ASX Listings Compliance

Dear sir/madam

Ovanti Limited ('OVT'): ASX Aware Letter

We refer to ASX's letter dated 29 April 2026.

We respond to your queries as follows:

- 1 Does OVT consider the Placement Announcement to contain information that a reasonable person would expect to have a material effect on the price or value of its securities?**

Yes.

- 2 If the answer to question 1 is “no”, please advise the basis for that view.**

N/A

- 3 Please provide a timeline overview of the material events of the Placement including (but not limited to):**

- (a) when OVT commenced discussions with prospective investors;**
- (b) when OVT agreed the AFSL Holder Terms with those AFSL holders;**
- (c) when OVT dispatched a term sheet and/or supporting materials (if applicable); and**
- (d) when OVT considered it had ‘firm commitments’ to undertake the Placement.**

OVT contacted Clee Capital after market on Tuesday 14 April 2026 after notice the share price increase and requested Clee Capital to complete a placement. Clee Capital contacted investors after market on Tuesday 14 April 2026 who had supported OVT previously and some new investors who had previously expressed an interest to potentially invest in OVT. On the evening of Tuesday 14 April 2026 and morning of Wednesday 15 April 2026 (pre-market open), Clee Capital completed a bookbuild process and confirmed with OVT that it had received firm commitments from the investors on the morning of Wednesday 15 April 2026 (pre-market).

- 4 Is OVT of the view that the Placement, and all relevant terms, were confidential until they were disclosed on MAP? If so, does OVT have any other explanation for the 70% increase in the price of its securities prior to the Placement being disclosed on MAP? ASX expects OVT to make all reasonable enquiries, including a review of registry movements, in answering this question.**

Yes OVT is of the view that the Placement and all relevant terms were confidential until the Placement Announcement was released.

OVT does not have any other confirmed explanation for the 70% increase in its share price before the Placement was announced. However, possible contributing factors are:

- (a) Security consolidation:** Security consolidation completed on 10 April 2026, and prices reverted to pre-consolidation levels. This may indicate increased investor comfort post-consolidation.

- (b) **Broader BNPL and market sentiment:** Improved sentiment in the BNPL sector (reflected in a ~60% share price rise in sector peer, Zip Co Limited over April) and a wider recovery in technology and growth equities, as market volatility eased following global events, may have increased interest in OVT's securities.
- (c) **Market capitalisation and NTA:** OVT's market capitalisation was above AUD\$30 million for much of the prior year. The combination of market sentiment and OVT's substantial NTA and asset backing (including its IDSB asset) may have reinforced investor confidence and OVT's value.

5 Please identify the AFSL holders that were engaged and participated in the Placement, and outline the fees / broker Options payable to each.

Clee Capital was engaged as lead manager to the Placement. Clee Capital was paid \$316,200 (plus GST), being approximately 6% of the total amounts raised under the Placement. Clee Capital is also entitled to receive 260,169,827 options (on the same terms as the Options offered to Placement participants).

6 Please provide a copy of the following documents (not for release to market):

6.1 A copy of the term sheet and any other materials sent to prospective participants in the Placement; and

6.2 A list of allottees for the Placement. In the list, please identify which allottees were referred by a broker (identify the broker) and is eligible for consideration under the AFSL Holder Terms above.

Noted.

7 Please confirm that OVT is in compliance with the Listing Rules and, in particular, Listing Rule 3.1.

Confirmed.

H. The concept of "confidentiality" detailed in section 5.8 of Guidance Note 8 *Continuous Disclosure: Listing Rules 3.1 – 3.1B*. In particular, the Guidance Note states that:
