ASX Announcement

6 August 2026

KINETIKO ENERGY LTD

CLEANSING NOTICE UNDER SECTION 708A(5)(e) OF THE CORPORATIONS ACT 2001 (CTH)

Kinetiko Energy Ltd (ACN 141 647 529) (ASX: KKO) ("**KKO**" or the "**Company**") advises that on 6 August 2026 the Company issued 50,000,000 new fully paid ordinary shares in the capital of the Company ("**New Shares**") to sophisticated and professional investors at an issue price of $0.03 per New Share as part of the placement announced on 30 July 2026. An Appendix 2A in respect of the New Shares was released to the ASX on 6 August 2026.

The Company hereby provides notice under section 708A(5)(e) of the *Corporations Act 2001* (Cth) ("**Corporations Act**") in respect of the issue of the New Shares ("**Notice**"). The Corporations Act restricts the on-sale of securities issued without disclosure, unless the sale is exempt under section 708 or 708A of the Corporations Act. By giving this Notice, the issue of the New Shares will fall within the exemption in section 708A(5) of the Corporations Act.

Pursuant to section 708A(6) of the Corporations Act, the Company confirms that:

(A) the Company issued the New Shares without disclosure to investors under Part 6D.2 of the Corporations Act;

(B) this Notice is being given under section 708A(5)(e) of the Corporations Act;

(C) as at the date of this Notice, the Company has complied with:

  (i) the provisions of Chapter 2M of the Corporations Act as they apply to the Company; and

  (ii) sections 674 and 674A of the Corporations Act; and

(D) as at the date of this Notice, there is no 'excluded' information within the meaning of sections 708A(7) and 708A(8) of the Corporations Act that is required to be set out in this notice.

This announcement is authorised for release to the market by the Board of Directors of the Company.

About Kinetiko Energy

Kinetiko Energy (ASX: KKO | OTCQB: KKOBF) is a gas field developer focused on commercialising its 100%-owned shallow conventional gas projects in South Africa. The Company's flagship Brakfontein project holds independently certified 2P reserves. The broader Mpumalanga project holds a 2C contingent resource of approximately 6 trillion cubic feet (Tcf), underpinning a staged development programme from initial CNG production through to full-field LNG at scale. Kinetiko's projects are located in South Africa's primary power-producing region, where gas is expected to play a central role in base load energy supply and the country's long-term energy transition.

Competent Persons and Compliance Statements

Unless otherwise specified, information in this report relating to operations, exploration, and related technical comments has been compiled by registered Petroleum Geologist, Mr Paul Tromp, who has over 40 years of onshore oil and gas field experience. Mr Tromp consents to the inclusion of this information in the form and context in which it appears.

The Company confirms that it is not aware of any new information or data that materially affect the information included in the relevant market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed.

Refer to the Company's announcement dated 21 August 2023 titled 'Maiden Gas Reserves & Major Increase in Contingent Resource Confirms Positive Economics & Enormous Scalability'. The Company confirms that it is not aware of any new information or data that materially affects the information included in that announcement and that all material assumptions and technical parameters continue to apply and have not materially changed.
