ResMed Inc (ResMed) - Deferral of Conversions between Australian and US Registers

ResMed announced on 7 August 2026 a quarterly dividend with a record date of 20 August 2026 (Record Date) for the purpose of determining dividend entitlements for the dividend payable on 24 September 2026. The Record Date applies to both ResMed's US common stock register and its CHESS Depositary Interests ("CDIs") register.

Because ResMed is dual-listed on the New York Stock Exchange (NYSE) and the Australian Securities Exchange (ASX), different settlement and transfer procedures apply on the two exchanges. As a result, the timing and application of the cum-dividend and ex-dividend periods before the Record Date differ. Processing conversions between the two registers during that period could therefore create inconsistent or duplicate dividend entitlements.

To keep both registers and their respective security holders on an equal footing, ResMed sought and was granted waivers from ASX Settlement Operating Rules 13.9.4 and 13.9.9. The waivers allow ResMed to defer processing conversions (transmutations) between its common stock and CDI registers during the relevant period.

Accordingly, no conversions (transmutations) between ResMed's common stock and CDI registers will be processed from and including 20 August 2026 through and including 21 August 2026.

Thank you for your cooperation.
