8.6.1 Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: The entity expects fluctuations in its operating cash flows as it continues to scale operations and invest in business development activities. However, management anticipates that operating cash flows will improve progressively through cost control measures, ongoing revenue growth, and the expected contribution from newly secured commercial partnerships.

8.6.2 Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: Yes. The entity is in the process of pursuing several funding initiatives, including strategic investment discussions and equity-based financing options such as placements and potential rights issue extensions. The Board is confident that these initiatives, supported by the company's track record and ongoing investor interest, will be successful in securing sufficient funding for continued operations and growth.

8.6.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes. The entity expects to be able to continue its operations and to meet its business objectives based on the ongoing financial support from its parent company, I Synergy Group Limited (ASX: IS3), and the group's planned capital management initiatives. These include prospective fundraising activities, strategic partnerships, and business development programs that are expected to generate sustainable revenue streams. The Board and management remain confident that sufficient resources will be available to support the entity's operations for at least the next twelve months.

Note: where item 8.5 is less than 2 quarters, all of questions 8.6.1, 8.6.2 and 8.6.3 above must be answered.
