EXPLORATION ACTIVITIES

No field exploration activities were completed during the quarter.

The Company's technical team continued to review geological, geophysical and geochemical datasets across its projects with the objective of refining exploration models, validating historical interpretations and identifying priority targets for future exploration programs. This work included integration of historical exploration results with available geophysical datasets and assessment of potential exploration methodologies for future campaigns.

The review process enables the Company to maximise the effectiveness of future exploration expenditure by focusing planned field programs on the highest-priority targets.

CORPORATE AND BUSINESS DEVELOPMENT

During the quarter the Company continued to assess a range of strategic opportunities consistent with its objective of building shareholder value.

This work included technical due diligence on exploration opportunities considered complementary to the Company's technical expertise and strategic objectives. The Company maintains an active review of opportunities that satisfy its technical and commercial investment criteria.

No material acquisitions or transactions were completed during the quarter.

PLANNED ACTIVITIES

The Company intends to:

- continue refinement of geological and exploration targeting across its existing projects;
- progress permitting and planning activities where appropriate;
- assess opportunities to strengthen and diversify its exploration portfolio where they align with the Company's strategic objectives; and
- undertake exploration programs as technical priorities, approvals and market conditions permit.
