Titomic Achieves DNV Qualification for Oil & Gas

Independent validation strengthens Titomic's position in corrosion protection market for the Oil & Gas sector

HUNTSVILLE, AL – Titomic Limited (ASX: TTT), a global advanced manufacturing company serving the U.S. and allied defense industrial base, is pleased to announce that they have received a Statement of Qualification from Det Norske Veritas (DNV) for the use of their low and medium-pressure systems for the in-field application of aluminum coatings for corrosion protection for use in Oil & Gas. This represents a significant milestone for Titomic and provides important independent validation of their Titomic Kinetic Fusion™ (TKF)™ Cold Spray Additive Manufacturing technology for corrosion protection, repair, and coating applications in demanding operational environments.

The qualification validates Titomic's technical and capabilities with their customers, partners, and regulatory stakeholders by confirming the suitability of their systems for protective conformal coatings, corrosion mitigation and repair in the field. Titomic's TKF™ technology offers a portable, field-deployable solution for environmental, physical, and corrosion protection and repair, providing a practical and efficient alternative to traditional thermal spray aluminum (TSA) methods. This positions Titomic to better support the Oil & Gas industry, where reliability, process discipline, and execution in the field are critical.

"This qualification from DNV is a strong endorsement of our technology and its readiness for real-world deployment," said Jim Simpson, Managing Director & CEO "It reinforces confidence in our solutions and supports our continued expansion into key global markets." The achievement also provides a solid foundation for accelerating and expanding Titomic's presence in the Oil & Gas sector where validated technologies are essential for adoption.

As Titomic continues to evolve its capabilities, this milestone highlights the growing maturity of its systems and opens the door to further applications, additional qualification pathways, and broader market penetration.

This announcement has been authorized for release by Titomic's Board of Directors.

ABOUT TITOMIC LIMITED

Titomic Limited (ASX: TTT) is a leading Advanced manufacturing company with global operations specializing in large integrated solutions for industrial- scale metal additive manufacturing, coating, and repairs using its patented kinetic fusion cold spray (Titomic Kinetic Fusion™) technology. Titomic Kinetic Fusion™ cold spray solutions provide OEM production and R&D services to the global Aerospace, Defense, Shipbuilding, Oil & Gas, Mining and Automotive industries. Titomic also offers global sales and support for all its Titomic Kinetic Fusion™ cold spray AM activities from its Huntsville, Alabama Global Headquarters, as well as through local presence in the Australia and Europe. Titomic delivers competitive advantages in metal additive manufacturing at every stage in the product value chain. For more information, please visit www.titomic.com.

FORWARD LOOKING STATEMENTS

Certain statements made in this release are forward-looking statements and are based on Titomic's current expectations, estimates and projections. Words such as "anticipates", "expects," "intends," "plans," "believes," "seeks," "estimates," "guidance" and similar expressions are intended to identify forward-looking statements. Although Titomic believes the forward-looking statements are based on reasonable assumptions, they are subject to certain risks and uncertainties, some of which are beyond Titomic's control, including those risks or uncertainties inherent in the process of both developing and commercializing technology. As a result, actual results could materially differ from those expressed or forecasted in the forward-looking statements. The forward-looking statements made in this release relate only to events as of the date on which the statements are made. Titomic will not undertake any obligation to release publicly any revisions or updates to these forward-looking statements to reflect events, circumstances or unanticipated events occurring after the date of this release except as required by law or by any appropriate regulatory authority.
