

SAUNDERS SECURES \$19.8 MILLION RESOURCES & INDUSTRIALS CONTRACT AT GOLD PROCESSING FACILITY

17th October 2025

Saunders International Limited (ASX:SND) (“Saunders” or the “Company”) is pleased to announce it has been awarded a \$19.8 million contract by PARC Engineering to construct 11 tanks in the Northern Territory.

The contract strengthens Saunders’ position in the resources sector and builds on its extensive experience in design and construction in the mining sector. It follows a series of secured leach train projects currently in delivery with Northern Star Resources and Primero at the Kalgoorlie Consolidated Gold Mine (KCGM).

Saunders’ Managing Director and Chief Executive Officer Angelo De Angelis said, “We are excited to support PARC Engineering through this important project. The resources industry has been a strong source of growth for Saunders and our team has demonstrated how readily our core capabilities are transferred across our key markets of Defence & Government, Energy, Water and Resources & Industrials.”

In supporting Australia’s mining industry, Saunders has developed a strong reputation for:

- Rapid mobilisation in remote locations
- Collaborative project management with clients and partners; and
- An unwavering commitment to workplace safety.

This contract win reflects Saunders’ ongoing success in diversifying its portfolio and delivering critical infrastructure across multiple industries.

The project will commence immediately and will contribute to Saunders’ revenue and earnings in FY26 and FY27.
