Pinnacle's Managing Director, Ian Macoun commented: "*We continue to build Pinnacle to deliver sustained high rates of growth for many years into the future. Our distinct business model and Three Horizons growth strategy have built a highly diversified platform across asset classes, geographies and product formats. This platform has supported strong growth to date and provides multiple pathways for further growth, including in larger international markets where we have demonstrated that the Pinnacle model can operate successfully. During FY26, we saw that deliberate diversification working both at the Pinnacle and Affiliate levels. Net inflows were robust across all three channels. The performance fee outcome was meaningful despite significant shifts in performance across asset classes and styles, demonstrating that performance fees can contribute significantly each year across cycles. During FY26, we were delighted to deepen our partnership with PAM by moving to full ownership. PAM is strongly aligned with our 'supported independence' philosophy and shares our belief in quality active management. Its high-calibre leadership team has built an impressive platform, underpinned by advanced technology. Together, Pinnacle and PAM create a larger and more flexible global distribution capability which expands both the scale of our offshore opportunity and certainty of its execution.*"

Pinnacle's Chair, Alan Watson, commented: "*This has been a year of solid progress for Pinnacle on multiple fronts. Whilst recognising global volatility may produce unexpected challenges for markets, we enter the coming year with grounds for cautious optimism, noting that opening FUM of $229.4 billion for FY27 is 28% ahead of the prior year (and 14% above the average FUM during FY26) and PAM is now a full part of our global platform, and that platform is well positioned across multiple channels and jurisdictions.*"

Composition of Group Results

The net profit after tax attributable to shareholders for FY26 was $176.7 million, representing diluted earnings per share of 78.1 cents, up 25% from 62.4 cents per share in FY25.

In FY26, we recognised a significant, non-cash, accounting profit on the 'step-acquisition' of the balance of PAM that we did not previously own, of $46.2 million (net of transaction costs). There were also net overall losses on our principal investments, including interest cost, of $7.5 million, compared with net gains of $20.2 million in FY25. Should shareholders wish to consider the impact of these items on our results, the table below shows our profit both including and excluding these items:

[1]Gains on step-acquisition of PAM, net of transaction costs.

Pinnacle's share of net profit after tax from its equity interests in Affiliates was $136.0 million (up 5% from $129.7 million in FY25). This includes Pinnacle's share of PAM's profits only until 24 April, the date at which we moved to 100% ownership. PAM's profits from that date until the end of FY26 were $6.5 million, which are included in Pinnacle's profits on a consolidated basis, at 100%.

Affiliate fund management revenues, at 100%, grew by $251.6 million or 28% over FY25.

Affiliates generated performance fees of $146.6 million, at 100%, in FY26, which contributed $35.6 million to Pinnacle's NPAT (in FY25, Affiliates generated performance fees of $153.6 million, which contributed $46.6 million to Pinnacle's NPAT). We believe that this represents a solid outcome, with twelve Affiliates contributing, despite significant challenges for some investment styles. As at 30 June 2026, there were 35 diverse strategies with the ability to deliver significant performance fees, representing $61 billion or 27% of total FUM. At 30 June 2026, 24 of those strategies or 80% of total performance fee FUM were at or within 2% of high watermark, with 67% at high watermark.

Within 'Pinnacle Parent', service revenues (excluding PAM) were up 50% on FY25, driven by a significant increase in our distribution fee revenues.

Within 'Pinnacle Parent' (excluding PAM), staff costs were $12.3 million or 28% higher than in FY25, comprising both additional headcount (particularly in offshore distribution) and remuneration uplift, including provision for long-term incentives. Investment in our people is critical, and we remain focused on maintaining a high quality, highly effective workforce as the business continues to grow.

Cash and PI totalled $286.0 million at 30 June 2026 of which PI was $196.5 million, compared with $463.5 million at 30 June 2025. During the half, we paid cash of $228 million for the remaining equity in PAM (which was also part-funded by Pinnacle shares) and $84.7 million for an initial 5% stake in Advantage Partners (including direct costs). We also extended our debt facility with the CBA to $250 million in March 2026, which is drawn in full.

The return on PI for FY26, prior to interest expense, was a net loss of $2.3 million (FY25: net gain of $23.9 million). The return on PI is made up of 'Dividends and distributions' received of $12.2 million and 'Fair value gains/losses on financial assets at fair value through profit or loss' of net negative $14.5 million, which includes gains/losses from hedging equity market exposures. The net interest expense (interest income net of the cost of the fully drawn CBA borrowing facility, which was increased from $100 million to $250 million in March 2026), was $5.2 million in FY26 (FY25 $3.7 million), hence the net overall loss on PI for FY26 was $7.5 million compared with gains of $20.2 million in FY25.

Over the period under review, public markets again exhibited high levels of volatility. Ongoing economic and geopolitical uncertainty led to impacts across all asset classes, making fundraising conditions challenging at times. We at Pinnacle, together with Affiliates, have continued our deliberate program of investment to diversify our business, create additional capacity and broaden the platform from which we can deliver further growth. We believe that the flow outcomes and financial results achieved in FY26 show growing evidence of the benefits of this work, and we remain confident these initiatives will prove valuable over the medium term.

Acquisition of Asset Value Investors by Pacific Asset Management

Pacific Asset Management (**PAM**), part of the Pinnacle Group, has entered into an agreement (**Acquisition Agreement**) to acquire 100% of Asset Value Investors (**AVI**) (**Transaction**), bringing together AVI's specialist, engagement-led investment capability with PAM's institutional infrastructure, technology and distribution platform. The transaction has been enabled by Pinnacle's deepened relationship with PAM, which provides the strategic backing and long-term partnership model to support PAM's and AVI's combined growth.

Founded in 1985, AVI manages a range of listed investment trusts, UCITS funds and institutional mandates under the leadership of CEO and CIO Joe Bauernfreund. Following completion, AVI will continue to operate independently under its existing brand, with no changes to the investment team or philosophy, while leveraging PAM's resources to broaden its reach, enhance client service and support its long-term development.

The Transaction will be funded by a combination of cash and shares in Pinnacle Investment Management Group Limited.

Selling AVI shareholders (**Sellers**) will receive ~£13.2m (~A$25.3m)[1] in cash and the equivalent value of ~£16.6m (~A$31.9m) in the form of new ordinary shares in the capital of Pinnacle (**Pinnacle Shares**) under the Transaction, on completion, with a further ~£10.2m (~A$19.5m) in cash payable 12 months after completion, subject to reduction in accordance with certain agreed adjustment events. The new Pinnacle Shares will be issued on completion of the Transaction at an implied price of A$15.73 per share (being the VWAP for the five trading day period ending on the trading day immediately before the date of the Acquisition Agreement (the ~2.0m of new Pinnacle Shares that will be issued to the Sellers on completion of the Transaction will represent 0.84% of the Pinnacle Shares on issue immediately after completion))[2]. In addition, the Sellers will be entitled to receive a further cash amount calculated by reference to the net asset position of AVI's balance sheet as at completion.

Of the new Pinnacle Shares that will be issued to the Sellers on completion of the Transaction, ~1.96m will be subject to escrow arrangements (**Escrowed Shares**), one-third of the Escrowed Shares will be escrowed for 3 years, one-third of the Escrowed Shares will be escrowed for 2 years and one-third of the Escrowed Shares

---

[1] Converted at GBP / AUD of 1.915415 as at 3 August 2026.

[2] Based on the number of Pinnacle Shares on issue as at the date of this announcement and assuming that no new Pinnacle Shares are issued before completion of the Transaction.

will be escrowed for one year (in each case, from completion of the Transaction) under voluntary escrow agreements between the relevant Sellers and Pinnacle. The Sellers are also subject to non-compete undertakings of appropriate duration.

Completion of the Transaction is subject to customary conditions precedent, including United Kingdom Financial Conduct Authority change of control approval and, subject to the satisfaction (or, if applicable, waiver) of those conditions precedent, is expected to complete in 2H CY 2026.

The Acquisition Agreement includes customary warranties given by the Sellers in favour of PAM and Pinnacle in relation to AVI and its business and assets (which are subject to customary limitations, qualifications and exceptions) and customary undertakings in favour of PAM in relation to the conduct of AVI's business before completion of the Transaction. If an event occurs or circumstance arises that has or is likely to give rise to a material adverse effect on AVI's business as a whole and which significantly prejudices the continued operation of that business in the manner in which it is conducted at the date of the Acquisition Agreement (subject to limited, customary exceptions) (a **Very Material Adverse Effect**), or a material, unremedied breach of a warranty given by the Sellers occurs that also gives rise to a Very Material Adverse Effect, between the date of the Acquisition Agreement and completion of the Transaction, PAM will be entitled to terminate the Transaction.

Matthew Lamb, Chief Executive Officer of Pacific Asset Management, said:

"I have long admired what Joe and his team have achieved at AVI. They have earned an outstanding reputation for disciplined value investing and active engagement on behalf of clients. They embody the specialist, craft investment management approach which is fundamental to Pacific's values, and we are hugely looking forward to working with them.

Combining AVI's investment capability with Pacific's operating platform means Joe and his team can focus on generating alpha for clients, without the distractions that come from non-investment functions and managing a growing business. We believe this model of supported independence is the optimal environment for exceptional investment talent.

Pacific, backed by the broader Pinnacle Investment Management Group, is well positioned to take advantage of global opportunities for investment in outstanding talent across technology, distribution and differentiated investment capabilities such as AVI."

Joe Bauernfreund, Chief Executive Officer of Asset Value Investors, said:

"*This is an exciting next chapter for AVI. Pacific's support will enable us to focus even more intently on what we do best, which is delivering differentiated investment outcomes for our clients, allowing us to grow the business while preserving our unique investment approach and the close relationships we have built with clients over many years."*

Ian Macoun, MD and CEO of Pinnacle, said:

"The AVI partnership demonstrates how Pinnacle, alongside PAM, is unlocking further growth in global distribution to support geographic diversification, Affiliate origination and product innovation.

AVI is a genuine market leader with a distinctive approach, a highly experienced investment team and a proven long-term track record. We are very confident the combination of AVI and PAM will deliver the alignment and focus clients demand, and ultimately bring AVI's capabilities to many more investors around the world."

- Since FY23, we have had significant holdings either ‘parked’ in funds managed by Affiliates, or deployed as seed capital for new Affiliate strategies
- These holdings have been funded by a combination of equity capital raised and the CBA debt facility, which we use in this way ahead of identifying appropriate expansion activities
- In FY26, we recorded a one-off accounting profit on the ‘step-acquisition’ of PAM, which was $46.2m (net of transaction costs), driven by the accounting value gain on Pinnacle’s existing shareholding in the business at the time that Pinnacle acquired the 100% share
- In FY24, we recorded an unrealized loss on our holding in Openinvest, of $3.4m
- In FY23, we recorded an unrealized gain on our holding in Openinvest, of $0.6m
- We present our NPAT and EPS numbers, adjusting for these items, in the above table

1. Non-cash accounting profit on step-acquisition of PAM in FY26, net of transaction costs
2. Unrealized gain/loss on investment in Openinvest

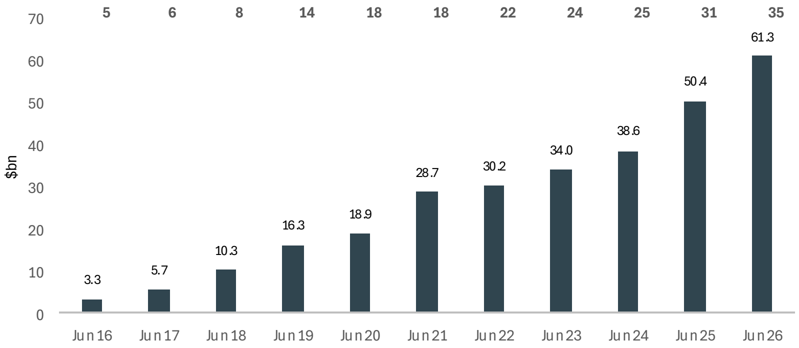
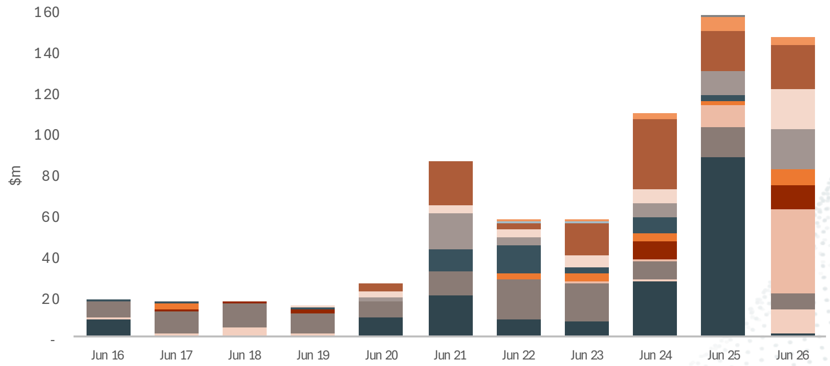
Pinnacle Affiliates continue to outperform benchmarks, resulting in continued FUM growth and performance fee generation

Closing FUM & number of strategies subject to performance fees



Performance fees (at 100%) by Affiliate



- It remains a key strategy of Pinnacle and Affiliates to grow FUM that has the ability to earn performance fees
- The annual reliability of overall performance fee revenue has been improved by:
  - Volume of FUM with performance fee potential
  - Number and diversity of strategies with performance fee potential
- Likelihood of performance fee success is generally not correlated to equity markets – based on performance relative to individual hurdles
- Likelihood of performance fees is distinct (uncorrelated) between individual strategies
- Performance relative to benchmarks can vary significantly over even quite short periods of time
- Performance fees should be a significant and ongoing component of Pinnacle's overall earnings in any financial year

- Twelve Affiliates earned performance fees totalling $146.6m (at 100%; Pinnacle post-tax share $35.6m) in FY26. In FY25, twelve Affiliates earned performance fees totalling $153.6m (at 100%; Pinnacle share post-tax $46.6m)
- Of the now 35 strategies that have the potential to deliver significant performance fees, 20 crystallize at least half yearly, with all 35 crystallizing on at least an annual basis
- Performance fees crystallizing only in June each year include Metrics, Palisade and Resolution Capital
- Of the 35 strategies that have the potential to deliver meaningful performance fees, 18 are at their high watermarks as at 30 June 2026, representing 67% of FUM that has the potential to generate performance fees, with a further 6 strategies, representing 13% of FUM, within 2% of high watermark
- 81% of Pinnacle Affiliates' strategies and products, with a track record exceeding 5 years, have outperformed their benchmarks over the 5 years to 30 June. Strong, long-term investment outperformance underpins performance fee delivery

Horizon 2 build-out of Wholesale & Retail and International distribution platform has driven growth, diversification, profitability and resilience

- Multi-year build outs of wholesale/retail distribution and, later, international distribution (across multiple channels) have driven significant expansion and diversification of Pinnacle's client base
- At 30 June 2026, over 50% of Pinnacle's FUM (at 100%) was sourced from wholesale/retail and international clients, representing approximately two-thirds of base Affiliate revenues
- Product innovation and development has assisted in Pinnacle's growth in wholesale/retail and international markets by providing access points for new client verticals (e.g., exchange-traded vehicles; open-ended private markets vehicles for private wealth; global fund infrastructure for international investors)

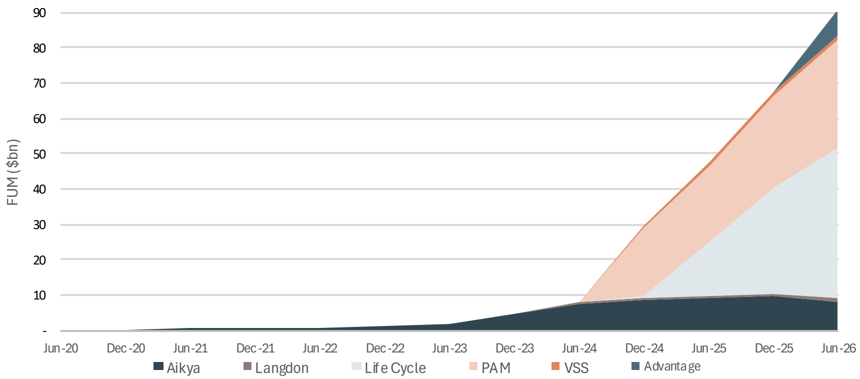
  - Horizon 3 acquisitions of interests in Metrics, Five V, VSS and Advantage Partners
- Pinnacle's distribution strength accelerates the growth of these businesses and allows them to access new investor verticals and geographies

Growth in Internationally-Domiciled Affiliate FUM[1]



- We have focused on building out a diversified Affiliate base, relevant to a wide range of investors, both in Australia and internationally
- Since the inception of the first internationally-domiciled Pinnacle Affiliate, Aikya, we have continued to focus our expansion on new Affiliates headquartered in global gateway cities with large addressable end-markets
  - Horizon 2 'builds' of Aikya, Langdon, Life Cycle and Palisade Real Assets
  - Horizon 3 acquisitions of interests in PAM, VSS and Advantage Partners
- We now have $90.7bn of FUM in internationally-domiciled Affiliates, or approximately 40% of total FUM
- Successfully executing investments (build or buy) in well positioned Affiliates – geographically, reputationally and strategy-wise – significantly contributes to our ongoing distribution success as well as strengthening our reputation amongst investors, prospective Affiliates and distribution talent

1. FUM is 100% of FUM managed by Pinnacle Affiliates

  - $228m cash paid in April as part of the acquisition of the remaining 75% of PAM (with the balance funded with Pinnacle shares)
  - $75m will be paid in July to restore our holding in Metrics to 35%
  - Excludes impact of the final dividend of 31.0 cents per share payable on 25 September 2026 and dividends received or to be received from Affiliates since 30 June 2026
  - The final dividend will be 64.5% franked
- Investments in Affiliates represents the 'equity accounted' value, i.e., investment cost, plus Pinnacle's share of profits, less Pinnacle's share of dividends received. The balance is tested for impairment at each reporting period. Pinnacle's share of Affiliate performance fees that crystallized during FY26 are included in Pinnacle's share of profits which increases the carrying value of the investments; any associated dividends will reduce the carrying value when paid
- From 24 April, Pinnacle's interest in PAM is consolidated, with the difference between the cost of the investment and the identifiable assets held as goodwill and tested for impairment at each reporting period
- Pinnacle's investment in Advantage is currently included within financial assets
- Balance sheet retains flexibility for further growth initiatives

06 Growth Agenda

Ian Macoun, Managing Director

Prepared for, and seeking, further expansion opportunities – committed to fully leveraging our established global multi-affiliate platform by selectively expanding and deepening our model internationally, while maintaining unwavering discipline on quality and valuation

- **Continue to build Pinnacle by taking a measured approach to growth**
  - **Support the growth of current Affiliates with increased investment in distribution channels (e.g., international and listed markets) and product evolution (e.g., ETFs, LICs/LITs, Managed Account Solutions)**
  - **Invest in / seed new Affiliates and strategies where management teams have a strong track record and growth potential**
  - **Seeking to further diversify into asset classes with substantial growth potential**
  - **Actively pursuing international opportunities – ability to 'export our model'**

Horizon 1

- Sustain organic growth of the existing business of each Affiliate

Horizon 2

- New Affiliates and 'non-capital' Parent growth initiatives (direct-to-retail, international)
- Reasonable limits to be set given 'drag' on Pinnacle financials

Horizon 3

- Must not place the company at risk
- Only consider if low risk and high return on invested capital
- Exercise great care and careful due diligence
- Must be synergistic with existing core

Ongoing margin expansion

✓ **Horizon 1** – Diluted EPS grew at a CAGR of 31.1% (27.2% excluding one-off gain on 'step-acquisition' of PAM) in the ten years since Pinnacle listed as a 'pure play' investment management business in 2016 to 30 June 2026; FUM grew at a CAGR of 27.8% over that same period (25.1% excluding 'acquired' FUM)

Impacts 'Pinnacle Parent' costs

✓ **Horizon 2** – Built 'from scratch': Hyperion, Plato, Solaris, Palisade, Antipodes, Spheria, Firetrail, Longwave, Riparian

✓ **Horizon 2** – Built 'from scratch' outside of Australia: Aikya, Langdon, Life Cycle

Required capital to fund acquisitions

✓ **Horizon 3** – Acquired interests in, then grew: Resolution Capital, Metrics, Coolabah, Five V, Pacific Asset Management, VSS, Advantage Partners

An excellent platform in place to move ahead with sustained growth

Distribution Platform Expansion

- Investment in (and continuing to evolve and grow in size and sophistication) our distribution platform
- Investment in high growth, high margin retail and international channels
- Adoption of advanced digital marketing tools
- Listen to clients and move quickly to meet their evolving needs

Robust, Flexible Operating Platform

- Robust, flexible platform enabling strong further growth
- Continuing investment excellence (strong reputation for such)
- Widespread industry recognition and support
- 'Article of faith' reputation for performance, quality and capability excellence – significantly improves 'speed to market' for new Affiliates
- Leveraging Pinnacle's scale for the benefit of all Affiliates

Start-Up Affiliate Enablement

- Develop investment capability and support growth
- Significant opportunity to launch new strategies to further diversify FUM
- Gaining traction as strategies mature and performance record established

Existing Affiliate Expansion

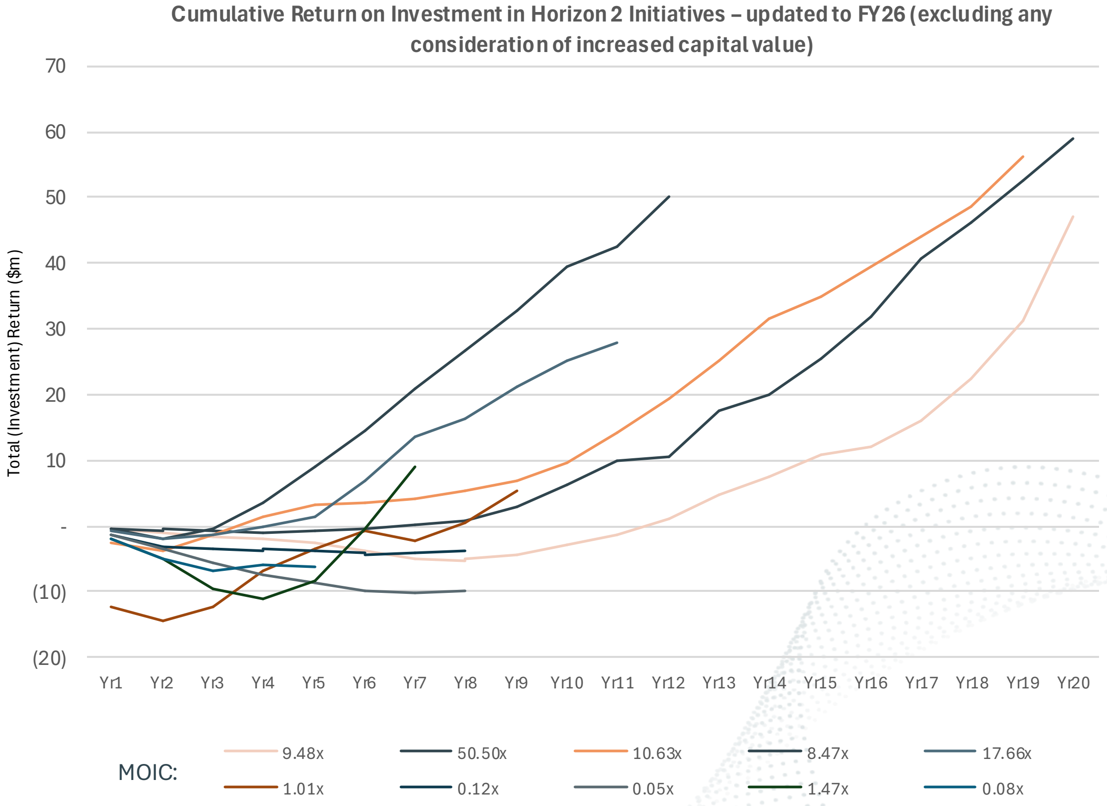
- Investment in new strategies adds diversification and further growth
- Sustainability and Impact strategies
- Global equities (developed & emerging markets)
- Alternative Fixed income
- Private capital (debt & equity)
- Absolute return (single & multi-asset)

Acquisitive Growth

- Existing Affiliates are increasingly able to build or buy (with Pinnacle backing) then grow additional new businesses - 'Affiliates within Affiliates'
- International markets provide a large range of opportunities, carefully 'exporting our model'
- Natural acquirer of further equity in existing Affiliates as this becomes available

Result: additional growth, corporate stability/robustness, better meeting clients' evolving and expanding needs

Investment in our Horizon 2 initiatives have a strong track record of delivering strong returns over the medium to long term with limited initial capital requirements



- Cumulative returns across all mature Horizon 2 initiatives (excluding any consideration of increased capital value) has been >10x capital outlay
- Pinnacle and Affiliates continue to actively pursue growth initiatives, recognising that these will moderate profits in the short-term but provide extremely lucrative growth opportunities over the medium-term
- All Affiliates are now at or exceeding run-rate profitability
- Each initiative is only entered into after careful consideration of the longer-term benefits and with reasonable limits set on both time to success and the size of 'investment' required, given the drag on profitability
- Pinnacle and Affiliates will continue to pursue these initiatives where it is commercially sensible to do so

Horizon 2 development and growth of Listed Products capability

- Pinnacle now has >$12bn ($7bn ETFs and $5bn LICs) across 22 listed funds (16 ETFs and 6 LICs).
- Pinnacle is the largest listed active fund issuer in Australia by 50%
- HYGG and PGA1 are 2 of only 5 active ETFs with >$1bn
- FY26 flows into listed funds of $2.6bn, up >100% on FY25
- PGA1, YLDX and FSML notable winners in ETFs (all new ETFs in FY26)
- The Solaris Equity Income Plus LIC (ASX: SET) IPO of $188m, completed in April 2026, was one of only two LIC IPOs on the ASX in FY26
- LIC IPOs getting harder - there is therefore a moat around existing LICs to raise additional capital if trading at NTA premium
- Active ETF adoption is rising – brokers used to be 2/3 of our ETF buyers. Now below 50% with IFAs, asset consultants, private banks, etc. becoming more relevant buyers as they see the benefits of transparency and liquidity of active ETFs over managed funds

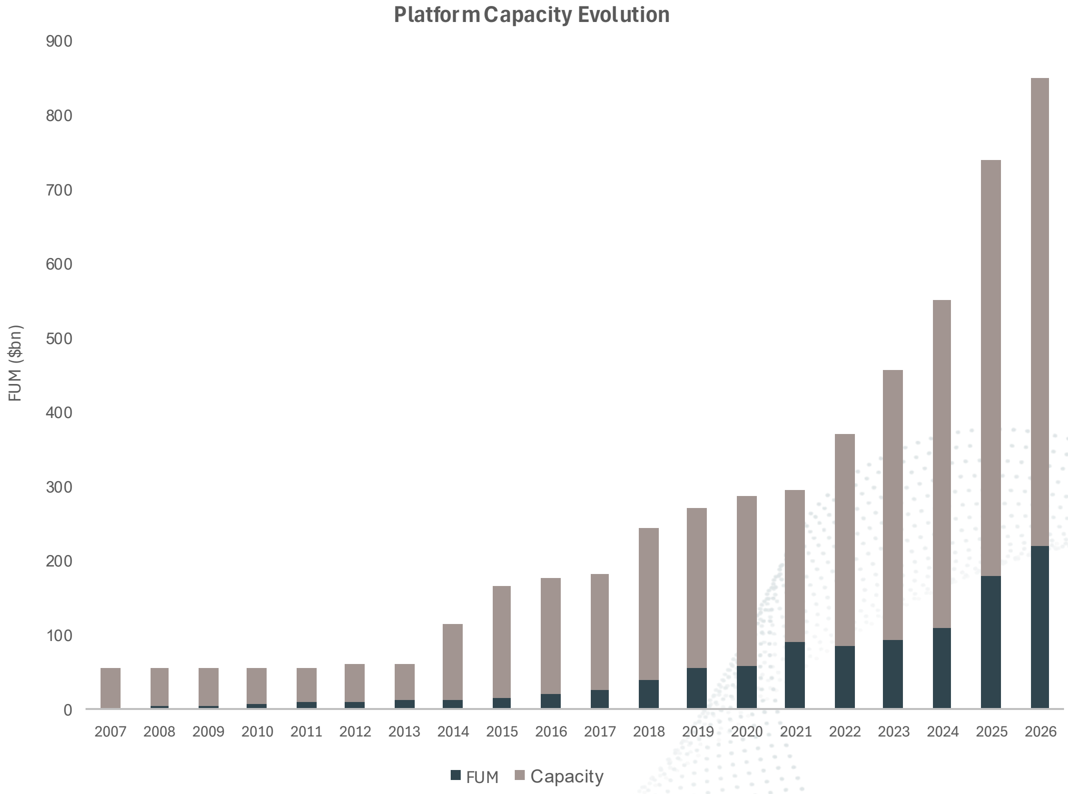
Capacity Graph – continued expansion through growth into adjacent capabilities

Through careful and consistent investment across our Three Horizons, we have increased both FUM and the platform capacity through strategic diversification – providing the opportunity for further growth without any further need for investment



- At 30 June 2026, platform capacity exceeds $800bn (>$600bn unused)
- Platform capacity has been carefully and deliberately expanded over time through diversification into new Affiliates and markets and by Affiliates expanding into additional complementary strategies
- Existing capacity provides significant headroom for growth within Horizon 1 – Pinnacle's core
- Further expansion activity, across Horizons 2 & 3, will see platform capacity continue to grow
- Large, multi-channel, multi-market distribution capability underpins the opportunity for FUM growth across the platform

Horizon 3 has been a key part of Pinnacle's growth strategy since inception, adding complementary, high-quality, market-ready investment capability that we can assist to grow more rapidly by leveraging our platform

We are actively working on the submission of our FY26 Modern Slavery Statement
