Listing Rule 3.10A

The Company acknowledges that the notification required under Listing Rule 3.10A was not lodged at least five business days prior to the expiry of the applicable voluntary escrow period.

The Company recently underwent a transition in company secretarial responsibilities. The automated notification regarding the upcoming escrow expiry was sent by the Company's share registry, Automic, to the previous Company Secretary and, as a result, was not received by the current Company Secretary within the timeframe required under Listing Rule 3.10A.

Upon becoming aware of the upcoming escrow expiry, the Company promptly contacted ASX for guidance and is lodging this announcement as soon as practicable to rectify the non-compliance.

The Company has since updated its contact details with Automic to ensure that future registry notifications are directed to the current Company Secretary. In addition, the Company is implementing an internal compliance register to record applicable escrow expiry dates and associated ASX notification deadlines, with advance reminders to ensure future notifications are lodged within the required timeframe.
