

Metrics Real Estate Multi-Strategy Fund (ASX:MRE)

Trust Information

Trust
Metrics Real Estate Multi-Strategy Fund (**MRE**), a stapled structure consisting of the Metrics Real Estate Multi-Strategy Passive Trust ARSN 679 413 293 (**Passive Trust**) and the Metrics Real Estate Multi-Strategy Active Trust ARSN 679 413 695 (**Active Trust**).

Responsible Entity
The Trust Company (RE Services) Limited ACN 003 278 831; AFSL 235 150

Manager
Metrics Credit Partners Pty Ltd (**Metrics**) ACN 150 646 996; AFSL 416 146

Investment Objective¹
Provide exposure to a diversified portfolio of private markets CRE Investments covering the entire capital structure from Senior Secured first registered mortgage Debt investments through to Equity with a view to deliver to investors the Target Total Return. The Fund seeks to provide monthly cash income and seeks to preserve investor capital and manage investment risks, whilst providing potential Equity upside. Capitalised terms used in this report have the meaning given to them in the Product Disclosure Statement lodged with the ASX on 14 October 2024 (**PDS**).

Investment Strategy
Gain exposure to a portfolio of mostly private market investments covering the entire capital structure from lower risk Senior Secured first registered mortgage loans to higher risk and potentially higher returning investments held with Equity Investment in CRE development projects. Through active origination, portfolio construction and risk management the Manager will seek to lower investment risk via diversification of investment portfolios. This will be accomplished by investing in the Metrics CRE Multi-Strategy (Debt) Trust (**Debt Sub-Trust**) and the Metrics CRE Multi- Strategy (Equity) Trust (**Equity Sub-Trust**), each of which, in turn, will invest in and alongside, as applicable MCP Real Estate Debt Fund (**REDF**) and the Metrics Real Estate Equity Opportunities Fund (**MREPIIM**). MRE’s structure is depicted in this report. For further information in respect of MRE’s Investment Strategy and allocation of capital to each of REDF and MREPIIM, please refer to the PDS.

Target Return¹
Target Total Return of 10.00 – 12.00% p.a. net of fees and upfront and ongoing expenses of MRE through the economic cycle.

The Target Total Return of the Fund includes movements in net asset value, cash returns paid to investors via distribution and dividend payments, franking credits and any additional returns. Unitholders will receive either pre-tax distributions from the Passive Trust or post-tax dividends from the Active Trust, with attached franking credits.^{1,3,6}

- Investment Highlights**
- Experienced credible investment team with proven track record in originating and managing alternative investments³
 - Monthly cash income¹ generated from exposure to CRE debt instruments
 - ASX market liquidity³
 - Access to the REDF which provides an opportunity for investors to access a fund that was first established in October 2017 and has a demonstrated track record of performance having exceeded its target return since inception³.
 - Access to private market CRE Investments not typically available to retail investors
 - Access to high quality investment partners through Metrics’ relationship and origination capability
 - Risk adjusted returns through diversified investment in both CRE Debt and Equity³
 - Fees and total costs with incentives for performance that align with the interests of investors⁵

Metrics Real Estate Multi-Strategy Fund

This report provides investors in the Metrics Real Estate Multi-Strategy Fund (**MRE**) with more comprehensive information in respect of the underlying Trusts. The report supplements prior monthly reporting and provides more detailed data prepared by Metrics in respect of the historical and current performance and portfolio composition of MCP Real Estate Debt Fund (REDF) in which the Passive Trust invests via the Debt Sub-Trust and the Metrics Real Estate Opportunities Fund (MREPIIM) in which the Active Trust invests via the Equity Sub-Trust.

Key Investment Criteria

	September 2025
Risk Management	Portfolio diversified across 146 Debt Assets & 16 Equity Assets
Investor Returns	MRE is Targeting a Total Return of 10.00 – 12.00% p.a. net of fees and upfront and ongoing expenses. ¹ Past performance is not a reliable indicator of future performance
Costs to Investor ⁵	Management Fees & Costs: 1.29% Performance Fees: 15.38% above Hurdle of 10%
Liquidity	Daily traded volumes remain stable with an average trading volume of 265,848 units. Based on 90 day average
Monthly Income ^{3,4}	Monthly cash income distributions There is no guarantee that MRE will continue to make distributions.

An investment in MRE is subject to risk, including (without limitation) loss of principal invested and that the price at which units can be sold on the ASX may not always reflect MRE's net asset value. Investors should review the risk disclosures set out in the Product Disclosure Statement lodged with the ASX on 14 October 2024 and obtain professional financial advice prior to making a financial decision in respect of MRE.

Investment Performance^{2,3,4,6}

	1 MTH	3 MTH	1YR	3 YR	5 YR	INCEP
Net Return (%)	2.06	4.29	–	–	–	16.66
Distribution (%)	0.68	1.21	–	–	–	5.35

(1) The Target Total Return is only a target and may not be achieved, the actual return of MRE may be lower than the Target Total Return. It may take some time until the target Portfolio Construction is achieved (which may be up to six months) and before the Target Total Return can be expected to be achieved. (2) As at the 30 September 2025 the RBA Cash Rate was 360 bps p.a. (3) Past performance is not a reliable indicator of future performance. (4) The payment of monthly cash income is a goal of MRE only and neither the Manager nor the Responsible Entity provide any representation or warranty (either express or implied) in relation to the payment of any cash income. (5) Management Fees and Costs: as per the IPO PDS October 2024, 1.29% of NAV until 1st anniversary of trading on the ASX, and thereafter 1.54% of NAV. Performance Fees: no performance fee is expected to be paid during the first 12 months of the Fund's operation. (6) Returns and distributions are based on NAV unit price (reported on a post-tax basis), after taking into account all fees and costs. Returns are annualised if over one year. Returns over 1 month are compounded monthly. No allowance has been made for entry fees, expenses or taxation. CYTD returns are not compounded.

Metrics Real Estate Multi-Strategy Fund (ASX:MRE)

Market Update

Demand for commercial real estate lending demand remains strong, with lower interest rates supporting end-user demand and, together with an easing of construction cost pressures, are helping project feasibilities and boosting developer and investor confidence.

Housing markets remain mostly under-supplied, which is evident in low rental vacancy and price growth. Supply now has more public sector support and is rising, but construction levels remain moderate and under-supply will persist for some years yet. Sydney and South-East Queensland remain particularly under-supplied, while Adelaide and Perth are also tight. Melbourne has been slightly softer but is improving, with stronger land sales recently.

Industrial property markets have tempered from very high strength of recent years. However, new supply has peaked, vacancy is still moderate and structural drivers are keeping demand robust.

Hotel demand and performance remain robust and new high-end supply is being absorbed. Office markets remain soft, but the worst appears over. Retail has stabilised due to a combination of population growth and little new supply, which is attracting investment back into the sector.

Fund Update (ASX:MRE)

Metrics has maintained its focus on core strengths over the quarter: deploying capital selectively into well-structured opportunities, and managing risk with disciplined execution.

MRE continued to diversify over the quarter, increasing the portfolio by 26 new investments comprising 24 Passive Trust investments and 2 Active Trust Investments, less 3 loan repayments (totalling 158 underlying investments at quarter end).

Passive Trust's investment activity moderated against the June quarter as the Trust remained fully invested and new loans were effectively replacing repaid loans. Lending continues to be predominantly across our two preferred sectors Residential and industrial. This quarter the Trust also provided a loan secured by a hotel property, which is another sector demonstrating sound investment fundamentals.

Active Trust settled on the first stage of the industrial strata unit development in Gold Coast, QLD of 21 units. All projects are progressing well with positive planning outcomes, presale results and construction commencements.

Investment Performance (Passive Trust)^{2,3,6}

On a net basis, Passive Trust returns were 2.65% over the quarter noting the RBA Cash Rate² cut by 25 basis points (bps) occurred, however other key portfolio investment settings of the Passive Trust remained largely unchanged. The Passive Trust has continued to outperform its hurdle return of the 3M BBSW plus 500 bps through the cycle³, which it has done since inception.

Portfolio Composition (Passive Trust)⁷

The Passive Trust has been consistently exposed to senior ranking instruments and has very limited exposure to subordinated debt. Whilst the Passive Trust may invest in subordinated loans from time to time, it is expected to maintain its senior ranking profile.

Sector Diversification (Passive Trust)⁷

The Passive Trust's loan portfolio is diversified principally by borrower, but also sponsor and geography. Metrics lends to large, high quality partners and strategically target residential (build to sell projects) and industrial developments, which are supported by strong demand (Australia's growing urban population underpinned by immigration (metro residential) and broad economic growth and logistics / e-economy (metro industrial)). We have avoided significant exposures to commercial office, retail, student accommodation or other specialised assets where market depth or alternative use of the asset might be weak. Almost all Metrics lending is in metropolitan areas.

Credit Metrics (Passive Trust)^{7,21}

(2) As at the 30 September 2025 the RBA Cash Rate was 360 bps p.a. (3) Past performance is not a reliable indicator of future performance. (6) Returns and distributions are based on NAV unit price (reported on a post-tax basis), after taking into account all fees and costs. Returns are annualised if over one year. Returns over 1 month are compounded monthly. No allowance has been made for entry fees, expenses or taxation. CYTD returns are not compounded. (7) Exposures measured as a % of AUM, where AUM includes loan commitments and other investments such as cash and committed capital available for investment. (8) Represents loans in respect of which the applicable lender has commenced enforcement of security granted in respect of that loan. (9) Represents loans in respect of which the lender has completed a restructuring by way of enforcement or agreement with the existing equity owners which resulted in the applicable lender's exit from the loan asset. (10) Realised credit losses where recovery was less than invested capital. (21) In addition to rating all debt investments in line with S&P methodology, to enhance its portfolio monitoring capability Metrics also ranks loans under a 1-5 scale of risk. These rankings are defined as follows: 1 - Loans performing at or above expectation, with no concerns identified, 2 - Loans performing but below expectations against the Metrics Base Case, 3 - Loans performing but with a higher likelihood of near-term issues in the next 6 months, 4 - Loans with an active covenant breach, payment default, or other significant issues negatively impacting the borrower's ability to service its debt obligations across the capital stack, 5 - Loans that are non-performing or in a distressed state with lenders exercising rights or control actions, loans that may be impaired with a credit loss possible. Any loan ranked as a 4 or 5 will be assigned as a Watchlist loan and disclosed as such in this report.

Metrics Real Estate Multi-Strategy Fund (ASX:MRE)

Quarterly Passive Trust Portfolio Update

The Passive Trust, via Metrics CRE Multi-Strategy (Debt) Trust has invested 100% of its capital in MCP Real Estate Debt Fund (**REDF**).

REDF is an unregistered open-ended unit trust that invests in a portfolio of Australian Commercial Real Estate (CRE) loans. REDF offers investors direct exposure to Australia’s bank dominated CRE loan market by lending to Australian CRE borrowers and projects including office, retail, industrial, residential development and specialised real estate assets (hotels, healthcare, etc). Net income is distributed monthly⁴. REDF seeks to deliver the minimum hurdle return of the benchmark (Bank Bills/BBSW 90 days) plus credit margin (+500 bps p.a. net)¹¹ while adhering to fund parameters. REDF has an Issuer Rating of A-from S&P. Inception of the REDF was October 2017.

Average Leverage Ratio (Corp Loans)	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-	-

(7) Exposures measured as a % of AUM, where AUM includes loan commitments and other investments such as cash and committed capital available for investment. (12) Rated by Metrics including where not rated by public rating agencies, weighted average credit quality includes debt investments only. (13) Cash represents capital available for new investment. (17) Carrying value as a % of par value or invested capital, expressed as a % of the loan portfolio. This breakdown includes loans held on a mark-to-market basis and loans held on an amortised cost basis and tested for impairment depending on the fund's valuation policy. (18) Leverage Ratio (Net Debt/EBITDA) applies to Corporate loans based on most recent certificate provided by the applicable borrower setting out compliance with financial covenants, Loan to Value Ratio (LTV) applies to loans backed by CRE and are calculated based on an independent valuation using either an 'on completion' market value for assets under construction or an 'as-is' value for assets not under construction. For certain CRE loans which are providing funding for only a limited scope of the development programme, known as "Early Works", Metrics measures the LTV on these loans based on the 'as-is' valuation plus construction costs expended as verified by an independent certifier.

(8) Represents loans in respect of which the applicable lender has commenced enforcement of security granted in respect of that loan. (9) Represents loans in respect of which the lender has completed a restructuring by way of enforcement or agreement with the existing equity owners which resulted in the applicable lender’s exit from the loan asset. (10) Realised credit losses where recovery was less than invested capital. (19) Calculated as the interest amount overdue divided by AUM. (21) In addition to rating all debt investments in line with S&P methodology, to enhance its portfolio monitoring capability Metrics also ranks loans under a 1-5 scale of risk. These rankings are defined as follows: 1 - Loans performing at or above expectation, with no concerns identified, 2 - Loans performing but below expectations against the Metrics Base Case, 3 - Loans performing but with a higher likelihood of near-term issues in the next 6 months, 4 - Loans with an active covenant breach, payment default, or other significant issues negatively impacting the borrower’s ability to service its debt obligations across the capital stack, 5 - Loans that are non-performing or in a distressed state with lenders exercising rights or control actions, loans that may be impaired with a credit loss possible. Any loan ranked as a 4 or 5 will be assigned as a Watchlist loan and disclosed as such in this report.

Abbreviations: AUD = Australian Dollar; AUM = Assets Under Management; BPS = Basis Points; Corp = Corporate; CRE = Commercial Real Estate; CYTD = Calendar Year To Date; Ex = Excluding; Incl = Included; LTV = Loan to Value; M&A = Mergers & Acquisitions; NAV = Net Asset Value; Sub = Subordinated; WA = Weighted Average; Avg = Average; Metrics = Metrics Credit Partners Pty Ltd; NR = Not Rated; RBA = Reserve Bank of Australia.

Metrics Real Estate Multi-Strategy Fund (ASX:MRE)

About Metrics

We are a leading Australian private markets alternative asset manager with >\$30bn in AUM, specialising in fixed income, private credit, equity and capital markets.

Through our managed funds we provide unrivalled access to the highly attractive Australian private debt market to investors ranging from individuals to global institutions.

We offer tailored borrowing solutions to corporate and other entities of all sizes and across all industries in Australia, New Zealand and developed Asia.

We launched our first wholesale fund in 2013 and we are the manager of a number of wholesale investment trusts in addition to the Metrics Master Income Trust (ASX:MXT), which listed on the ASX in October 2017, Metrics Income Opportunities Trust (ASX:MOT) which listed on the ASX in April 2019 and the Metrics Real Estate Multi-Strategy Fund (ASX:MRE) which successfully listed on the ASX in October 2024.

We have established a range of innovative investment products that are designed to provide investors with access to investment opportunities that seek to provide capital stability and regular income.

Metrics’ experienced investment team comprises the four founding partners and is supported by a team of highly qualified investment professionals with skills and experience covering origination, credit and financial analysis, portfolio risk management, legal and fund administration.

While the Report seeks to provide detailed information in respect of MRE’s and the Wholesale Funds’ investment portfolios, it is important to note that investments in corporate loans are private and confidential transactions between the borrower and the Wholesale Funds, accordingly the Report does not identify individual investments.

All assets held by the Wholesale Funds are valued each business day and that any movement in the carrying value of those assets (including any impairment) is reflected in the daily net asset value (NAV) of the Wholesale Funds and as a result in MRE’s NAV which is published daily at www.metrics.com.au/mre. An international accounting and professional services firm has been engaged to review the valuation of the underlying loan assets held by the Wholesale Funds on a monthly basis and to ensure that the carrying values of those assets are adjusted if there is evidence that indicates that an asset is impaired or overvalued. MRE’s NAV is separately audited/reviewed by the Fund’s independent auditors at each reporting date.
