ASX ANNOUNCEMENT

NAB Business and Private Banking briefing

National Australia Bank Limited (NAB) has today provided a briefing on its Business and Private Banking Division (B&PB). This includes an overview of B&PB's Regional & Agri Banking business and Business Transaction Deposits. The presentation slides for this briefing are attached to this announcement.

The attached presentation also includes the following information on B&PB's balance sheet growth and asset quality trends in the June 2026 quarter:

- B&PB business lending balances increased by 4% including the strongest June month since FY22.
- B&PB deposit balances increased by 1%, consistent with seasonal trends, while at-call deposits (excluding offset accounts) increased by 3%.
- Home lending balances in B&PB increased by 2%, although the value of home lending applications were 9% lower than applications in the prior quarter (NAB's total Australian home lending applications were 15% lower than the prior quarter).
- The ratio of non-performing loans to GLAs improved from 3.00% at March 2026 to 2.91% at June 2026. However, watch loans have increased by 8% over the quarter, reflecting current and potential impacts from a challenging environment.

NAB Group Executive B&PB, Andrew Auerbach, commented: "Business and Private Banking has continued to perform well in a challenging economic environment. It's pleasing to see the resilience of our business customers who continue to find opportunities to grow and innovate."

Further information on NAB's performance in the June 2026 quarter will be provided with the release of the Third Quarter Trading Update on Monday 17 August.

B&PB lending balances (\$bn)¹

Strong **business lending** growth

- Jun 26 up 4% vs Mar 26, up 10% vs Jun 25
- broad based sector growth
- 1.1x SME system lending growth YTD²
- strongest June month since FY22
- pipeline broadly in line with pcg

Mixed **home lending** performance

- B&PB balances up 2% vs Mar 26, up 6% vs Jun 25
- applications down 9% 3Q26 vs 2Q26³

B&PB deposit balances (\$bn)

Deposits tend to show seasonally softer growth in Jun qtr impacted by timing of business customer funding and investments

- Jun 26 up 1% vs Mar 26 including 3% growth in at-call accounts (ex offsets)
- up 9% vs pcg

JBWere inflows and FUM (\$bn)

- **Funds under management** up 8% Jun 26 vs Mar 26
- Good 3Q26 **net funds flow** with strong inflows supported by new mandates and philanthropy clients

(1) Excludes Other lending in B&PB

(2) Derived from latest RBA statistics as at May 26. Reflects data from Oct 25 – May 26 excluding financial businesses. Includes business lending relating to both B&PB and some C&IB customers

(3) Refers to total value of B&PB home lending applications for 3 months ended Jun 26 versus 3 months ended Mar 26. Total value of Australian home lending applications (Personal Banking, B&PB and ubank) down 15% over the same period

B&PB business lending 3Q26 asset quality trends

Key considerations

- **Total NPL ratio improved** over 3Q26 primarily driven by lower impaired asset ratio
- Continued NPL deterioration in sectors more impacted by Middle East conflict including **Construction and Transport & Storage**
- Broad based increase in **watch loans up 8%** since Mar 26 reflecting current and potential impacts from more challenging environment
- Helping customers navigate difficult times:
 - staying close to customers, **proactive regular check-ins**
 - monitoring **early warning indicators** including temporary excess, covenant breaches, slower payments, behaviour shifts
 - connection to **appropriate support** where necessary

Australian agriculture, forestry & fishing

Portfolio EAD by sector – \$50.7bn Mar 26

Portfolio EAD by geography¹

GLA security profile Mar 26²

(1) Indicative lending concentrations based on registered business address and does not account for businesses operating across multiple states therefore may not accurately reflect geographic distribution of the lending portfolio.
 (2) Based on loan balance not EAD. Fully Secured is where the loan amount is less than 100% of the bank extended value of security; Partially Secured is where the loan amount is greater than 100% of the bank extended value of security; Unsecured is where no security is held and/or no value held against the security and negative pledge arrangements may be in place. Bank extended value is calculated as a discount to market value based on the nature of the underlying security

Agriculture, forestry & fishing – portfolio performance¹

- **Weather conditions** remain mixed, with soil moisture above average in large parts of northern QLD, NT and SA and VIC/SA border regions having recently received favourable rain. Areas in the central belt of southern QLD, NSW and Victoria continuing to experience rainfall deficiencies
- While broadacre **farmland price growth** has slowed since 2022, transaction volumes are materially below peak levels (buyer depth moderated and purchasers more discerning of quality); NAB lending assessments continues to apply material haircuts to market values
- **NPLs** continues to include two large well secured B&PB customers downgraded in 2H25
- **Provisioning** includes \$75m target sector FLA raised in 1H26
- **Agri net write-off rates** below non-retail lending average reflecting the highly secured and well diversified nature of the portfolio

Lower net write off rates over time than non-retail² portfolio average

(1) Based on ANZSIC Level 1 classifications. Includes B&PB and C&IB exposures

(2) Non-retail excludes ANZSIC Level 1 classifications of Government and Finance & Insurance

Future opportunities aligned to B&PB strategy

Digitise simple needs

- **Digitise simple servicing** including self serve for remote customers
- **Streamline processes** including agri business lending transformation
- Enhance **NAB Connect** agri functionality

Deepening customer relationships

- **Increased collaboration** with C&IB and specialist banking teams to address increasingly complex customer needs
- Better support customers through **succession, consolidation and corporatisation**

Diversified growth

- Targeted growth and investment in **higher returning subsectors** e.g. services to agriculture
- Enhance **sustainability offerings** incl green loans
- **Deal Ready** for customers Markets needs

Develop the workforce of the future

- Structured **new banker support and pathways** with accelerated onboarding and competency development
- Increased use and development of **AI and digital tools** to support bankers e.g. Farm ID
- **Graduate program** expansion
- Attract and retain **regional talent**

Business transaction deposits

Paul Riley

Executive, Transaction Banking – Business & Private Banking

- Not all deposits are equal—operational transaction deposits are key to deepening customer relationships and driving better returns
- Growth in operational transaction deposits comes from supporting customers' working capital needs and payment needs (e.g. merchant facilities) complemented by self-service through NAB Connect and backed by banker expertise
- Progress has been driven by investing in innovative payment propositions for deposit rich sectors and simpler, faster customer experiences.
- This is a long term strategy, and we are making consistent progress
- Focused execution at scale will underpin ongoing growth

Future opportunities aligned to B&PB strategy

Our growth strategy aligns with B&PB's 4Ds strategy, and is underpinned by leveraging technology to enable scaled execution - enabling our bankers to invest more time helping our customers to grow and manage their businesses

Digitise simple needs

- **Increase straight-through processing** to more customers and products e.g. Commercial cards and Merchant Services
- **Expand self-service** capabilities e.g. Commercial Cards on NAB Connect and Merchant servicing

Deepening customer relationships

- **Expand integrated customer propositions** e.g. Fx offering and faster merchant settlement
- **Making it easy for customers to open multiple accounts** with NAB e.g. Business Transaction account, Corporate Cards and Merchant facility

Diversified growth

- **Scale growth in deposit rich sectors** e.g. Professional Services, Health and Education
- **Extend propositions** into new segments and deepen integration with industry platforms e.g. HICAPs

Develop the workforce of the future

- **Bankers with clear and consistent performance** metrics including transaction banking
- **Equip bankers with digital and AI-enabled tools** to simplify customer onboarding and servicing

Simplification and service enabled by AI

Closing remarks

- B&PB performing well in a challenging environment
- We have a high quality franchise which is hard to replicate
- Our focus on deposits is delivering good momentum in Business Transaction Accounts
- Our refreshed strategy provides clear opportunities for growth

Note on cash earnings and underlying profit

The Group's results are presented on a cash earnings basis unless otherwise stated. Cash earnings is a key financial performance measure used by the Group and the investment community. The Group also uses cash earnings for its internal management reporting, as it better reflects what NAB considers to be the underlying performance of the Group. Underlying profit represents cash earnings before credit impairment charges, income tax expense and non-controlling interests. Cash earnings and underlying profit are not statutory financial measures, are not presented in accordance with Australian Accounting Standards, and are not audited or reviewed in accordance with Australian Auditing Standards. The 2026 Half Year Results provides details of how cash earnings is defined on page 12 and a discussion of non-cash earnings items and a full reconciliation of cash earnings and underlying profit to statutory net profit attributable to owners of the Company on pages 99 to 101. The Group's financial statements, prepared in accordance with the Corporations Act 2001 (Cth) and Australian Accounting Standards, and audited (full year) or reviewed (half year) by the Group's auditors in accordance with Australian Auditing Standards, are made available on the Group's website. The 2026 Full Year Results - Management Discussion and Analysis is expected to be made available on or around 5 November 2026.
