The correction relates solely to the summation of the Contained Gold Range; **it does not reflect any new information, data, or change to the Exploration Target itself.**

Cautionary Statement

The Exploration Target has been prepared and reported in accordance with the 2012 edition of the JORC Code. Although the Exploration Target is based on actual drilling data, the potential quantity and grade remain conceptual in nature and there has been insufficient exploration drilling to estimate a Mineral Resource. It is uncertain if further exploration drilling will result in the estimation of a JORC-compliant Mineral Resource.

No other information contained in the Original Announcement is affected by this correction, including the individual target ranges, tonnage and grade figures, the Competent Person Statement, and the JORC Code (2012) Table 1 disclosure. The Company confirms that the material assumptions and technical parameters underpinning the Exploration Target, as set out in the Original Announcement, continue to apply and have not materially changed.
