Company has been suspended from official quotation for more than 5 days over the preceding 12 months, section 708A(5) of the Corporations Act precludes the Company from issuing and lodging with the ASX a ‘cleansing notice’, being a notice that complies with s 708A(6) of the Corporations Act. Accordingly, the Company is undertaking the Offers under this Prospectus.
Electronic prospectus	This Prospectus may be viewed in electronic form at www.hydrixltd.com by Australian and New Zealand investors only. The electronic version of this Prospectus is provided for information purposes only. A paper copy of the Prospectus may be obtained free of charge on request during the Offer Period by contacting the Company. The information on the Company’s website does not form part of this Prospectus.
Risk factors	Potential investors should be aware that applying for Securities in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in Section 5 of this Prospectus. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the Securities in the future. Accordingly, an investment in the Company should be considered highly speculative. The information provided in this Prospectus is not investment advice or financial product advice and has been prepared without taking into account your investment objectives, financial situation or particular needs (including financial and taxation issues). This document is important and should be read in its entirety. If after reading this Prospectus you have any questions about the securities being offered under this Prospectus or any other matter, then you should consult your stockbroker, accountant or other professional adviser before deciding whether to apply for New Securities pursuant to this Prospectus.
Foreign jurisdictions	This Prospectus is not, and is not intended to constitute, an offer, invitation or issue of Securities in any place or jurisdiction in which, or to any person to whom, it would be unlawful to make such an offer, invitation or issue. By applying for New Securities, including by submitting an Application Form or making a payment using BPAY® (or EFT for New Zealand Shareholders), an Applicant represents and warrants to the Company (among other representations and warranties set out in Section 3.9) that there has been no breach of such laws. The distribution of this Prospectus and accompanying Application Forms (including electronic copies) outside Australia and New Zealand may be restricted by law and persons who come into possession of these documents should observe any such restrictions.

	Any failure to comply with such restrictions may contravene applicable securities laws. The Company disclaims all liability to such persons. Please refer to Section 2.22 for further information.
Important information for New Zealand investors	Warning Statement The Offers to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and regulations made under that Act. In New Zealand, this is subpart 6 of Part 9 of the <i>Financial Markets Conduct Act 2013</i> and Part 9 of the <i>Financial Markets Conduct Regulations 2014</i>. The Offers and the content of this Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act and the regulations made under that Act set out how the Offers must be made. There are differences in how financial products are regulated under Australian law. For example, the disclosure of fees for managed investment schemes is different under the Australian regime. The rights, remedies, and compensation arrangements available to New Zealand investors in Australian financial products may differ from the rights, remedies, and compensation arrangements for New Zealand financial products. Both the Australian and New Zealand financial markets regulators have enforcement responsibilities in relation to the Offers. If you need to make a complaint about an Offer, please contact the Financial Markets Authority, New Zealand (http://www.fma.govt.nz). The Australian and New Zealand regulators will work together to settle your complaint. The taxation treatment of Australian financial products is not the same as for New Zealand financial products. If you are uncertain about whether this investment is appropriate for you, you should seek the advice of a financial advice provider. The Offers may involve a currency exchange risk. The currency for the financial products is not New Zealand dollars. The value of the financial products will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant. If you expect the financial products to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars. If the financial products are able to be traded on a financial product market and you wish to trade the financial products through that market, you will have to make arrangements for a participant in that market to sell the financial products on your behalf. If the financial product market does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the financial products and trading may differ from financial product markets that operate in New Zealand.
Notice to nominees and custodians	Shareholders resident in Australia and New Zealand holding Shares on behalf of persons who are resident in other jurisdictions are responsible for ensuring that taking up any New Securities does not breach regulations in the relevant jurisdiction.
Target market determination	In accordance with the design and distribution obligations under the Corporations Act, the Company has determined the target market for the offer of New Options issued under this Prospectus. The Company will only distribute this Prospectus to those investors who fall within the target market determination (TMD) as set out on the Company's website www.hydrixltd.com . By making an application under an Offer, you warrant that you have read and understood the TMD and that you fall within the target market set out in the TMD.
Publicly available information	Information about the Company is publicly available and can be obtained from ASIC and ASX (including the ASX website at www.asx.com.au). The contents of any website or ASIC or ASX filing by the Company are not incorporated into this Prospectus and do not constitute part of the Offer. This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest in the Company or subscribe for the New Securities.
	The Company has not authorised any person to give any information or make any

	representation in connection with an offer which is not contained in this Prospectus. Any such extraneous information or representation may not be relied upon as having been authorised by the Company in connection with this Prospectus.
Taxation implications	The Directors do not consider it appropriate to give Shareholders advice regarding the taxation consequences of applying for New Securities under this Prospectus. The Company, its advisers and its officers do not accept any responsibility or liability for any such taxation consequences to Shareholders. As a result, Shareholders should consult their professional tax adviser in connection with applying for New Securities under this Prospectus.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place. Such forward-looking statements are provided as a general guide only and are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of the Company, its Directors or management. Actual outcomes may differ materially from the events, intentions or results expressed or implied in any forward-looking statement in this Prospectus. The Company cannot and does not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this Prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements. The Company, nor its related bodies corporate or affiliates nor their respective directors, officers, partners, employees and agents give any warranty, representation, assurance or guarantee that the occurrence of the events expressed or implied in any of the forward-looking statements in this Prospectus will actually occur. In addition, please note that past performance should not be relied upon as (and is not) an indication or guarantee of future performance. The Company has no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this prospectus, except where required by law. Key risks associated with an investment in the Company are detailed in Section 5. These and other factors could cause actual results to differ materially from forward-looking statements.

Manager by the Company is not intended to create any agency, fiduciary or other relationship between the Lead Manager and any other investor.

Determination of eligibility of investors for the purposes of the Offers is determined by reference to a number of matters, including legal requirements and regulatory requirements, logistical and registry constraints and the discretion of the Company and the Lead Manager. To the maximum extent permitted by law, the Company, the Lead Manager, their respective related bodies corporate and affiliates, and their respective directors, officers, partners, employees and agents expressly disclaim any duty or liability (including for negligence) in respect of that determination and the exercise or otherwise of that discretion.

Letter to Shareholders

Dear Shareholder,

INVITATION TO PARTICIPATE IN ENTITLEMENT OFFER

On behalf of the Board of Hydrix Limited (**Hydrix** or the **Company**), I am pleased to invite Eligible Shareholders to participate in an accelerated renounceable entitlement offer.

Entitlement Offer

The Entitlement Offer is an offer to Eligible Shareholders of 6 Entitlement Shares (at an issue price of \$0.005 per Entitlement Share) for every 1 Share held on the Record Date, together with 1 free attaching Entitlement Option (exercisable at \$0.01 per Entitlement Option and expiring 30 June 2029) for every Entitlement Share issued. The Entitlement Offer is not underwritten.

The Offer Price represents a discount of:

- 61.54% to the closing price of \$0.013 per Share on 13 May 2026 (being the last day before the Company entered into a trading halt in connection with the Entitlement Offer); and
- 18.60% to the theoretical ex-rights price (**TERP**)¹ of \$0.0061.

If the maximum number of Entitlement Shares are subscribed for, the Company will raise up to approximately \$8.183 million (before costs) through the issue of 1,636,613,082 Entitlement Shares. Further, if all Entitlement Options are exercised, the Company will raise up to an additional \$16.367 million (before costs).

The Entitlement Offer gives Eligible Shareholders the opportunity to subscribe for Entitlement Securities without paying brokerage fees or other transaction costs. There is also an opportunity for Eligible Shareholders to apply for more than their Entitlement as outlined in Section 2.1. However, there is no guarantee that Eligible Shareholders will be allocated any additional Entitlement Securities under the Entitlement Offer.

The Entitlement Offer comprises 4 components:

- **Institutional Entitlement Offer** – Eligible Institutional Shareholders will be given the opportunity to take up all or part of their Institutional Entitlements under the Institutional Entitlement Offer. Eligible Institutional Shareholders may also apply for more than their Entitlement.

The Institutional Entitlement Offer will open on Monday, 18 May 2026 and will close at 5.00pm on Tuesday, 19 May 2026.

- **Institutional Shortfall Bookbuild** – Institutional Entitlements not taken up under the Institutional Entitlement Offer and Institutional Entitlements that would have been issued to Ineligible Institutional Shareholders had they been entitled to participate in the Institutional Entitlement Offer will be sold through the Institutional Shortfall Bookbuild process. The Institutional Premium realised for the Institutional Entitlements forming the Institutional Shortfall, if any, will be remitted proportionally to holders of those Institutional Entitlements at the close of the Institutional Entitlement Offer.
- **Retail Entitlement Offer** – Eligible Retail Shareholders will be given the opportunity to take up all or part of their Retail Entitlements under the Retail Entitlement Offer. Eligible Retail Shareholders may also apply for more than their Entitlement.

¹ TERP is the theoretical ex-rights price at which the Company's Shares should trade immediately after the ex-date of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which the Company's shares trade immediately after the ex-date of the Entitlement Offer will depend on many factors and may not be equal to TERP. TERP is calculated by reference to the Company's closing price of \$0.013 per Share on 13 May 2026 (being the last day before the Company entered into a trading halt in connection with the Entitlement Offer) and assumes that the Entitlement Offer is fully subscribed and no other Shares are issued. TERP does not include any impact of the Conversion Offers or Broker Offers.

The Retail Entitlement Offer will open on Monday, 25 May 2026 and will close at 5.00pm (AEST) on Friday, 5 June 2026 (unless extended).

- **Retail Shortfall Bookbuild** – Entitlements not taken up under the Retail Entitlement Offer and Retail Entitlements that would have been issued to Ineligible Retail Shareholders had they been entitled to participate in the Retail Entitlement Offer will be offered for sale through the Retail Shortfall Bookbuild. The Retail Premium realised for the Retail Entitlements forming the Retail Shortfall, if any, will be remitted proportionally to holders of those Retail Entitlements at the close of the Retail Entitlement Offer.

The Company has appointed Peak Asset Management Pty Ltd as the Lead Manager to the Entitlement Offer and Shortfall Offer.

Shortfall Offer

Any New Securities under the Entitlement Offer that are not applied for will form the Shortfall Securities. The offer to issue Shortfall Securities, being the Shortfall Offer, is a separate offer under this Prospectus. Any Shortfall Securities will be placed and issued at the discretion of the Company, in consultation with the Lead Manager.

Conversion Offers

The Company is also undertaking the Note Conversion Offer and Director Loan Conversion Offer, to further strengthen the Company's balance sheet by seeking to convert a majority of Director Loans and all Convertible Notes held by Directors and other external parties (of up to \$5.435 million) into equity on the same terms as the Entitlement Offer (refer to Sections 2.3 and 2.4).

Broker Offers

This Prospectus also contains the Broker Option Offer and Broker Share Offer to the Lead Manager, as part of the fees payable pursuant to the Lead Manager Mandate, subject to a minimum amount of \$8 million being raised under Entitlement Offer (and if applicable, the Shortfall Offer) (refer to Sections 7.1 and Section 7.2).

Purpose of the Offers

The purpose of the above Offers is to:

- recapitalise the Company with funds to support delivery of current programs, and general working capital including to provide flexibility for disciplined growth and investment initiatives aligned to Hydrix's increasing focus on defence technology;
- provide existing Eligible Shareholders with an opportunity to participate in the recapitalisation of the Company; and
- materially reduce the Company's debt position by raising funds to repay capital and operating liabilities, and retiring other debt by conversion into equity.

the Company	Company are detailed below. The list of risks is not exhaustive and further details of these risks and other risks associated with an investment in the Company are detailed in Section 5. Going concern risk The Company's FY25 Financial Report (for the year ending 30 June 2025) and HY26 Financial Report (for the half year ended 31 December 2025) each included a note on the financial condition of the Company and the existence of a material uncertainty about the Company's ability to continue as a going concern. As set out in the HY26 Financial Report, as at 31 December 2025, the consolidated entity incurred a net loss before tax of \$2.34 million, reported cash used in operations of \$22,383 and had a net current assets deficit (current assets less current liabilities) of \$12.07 million. Despite these material uncertainties, the directors were as at 31 December 2025 of the opinion the consolidated entity would continue as a going concern, taking into consideration various factors outlined in the HY26 Financial Report. Since the date of the HY26 Financial Report, the Directors have reviewed the debt levels of the Company and determined to undertake the Offers, in order to materially reduce debt levels and strengthen the financial position of the Company. Where the Offers are fully subscribed, and as set out in the pro-forma statement of financial position in Section 4.7, the Company will reduce its liabilities by \$10.23 million through the conversion of \$5.435 million of debt (comprising \$2.922 million in Convertible Notes and \$2.513 million in Director Loans) and repayment of \$4.791 million of debt and operating liabilities out of funds raised, thus reducing the net current assets deficit (current assets less current liabilities) from \$12.07 million (as at 31 December 2025) to a positive net current asset position of \$0.766 million (assuming none of the New Options are exercised) and \$29.496 million, assuming 100% of the New Options are fully exercised. Notwithstanding the 'going concern' qualification included in HY26 Financial Report, the Directors believe that upon the successful completion of the Offers, the Company will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements, although further funding may be required to meet the short to medium term working capital costs of the Company. However, where the Company raises less than \$4 million, the Conversion Offers will not proceed and the \$5.435 million in Convertible Note debt and Director Loans will not be converted, and will remain as current

	liabilities; and the Company will not be in a position to reduce its liabilities by \$4.791 million (as the Company intends where it raises the maximum subscription amount of \$8.183 million). Consequently, the Company will continue to have a net current assets deficit (notwithstanding that this deficit will be smaller than the net current assets deficit position of \$12.07 million as at 31 December 2025). Overdue PAYG obligation to ATO As disclosed in the HY26 Financial Report, Hydrix Services Pty Ltd has a pay as your go (PAYG) liability of approximately \$2.5 million (excluding interest) as at 31 December 2025 that remains outstanding to the Australia Tax Office (ATO). The PAYG liability relates to obligations that accrued between February 2024 and June 2025. Hydrix Services Pty Ltd has proactively engaged with ATO on this outstanding balance. The outstanding balance has been discussed and agreed with ATO and as such there is no remaining judgement or estimation in relation to this balance. Hydrix Services Pty Ltd has submitted a payment plan proposal to address the outstanding balance, and is awaiting formal approval of the plan by ATO. Until formal approval from ATO is received, it is not known whether any fines or penalties will be imposed or whether Hydrix's proposed payment plan will be accepted. There is a risk that ATO will not accept Hydrix Services Pty Ltd's proposed payment plan, and call upon immediate repayment of the liability owed. However, given the level of constructive engagement Hydrix Services Pty Ltd has had with ATO to date, the Directors have confidence that a manageable payment plan can be achieved, noting that Hydrix Services Pty Ltd has been operating under the proposed payment plan and reducing the outstanding debt. The Directors further believe that upon the successful completion of the Offers, the Company will have sufficient funds to meet the Company's commitments to make repayments in accordance with its proposed payment plan. Default risk under debt arrangements The Company has and may continue to enter into debt facilities and agreements, under which it has and will have obligations to make payments to debt holders on relevant due dates and repay amounts advanced to the Company on the relevant due dates. Following successful completion of the Offers, the Company will have extinguished up to \$10.23 million of its outstanding debt, including: - up to \$2.922 million owed pursuant to the

	Convertible Notes which will be converted under the Note Conversion Offer; and - up to \$2.513 million owed pursuant to the Director Loans which will be converted under the Director Loan Conversion Offer; and \$4.791 million owed to other lenders and creditors (including approximately \$1 million to TP24 under the trade finance facility which is repayable by 31 July 2026). Assuming that \$10.23 million debt is extinguished in accordance with the above, the Company will have less than \$100,000 in borrowings. However, where the Company raises less than \$4 million: - the Conversion Offers will not proceed. Consequently, the \$5.435 million in Convertible Note debt and Director Loans will not be converted, and will remain as current liabilities will be repayable by October 2026; and - the Company will not be in a position to reduce its liabilities by \$4.791 million (as the Company intends where it raises the maximum subscription amount of \$8.183 million). In this event, the Company would seek to comply with any existing repayment terms using the proceeds from cash flows from operations, or, if required, additional debt or equity raisings. In addition, the Company may seek amendments, or alternative borrowing arrangements. However, there is no assurance that the lenders would consent to an amendment or a waiver in the event of non-compliance, or that the lenders would not exercise rights that would be available to them, including among other things, demanding immediate payment of outstanding borrowings. If such a demand was made and appropriate forbearance or refinance arrangements could not be reached, the Company may not have sufficient funds to meet that demand.	
	Customer credit risk and customer concentration risk	
	The Group is exposed to the risk of bad debts associated with the payment obligations of its customers. Further, the Company is exposed to customer concentration risk where a relatively small number of clients make up a material portion of the Group's revenue. The risk arising from a customer with bad debts is compounded where that customer is a material contributor of revenue to the Group.	
	The extent to which this risk will impact the Company's business depends on (among other things) the credit profile and funding constraints of its customers, and

	the customer concentration of the Group. Hydrix seeks to mitigate this risk by establishing strong credit policies, undertaking robust customer screening, diversifying its customer base, and generally requiring material upfront deposits to be paid prior to commencement of significant projects. Many clients rely on their own ongoing capital raising efforts to fund their new product development programs. From time to time, clients may be subject to their own financial distress, which has the potential to negatively impact the Company's working capital and potentially, result in the Company not being able to recover outstanding receivable amounts leading to a bad debt write-off. The Company uses all reasonable efforts to manage these potential risks. However, a failure to adequately assess and manage credit risk may result in non-recoverable write offs, which could adversely impact the Company's cash flow, financial position, performance and reputation. • Future capital requirements The Company has undertaken reasonable operating cost reductions in accordance with the operating potential of its underlying business. Due to the nature of project-based consulting services engineering businesses and the requirement to maintain appropriate levels of resources and skill capabilities to service highly specialised and regulated product developments, periodic revenues and operating profits fluctuate. Coupling these periodic fluctuations with the costs of operating an ASX listed entity, the Company may generate periodic losses and as a result require additional finance in the future to sufficiently fund its operations. Further, pursuing growth and expansion opportunities will require additional capital investment. Any additional equity financing may be dilutive to shareholders (who may not have the opportunity to participate in that raising), and may be undertaken at lower prices than any prior offer prices. Should the Company require additional funding, there can be no assurance that additional financing will be available on acceptable terms or at all. Any inability to obtain additional financing, if required, would have a material adverse effect on the Company's business, financial condition and results of operations. The Company's actual cash requirements may vary from those now planned and will depend upon many factors Refer to Section 5 for an overview of further risks associated with an investment in the Company, and also risks associated in connection with the Offers.

- (b) 18.60% to the theoretical ex-rights price (**TERP**)² of \$0.0061.

Components of Entitlement Offer

The Entitlement Offer comprises 4 components:

- (c) **Institutional Entitlement Offer** – Eligible Institutional Shareholders will be given the opportunity to take up all or part of their Institutional Entitlements under the Institutional Entitlement Offer. Eligible Institutional Shareholders may also apply for additional Entitlement Securities, in excess of their Institutional Entitlement, not subscribed for by other Eligible Institutional Shareholders pursuant to the Institutional Entitlement Offer.

In the event it is necessary to scale back

² TERP is the theoretical ex-rights price at which the Company's Shares should trade immediately after the ex-date of the Entitlement Offer. TERP is a theoretical calculation only and the actual price at which the Company's shares trade immediately after the ex-date of the Entitlement Offer will depend on many factors and may not be equal to TERP. TERP is calculated by reference to the Company's closing price of \$0.013 per Share on 13 May 2026 (being the last day before the Company entered into a trading halt in connection with the Entitlement Offer) and assumes that the Entitlement Offer is fully subscribed and no other Shares are issued.  - (A) have subscribed with valid Applications for their full Retail Entitlement of New Securities under the Entitlement Offer; and
 - (B) have validly applied for additional Entitlement Securities under their Application,

in such number as applied for over and above their Retail Entitlement, provided that no Eligible Retail Shareholder will increase their Voting Power in the Company above 19.99% through the allocation of the Retail Shortfall Securities. In the event it is necessary to scale back applications for Retail Shortfall Securities by Eligible Retail Shareholders, then the scale back will be

at the discretion of the Directors and, in the first instance, on a pro rata basis, based on the Retail Entitlements of Eligible Retail Shareholders.

If the number of Retail Shortfall Securities issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded; and

- (iii) then, the remaining Retail Shortfall Securities (if any) will form the Retail Shortfall Bookbuild.

Shortfall bookbuild premiums

The ability to sell Entitlements under the Institutional Shortfall Bookbuild and Retail Shortfall Bookbuild, and the ability to obtain any Institutional Premium and / or Retail Premium will depend on various factors, including market conditions. If there is a Retail Premium, it may be less than, more than, or equal to the Institutional Premium, and vice-versa.

To the maximum extent permitted by law, the Company, the Lead Manager and each of their respective related bodies corporate and affiliates, and each of their respective directors, officers, partners, employees, representatives and agents, disclaim all liability, including for negligence, for any failure to procure an Institutional Premium under the Institutional Shortfall Offer and / or a Retail Premium under the Retail Shortfall Bookbuild, for any difference between the Retail Premium and Institutional Premium, and for any failure to obtain any particular exchange rate, or any movements in exchange rates, if exchanging the Institutional Premium or Retail Premium (as applicable) into an elected foreign currency. The Company reserves the right to issue Entitlements under the Institutional Shortfall Bookbuild and Retail Shortfall Bookbuild at its discretion.

You should note that if you allow all or part of your Entitlement to lapse and be sold into the Institutional Shortfall Bookbuild or Retail Shortfall Bookbuild (as applicable), then you will forgo any exposure to increases or decreases in the value of Entitlement Securities and your percentage shareholding in the Company will be diluted by non-participation in the Entitlement Offer.

Purpose

The purpose of the Entitlement Offer and the intended use of funds raised is set out in Section 4.1 of this Prospectus.

Offer not conditional

The Entitlement Offer is not conditional, and is not subject to any minimum subscription.

Rights attaching to Entitlement Securities

All Entitlement Shares and Shares issued on the exercise of the Entitlement Options under the Entitlement Offer will rank equally with the Shares on issue as at the date of this Prospectus. For further information regarding the rights and liabilities attaching to Entitlement Shares and Shares issued on the exercise of the Entitlement Options, please see Section 6.1.

The Entitlement Options issued under the Entitlement Offer will be exercisable at \$0.01 each, on or before 30 June 2029. For further information regarding the terms and conditions attaching to Entitlement Options, please see Section 6.2.

2.2 Shortfall Offer

Details

Any Entitlement Shares that are not applied for under the Entitlement Offer will form the Shortfall Shares. The offer to issue Shortfall Shares is a separate offer under this Prospectus (**Shortfall Offer**).

Under this Prospectus, the Company offers to issue the Shortfall Shares to investors at the same price of \$0.005 per Shortfall Share as that offered under the Entitlement Offer, together with 1 free attaching Shortfall Option for each Shortfall Share applied for and issued under the offer.

Investors may apply for Shortfall Securities upon invitation from the Company by completing the Shortfall Offer Application Form provided to them by the Company (refer to Section 3.8).

Any Shortfall Securities will be placed and issued within three months after the Retail Entitlement Offer Closing Date.

Allocation policy

The Shortfall Offer will be managed by the Lead Manager. The Company shall allot and issue any Shortfall Securities under the Shortfall Offer in accordance with the allocation policy set out below:

- (a) The Shortfall Securities will be issued to persons to whom a disclosure document is not required to be provided under Part 6D.2 of the Corporations Act (which includes 'sophisticated investors' within the meaning of section 708(8) of the Corporations Act and 'professional investors' within the meaning of section 708(11) of the Corporations Act), who may be introduced to the Company by the Lead Manager.
- (b) To the extent that is commercially practicable and taking into account the Company's requirement for funds, the Directors (working in conjunction with the Lead Manager) will endeavour to allot the Shortfall Securities to a spread of investors, in order to mitigate any control effects which may arise from issuing the Shortfall Securities to a single or small number of investors.
- (c) In any event, the allocation will be done in a manner which will ensure that no Shareholder or other investor will, as a consequence of being issued any Shortfall Shares under the Shortfall Offer, hold a relevant interest of more than 19.99% of all of the Shares in the Company after the Offers.
- (d) No related party (including the Directors) will be entitled to participate in the Shortfall Offer.
- (e) The Company will not allocate or issue Shares or Options under the Shortfall Offer where it is aware that to do so would result in a breach of the Corporations Act, the Listing Rules or any other relevant regulation or law. Investors wishing to apply for Shares and Options under the Shortfall Offer must consider whether or not the issue of the Shares and Options applied for would breach the Corporations Act or the ASX Listing Rules having regard to their own circumstances.

In relation to the Shortfall Offer, the Company reserves the right to issue to an Applicant a lesser number of Shortfall Securities than the number applied for, reject an Application or not proceed with the issuing of the Shortfall Securities or part thereof.

If the number of Shortfall Shares issued is less than the number applied for, surplus Application Monies will be refunded in full. Interest will not be paid on Application Monies refunded.

Rights attaching to Shortfall Securities

The Shortfall Shares, and Shares issued on the exercise of the Shortfall Options under the Shortfall Offer, will have the same rights as existing fully paid ordinary Shares on issue in the Company, as detailed in Section 6.1.

The Shortfall Options issued under the Shortfall Offer will be exercisable at \$0.01 each, on or before 30 June 2029. For further information regarding the terms and conditions attaching to Shortfall Options, please see Section 6.2.

2.3 **Note Conversion Offer**

Background

In 2023, Hydrix undertook a capital raising through the issue of Convertible Notes, under which the Company raised \$3.06 million (before costs) through the issue of 3,060,000 Convertible Notes, each with a face value of \$1.00. The Convertible Notes were issued under a Convertible Note Deed Poll dated 31 July 2023.

Pursuant to the Convertible Note Deed Poll:

- (a) the Convertible Notes had a maturity date of 24 months from their date of issue; noteholders were entitled, no later than 8 weeks prior to the maturity date, to extend the maturity date for a period of up to 12 months (**Extension Right**);
- (b) interest of 10% per annum is payable quarterly in arrears;
- (c) the conversion price is the lower of:
 - (i) \$0.05; and
 - (ii) the lowest issue price of Shares under any equity capital raising completed by the Company between the issue date and the maturity date (**Specified Capital Raising**),
 subject to a minimum conversion price of \$0.015;
- (d) outstanding Convertible Notes can be redeemed for cash as follows:
 - (i) compulsory redemption on the maturity date (as extended, if applicable);
 - (ii) the Company may, during the period of 6 months prior to the maturity date, redeem some or all of the outstanding convertible notes held by a noteholder; or
 - (iii) a noteholder can redeem some or all of their outstanding Convertible Notes if the Company announces Specified Capital Raising (**Early Redemption Right**); if for any reason the Specified Capital Raising does not proceed, the noteholder's Early Redemption Right will be revoked.

The Convertible Notes matured on various dates between October and November 2025. Pursuant to the Extension Right, noteholders holding 2,922,000 Convertible Notes elected to extend their maturity date to 11 October 2026. The Company redeemed the balance of 138,000 Convertible Notes in cash.

The Entitlement Offer comes within the definition of "Specified Capital Raising". Accordingly, noteholders are entitled to exercise their Early Redemption Right prior to the maturity date of 11 October 2026.

Having considered the availability of funds to meet potential short term redemption requests, and the ongoing interest payment obligations of the Company during the term of the Convertible Notes, the Company determined to make an offer to the Convertible Noteholders to convert all Convertible Notes currently on issue into equity, on the same terms as the Entitlement Offer (so that the Convertible Notes convert into Shares at the Offer Price of

\$0.005, with 1 free attaching New Option for each Share issued). The conversion of the Convertible Notes is subject to:

- (e) Completion of the Entitlement Offer;
- (f) Hydrix raising a minimum of \$4.0 million under the Entitlement Offer (unless otherwise agreed between Hydrix and the Noteholder); and
- (g) Hydrix obtaining any required Shareholder approval for the issue of Note Conversion Securities.

As at the date of this Prospectus, Convertible Noteholders holding an aggregate of 2,100,000 Convertible Notes (with an aggregate face value of \$2.1 million), being all Directors and their associated entities who are Convertible Noteholders, have agreed in writing to the conversion of all their Convertible Notes on the above terms (each a **Note Conversion Agreement**). Subject to Shareholder approval and the other above-mentioned conditions being satisfied, the Company will issue the Conversion Securities to such Convertible Noteholders (as well as any other Convertible Noteholders who enter into a Note Conversion Agreement after the date of this Prospectus) under the Note Conversion Offer.

Details

The Note Conversion Offer is an offer of up to a maximum of 584,400,000 Note Conversion Shares (at a conversion price of \$0.005 per Note Conversion Share) to the Convertible Noteholders in conversion of up to \$2.922 million of Convertible Note debt, together with 1 free attaching Note Conversion Option (exercisable at \$0.01 per Note Conversion Option and expiring 30 June 2029) for every Note Conversion Share issued.

For every 1 Note Conversion Share (and attaching Note Conversion Option) issued to the Convertible Noteholders, the Company's Convertible Note debt will reduce by \$0.005, being the agreed conversion price per Note Conversion Share (and the same as the Offer Price pursuant to the Entitlement Offer).

Separate offer

The offer of the Note Conversion Securities is a separate offer pursuant to this Prospectus, and only the Convertible Noteholders are entitled to participate in the Note Conversion Offer.

Offer conditional

The Note Conversion Offer is conditional upon:

- (h) successful completion of the Entitlement Offer and Shortfall Offer (if any);
- (i) the Company raising a minimum amount of \$4 million under the Entitlement Offer and Shortfall Offer (if any), unless otherwise agreed between the Company and each Convertible Noteholder in respect of their Convertible Notes only; and
- (j) the Company having received approval from its shareholders in a general meeting under Listing Rule 7.1 or Listing Rule 10.11 (whichever applies at the relevant time) and for all other purposes in relation to the issue of the Note Conversion Securities.

Subject to the satisfaction of the other conditions, the Company intends to issue the Note Conversion Securities as soon as practicable after Shareholder approval (as it relates to the Note Conversion Offer) is obtained.

In the event that Shareholder approval is not obtained, the Convertible Notes will remain on issue and will continue in accordance with the terms of the Convertible Note Deed Poll.

Rights attaching to Note Conversion Securities

The Note Conversion Shares and Shares issued on the exercise of the Note Conversion Options under the Note Conversion Offer will have the same rights as existing fully paid ordinary Shares on issue in the Company, as detailed in Section 6.1.

The Note Conversion Options issued under the Note Conversion Offer will be exercisable at \$0.01 each, on or before 30 June 2029. The Note Conversion Options offered under this Prospectus will have the same terms and conditions as all other New Options issued under the Entitlement Offer, the Director Loan Conversion Offer and the Broker Option Offer. For further information regarding the terms and conditions attaching to the New Options, please see Section 6.2.

Use of funds raised

No funds will be raised from the issue of the Note Conversion Securities, as they are being issued in conversion of the Convertible Note debt pursuant to the Note Conversion Agreement. However, the Company will retire up to \$2.922 million in Convertible Note debt if the Note Conversion Offer is fully subscribed.

Funds will be raised by the Company upon exercise of any of the Note Conversion Options. If all 584,400,000 Note Conversion Options are issued and subsequently exercised, the Company will raise approximately \$5.844 million. In the event that any funds are raised through the exercise of Note Conversion Options prior to their expiry date, the Company expects that it will apply such funds in the manner set out in Section 4.2.

2.4 Director Loan Conversion Offer

Background

The Directors and their associated entities have provided unsecured Director Loans to the Company. The aggregate loan principal amount owing to each Director and/or their associated entities (**Director Lender**) (each a **Director Loan**) as at 30 April 2026 is set out below:

Director Lender	Associated Director	Director Loan (\$)
John W King Nominees Pty Ltd	Julie King	1,950,000 ³
Beachridge Advisory Services Pty Ltd	Gavin Coote	25,000
Kim Wright ATF Chatsworth Trust and Paul Wright	Paul Wright	45,000
P.A.J. Lewis Superannuation Fund Pty Ltd ATF PAJ Lewis Super Fund, PAJ Lewis Pty Ltd ATF PAJ Trust, and PAJ Lewis Pty Ltd	Paul Lewis	1,175,000
Total Director Loan balance at 30 April 2026		3,195,000

The Director Loans are repayable between 1 October 2026 and 11 October 2026. Having considered the availability of funds to meet these repayment obligations, the Company determined to make an offer to the Director Lenders to convert their Director Loans into equity, on the same terms as the Entitlement Offer (so that the Director Loans convert into Shares at the Offer Price of \$0.005, with 1 free attaching New Option for each Share issued). The conversion of the Director Loans is subject to:

- (a) Completion of the Entitlement Offer;
- (b) Hydrix raising a minimum of \$4.0 million under the Entitlement Offer (unless otherwise agreed between Hydrix and the Director Lender); and
- (c) Hydrix obtaining Shareholder approval for the issue of Director Loan Conversion Securities.

³ This does not include any further loan amounts advanced by John W King Nominees Pty Ltd after 30 April 2026. John W King Nominees Pty Ltd has agreed to provide a further loan facility of \$600,000, which the Company anticipates fully drawing down in May 2026. If the Entitlement Offer (and if applicable the Shortfall Offer) is fully subscribed, it is intended that amounts drawn down under this loan facility (plus interest) will be repaid out of the proceeds of the Entitlement Offer.

All Director Lenders have agreed in writing to the conversion of all their Director Loans on the above terms (each a **Director Loan Conversion Agreement**), save that John W King Nominees Pty Ltd (an associated entity of Julie King) has agreed to cap its converted amount at \$1,267,500 (which would result in a remaining Director Loan balance of \$682,500, excluding interest), in order to ensure that its Voting Power does not exceed 20% as a result of the conversion. It is intended that any outstanding loan principal and interest amounts owing to John W King Nominees Pty Ltd after conversion of the Director Loans (including any amounts drawn down after 30 April 2026 by the Company under a \$600,000 loan facility provided by John W King Nominees Pty Ltd) will be repaid in cash, out of the proceeds of the Entitlement Offer (assuming the Entitlement Offer is fully subscribed).

Refer to Section 4.5(j) for further information about the impact of the Offers on John W King Nominees Pty Ltd's Voting Power.

Subject to Shareholder approval and the other above-mentioned conditions being satisfied, the Company will issue the Director Loan Conversion Securities to the Director Lenders under the Director Loan Conversion Offer.

Details

The Director Loan Conversion Offer is an offer of up to 502,500,000 Director Loan Conversion Shares (at a conversion price of \$0.005 per Director Loan Conversion Share) to the Director Lenders to retire up to \$2.513 million of Director Loans, together with 1 free attaching Director Loan Conversion Option (exercisable at \$0.01 per Director Loan Conversion Option and expiring 30 June 2029) for every Director Loan Conversion Share issued.

For every 1 Director Loan Conversion Share (and attaching Director Loan Conversion Option) issued to the Director Lenders, the Company's Director Loan Debt will reduce by \$0.005, being the agreed conversion price per Director Loan Conversion Share (and the same as the Offer Price pursuant to the Entitlement Offer).

Separate offer

The offer of the Note Conversion Securities is a separate offer pursuant to this Prospectus, and only the Convertible Noteholders are entitled to participate in the Note Conversion Offer.

Offer conditional

The Director Loan Conversion Offer is conditional upon:

- (d) successful completion of the Entitlement Offer and Shortfall Offer (if any);
- (e) the Company raising a minimum amount of \$4 million under the Entitlement Offer and Shortfall Offer (if any), unless otherwise agreed between the Company and each Director Lender in respect of their Director Loan only; and
- (f) the Company having received approval from its shareholders in a general meeting under Listing Rule 10.11 and for all other purposes in relation to the issue of the Director Loan Conversion Securities.

Subject to the satisfaction of the other conditions, the Company intends to issue the Director Loan Conversion Securities as soon as practicable after Shareholder approval (as it relates to the Director Loan Conversion Offer) is obtained.

In the event that Shareholder approval is not obtained, the Director Loans will remain.

Rights attaching to Director Loan Conversion Securities

The Director Loan Conversion Shares and Shares issued on the exercise of the Director Loan Conversion Options under the Director Loan Conversion Offer will have the same rights as existing fully paid ordinary Shares on issue in the Company, as detailed in Section 6.1.

The Director Loan Conversion Options issued under the Director Loan Conversion Offer will be exercisable at \$0.01 each, on or before 30 June 2029. The Director Loan Conversion

Options offered under this Prospectus will have the same terms and conditions as all other New Options issued under the Entitlement Offer, the Note Conversion Offer and the Broker Option Offer. For further information regarding the terms and conditions attaching to the New Options, please see Section 6.2.

Use of funds raised

No funds will be raised from the issue of the Director Loan Conversion Securities, as they are being issued in repayment of all or part of the Director Loans.

Funds will be raised by the Company upon exercise of any of the Director Loan Conversion Options. If all 502,500,000 Director Loan Conversion Options are issued and subsequently exercised, the Company will raise approximately \$5.025 million. In the event that any funds are raised through the exercise of Director Loan Conversion Options prior to their expiry date, the Company expects that it will apply such funds in the manner set out in Section 4.2.

2.5 **Broker Share Offer**

Details

Under the Lead Manager Mandate, and subject to a minimum of \$8 million being raised under the Entitlement Offer (and Shortfall Offer if applicable), the Company has agreed to issue 25,000,000 Broker Shares to the Lead Manager (and/or its nominee(s)).

Separate offer

The offer of the Broker Shares is a separate offer pursuant to this Prospectus, and only the Lead Manager (and / or its nominee(s)) is entitled to participate in the Broker Share Offer.

Offer conditional

The Broker Share Offer is conditional upon:

- (a) the Company raising a minimum amount of \$8 million under the Entitlement Offer and Shortfall Offer (if any); and
- (b) the Company having received approval from its Shareholders in a general meeting under Listing Rule 7.1 and for all other purposes in relation to the issue of the Broker Shares.

Subject to the satisfaction of these conditions, the Company intends to issue the Broker Shares as soon as practicable after Shareholder approval (as it relates to the Broker Share Offer) is obtained.

Rights attaching to Broker Shares

The Broker Shares issued under the Broker Offer will have the same rights as existing fully paid ordinary Shares on issue in the Company, as detailed in Section 6.1.

50% of the Broker Shares issued under the Broker Share Offer will be subject to voluntary escrow restrictions for a period of 12 months from the date of issue of those Broker Shares.

Use of funds raised

No funds will be raised from the issue of the Broker Shares, as they are being issued as consideration for services provided by the Lead Manager pursuant to the Lead Manager Mandate.

2.6 **Broker Option Offer**

Details

Under the Lead Manager Mandate, the Company has agreed to issue up to 150,000,000 Broker Options to the Lead Manager (and / or its nominee(s)), on the basis of 1 Broker Option

for every 10.910753 New Shares (with fractional entitlements to a Broker Option rounded down to the nearest whole Broker Option) issued under the Institutional Shortfall Bookbuild, Retail Shortfall Bookbuild and Shortfall Offer.

The number of Broker Options which will be issued to the Lead Manager (and / or its nominee(s)) under the Broker Option Offer is subject to an overriding cap of 150,000,000 Broker Options.

Separate offer

The offer of the Broker Options is a separate offer pursuant to this Prospectus, and only the Lead Manager (and / or its nominee(s)) is entitled to participate in the Broker Option Offer.

Offer conditional

The Broker Option Offer is conditional upon:

- (a) successful completion of the Entitlement Offer and Shortfall Offer (if any);
- (b) the Company raising a minimum amount of \$8 million under the Entitlement Offer and Shortfall Offer (if any); and
- (c) the Company having received approval from its Shareholders in a general meeting under Listing Rule 7.1 and for all other purposes in relation to the issue of the Broker Options.

The Company intends to issue the Broker Options as soon as practicable after Shareholder approval (as it relates to the Broker Option Offer) is obtained.

In the event that a general meeting seeking Shareholder approval for the issue of the Broker Options and/or Broker Shares is not convened within six weeks of the completion of the Entitlement Offer, or if such Shareholder approval is not received, the Company shall, within seven days of (i) the expiry of the six week period; or (ii) the general meeting (as applicable), compensate the Lead Manager with the monetary equivalent of the Broker Shares and Broker Options in cash. In the case of Broker Options, the cash consideration will be calculated on the output of a Black Scholes Model, with input assumptions equivalent to the agreed terms of the Broker Options, based on the date that the Entitlement Offer completes.

Rights attaching to Broker Options

The Shares issued on the exercise of the Broker Options under the Broker Offer will have the same rights as existing fully paid ordinary Shares on issue in the Company, as detailed in Section 6.1.

The Broker Options issued under the Broker Offer will be exercisable at \$0.01 each, on or before 30 June 2029. The Broker Options offered under this Prospectus will have the same terms and conditions as all other New Options issued under the Entitlement Offer, the Director Loan Conversion Offer and the Note Conversion Offer. For further information regarding the terms and conditions attaching to the New Options, please see Section 6.2.

However, 50% of the Options issued under the Broker Option Offer will be subject to voluntary escrow restrictions for a period of 12 months from the date of issue of those Broker Options.

Use of funds raised

No funds will be raised from the issue of the Broker Options, as they are being issued as consideration for services provided by the Lead Manager pursuant to the Lead Manager Mandate.

Funds will be raised by the Company upon exercise of any of the Broker Options. If all 150,000,000 Broker Options are issued and subsequently exercised, the Company will raise approximately \$1.5 million. In the event that any funds are raised through the exercise of Broker Options prior to their expiry date, the Company expects that it will apply such funds in the manner set out in Section 4.2.

2.7 Purpose of Prospectus

The purpose of this Prospectus is:

- (a) to make the Offers;
- (b) to enable the Securities offered under this Prospectus to be on-sold without disclosure; and
- (c) to enable the Shares that are issued upon exercise of the New Options offered under this Prospectus to be on-sold without disclosure, pursuant to *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2026/94*.

Disclosure exemption for Entitlement Offer

In certain circumstances, a listed company may undertake an entitlement offer without a prospectus if it complies with the disclosure exemption in s708AA and 1012DAA of the Corporations Act and the relief in *ASIC Corporations (Non-Traditional Rights Issues) Instrument 2026/98*.

The Company is unable to rely on these provisions for the Entitlement Offer because the Company's Shares will have been suspended from trading for more than 5 days in the 12 months prior to the day on which the Entitlement Offer is made.

As the Entitlement Offer does not satisfy the disclosure exemption conditions in s708AA of the Corporations Act, the Company is undertaking the Entitlement Offer pursuant to this Prospectus.

On-sale of Shares

Generally, s707(3) of the Corporations Act requires that a prospectus be issued, in order for a person to whom securities were issued without disclosure under Part 6D of the Corporations Act, to on-sell those securities within 12 months of the date of their issue.

The Corporations Act provides an exception to s707(3) where an entity issues a 'cleansing' notice under s708A(5) within 5 days of the date of issue of the securities. The Company is unable to issue a cleansing notice, as the Company's Shares have been suspended from trading for more than 5 days in the 12 months prior to the date of this Prospectus.

Section 708A(11) of the Corporations Act provides another exemption from the general requirement under section 707(3) where:

- (d) the relevant securities are in a class of securities of the company that are already quoted on ASX; and
- (e) a prospectus is lodged with ASIC either:
 - (i) on or after the day on which the relevant securities were issued but before the day on which the sale offer is made; or
 - (ii) before the day on which the relevant securities are issued and offers of securities that have been made under the prospectus are still open for acceptance on the day on which the relevant securities were issued; and
- (f) the prospectus is for an offer of securities issued by the company that are in the same class of securities as the relevant securities.

A purpose of this Prospectus is to comply with section 708A(11) of the Corporations Act, to remove any secondary trading restrictions that attach to any Shares issued by the Company between the date of this Prospectus and the closing date for acceptances under this Prospectus so that subscribers of those Shares may, if they choose to (subject to any applicable voluntary escrow restrictions), on-sell those Shares within 12 months from the date of their issue, without the issue of a prospectus.

On-sale of underlying Shares for New Options

This Prospectus has also been prepared in respect of the offer of the New Options, such that the relief provided under *ASIC Corporations (Sale Offers That Do Not Need Disclosure) Instrument 2026/94* with respect to the on-sale provisions of section 707 of the Corporations Act is available.

Pursuant to such relief, as the New Options are issued with disclosure under this Prospectus, any Shares issued upon the exercise of those New Options can be on-sold within 12 months of their issue (even if the Shares were issued without disclosure or lodgement of a cleansing notice). This is because the New Options are issued with disclosure and the exercise of those New Options does not involve any further offer.

2.8 **Not underwritten**

The Offers are not underwritten.

However, in respect of the Entitlement Offer, the Company has received an executed Lead Manager Commitment Letter from the Lead Manager, confirming that it has received written binding commitments from professional and sophisticated investors within section 708(8) and s708(11) of the Corporations Act to subscribe for an aggregate minimum of \$8 million in Shares under the Institutional Shortfall Bookbuild, Retail Shortfall Bookbuild and / or Shortfall Offer (if any and as applicable).

The Lead Manager Commitment Letter **does not constitute, nor should it be construed** as, an underwriting commitment.

Refer to Section 7.2 for a summary of the Lead Manager Commitment Letter.

2.9 **Risks of the Offers**

As with any securities investment, there are risks associated with investing in the Company. However, having regard to the risks applicable to the Company and its business detailed in Section 5, Eligible Shareholders should be aware that an investment in the New Securities should be considered highly speculative and there exists a risk that you may, in the future, lose some or all of the value of your investment.

Before deciding to invest in the Company, investors should read this Prospectus in its entirety, in particular the specific risks associated with an investment in the Company (detailed in Section 5), and should consider all factors in light of their personal circumstances and seek appropriate professional advice.

By making a payment by BPAY®, you will be taken to have represented and warranted that you satisfy each of the criteria listed above to be either an Eligible Institutional Shareholder or an Eligible Retail Shareholder. Nominees, trustees or custodians are therefore advised to seek independent professional advice as to how to proceed.

2.20 Ineligible Shareholders

If you are a Shareholder who is not an Eligible Institutional Shareholder or an Eligible Retail Shareholder, you are an **"Ineligible Shareholder"**. Where this Prospectus has been despatched to Ineligible Shareholders, this Prospectus is provided for information purposes only.

The Company has decided that it is unreasonable to make offers under the Entitlement Offer to Shareholders who have registered addresses outside Australia and New Zealand, having regard to:

- (a) the number of such holders in those places;

- (b) the number and value of the Entitlement Securities that they would be offered; and
- (c) the cost of complying with the relevant legal and regulatory requirements in those places.

The Company may (in its absolute discretion) extend the Entitlement Offer to Shareholders who have registered addresses outside Australia or New Zealand in accordance with applicable law.

Pursuant to Listing Rule 7.7, the Company has appointed the Lead Manager as nominee to sell the Entitlements to which Ineligible Shareholders are entitled. Any interest earned on the proceeds of sale of these Entitlements will, firstly, be applied against expenses of such sale, including brokerage and any balance will accrue to the relevant Ineligible Shareholders as described below.

The net proceeds of the sale of these Entitlements will then be forwarded by the Company as soon as practicable to the Ineligible Shareholders, in proportion to their share of such Entitlements (after deducting brokerage commission and other expenses). If any such net proceeds of sale are less than the reasonable costs that would be incurred by the Company for distributing those proceeds, such proceeds may be retained by the Company. Notwithstanding that the nominee must sell Entitlements, Ineligible Shareholders may nevertheless receive no net proceeds if the costs of the sale are greater than the sale proceeds. In this regard, the nominee will not be required to sell Ineligible Shareholders' Entitlements at a particular price.

2.21 **Nominees, trustees and custodians**

The Retail Entitlement Offer is being made to all Eligible Retail Shareholders. Nominees with registered addresses in the eligible jurisdictions, irrespective of whether they participated under the Institutional Entitlement Offer, may also be able to participate in the Retail Entitlement Offer in respect of some or all of the beneficiaries on whose behalf they hold existing Shares, provided that the applicable beneficiary would satisfy the criteria for an Eligible Retail Shareholder.

Nominees and custodians who hold Shares as nominees or custodians will have received, or will shortly receive, a letter from the Company. Nominees and custodians should consider carefully the contents of that letter and note in particular that the Retail Entitlement Offer is not available to, and they must not purport to accept the Retail Entitlement Offer in respect of:

- (a) beneficiaries on whose behalf they hold existing Shares who would not satisfy the criteria for an Eligible Retail Shareholder;
- (b) Eligible Institutional Shareholders who received an offer to participate in the Institutional Entitlement Offer (whether they accepted their Entitlement or not);
- (c) Ineligible Institutional Shareholders who were ineligible to participate in the Institutional Entitlement Offer; or
- (d) Shareholders who are not eligible under all applicable securities laws to receive an offer under the Retail Entitlement Offer.

In particular, persons acting as nominees for other persons may not take up Entitlements on behalf of, or send any documents relating to the Retail Entitlement Offer to, any person in the United States or other jurisdiction outside Australia or New Zealand.

The Company is not required to determine whether or not any registered holder is acting as a nominee or the identity or residence of any beneficial owners of Shares or Entitlements. Where any holder is acting as a nominee for a foreign person, that holder, in dealing with its beneficiary, will need to assess whether indirect participation by the beneficiary in the Retail Entitlement Offer is compatible with applicable foreign laws.

2.22 Foreign jurisdictions

This Prospectus does not, and is not intended to, constitute an offer of Securities in any place or jurisdiction in which, or to any person to whom, it would be unlawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions (other than those mentioned above) having regard to the number of overseas Shareholders, the number and value of New Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction.

No action has been taken to permit the offer of New Securities to existing Shareholders in any jurisdiction other than Australia and New Zealand. The CHESS statement will set out the number of New Securities issued under this Prospectus and provide details of your holder identification number, the participant identification number of the sponsor and the terms and conditions applicable to the New Securities.

New Zealand based Shareholders will not be able to pay via BPAY® and will instead need to make payment via EFT, New Zealand based Shareholders should follow the instructions on their Application Form / Entitlement and Acceptance Form (as applicable).

Eligible Shareholders should note:

- (a) You should make your payment in respect of your Application Money via BPAY® (or via EFT payment as directed for New Zealand Shareholders) for the number of Entitlement Shares you wish to subscribe for (being the \$0.005 multiplied by the number of Entitlement Shares you are applying for (including any additional Entitlements applied for)).

It is the responsibility of the applicant to ensure that funds submitted through BPAY® (or via EFT for New Zealand based Shareholders) are received by this time.

- (d) You do not need to submit your Application Form / Entitlement and Acceptance Form (as applicable) but, by making a payment through BPAY® (or via EFT for New Zealand based Shareholders), you will be taken to have applied for the entitlement Securities and made the declarations set out in the Application Form / Entitlement and Acceptance Form (as applicable).

 - (i) BPAY®, please make sure to use the specific Biller Code and unique Reference Number on your Application Form / Entitlement and Acceptance Form (as applicable); and

If the amount of your BPAY® or EFT payment for Application Money is insufficient to pay in full for the number of Entitlement Securities you have applied for, you will be taken to have applied for such lower whole number of Entitlement Securities as your cleared Application Money will pay for. Alternatively, your Application may be rejected (at the discretion of the Company).

The Company will treat you as applying for as many Entitlement Securities as your payment will pay for in full, subject to any scale back it may determine to implement, in its absolute discretion.

Any Application Money received by the Company in excess of your final allocation of Entitlement Securities will be refunded by cheque to your registered address as noted on the Company's share register as soon as practicable after the close of the Entitlement Offer. There is no guarantee that any such Shareholders will receive any proceeds as a result of the Institutional Shortfall Bookbuild or Retail Shortfall Bookbuild (as applicable).

4 Purpose and effect of the Offers

4.1 Background

The Company currently has high debt levels, with a low market capitalisation. As at 31 December 2025, the Company reported total current liabilities of \$14.56 million, including \$8.16 million in borrowings and accrued interest, including:

- (a) \$3.05 million in Director Loans (excluding interest) from current and former Directors;
- (b) \$2.92 million in Convertible Note funding (excluding interest) from current and former Directors and other investors; and
- (c) approximately \$1 million drawn down under a trade finance facility with TradePlus24 which is due for repayment by 31 July 2026.

The Board has been considering options to reduce debt levels and strengthen the Company's financial position such that it can be in an improved position to execute its strategy of scaling Hydrix Services' mission-critical engineering capabilities strategically important to the defence technology and medtech sectors.

Given existing levels of debt with approaching maturity dates, the Board considers that the Company's need for funding is urgent. Further, other avenues of fundraising that have been explored by the Board are limited.

Accordingly, the Board has determined to undertake the Offers in order to:

- (d) recapitalise the Company with funds to meet its working capital requirements, support delivery of current programs, and provide working capital flexibility for disciplined growth and investment initiatives aligned to Hydrix's increasing focus on defence technology;
- (e) provide existing Eligible Shareholders with an opportunity to participate in the recapitalisation of the Company; and
- (f) materially reduce the Company's debt position by:
 - (i) raising capital to repay capital and operating liabilities; and
 - (ii) retiring other debt by conversion into equity.

4.2 Purpose of the Offers

The purposes of the Offers are as follows:

- (a) the purpose of the Entitlement Offer and the Shortfall Offer is to raise up funds of up to \$8.183 million (before costs), which funds are expected to be applied in the manner set out in the table below;
- (b) the purpose of the Note Conversion Offer and Director Loan Conversion Offer is to further strengthen the Company's balance sheet, by seeking to convert a majority of Director Loans and all Convertible Notes held by Directors and other external parties (of up to \$5.435 million) into equity on the same terms as the Entitlement Offer (refer to Sections 2.3 and 2.4 for further information about the Conversion Agreements);
- (c) the Broker Option Offer and Broker Share Offer are being made to the Lead Manager as part of the fees payable pursuant to the Lead Manager Mandate, subject to a minimum amount of \$8 million being raised under Entitlement Offer (and if applicable, the Shortfall Offer) (refer to Section 7.1 for further information about the Lead Manager Mandate and Section 7.2 for a summary of the Lead Manager Commitment Letter); and
- (d) the Offers are also designed to provide the Company with a potential source of ongoing additional capital of up to \$28.7 million if all of the New Options are exercised.

The Company's proposed use of funds raised under the Entitlement Offer and the Shortfall Offer is as follows, assuming varying subscription amounts (before costs) of \$8.183 million, being the maximum amount, \$4 million, and \$2 million:

<i>Amount raised</i>	<i>\$8.183 million (maximum)</i>	<i>\$4 million¹</i>	<i>\$2 million</i>
Use of funds	Amount (\$ million)		
Expenses of the Offers ²	0.78	0.51	0.37
Retirement of debt and capital and operating liabilities ³	4.79	1.35	1.35
Support delivery of current programs, and general working capital ⁴ including to provide flexibility for disciplined growth and investment initiatives aligned to Hydrix's increasing focus on defence technology	2.61	2.14	0.28
Total	8.18	4.00	2.00

Notes:

- 1 Conversion of the Convertible Notes and Director Loans is subject to the Company raising a minimum of \$4 million under the Entitlement Offer (and if applicable, the Shortfall Offer). Refer to Sections 2.3 and 2.4 for the terms and conditions of the Conversion Agreements.
- 2 Refer to Section 7.14 for details of the costs of the Offer.
- 3 Depending on the actual amount raised, it is intended that funds in this category will first be applied towards repayment of the \$1 million trade finance facility with TradePlus24 which is due by 31 July 2026, then towards repaying other shareholder loan borrowings and accrued interest, and subsequently towards repaying other capital and operating liabilities.
- 4 Working capital includes the normal general and administrative costs associated with running a public company, including, but not limited to, salaries and Director fees, general operating expenses and overhead costs, legal fees, rental of office premises, investor relations and finance and accounting fees among other working capital requirements. Any surplus funds are expected to be directed towards growth and investment initiatives that are complementary to and/or leverage the design and engineering capabilities of Hydrix Services, particularly in Australian and global defence and medtech sectors.

Further, if the maximum number of New Options are issued and exercised at \$0.01 per New Option, the Company will raise an additional \$28.7 million (before costs).

As at the date of this Prospectus, the Company intends that any funds raised progressively through the exercise of New Options will be applied towards:

- (e) general working capital requirements of the Group;
- (f) investing in and scaling the Hydrix Services mission-critical engineering capabilities strategically important to the defence technology and medtech sectors;
- (g) pursuing growth opportunities that are complementary to and/or leverage the core design and engineering capabilities of Hydrix Services; and

- (h) identifying intellectual property and technologies relevant to key priorities within the Defence sector, including by way of exclusive licencing arrangements, mergers, and acquisitions.

The above proposed use of funds is a statement of the Board's current intentions as at the date of this Prospectus. It is indicative only and will be subject to modification on an ongoing basis depending on the results of the Company's activities and other factors relevant to the Board's discretion as to usage of funding. Due to market conditions and the development of new opportunities or any number of other factors (including the key risks outlined in Section 5 of this Prospectus), actual use of proceeds may differ significantly to the above estimates. In light of this, the Board reserves the right to alter the way the funds are applied.

- 2 Options issued under the Company's Long Term Incentive Plan with various exercise prices and expiry dates.
- 3 Performance Rights issued under the Company's Long Term Incentive Plan.
- 4 Convertible Notes issued in 2023, each with a face value of \$1.00, which are currently held by the Convertible Noteholders. The Company is seeking to convert all the Convertible Notes pursuant to the Note Conversion Offer, subject to Shareholder approval.
- 5 Represents the maximum number of securities to be issued under the Entitlement Offer, assuming the Entitlement Offer (and if applicable, the Shortfall Offer), which is not underwritten, is fully subscribed.
- 6 The conversion of the Convertible Notes and Director Loans is subject to the Company raising a minimum of \$4 million under the Entitlement Offer (and if applicable, the Shortfall Offer). Refer to Sections 2.3 and 2.4 for the terms and conditions of the Conversion Agreements.
- 7 Assumes all Noteholders convert the full principal amount owing on the Convertible Notes pursuant to the Note Conversion Offer, and any required Shareholder approval is obtained for the issue of the Note Conversion Securities.

- 8 Assumes that Shareholder approval is obtained for the issue of Director Loan Conversion Securities. Depending on the number of Entitlement Shares actually issued, the actual number of Director Loan Conversion Securities to be issued to Julie King's associated entity may be scaled back, to ensure that her resultant Voting Power in the Company remains below 20%.
- 9 The issue of the Broker Shares and Broker Options is subject to the Company raising a minimum of \$8 million under the Entitlement Offer (and if applicable, the Shortfall Offer). 50% of the Broker Shares and Broker Options will be escrowed for a period of 12 months from their date of issue. - (a) those Convertible Securities are converted or exercised into Shares in accordance with their terms, so they are registered as holders of Shares prior to the Record Date; or
- (b) they otherwise participate in the Entitlement Offer as a result of being a holder of Shares registered on the Share register of the Company at the Record Date.

4.5 Effect of the Offers on control of the Company

The information in this Section 4.5 is the Company's estimates only, based on the information available to it. Actual outcomes may vary.

No person to exceed 20%

No Securities will be issued to any person pursuant to this Prospectus if, in the view of the Directors, to do so would increase that person's Voting Power in the Company above 20% or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

It is a general rule under section 606 of the Corporations Act that a person cannot acquire a relevant interest in issued voting shares in a company if, because of the transaction in relation to securities, a person's Voting Power in the company increases from 20% or below to more than 20%, or from a starting point that is above 20% and below 90%.

The Company has not appointed a nominee for the purposes of section 615 of the Corporations Act in respect of the Entitlements of Ineligible Shareholders. Accordingly, the exemption to the 20% takeovers threshold under item 10 of section 611 of the Corporations Act is not available to Shareholders taking up their Entitlement under the Entitlement Offer.

The Company will manage the Offers, such that no person will obtain a relevant interest in Shares of 20% or more. No New Shares will be issued to any Applicant pursuant to this Prospectus if, in the view of the Directors, to do so would increase that Applicant's Voting Power in the Company above 20% in breach of the Corporations Act or otherwise result in a breach of the Listing Rules, the Corporations Act or any other applicable law.

Impact of Entitlement Offer and Shortfall Offer on control of Company

- (a) The potential effect that the Entitlement Offer will have on the control of the Company and the consequences of that effect will depend on a number of factors, such as investor demand, existing shareholdings, the level of shortfall, and the extent to which Shortfall Shares are available and ultimately taken up by investors.
- (b) If all Eligible Shareholders take up their Entitlements under the Entitlement Offer, the New Shares issued under the Entitlement Offer (but excluding the effects of the Conversion Offers and Broker Offers) will have no effect on the control of the Company and all Shareholders will hold the same percentage interest in the Company, subject only to changes resulting from Ineligible Shareholders being unable to participate in the Entitlement Offer.

- (c) If there is a Shortfall in the Entitlement Offer, Eligible Shareholders who do not subscribe for their full Entitlement of New Shares under the Entitlement Offer will be diluted relative to those Shareholders who subscribe for some or all of their Entitlement, and will be diluted by any take up of Shortfall Shares.
- (d) Control will ultimately be affected by the level of applications under the Entitlement Offer, as well as the number of Shares issued under the Conversion Offers. The final percentage interests held by Shareholders of the Company are dependent on, among other things, the extent to which Eligible Shareholders take up their Entitlements, the number and identity of other investors who are allocated Shortfall Securities, and the extent of subscription under the Conversion Offers.

Impact of Conversion Offers on control of Company

- (e) Conversion Securities will be issued to:
 - (i) those Convertible Noteholders who agree to convert their Convertible Notes (up to an aggregate face value of \$2,922,000) under the Note Conversion Offer; and
 - (ii) the Director Lenders who have agreed to convert \$2,512,500 in Director Loans under the Director Loan Conversion Offer,
 subject to:
 - (iii) the Company raising a minimum of \$4 million under the Entitlement Offer (and Shortfall Offer, if applicable); and
 - (iv) Shareholders approving the issue(s) of the Conversion Securities under Listing Rules 7.1, and Listing Rule 10.11 in respect of related parties.
- (f) The impact of the Conversion Offers on the control of the Company will depend on whether the Company obtains requisite Shareholder approval to issue the Conversion Securities under those offers. The Company will only be able to issue the Conversion Securities to the extent that any required Shareholder approvals (including under Listing Rules 7.1 and 10.11) are obtained. If they are not obtained, no Conversion Securities will be issued, and there will be no control effect on the Company arising from the Conversion Offers.
- (g) Directors Julie King and Paul Lewis are, via their associated entities, substantial shareholders of the Company. At the date of this Prospectus, Director Julie King's associated entity John W King Nominees Pty Ltd holds Voting Power of 11.33% in the Company, and Director Paul Lewis' associated entities beneficially hold an aggregate Voting Power of 7.49% in the Company.
- (h) Through their associated entities, Directors Julie King and Paul Lewis have provided significant financial accommodation to the Company over a number of years, through the subscription of Convertible Notes and provision of unsecured loans (including the Director Loans). At the date of this Prospectus:
 - (i) Julie King's associated entity John W King Nominees Pty Ltd holds 1.5 million Convertible Notes with an aggregate face value of \$1.5 million, and has provided \$1.95 million of unsecured Director Loans (as at 30 April 2026) to the Company⁴; and
 - (ii) Paul Lewis' associated entities together hold 500,000 Convertible Notes with an aggregate face value of \$0.5 million, and have provided \$1.175 million of unsecured Director Loans to the Company.

⁴This does not include any further loan amounts advanced by John W King Nominees Pty Ltd after 30 April 2026. John W King Nominees Pty Ltd has agreed to provide a further loan facility of \$600,000, which the Company anticipates fully drawing down in May 2026. If the Entitlement Offer (and if applicable the Shortfall Offer) is fully subscribed, it is intended that amounts drawn down under this loan facility (plus interest) will be repaid out of the proceeds of the Entitlement Offer.

Julie King and Paul Lewis have agreed to participate in the conversion of Convertible Notes and Director Loans, to facilitate the Company in recapitalising and strengthening its balance sheet. In particular:

- (iii) John W King Nominees Pty Ltd has agreed to convert all 1.5 million Convertible Notes it holds, and \$1,267,500 of Director Loans (aggregate debt of \$2,767,500) into Conversion Securities; and
 - (iv) Paul Lewis' associated entities have agreed to convert all their Convertible Notes and Director Loans (aggregate debt of \$1,675,000) into Conversion Securities.
- (i) The issue of securities to Julie King and Paul Lewis's associated entities under the Conversion Offers will result in their Voting Power increasing (although the Company will not issue securities to any of them if to do so would increase their Voting Power in the Company to 20% or above). Julie King and Paul Lewis have advised they do not intend to take up their Entitlements under the Entitlement Offer.
- (j) As set out in the table below, the Voting Power in the Company held by substantial shareholders (being entities associated with Julie King and Paul Lewis) could increase from the current levels of 11.3% and 7.5% respectively, to up:
- (i) 19.3% and 11.8% respectively, if the maximum amount of \$8.183 million is raised under the Entitlement Offer; and
 - (ii) 19.9% and 18.1% respectively, if only \$4 million is raised under the Entitlement Offer.

As Julie King and Paul Lewis do not intend to take up their Entitlements, where less than \$4 million is raised under the Entitlement Offer and Shortfall Offer (in which event no Conversion Securities will be issued) their respective Voting Power will decrease from current levels.

The potential consequences of the effect which the issue of New Shares pursuant to the Conversion Offers may have on the control of the Company is that there may be an increase in Julie King and Paul Lewis's respective abilities to impact the outcome of resolutions of Shareholders, noting that both Julie King and Paul Lewis are currently Directors of the Company and consequently already have a level of influence over the Company's management and strategic direction.

Notes:

The table above assumes that:

- Shareholder approval is obtained for the issue of Conversion Securities under the Conversion Offers;
- all Convertible Noteholders agree to fully convert their Convertible Notes (noting all Directors and their associated entities that hold Convertible Notes have agreed to convert);
- Julie King and Paul Lewis's respective shareholder entities do not subscribe for their Entitlements under the Entitlement Offer; and
- no Conversion Securities will be issued under the Conversion Offers if \$2 million is raised under the Entitlement Offer (and Shortfall Offer, if applicable) on the basis that those the Conversion Offers are conditional upon a minimum of \$4 million being raised under the Entitlement Offer and Shortfall Offer.

Impact of Broker Offers on control of Company

The issue of 25 million Broker Shares and 150 million Broker Options is subject to the Company raising a minimum of \$8 million under the Entitlement Offer (and if applicable, the Shortfall Offer).

If the maximum subscription amount of \$8.183 million is raised under the Entitlement Offer, and the maximum securities are issued under the Offers, the Broker Shares issued to the Lead Manager will represent 0.83% of the Company's issued Share capital on a post-Offers basis.

If the Broker Options are fully exercised by the Lead Manager (and assuming all other Options and Performance Rights on issue in the Company are also exercised), the Broker will have a Voting Power of 2.96% in the Company.

The Lead Manager is also entitled under the terms of the Lead Manager Mandate to appoint a nominee, Mr Niv Dagan, to the Board of Hydrix. Consequently, the Lead Manager may gain a level of influence over the Company's management and strategic direction.

4.6 Potential dilution effect of Offers

If you are an Eligible Shareholder and subscribe for your full Entitlement under the Entitlement Offer, you will not be diluted as a result of the Entitlement Offer. However, you will be diluted as a result of the Conversion Offers and the Broker Share Offer (unless you receive any Shares under those Offers).

If you are an Ineligible Shareholder, or an Eligible Shareholder who does not exercise your full Entitlement under the Entitlement Offer, your holdings will be diluted as a result of the Entitlement Offer (compared with your position before the Entitlement Offer), after the issue of New Shares under the Offers.

The table below demonstrates the dilutionary impact of the Offers on Shareholders in the following scenarios:

- (a) where a Shareholder subscribes for no New Shares (including where the Shareholder is an Ineligible Shareholder);
- (b) where a Shareholder subscribes for 50% of their full Entitlement; and
- (c) where a Shareholder subscribes for 100% of their full Entitlement.

Shareholding as at Record Date		Entitlement under Entitlement Offer (6-for-1) with 1-for-1 New Options		Shareholding after all Offers if 0% Entitlement accepted		Shareholding after all Offers if 50% Entitlement accepted		Shareholding after all Offers if 100% Entitlement accepted	
Number	%	New Shares	New Options	Number	%	Number	%	Number	%

5,000,000	1.83	30,000,000	30,000,000	5,000,000	0.17	20,000,000	0.66	35,000,000	1.16

Notes:

The table above assumes that:

- Shareholder approval is obtained for the issue of Conversion Securities under the Conversion Offers and issue of Broker Shares and Broker Options;
- the maximum securities are issued under all Offers, and the relevant Shareholders do not participate in any Offer other than the Entitlement Offer; and
- all Convertible Noteholders agree to fully convert their Convertible Notes (noting all Directors and their associated entities that hold Convertible Notes have agreed to convert).

4.7 Financial Information

Set out on the following pages are the Company's consolidated statutory historical financial information for the half year ended 31 December 2025 comprising the reviewed historical statement of financial position as at 31 December 2025 (**Statement**).

The Statements are presented in abbreviated form insofar as they do not include all the disclosures that are present in annual financial reports as required by Australian Accounting Standards. The significant accounting policies that underpin the Statements are the same policies as those outlined in the Company's HY26 Financial Report for the half year ended 31 December 2025.

The unaudited Pro-Forma Statement of Financial Position includes material movements in the assets and liabilities of the Company between 31 December 2025 and the completion of the Offers including:

- (a) Director loans advanced to the Company after 31 December 2025;
- (b) that the maximum securities are issued under the Offers, including that:
 - (i) the Entitlement Offer (and if applicable, the Shortfall Offer), which is not underwritten, is fully subscribed, pursuant to which the Company will raise \$8.183 million (before costs);
 - (ii) expenses of the Offers are approximately \$780,000;
 - (iii) all Convertible Notes are converted into Note Conversion Securities pursuant to the Note Conversion Offer and that Shareholder approval for that issue is received;
 - (iv) Shareholder approval is obtained for the issue of Director Loan Conversion Securities and the maximum Director Loan Conversion Securities is issued;

The Company will issue up to a maximum aggregate of 2,873,513,082 New Options under the Offers pursuant to this Prospectus at an exercise price of \$0.01, exercisable on or before 30 June 2029. Total maximum proceeds of up to \$28.7 million from the exercise of these New Options have been reflected in the Pro Forma Statement of Financial Position (Columns F and G). An allowance has not been made for any expenditure incurred in the normal course of business from 31 December 2025 to the completion of the Offers.

Notes to the pro forma consolidated statement of financial position

- As reported in the reviewed financial statements for the half year ended 31 December 2025
- Additional Director loans provided to the Company between 31 December 2025 and the date of this Prospectus, and also includes further amounts (\$300k) expected to be drawn down after the date of the Prospectus under a loan facility from John W King Nominees Pty Ltd.
- Reflects the gross funds of \$8.183 million raised under the Entitlement Offer, less expenses of approximately \$0.78m. Also assumes maximum conversion of \$5.435m debt (Convertible Notes and Director Loans) into Conversion Securities, pursuant to the Conversion Offers.
- Loan repayments and interest to be paid from proceeds for portions of debt not converted to equity under the Conversion Offers, including repayment of the TP24 trade finance facility which is due by 31 July 2026, and the payment of \$0.26m of Director fees accrued during the past 18 months.
- Impact of New Options issued under the Offers (assuming the maximum number of New Options are issued) being exercised in full.

5 Risk Factors

The New Securities are considered highly speculative and carry no guarantee with respect to the payment of dividends or returns of capital. An investment in the Company is not risk free and the Directors strongly recommend that potential investors consult their professional advisers and consider the risks described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for New Securities.

The following list of risks ought not to be taken as exhaustive of all the risks faced by the Company or by Shareholders. The proposed future activities of the Company are subject to a number of risks and other factors which may impact its future performance. Some of these risks can be managed and mitigated by planning and the use of safeguards and appropriate controls. However, many of the risks are outside the control of the Company or the Directors and cannot be mitigated.

5.1 Risks specific to the Offers

(a) Dilution risk

Eligible Shareholders who do not participate in the Entitlement Offer, or do not take up their Entitlements under the Entitlement Offer in full, will have their percentage shareholding in the Company diluted. Such Shareholders will not be exposed to future increases or decreases in the Company's share price in respect of those New Securities which would have been issued to them had they taken up all of their Entitlements. However, Eligible Shareholders who take up all of their Entitlements under the Entitlement Offer will have the ability to apply for additional New Securities in excess of their Entitlement under the Entitlement Offer, which (for Eligible Shareholders who receive additional New Securities) will reduce the dilutionary effects of the Entitlement Offer.

(b) Control risk

On completion of the Offers, assuming the maximum number of securities are issued under all the Offers, all New Securities have been issued and ASX's quotation conditions have been satisfied, there will be up to 2,748,513,082 additional Shares and 2,873,513,082 additional quoted Options on issue.

If exercised, these New Options will be converted into Shares, thereby causing the shareholdings of Shareholders to be diluted. However, each New Option has an exercise price of \$0.01, which means that the Company will receive additional funds of up to \$28.7 million (before costs) upon exercise of the New Options, assuming all New Options the subject of the Offers are issued and subsequently exercised. There is no certainty that New Options, if issued, will be exercised in full, or at all.

Control will ultimately be affected by the level of applications under the Entitlement Offer. The final percentage interests held by Shareholders of the Company are dependent on, among other things, the extent to which Eligible Shareholders take up their Entitlements.

(c) Renouncement risk

Eligible Shareholders who do not take up or sell their Entitlements under the Entitlement Offer will have their entitlements treated as renounced and sold on their behalf in the Institutional Shortfall Bookbuild or Retail Shortfall Bookbuild (as applicable) and any proceeds of sale of those Entitlements in excess of the Entitlement Offer price (net of any expenses or applicable withholding tax) will be paid to such Shareholders. However, there is no guarantee that any value will be received for those renounced Entitlements through the bookbuild process. The ability to sell New Shares under the bookbuild and the ability to obtain any premium will be dependent upon various factors, including market conditions.

In respect of the Retail Shortfall Bookbuild, if a Retail Premium is achieved, it may be less than, more than, or equal to any premium achieved on the Institutional Shortfall Bookbuild. Accordingly, it is possible that retail Shareholders who do not sell or take up their Entitlements will receive less value than their institutional counterparts, or no value at all.

The tax consequences from selling or transferring Entitlements or from doing nothing may be different. Before choosing to do nothing in respect of Entitlements, you should seek independent tax advice.

(d) **Quotation risk**

The Company intends to apply for quotation of the New Options.

The Company makes no guarantee that any such application for quotation will be successful and there is a risk that the Company will not be able to satisfy the ASX requirements for quotation. In the event that the Company is unable to satisfy the ASX requirements, the New Options will still be issued, but will be unquoted Options. If the New Options are admitted to Official Quotation, the price of the New Options is subject to uncertainty and there can be no assurance that an active market for the New Options will develop or continue after the Offers.

(e) **Option risk**

Options are, by their nature, only of value at times when the exercise price is lower than the value of the underlying Shares. There is no guarantee that the New Options offered under this Prospectus will, at any particular time, have an exercise price which is lower than the value of the Shares.

There is a risk that the New Options may expire at a time when they have little or no value.

5.2 **Risks specific to the Company**

(a) **Going concern risk**

The Company's FY25 Financial Report (for the year ending 30 June 2025) and HY26 Financial Report (for the half year ended 31 December 2025) each included a note on the financial condition of the Company and the existence of a material uncertainty about the Company's ability to continue as a going concern. As set out in the HY26 Financial Report, as at 31 December 2025, the consolidated entity incurred a net loss before tax of \$2.34 million, reported cash used in operations of \$22,383 and had a net current assets deficit (current assets less current liabilities) of \$12.07 million.

Despite these material uncertainties, the directors were as at 31 December 2025 of the opinion the consolidated entity would continue as a going concern, taking into consideration various factors outlined in the HY26 Financial Report.

Since the date of the HY26 Financial Report, the Directors have reviewed the debt levels of the Company and determined to undertake the Offers, in order to materially reduce debt levels and strengthen the financial position of the Company. Where the Offers are fully subscribed, and as set out in the pro-forma statement of financial position in Section 4.7, the Company will reduce its liabilities by \$10.23 million through the conversion of \$5.435 million of debt (comprising \$2.922 million in Convertible Notes and \$2.513 million in Director Loans) and repayment of \$4.791 million of debt and operating liabilities out of funds raised, thus reducing the net current assets deficit (current assets less current liabilities) from \$12.07 million (as at 31 December 2025) to a positive net current asset position of \$0.766 million (assuming none of the New Options are exercised) and \$29.496 million, assuming 100% of the New Options are fully exercised.

Notwithstanding the 'going concern' qualification included in HY26 Financial Report, the Directors believe that upon the successful completion of the Offers, the Company

will have sufficient funds to adequately meet the Company's current commitments and short term working capital requirements, although further funding may be required to meet the short to medium term working capital costs of the Company.

However, where the Company raises less than \$4 million:

- (i) the Conversion Offers will not proceed. Consequently, the \$5.435 million in Convertible Note debt and Director Loans will not be converted; and
- (ii) the Company will not be in a position to reduce its liabilities by \$4.791 million (as the Company intends where it raises the maximum subscription amount of \$8.183 million).

Consequently, the Company will continue to have a net current assets deficit (notwithstanding that this deficit will be smaller than the net current assets deficit position of \$12.07 million as at 31 December 2025).

(b) Overdue PAYG obligation to ATO

As disclosed in the HY26 Financial Report, Hydrix Services Pty Ltd has a pay as your go (**PAYG**) liability of approximately \$2.5 million (excluding interest) as at 31 December 2025 that remains outstanding to the Australia Tax Office (**ATO**). The PAYG liability relates to obligations that accrued between February 2024 and June 2025. Hydrix Services Pty Ltd has proactively engaged with ATO on this outstanding balance. The outstanding balance has been discussed and agreed with ATO and as such there is no remaining judgement or estimation in relation to this balance.

Hydrix Services Pty Ltd has submitted a payment plan proposal to address the outstanding balance, and is awaiting formal approval of the plan by ATO. Until formal approval from ATO is received, it is not known whether any fines or penalties will be imposed or whether Hydrix's proposed payment plan will be accepted.

There is a risk that ATO will not accept Hydrix Services Pty Ltd's proposed payment plan, and call upon immediate repayment of the liability owed. However, given the level of constructive engagement Hydrix Services Pty Ltd has had with ATO to date, the Directors have confidence that a manageable payment plan can be achieved, noting that Hydrix Services Pty Ltd has been operating under the proposed payment plan and reducing the outstanding debt.

The Directors further believe that upon the successful completion of the Offers, the Company will have sufficient funds to meet the Company's commitments to make repayments in accordance with its proposed payment plan.

(c) Default risk under debt arrangements

The Company has and may continue to enter into debt facilities and agreements, under which it has and will have obligations to make payments to debt holders on relevant due dates and repay amounts advanced to the Company on the relevant due dates.

Following successful completion of the Offers, the Company will have extinguished up to \$10.23 million of its outstanding debt, including:

- (i) up to \$2.922 million owed pursuant to the Convertible Notes which will be converted under the Note Conversion Offer; and
- (ii) up to \$2.513 million owed pursuant to the Director Loans which will be converted under the Director Loan Conversion Offer; and
- (iii) \$4.791 million owed to other lenders and creditors (including approximately \$1 million to TP24 under the trade finance facility which is repayable by 31 July 2026).

Assuming that \$10.23 million debt is extinguished in accordance with the above, the Company will have less than \$100,000 in borrowings.

However, where the Company raises less than \$4 million:

- (iv) the Conversion Offers will not proceed. Consequently, the \$5.435 million in Convertible Note debt and Director Loans will not be converted, and will remain as current liabilities will be repayable by October 2026; and
- (v) the Company will not be in a position to reduce its liabilities by \$4.791 million (as the Company intends where it raises the maximum subscription amount of \$8.183 million).

In this event, the Company would seek to comply with any existing repayment terms using the proceeds from cash flows from operations, or, if required, additional debt or equity raisings. In addition, the Company may seek amendments, or alternative borrowing arrangements. However, there is no assurance that the lenders would consent to an amendment or a waiver in the event of non-compliance, or that the lenders would not exercise rights that would be available to them, including among other things, demanding immediate payment of outstanding borrowings. If such a demand was made and appropriate forbearance or refinance arrangements could not be reached, the Company may not have sufficient funds to meet that demand.

(d) Customer credit risk and customer concentration risk

The Group is exposed to the risk of bad debts associated with the payment obligations of its customers. Further, the Company is exposed to customer concentration risk where a relatively small number of clients make up a material portion of the Group's revenue. The risk arising from a customer with bad debts is compounded where that customer is a material contributor of revenue to the Group.

The extent to which this risk will impact the Company's business depends on (among other things) the credit profile and funding constraints of its customers, and the customer concentration of the Group.

Hydrix seeks to mitigate this risk by establishing strong credit policies, undertaking robust customer screening, diversifying its customer base, and generally requiring material upfront deposits to be paid prior to commencement of significant projects.

Many clients rely on their own ongoing capital raising efforts to fund their new product development programs. From time to time, clients may be subject to their own financial distress, which has the potential to negatively impact the Company's working capital and potentially, result in the Company not being able to recover outstanding receivable amounts leading to a bad debt write-off.

The Company uses all reasonable efforts to manage these potential risks. However, a failure to adequately assess and manage credit risk may result in non-recoverable write offs, which could adversely impact the Company's cash flow, financial position, performance and reputation.

(e) Future capital requirements

The Company has undertaken reasonable operating cost reductions in accordance with the operating potential of its underlying business. Due to the nature of project-based consulting services engineering businesses and the requirement to maintain appropriate levels of resources and skill capabilities to service highly specialised and regulated product developments, periodic revenues and operating profits fluctuate.

Coupling these periodic fluctuations with the costs of operating an ASX listed entity, the Company may generate periodic losses and as a result require additional finance in the future to sufficiently fund its operations. Further, pursuing growth and expansion opportunities will require additional capital investment. Any additional equity financing may be dilutive to shareholders (who may not have the opportunity to participate in

that raising), and may be undertaken at lower prices than any prior offer prices. Should the Company require additional funding, there can be no assurance that additional financing will be available on acceptable terms or at all. Any inability to obtain additional financing, if required, would have a material adverse effect on the Company's business, financial condition and results of operations. The Company's actual cash requirements may vary from those now planned and will depend upon many factors

(f) **Business strategy execution**

The Company's future growth, profitability and cash flows depend on the ability of its management to successfully execute its business strategy. There can be no assurance that the Company can successfully achieve its business objectives and this could have a material adverse effect on the Company's business, financial condition, and operations.

(g) **Cyber and security**

The Company's IT infrastructure and administration aligns with the 'Essential 8' cyber-security mitigation strategies recommended by Australian Signals Directorate (**ASD**) to manage and monitor its information systems against various cyberthreats. However, Company's technologies and other systems and operations could still be exposed to damage or interruption from system failures, computer viruses, cyberattacks or telecommunication provider failure. Should these not be adequately maintained, secured or updated, system failures may occur and these may have a detrimental effect on the Company.

Cyberattacks may compromise or breach the systems used by the Company to protect confidential information. Any data security breaches could result in the loss of information integrity, or breaches of company obligations under applicable laws or agreements, each of which may have a material adverse impact on the Company's results and reputation.

(h) **Confidential information and artificial intelligence**

The Company may from time to time use artificial intelligence and automation technologies (**AI Technologies**) to process, transmit or analyse confidential information, including proprietary data, intellectual property, customer information and personal data. Such information may be exposed to unauthorised access, inadvertent disclosure, or misuse as a result of system vulnerabilities, errors in implementation, misconfiguration, or malicious activity.

The Company may be subject to obligations to protect confidential information under contract, law, regulation, or industry standards (including for defence, government and critical infrastructure clients). Any breach involving AI Technologies may lead to liability, regulatory action, reputational damage or loss of business.

The Company's ability to protect confidential information in AI Technologies depends on the effectiveness of its systems, policies, training and monitoring. Failure to implement and maintain appropriate safeguards may increase the risk of unauthorised disclosure.

(i) **Ability to win and retain key customers**

The Company's business is dependent on the securing of contracts to provide product design and engineering services to customers in the medical, defence, mining, industrial and other sectors, and selling medical products under distribution agreements. The Company has no control over the timing of these opportunities or in respect of the awarding of such contracts or customer demands for its services and products. The performance of services contracts may incur additional, unexpected costs or be subject to delays and changes to budgeted scope and deliverables, which may require the Company to revise its timetable or delay development of client programs.

If the Company fails to maintain or secure sufficient future services contracts, revenue could be adversely affected. There is also a risk that contracts it believes it may be able to enter into will not be able to be successfully negotiated or existing contracts may be terminated at short notice or not extended or replaced.

(j) Regulated industries

The Company's core business is in complex product design and engineering, and partners with customers in industry sectors including medical and defence, to help them design, develop and commercialise mission and safety critical technologies.

The Company's business model also includes the distribution of cardiovascular medical device products in Australia and Asia Pacific, either directly or through sub-distributors.

The industries in which the Company, its key customers and sub-distributors operate, particularly the medical device technology industry, are highly regulated in Australia, Asia Pacific, the United States, and other countries in which the Company may conduct business operations.

Whilst the Company benefits from operating in these regulated industries which have high barriers to entry, there is a risk that customer projects and / or medical product sales may be delayed or terminated due to regulatory and legal requirements, and any amendment to existing legislation or regulations in relevant countries. A loss or delay of a number of the Company's major services projects or product sales could have a material adverse impact on the Company's financial performance.

(k) Competition

While the Company has certain points of competitive difference, is not unique in developing and marketing many of its products and services. There is a risk that the Company's products and services may not, in the future, be able to compete with competitors' products and services on cost or technical grounds and therefore contracts may not be awarded to it. There is a risk that the cost of competing products and services may fall or that the Company's services may become too expensive to allow the Company to compete effectively. A loss of a number of the Company's major customers could have a material adverse impact on the Company's financial performance.

(l) Reliance on suppliers

The Company has entered into arrangements to distribute third party product technologies as part of its strategy to develop a medical products distribution business. Suppliers of these products are early-stage medical device companies. The early-stage nature of these types of companies is such that they are competing against large competitors and are yet to prove their technology and their business model. As such, their market adoption, regulatory and commercialisation risks are significant, and they remain reliant on ongoing access to capital to fund their businesses. These risk factors, among others, may have the potential to negatively and adversely impact on the Company's commercial business model.

(m) Reliance on Key Personnel

The Company currently employs a number of qualified key personnel, who are integral to the Company's operations. The Company's future depends on its ability to continue retaining, motivating and attracting suitably qualified personnel. The loss of key personnel, or the inability to access and retain the services of qualified staff, could adversely affect the Company and its activities. The Company has, to the extent practicable and legally possible, established contractual mechanisms through employment and consultancy contracts to limit the ability of key personnel to join a competitor, or compete directly with the Company. Despite these measures, there is no guarantee that the Company will be able to attract and retain suitably qualified personnel.

(n) **Intellectual Property Rights**

The Company's core business creates value for clients through its engineering know-how and subject matter expertise in new product development including proprietary engineering platforms developed for commercial use. The Company relies on a combination of intellectual property laws, confidentiality procedures and contractual provisions to protect these assets. The laws of some foreign jurisdictions may provide less protection than the laws of Australia for the Company's proprietary rights. Unauthorised use of the Company's intellectual property could have a materially adverse effect on the Company and there can be no assurance that the Company's legal remedies would adequately compensate it for the damage to its business caused by such use.

The Company is not aware that any of its engineering platforms infringing upon the proprietary rights of third parties in any material respect. There can be no assurance, however, that third parties will not claim infringement by the Company with respect to current or future technologies or services. Any such claim, with or without merit, could result in substantial costs and diversion of management resources and a successful claim could effectively block the Company's ability to market its technologies and services which would have a material adverse effect on the financial and operating results of the Company.

(o) **Risks in international growth**

The Company's current business model includes offering design and engineering services to clients outside Australia, and also the distribution of medical device products in Australia and Asia Pacific, either directly or through sub-distributors. The Company may also expand its distribution model to include other international markets in the future.

Pursuit of growth opportunities internationally may require significant investment for an extended period before returns, if any, are realised, and there can be no assurance that the Company's expansion plans would be successful.

The Company's prospects in this regard could be adversely affected by factors such as delays in the opening of foreign markets, the exchange rate, a preference for the use of local suppliers, current or future legislation or regulatory or technical standards which discriminate against overseas suppliers.

In addition, Australian laws and policies affecting foreign trade, investment and taxation, as well as laws and regulations in other jurisdictions in which the Company operates, could also adversely affect the Company's Australian and international operations and growth.

(p) **Venture risks**

The Company leverages its product innovation capability to make selective investments in some customers by way of direct cash investment and/or accepting equity in-kind for services rendered by the Company. These investments are generally made in early stage pre-revenue companies, which have products under development that are intended to be sold or provided in highly regulated industries, including medical and healthcare industries. The long-term viability of these investments is subject to financial and product commercialisation risks, including commercial technology feasibility being achieved, regulatory approval being gained, competitive market forces and customers entering into commercial arrangements. There is a risk that these venture investments will not deliver a positive economic return for the Company.

5.3 **General Risks**

The following risks have been identified as being some general risks associated with an investment in the Company, noting its publicly listed status:

(a) Economic risks

The operating and financial performance of the Company is influenced by a variety of general economic and business conditions, including levels of consumer spending, inflation, interest rates, access to debt and capital markets, international economic conditions, significant acts of terrorism, hostilities or war or natural disasters, and government fiscal, monetary and regulatory policies. Prolonged deterioration in general economic conditions may have an adverse impact on the Company's business or financial condition. No guarantee can be made that the Company's market performance will not be adversely affected by any such market fluctuations or factors.

(b) Market conditions

An investment in the Company's Shares has the general risks associated with any investment in the share market. Returns from an investment in Shares will depend on general stock market conditions as well as the performance of the Company. The market price of the Company's Shares can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general. The trading price of the Company's Shares may be subject to fluctuations in response to factors such as actual or anticipated variations in the Company's operating results, announcements of new contracts by the Company or its competitors, announcements by the Company or its competitors of significant acquisitions, technological developments, capital commitments, additions or departures of key personnel and other events or factors, many of which are beyond the Company's control.

Further, general share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as: general economic outlook; interest rates and inflation rates; currency fluctuations; changes in investor sentiment; the demand for, and supply of, capital; and terrorism or other hostilities. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) Liquidity risk

The market for the Company's Shares may be illiquid. As a consequence, investors may be unable to readily exit or realise their investment.

(d) Force majeure

The Company's contracts now or in the future may be adversely affected by risks outside the control of the Company including labour unrest, civil disorder, war, subversive activities or sabotage, fires, floods, explosions or other catastrophes, pandemics, epidemics or quarantine restrictions.

(e) Taxation and government regulations

Changes in taxation and government legislation in a range of areas (for example, the Corporations Act, accounting standards, and taxation law including research and development taxation incentives) can have a significant influence on the outlook for companies and the returns to investors. The recoupment of taxation losses accrued by the Company from any future revenues is subject to the satisfaction of tests outlined in taxation legislation or regulations in the jurisdictions in which the Company operates. There is no guarantee that the Company will satisfy all of these requirements at the time it seeks to recoup its tax losses which may impact on the financial performance and cash flows of the Company.

(f) Litigation risk

The Company is not currently engaged in any litigation. However, the Company may face actual or threatened litigation or legal disputes in the form of customer claims, intellectual property claims, personal injury claims, employee claims and other litigation and disputes. If any claim was successfully pursued it may adversely impact

the financial performance, financial position, cash flow, share price and/or industry standing of the Company.

(g) **Insurance risk**

The Company intends to insure its operations in accordance with industry practice. However, in certain circumstances, the Company's insurance may not be of a nature or level to provide adequate insurance cover. The occurrence of an event that is not covered or fully covered by insurance could have a material adverse effect on the business, financial condition and results of the Company.

5.4 **Investment speculative**

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company.

The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Securities offered under this Prospectus. Therefore, the New Securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those New Securities. Potential investors should consider that the investment in the Company is highly speculative and should consult their professional adviser before deciding whether to apply for New Securities pursuant to this Prospectus.

7.3 Company is a disclosing entity

The Company is a 'disclosing entity' (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act, and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all ASX-listed companies, the Company is (subject to certain exceptions) required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities. The Shares have been quoted on the official list of the ASX during the three months prior to the issue of this Prospectus.

This Prospectus is a 'transaction specific prospectus' to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities, or options to acquire securities, in a class which has been continuously quoted by ASX in the three months prior to the date of the prospectus. In general terms 'transaction specific prospectuses' are only required to contain information in relation to the effect of the issue of new Shares on the Company and the rights and liabilities attaching to the new Shares. It is not necessary to include general information in relation to all of the assets and liabilities, the financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX, and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.
