United Kingdom

28 July 2026

Kore Potash Plc
("Kore Potash" or "the Company")

Review of Operations for the Quarter ended 30 June 2026

Kore Potash (AIM: KP2, ASX: KP2, JSE: KP2, A2X: KP2), the potash development company with 97.46% ownership of the Kola Potash Project ("**Kola**" or the "**Kola Project**") and Dougou Extension ("**DX**") Potash Project in the Sintoukola Basin, located in the Republic of Congo ("**RoC**"), provides its quarterly update for the period ended 30 June 2026 (the "**Quarter**").

Quarterly Highlights

Projects

- Efforts during the Quarter have been largely focused on advancing the Formal Sale Process ("**FSP**").
- Early works had been previously completed but Front-End Engineering Design ("**FEED**") continued for the underground design due to a change in the supplier of the vertical hoisting system.
- The Environmental and Social Impact Assessment ("**ESIA**") has been temporarily paused.
- A new Mining Law was signed by President Sassou Nguesso on 18th April 2026 and promulgated in the *Journal Officiel* (government gazette) as Law No. 01-2026.
- A new Minister of Mines was appointed in a RoC Government reshuffle. Newly appointed Minister Fiacre Opo was previously Director General of Mines, reporting to the previous Minister, Pierre Oba.

Corporate

- On 4 November 2025, the Company announced that it had commenced the FSP. Kore Potash announced that it had received approaches from two parties, each of which was evaluating the possible acquisition of the entire issued, and to be issued, share capital of the Company. On 27 February 2026, the Company was notified by one of the parties in the FSP that it has now decided to suspend its interest in acquiring the Company and was unable to proceed in the FSP for internal reasons. However, the other party referred to above remains engaged in the FSP and is continuing its due diligence exercise. On 8 June 2026, the Company was approached by a new party wishing to participate in the FSP and that party has begun evaluating the possible acquisition of the entire issued, and to be issued, share capital of the Company. Accordingly, two parties are currently engaged in the FSP.
- Kore Potash Limited has been deregistered as an Australian Company, effective 28 June 2026.
- The Company held its AGM on 30 June 2026.
- As at 30 June 2026, the Company held c.US\$7.5 million in cash.

André Baya, CEO of Kore Potash, commented:

“Activities in the second quarter have largely focused on progressing the Formal Sales process.

Kola’s importance, scale and its geographical location should not be underestimated at a time when the security of the world’s food supply remains at the mercy of global disruptions. Kola is a globally significant potash project with a team intent on driving it towards production and making a difference to this.

The remainder of 2026 promises to be a highly significant one for Kore as we look forward to further progressing Kola. I look forward to providing further updates in due course.”

Operational Activities

Kola Financing

On 10 June 2025, the Company announced that it signed term sheets for availing the total funding requirement for the Kola Project with OWI-RAMS GmbH (“**OWI-RAMS**”) (“**Term Sheets**”). As previously announced, the main focus of the overall financing package has been on enhancing Kore Potash’s managerial capacity to deliver on the Kola Project.

The Company continues to engage with OWI-RAMS regarding the financial package for the Kola Project, on the basis set out in the previously announced Term Sheets.

The appointment of a suitable contract operator and the partnering of an appropriately experienced strategic partner in potash mining and processing, as detailed in the Term Sheets, remain key priorities.

In parallel, OWI-RAMS has continued selected workstreams, including engagement with two development finance institutions (the “**Potential Financiers**”) in relation to key components typically required for a project financing package, such as political risk insurance and debt funding. Both the Potential Financiers have indicated a continued interest in supporting the Kola Project financing and have emphasised the importance of Kore appointing a suitable contract operator and securing an appropriately experienced strategic partner.

The contract with UMS Projects, a subsidiary of UMS, the winner of the Owner’s Project Team Request for Proposal, has not yet been concluded. The Kore Potash management team is awaiting approval from the Potential Financiers before any contract execution.

In addition, regarding post-construction operations, further discussions were held with two new Chinese contractors about a contract operator proposal. This was a requirement of the Potential Financiers to derisk the Kola Project further.

KOLA PROJECT

Environmental and Social Impact Assessment (“ESIA”)

Initiated in 2025, the update of the ESIA for the Kola Project was necessitated by design optimisations introduced by PowerChina. The process went through a collection of updated environmental baseline data which was completed early October 2025 by consulting firms SRK, FFMES and ELINA.

The social baseline data collection by Synergy and ELINA was intentionally left incomplete in October as it was understood that a new investor might request some design modifications which could impact the Relocation Action Plan (“**RAP**”), essential to the subsequent *Déclaration d’Utilité Publique* (“**DUP**”). The DUP is a RoC Government-led exercise, which is a prerequisite for land acquisition by the Company.

ESIA activities resumed in April 2026 after a six-month hiatus. However, the work could not be completed due to a lack of visibility as to the final design changes to be requested by the new strategic investors. At the end of May 2026, works were suspended to allow finalisation of the FSP process.

RoC Government Relations

Presidential elections took place in the RoC on 15th March 2026 and President Sassou Nguesso was re-elected with over 94% of votes. Thereafter he reshuffled the Government and Minister of Mines, Pierre Oba, was replaced by one of the leading members of his Ministry, namely Mr Fiacre Opo.

Subsequently, Parliament ratified a new Mining Law in April 2026. It was published online on the *Journal Officiel* website of the RoC Government in late July. Kore believes in the validity of our mining convention which was based on the previous version of the Mining Law but stands firm as it was ratified by Parliament and signed by the President. Furthermore, Kore's convention includes a stabilisation provision which specifically provides that the rights under the convention may not be adversely affected by any laws introduced after the convention was signed.

Notwithstanding, the Company is engaging with the RoC government to ensure there is complete clarity and agreement on the practical application of Kore's convention within the new mining code framework.

The Government has now confirmed that the 10% shareholding of Dougou Potash Mining S.A. ("**DPM**") and Kola Potash Mining S.A. ("**KPM**") shall be held by the Ministry of Finance. The legal process has been initiated in the country.

Early Works

During the 2018 Definitive Feasibility Study ("**DFS**"), a French Consortium ("**FC**") composed of Technip, Vinci Construction Grands Projects, Egis and Louis Dreyfus Armateurs carried out a metallurgical testing program at the Saskatchewan Research Council ("**SRC**") in Saskatoon, SK.

The Engineering, Procurement and Construction ("**EPC**") contract between Kore Potash and PowerChina International Group Limited ("**PowerChina**") stipulated a series of Early Works that include validation tests intended to replicate the tests results obtained during the DFS stage. This testing program was intended to validate a potash recovery process composed of four flotation steps with an intermediate re-crushing step.

The validation tests were conducted using similar equipment (a Denver MD12 bench scale flotation machine) and the same reagents used in 2018.

These Tests carried out at ENFI China laboratories ("**ENFI**") produced a combined concentrate grade of 96.91% KCl (61.2% K₂O) which is 3.12 percentage points higher than what was obtained in 2018. On the other hand, the combined KCl recovery was 83.46%, which is essentially the same figure obtained through metallurgical testwork carried out in 2018 and published on 29 January 2019 within the DFS summary.

More importantly, the tests at ENFI produced improved first-pass rougher grades and recoveries, at 96.17% KCl (60.75% K₂O) and 85.85% respectively, which compare favourably to the 93.85% KCl and recoveries of 78.55% obtained in 2018.

A consequence of the improved rougher flotation performance was the locked-cycle tests stabilising after only two cycles, compared to the eight cycles it took in 2018.

The results of the Validation Tests at China ENFI can thus be summarised as follows:

- 2018 results were validated and further improved upon.
- The newly acquired data provide input that will be used in further optimising the circuit design to improve efficiency and costs.
- As expressed by Mr Carlos Perucca, one of the world-leading experts in potash processing, the tests have "*Proved beyond any doubt the optimum metallurgical response of a world-class ore quality*".
- As the Validation Tests were the most crucial part of the overall Beneficiation tests referred to in the Early Works Agreement with PowerChina, the parties have agreed that the Beneficiation Test Condition Precedent is now fully satisfied.

Shaft and underground mining FEED work are still ongoing between PowerChina and UMS and changes are being made to the shaft design as the vertical conveyor system is no longer manufactured by the Contitech Conveyor Belt group, which is a division of Continental AG. One alternative has been identified but will require some minor redesign.

DX Potash Project

At present, the Company remains focused on completing the financing of Kola and moving forward to the construction of Kola as soon as possible. The Company is also considering some strategic options which are available for the Dougou Extension (“DX”) project. The DX project and Dougou deposit have however been closely reviewed as part of the FSP.

Corporate

On 4 November 2025, the Company announced that it had commenced the FSP. Kore Potash announced that it had received approaches from two parties, each of which was evaluating the possible acquisition of the entire issued, and to be issued, share capital of the Company. On 27 February 2026, the Company was notified by one of the parties in the FSP that it has now decided to suspend its interest in acquiring the Company and was unable to proceed in the FSP for internal reasons. However, the other party referred to above remains engaged in the FSP and is continuing its due diligence exercise. On 8 June 2026, the Company was approached by a new party wishing to participate in the FSP and that party has begun evaluating the possible acquisition of the entire issued, and to be issued, share capital of the Company. Accordingly, two parties are currently engaged in the FSP.

Kore Potash Limited has been deregistered as an Australian Company, effective 28 June 2026.

The Company held its Annual General Meeting on 30 June 2026.

As at 30 June 2026, the Company held c.US\$7.5 million in cash.

There were no mining production or construction activities during the Quarter.

Quarterly cashflow report

In accordance with the ASX Listing Rules, the Company will also lodge its cashflow report for the Quarter today.

The Company invested US\$483,000 in exploration in the Quarter, which comprised US\$480,000 related to the Kola Study and US\$3,000 for the DX DFS Study. The Company ended the Quarter with c.US\$7.5 million in cash.

This announcement has been approved for release by the Board of Kore Potash.

Market Abuse Regulation

This announcement contains inside information for the purposes of Article 7 of the Market Abuse Regulation (EU) 596/2014 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018 (“MAR”), and is disclosed in accordance with the Company’s obligations under Article 17 of MAR.

Tenement Details and Ownership

The Company is incorporated and registered in England and Wales. Kore Potash Plc has a 97.46% shareholding in Sintoukola Potash SA (“**SPSA**”) in the RoC. SPSA has 100% ownership of KPM. KPM has 100% ownership of the Kola Mining Lease on which the Kola Deposit is situated. The Kola Deposit is located within the Kola Mining Lease. SPSA is also the 100% owner of the Dougou Mining Lease. The Dougou Mining lease hosts the Dougou Deposit and the DX Deposit.

Under the existing Mining Convention, the RoC Government is entitled to 10% ownership in the Kola and DX Projects. The transfer of this 10% awaits instructions from the Government and the Mineral Resources and Ore Reserves are shown below in gross and 90% attributable bases.

Table 1: Schedule of mining tenements (Republic of Congo)

Project & Type	Tenement Issued	Company Interest	Title Registered to
Kola Mining	Decree 2013-412 of 9 August 2013	100% potassium rights only	Kola Potash Mining S.A.
Dougou Mining	Decree 2017-139 of 9 May 2017 Revised Decree No 2021-389 of 2 August 2021	100% potassium rights only	Sintoukola Potash S.A.

Competent Persons Statements

All Mineral Resource and Ore Reserves are reported in accordance with the JORC Code (2012 edition). Numbers are rounded to the appropriate decimal place. Rounding 'errors' may be reflected in the "totals".

The Kola Mineral Resources were reported 6 July 2017 in an announcement titled 'Updated Mineral Resource for the High - Grade Kola Deposit'. It was prepared by Competent Person Mr. Garth Kirkham, P.Geo., a member of the Association of Professional Engineers and Geoscientists of British Columbia. The Ore Reserves for sylvinitic at Kola was first stated on 29 January 2019 in an announcement titled "Kola Definitive Feasibility Study" and was prepared by Met-Chem. The Competent Person for the estimate was Mr Mo Molavi, member of good standing of Engineers and Geoscientists of British Columbia. The Ore Reserves were reviewed when the changes to the underlying assumptions (as detailed in the 27 June 2022 announcement "Kola Project optimisation study outcomes") were made and Mr Molavi verified that the Ore Reserves remained unchanged.

The Dougou carnallite Mineral Resources were reported on 9 February 2015 in an announcement titled 'Elemental Minerals Announces Large Mineral Resource Expansion and Upgrade for the Dougou Potash Deposit'. It was prepared by Competent Persons Dr. Sebastiaan van der Klauw and Ms. Jana Neubert, senior geologists and employees of ERCOSPLAN Ingenieurgesellschaft Geotechnik und Bergbau mbH and members of good standing of the European Federation of Geologists.

The Dougou Extension sylvinitic Mineral Resource Estimate and Ore Reserve Estimate were reported in an announcement titled "Updated Dougou Extension (DX) PFS and Production Target" on 24 January 2023. Dr. Douglas F. Hambley, Ph.D., P.E., P.Eng., P.G of Agapito Associates Inc., for the Exploration Results and Mineral Resources. Mr. Hambley is a licensed professional geologist in states of Illinois (Member 196-000007) and Indiana (Member 2175), USA, and is an Honorary Registered Member (HRM) of the Society of Mining, Metallurgy and Exploration, Inc. (SME, Member 1299100RM), a Recognized RPO included in a list that is posted on the ASX website from time to time and Dr. Michael Hardy was the Competent Person for the Ore Reserves, and he is a registered member in good standing (Member #01328850) of Society for Mining, Metallurgy and Exploration (SME) which is an RPO included in a list that is posted on the ASX website from time to time.

No New Information

The Company confirms that, it is not aware of any new information or data that materially affects the information included in the original market announcements and, in the case of estimates of Mineral Resources or statements of Ore Reserves that all material assumptions and technical parameters underpinning the estimates in the relevant market announcement continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

Forward-Looking Statements

This release contains certain statements that are "forward-looking" with respect to the financial condition, results of operations, projects and business of the Company and certain plans and objectives of the management of the Company. Forward-looking statements include those containing words such as: "anticipate", "believe", "expect", "forecast", "potential", "intends", "estimate", "will", "plan", "could", "may", "project", "target", "likely" and similar expressions identify forward-looking statements. By their very nature forward-looking statements are subject to known and unknown risks and uncertainties and other factors which are subject to change without notice and may involve significant elements of subjective judgement and assumptions as to future events which may or may not be correct, which may cause the Company's actual results, performance or achievements, to differ materially from those expressed or implied in any of our forward-looking statements, which are not guarantees of future performance. Neither the Company, nor any other person, gives any representation, warranty, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statement will occur. Except as required by law, and only to the extent so required, none of the Company, its subsidiaries or its or their directors, officers, employees, advisors or agents or any other person shall in any way be liable to any person or body for any loss, claim, demand, damages, costs, or expenses of whatever nature arising in any way out of, or in connection with, the information contained in this document.

30 June 2026

Consolidated statement of cash flows		Current quarter \$US'000	Year to date (6 months) \$US'000
1.	Cash flows from operating activities		
1.1	Receipts from customers	-	-
1.2	Payments for		
	(a) exploration & evaluation (if expensed)	-	-
	(b) development	-	-
	(c) production	-	-
	(d) staff costs	(42)	(84)
	(e) administration and corporate costs	(287)	(787)
1.3	Dividends received (see note 3)	-	-
1.4	Interest received	15	53
1.5	Interest and other costs of finance paid	-	-
1.6	Income taxes paid	-	-
1.7	Government grants and tax incentives	-	-
1.8	Intercompany payments	-	-
1.9	Net cash from / (used in) operating activities	(314)	(818)

2.	Cash flows from investing activities		
2.1	Payments to acquire:		
	(a) entities	-	-
	(b) tenements	-	-
	(c) property, plant and equipment	-	-
	(d) exploration & evaluation (if capitalised)	(483)	(1,212)
	(e) investments	-	(1,000)
	(f) other non-current assets	-	-

Consolidated statement of cash flows		Current quarter \$US'000	Year to date (6 months) \$US'000
2.2	Proceeds from the disposal of:		
	(a) entities	-	-
	(b) tenements	-	-
	(c) property, plant and equipment	-	-
	(d) investments	-	-
	(e) other non-current assets	-	-
2.3	Cash flows from loans to other entities	-	-
2.4	Dividends received (see note 3)	-	-
2.5	Other (provide details if material)	-	-
2.6	Net cash from / (used in) investing activities	(483)	(2,212)

3.	Cash flows from financing activities		
3.1	Proceeds from issues of equity securities (excluding convertible debt securities)	-	-
3.2	Proceeds from issue of convertible debt securities	-	-
3.3	Proceeds from exercise of options	-	-
3.4	Transaction costs related to issues of equity securities or convertible debt securities	-	-
3.5	Proceeds from borrowings	-	-
3.6	Repayment of borrowings	-	-
3.7	Transaction costs related to loans and borrowings	-	-
3.8	Dividends paid	-	-
3.9	Other (provide details if material)	-	-
3.10	Net cash from / (used in) financing activities	-	-

4.	Net increase / (decrease) in cash and cash equivalents for the period		
4.1	Cash and cash equivalents at beginning of period	8,300	10,555
4.2	Net cash from / (used in) operating activities (item 1.9 above)	(314)	(818)
4.3	Net cash from / (used in) investing activities (item 2.6 above)	(483)	(2,212)
4.4	Net cash from / (used in) financing activities (item 3.10 above)	-	-

Consolidated statement of cash flows		Current quarter \$US'000	Year to date (6 months) \$US'000
4.5	Effect of movement in exchange rates on cash held	41	19
4.6	Cash and cash equivalents at end of period	7,544	7,544

5. Reconciliation of cash and cash equivalents at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts	Current quarter \$US'000	Previous quarter \$US'000
5.1 Bank balances	7,544	7,544
5.2 Call deposits	-	-
5.3 Bank overdrafts	-	-
5.4 Other (provide details)	-	-
5.5 Cash and cash equivalents at end of quarter (should equal item 4.6 above)	7,544	7,544

6. Payments to related parties of the entity and their associates

- 6.1 Aggregate amount of payments to related parties and their associates included in item 1
- 6.2 Aggregate amount of payments to related parties and their associates included in item 2

**Current quarter
\$US'000**

96

85

Note: if any amounts are shown in items 6.1 or 6.2, your quarterly activity report must include a description of, and an explanation for, such payments.

Items 6.1 and 6.2 above relate to non-executive directors' fee for the current quarter.

7.	Financing facilities <i>Note: the term "facility" includes all forms of financing arrangements available to the entity.</i> <i>Add notes as necessary for an understanding of the sources of finance available to the entity.</i>	Total facility amount at quarter end \$US'000	Amount drawn at quarter end \$US'000
7.1	Loan facilities	-	-
7.2	Credit standby arrangements	-	-
7.3	Other (please specify)	-	-
7.4	Total financing facilities	-	-

7.5 Unused financing facilities available at quarter end	-
---	---

7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.

8.	Estimated cash available for future operating activities	\$US'000
8.1	Net cash from / (used in) operating activities (Item 1.9)	(314)
8.2	Capitalised exploration & evaluation (Item 2.1(d))	(483)
8.3	Total relevant outgoings (Item 8.1 + Item 8.2)	(797)
8.4	Cash and cash equivalents at quarter end (Item 4.6)	7,544
8.5	Unused finance facilities available at quarter end (Item 7.5)	-
8.6	Total available funding (Item 8.4 + Item 8.5)	7,544
8.7	Estimated quarters of funding available (Item 8.6 divided by Item 8.3)	9.47

8.8 If Item 8.7 is less than 2 quarters, please provide answers to the following questions:

1. Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?

Answer: N/A
2. Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?

Answer: N/A
3. Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: N/A

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 28 July 2026

Authorised by: By the Board of Kore Potash plc
(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
