

4 August 2026 | ASX RELEASE

HyTerra to present at the OTCQB Virtual Investor Conference

HyTerra Ltd (ASX: HYT) will present live at the OTCQB Virtual Investor Conference hosted by VirtualInvestorConferences.com, on Thursday 6 August 2026.

The company invites individual and institutional investors, as well as advisors and analysts, to attend online at VirtualInvestorConferences.com.

HyTerra Chief Executive Officer, Mr Riley Kemp, will present an overview of the geologic hydrogen industry and HyTerra's business, together with an update on the results of the McCoy-1 production test and the Company's plans to advance its broader portfolio.

This will be a live, interactive online event where investors are invited to ask the company questions in real-time. If attendees are not able to join the event live on the day of the conference, an archived webcast will also be made available after the event.

It is recommended that online investors pre-register and run the online system check to expedite participation and receive event updates.

Event Details

HyTerra. A World of Opportunity.

Exploring for geologic hydrogen and helium resources near major industrial hubs. HyTerra was the first company to list on the ASX with a focus on geologic hydrogen, which is generated naturally by the Earth. Geologic ('white') hydrogen potentially has much lower production costs and carbon emissions than man-made hydrogen.

Our Nemaha Project in Kansas, USA, holds 100% owned and operated leases across the emerging Nemaha Ridge geologic hydrogen and helium play fairway. Our Geneva Project in Nebraska, USA, is a 16% earn-in interest in a Joint Development with Natural Hydrogen Energy LLC targeting geologic hydrogen and helium. Both projects could be connected via existing transport infrastructure to multiple nearby off-takers, including ammonia manufacturers and petrochemical plants.
