

\$4.4M Placement completes with cornerstone investors joining the IG6 register

International Graphite Limited (ASX:IG6, FWB:H99) has completed the \$4.4M Placement announced on 19 June and 1 July 2026 and approved by shareholders on 3 August 2026.

The Company has allotted 58,816,313 new shares to Tranche 2 investors and 55,000,000 two-year options, exercisable at \$0.08 per share, to placement participants. IG6 plans to seek approval to have the options quoted on the Australian Securities Exchange (ASX).

Xcelsior Capital and a family office associated with the London-based investment firm have invested through Tranche 2 of the Placement alongside other longer-term shareholders including Company Directors.

Xcelsior Capital is a critical metals and minerals investment and advisory firm specialising in opportunities that support supply chain resilience, national security and the energy transition. It is the investment partner of the Wogen Group of companies, a global metals and minerals trading house, headquartered in the UK.

Funds from the Placement will support the development of the Company's graphite processing operations in Western Australia and Europe and provide general working capital.

Earthworks and civil activities at the Collie Micronising Facility have increased significantly over the past month. Milestone 3 under the Western Australian Government's \$4.5 million Collie Industrial Transition Fund grant has been met with a further drawdown expected to be received in the coming weeks. Once received approximately \$2.5 million would remain available to the project.

Authorised for release by the Board of International Graphite Limited.

About IG6

International Graphite Limited (ASX: IG6, FWB: H99) is establishing mid-stream graphite processing operations in Europe and Australia to supply advanced industrial graphite products for established markets seeking secure and reliable alternatives to traditional supply chains. Through the Collie Processing Facility in Western Australia and the Alkeemia / IG6 Joint Venture at Porto Marghera, Italy, the Company is developing a capital-efficient graphite processing platform, supported by proven technologies and industry partnerships. The platform is designed to serve growing demand from industrial, energy storage, advanced manufacturing and defence applications. IG6 also owns the globally significant Springdale Graphite Project in Western Australia, providing long-term feedstock optionality for future scaling of process operations.

Forward-looking statements

Certain statements in this announcement relate to the future, including forward-looking statements relating to the Company and its business. Forward-looking statements include, but are not limited to, statements concerning International Graphite Limited planned business activities and other statements that are not historical facts. When used in this document, the words such as "could", "plan", "estimate", "expect", "intend", "may", "potential", "should", and similar expressions are forward looking statements.

These forward-looking statements involve known and unknown risks, uncertainties, assumptions, and other important factors that could cause the actual results, performance or achievements of the Company to be materially different from future results, performance or achievements expressed or implied by such statements. Actual events or results may differ materially from the events or results expressed or implied in any forward-looking statement and deviations are both normal and to be expected. Neither the Company, its officers nor any other person gives any representation, assurance or guarantee that the events or other matters expressed or implied in any forward-looking statements will actually occur. You are cautioned not to place undue reliance on those statements.
