2.6 General terms and conditions

(a) Eligibility to apply

The Offer in this Prospectus is being made to Eligible Investors.

Before making an Application for New Shares, it is the personal responsibility of each Applicant to

By submitting an Application Form, each Applicant is taken to have warranted and represented to the Company that it is not restricted by law from applying for New Shares and has observed the applicable laws of all relevant jurisdictions in making the application.

(b) Discretions regarding Applications

The lodgement of an Application with the Company (or its authorised agents) constitutes an offer by the Applicant to the Company to subscribe for up to such number of New Shares as the Application Money specified in and accompanying the Application Form will pay for, at the Offer Price and on the terms and conditions of the Offer as set out in this Prospectus (including the acknowledgments and representations in Sections 2.6(a), 2.8 and 2.10).

If the amount of your payment for Application Money is insufficient to pay for the total number of New Shares you have applied for, you may be taken to have applied for such lower number of New Shares as your cleared Application Money will pay for, or your Application may be rejected, at the discretion of the Board.

Applicants whose Applications are rejected, or who are allocated a lesser number of New Shares than the amount applied for, will receive a refund of all or the surplus portion of their Application Money, within the time prescribed by or otherwise permitted in accordance with the Corporations Act. Interest will not be paid on any Application Money refunded.

Pending the allotment and issue of the New Shares, or the payment of any refunds, all Application Money will be held by the Company in trust for Applicants in a separate bank account as required by the Corporations Act. By submitting an Application Form, each Applicant agrees that the Company is entitled to retain all interest that accrues on the bank account whether or not the issue of New Shares takes place, and waives its right to claim any such interest.

To the extent permitted by law, an Application is irrevocable, once submitted to the Company or any of its agents.

The Board retains its discretion not to allocate New Shares to an Applicant to the extent doing so would result in a breach of the Corporations Act or other applicable law (whether by the Applicant, the Company or otherwise), or would require regulatory approval to be obtained.

(c) Discretions regarding the Offer

The Company reserves the right to:

- extend the Offer or any part of it;
- close the Offer or any part of it early; and
- not proceed with the Offer or any part of it,

Interest will not be paid on any Application Money refunded.

2.9 Trading of Shares and administration of Shareholdings

(a) Trading on market

The Company will apply to ASX for Official Quotation of the New Shares on ASX, within 7 days after the date of this Prospectus.

If ASX does not grant permission for the quotation of the New Shares offered under this Prospectus within three months after the date of this Prospectus (or such longer period permitted by the Corporations Act or with the consent of ASIC), the Offer will be withdrawn and all Application Money received by or on behalf of the Company will be refunded to Applicants, without interest, within the time prescribed by or otherwise permitted in accordance with the Corporations Act.

A decision by ASX to grant Official Quotation of the New Shares is not to be taken in any way as an indication of ASX's view as to the merits of the Company, the New Shares. ASX and its officers do not take any responsibility for this Prospectus or the investment to which it relates.

It is the responsibility of each Applicant to confirm their holding before trading in Shares. Applicants who sell Shares before they receive an initial holding statement do so at their own risk. All other Shares will be registered on the issuer sponsored sub-register.

Following Completion of the Offer, successful Applicants will be sent a holding statement that sets out the number of New Shares that they have been issued. This statement will also provide details of a successful Applicant's Holder Identification Number (HIN) for CHESS holders or, where applicable, the Shareholder Reference Number (SRN) of issuer sponsored holders.

Successful Applicants will subsequently receive statements showing any changes to their shareholding. Share certificates will not be issued.

3. Company Update

3.1 Transaction-specific prospectus and continuous disclosure obligations

The Company is a disclosing entity (as defined in section 111AC of the Corporations Act) and is therefore subject to regular reporting and disclosure obligations. Under those obligations, the Company is required to comply with all applicable continuous disclosure and reporting requirements in the Corporations Act and the ASX Listing Rules. In particular, the Company must comply with the requirement to disclose to ASX any information held by the Company which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a "transaction specific prospectus" to which the special content rules under section 713 of the Corporations Act apply. That provision allows the issue of a more concise prospectus in relation to an offer of securities in a class which has been continuously quoted by ASX in the 3 months prior to the date of the prospectus (or options to acquire those securities). In general terms, "transaction specific prospectuses" are only required to contain information in relation to the effect of the Offer on the Company and the rights and liabilities attaching to the securities offered. It is not required to provide information regarding the Company's assets and liabilities, financial position and performance, profits and losses or prospects on the basis that, as at the date of this Prospectus, the Company has not withheld from its continuous disclosure reporting any information about such matters that investors and their professional advisers would reasonably require to make an informed assessment of such matters and expect to find in this Prospectus.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Generally, information that is already in the public domain has not been reported in this Prospectus other than to the extent considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act, confirms that:

- it is subject to regular reporting and disclosure obligations;
- copies of documents lodged with ASIC in relation to the Company may be obtained from, or inspected at, the offices of ASIC; and
- it will provide a copy of each of the following documents, free of charge, to any person on request provided the Company receives the request before the close of the Offer:
 - the annual financial report most recently lodged by the Company with ASIC, namely, its 2025 Annual Report;
 - any half-year financial report lodged with ASIC after lodgement of the 2025 Annual Report and before lodgement of this Prospectus with ASIC; and
 - any continuous disclosure notices given by the Company after the lodgement of the 2025 Annual Report and before the lodgement of this Prospectus with ASIC.

The Company lodged its 2025 Annual Report with ASIC on 27 March 2026. Since then, the Company has made the following announcements to ASX prior to the date of this Prospectus:

Date	Title of announcement
27 March 2026	Appendix 4G and Corporate Governance Statement
8 April 2026	Ninnis Drilling Demobilisation

Date	Title of announcement
14 April 2026	New Share Class and Capital Raising
14 April 2026	Application for quotation of securities – VTA
14 April 2026	Notification regarding unquoted securities - VTA

The full text of these announcements can be found on ASX's website at www.asx.com.au, using ASX code: "VTA". Copies of the abovementioned documents and announcements can also be obtained free of charge from the Company by contacting the Company Secretary, John Ribbons, on +61 409 920 304 between 9.00am and 5.00pm (AWST), Monday to Friday, or by email at john.ribbons@iinet.net.au, during the Offer Period.

Having taken such precautions and having made such inquiries as are reasonable, the Directors believe that the Company has complied with the general and specific disclosure and notification requirements of ASX throughout the period from the date of lodgement of the Company's 2025 Annual Report with ASIC to the date of this Prospectus.

3.2 Consolidation of securities

In the Notice of General Meeting dated 21 October 2025 the Company proposed a resolution to consolidate its issued capital on the basis that:

- (a) every 40 Shares in the capital of the Company be consolidated into 1 Share;
- (b) the Performance Rights on issue be adjusted in accordance with Listing Rule 7.21; and
- (c) the Options on issue be adjusted in accordance with Listing Rule 7.22.1,

(the **Consolidation**).

The resolution to approve the Consolidation was passed by Shareholders at the General Meeting held on 28 November 2025, and the Consolidation was completed by the share registry on 4 December 2025.

4. Risk Factors

4.1 Introduction

This Section describes some of the potential risks associated with investing in the Company and in New Shares. The Company is subject to risks that are specific to the Company and its business. There are also risks that are associated with external events unrelated to the usual course of the business, or risks that are common to all investments in shares and not specific to an investment in the Company.

If any of these risks were to occur, the future operating and financial performance and prospects of the Company could be materially and adversely affected and you could lose part or all of your investment in the Company. Whilst some of the risk factors may be mitigated by appropriate commercial action, many are either wholly or in part outside of the control of the Company, the Directors and management. The New Shares being offered carry no guarantee as to maintenance of or appreciation in value, the payment of dividends or return of capital. Further, there can be no guarantee that the Company will achieve its stated objectives or that any forward-looking statement will eventuate.

Please note that this Section does not purport to list every risk that may be associated with an investment in the Shares, whether now or in the future. The risks highlighted in this Section have been selected based on an assessment of the key risks that the management and the Directors would focus on when managing the business, the probability of the risk occurring as well the significance of the impact on the Company if the relevant risk did occur. The assessment is based on the knowledge of the Directors as at the date of this Offer, but there is no guarantee or assurance that the importance of risks will not change or other risks will not emerge. Further, your individual financial objectives, financial situation and particular needs have not been taken into account in the preparation of this Section.

Before applying for New Shares, you should satisfy yourself that you have a sufficient understanding of the inherent risks of investing in the company and becoming a shareholder of a company, including the risks described in this Section. You should consider whether New Shares are a suitable investment for you having regard to your personal investment objectives, financial circumstances and taxation position. If you do not understand any part of this Prospectus, or are in any doubt as to whether or not to invest in New Shares, the Directors strongly recommend that you seek professional guidance from your accountant, financial adviser, stockbroker, lawyer, tax adviser or other independent and qualified professional adviser before deciding whether to invest.

4.2 Risks specific to an investment in the Company

(a) Exploration

Eligible Investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that exploration of any of the Group's projects, or any other tenements that may be acquired by the Group in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of the Group may be affected by a range of factors, including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of the Group.

The success of the Group will also depend upon the Group having access to sufficient development capital, being able to maintain title to its projects and obtaining all required approvals for its activities.

(b) Tenement applications and licence renewal

The Company cannot guarantee current and any additional applications for tenements made by the Group will ultimately be granted, in whole or in part. Further the Company cannot guarantee that renewals of valid tenements will be granted on a timely basis, or at all.

(c) Mine development

Possible future development of a mining operation at the Group's projects is dependent on a number of factors including, but not limited to, the acquisition and/or delineation of economically recoverable mineralisation, favourable geological conditions, receiving the necessary approvals from all relevant authorities and parties, seasonal weather patterns, unanticipated technical and operational difficulties encountered in extraction and production activities, mechanical failure of operating plant and equipment, shortages or increases in the price of consumables, spare parts and plant and equipment, cost overruns, access to the required level of funding and contracting risk from third parties providing essential services.

If the Group commences production, its operations may be disrupted by a variety of risks and hazards (including those which are beyond its control), including environmental hazards, industrial accidents, technical failures, labour disputes, unusual or unexpected rock formations, flooding and extended interruptions due to inclement of hazardous weather conditions and fires, explosions or accidents. No assurance can be given that the Group will achieve commercial viability through the development or mining of its projects.

(d) Gold and copper prices

Changes in the market prices of gold and copper will affect the profitability of the Group's operations and its financial condition in the future, if the Group enters production. The Group's revenues, profitability and viability will depend on the market prices of gold and copper produced from the Group's projects. The market prices of gold and copper is set by the world market and is affected by numerous factors beyond the Company's control, including demand and currency exchange rates.

(e) Commercial viability

No assurances can be given that the Group will achieve commercial viability through the successful exploration or mining of its projects. Until the Company can realise value from its projects, it is likely to incur ongoing operating losses.

(f) Climate change

There are a number of climate-related factors that may affect the operations and proposed activities of the Company. The climate change risks particularly attributable to the Company include:

- the emergence of new or expanded regulations associated with the transitioning to a lower-carbon economy and market changes related to climate change mitigation. While the Company will endeavour to manage these risks and limit any consequential impacts, there can be no guarantee that the Company will not be impacted by these occurrences; and
- climate change may cause certain physical and environmental risks that cannot be predicted by the Company, including events such as increased severity of weather patterns and incidence of extreme weather events and longer-term physical risks such as shifting climate patterns.

(g) Environmental

The operations and the proposed activities of the Group are subject to laws and regulations concerning the environment. As with most exploration projects and mining operations, the Group's activities are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds.

Mining operations have inherent risks and liabilities associated with safety and damage to the environment and the disposal of waste products occurring as a result of mineral exploration and production. The occurrence of any such safety or environmental incident could delay production or increase production costs. Events such as unpredictable rainfall or fires may impact on the Group's ongoing compliance with environmental laws and regulations. Significant liabilities could be imposed on the Group for damages, clean-up costs or penalties in the event of environmental

damage caused by the Group's operations or non-compliance with environmental laws or regulations.

(h) Future funding risk

The Group will likely be dependent on the need to secure further financing in the future, in addition to the amounts raised pursuant to the Offer, in order to fulfil its business objectives. The Company may then seek development capital through equity, debt, joint venture financing or through the sale or possible syndication of its tenements.

Any additional equity financing will be dilutive to the Shares (and may be dilutive to Shareholders to the extent that they do not participate in any additional equity financing), may be undertaken at lower prices than the then market price (or offer price per Share), or may involve restrictive covenants which limit the Company's operations and business strategy. Debt financing, if available, may also involve restrictions on financing and operating activities.

Although the Directors believe that additional capital can be obtained, no assurances can be made that appropriate capital or funding, if and when needed, will be available on terms favourable to the Company, or at all. If the Company is unable to obtain additional financing as needed, it may be required to reduce the scope of its activities, and this could have a material adverse effect on the Group's activities and future prospects.

(i) Reliance on key personnel

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees or contractors cease their employment or engagement with the Company.

(j) Regulation changes

Changes to the laws, regulations, standards and practices applicable to the mining industry in the jurisdictions in which the Group operates may impact the Business. If the Group fails to adequately respond to such changes, its business, operations, and financial performance may be materially and adversely affected.

4.3 General risks

(a) Macro-economic risks

Changes in the general economic conditions in Australia and globally are outside of the control of the Company, but may have a significant impact on the future performance of the Company and the price or value of the Shares. Such changes may include:

- general down-turn in investor confidence affecting the ability of the Company to raise additional funds;
- fluctuations in interest rates, exchange rates, commodity prices and the rate of inflation in Australia resulting from domestic or international conditions (including movements in domestic interest rates and reduced activity in the Australian economy);
- changes in government, legislation, government policy or the regulatory environment in which the Company operates;
- changes in Australian and global equity market conditions;
- changes in investor sentiment toward particular market sectors;
- acts of terrorism or other hostilities; and
- the occurrence of natural disasters.

A prolonged deterioration in any number of the above factors may have a material adverse effect on the financial performance, financial position, cash flows, distributions and growth prospects of the Company and the price or value of the Shares.

(b) Regulation changes

Changes to the laws, regulations, standards and practices applicable to the industry in which the Company operates may increase costs and limit the Company's proposed scope of activity.

(c) Taxation

Relevant tax laws and treaties and their interpretation and applicability change from time to time. There is the risk that these changes could adversely and materially affect the Company's profitability and prospects.

(d) Litigation, claims and disputes

The Company may be subject to litigation and other claims and disputes in the course of its business, including contractual disputes with suppliers or customers, employment disputes, indemnity claims, and occupational and other claims. There is a risk that any such litigation, claim or dispute could materially adversely impact the Company's operating and financial performance due to the significant cost and time invested by management in investigating, commencing, defending and/or settling such matters. Any claim against the Company, if proven, may also have a sustained negative impact on its operations, financial performance, financial position and reputation.

The Company is not currently engaged in litigation and, as at the date of this Prospectus, the Directors are not aware of any legal proceedings pending or threatened against, or any material legal proceedings affecting, the Company.

4.4 Risks associated with holding Shares

(a) Stock market risks

There are risks associated with any investment in securities.

In particular, there is a risk that the price at which Shares trade on ASX may be less than the Offer Price payable under this Offer. While fluctuations in the price of the Shares may be a direct reflection of changes in the financial performance of the Company, the market price of the Shares may also be affected by factors unrelated to the operating performance of the Company and the demand for and supply of capital generally.

(b) Risk of dilution

The Company may issue Shares (and/or Options) from time to time to raise additional capital to finance its continued growth or other future developments. The amount and timing of such additional financing needs will vary primarily on the amount of cash flow from the Company's operations. While the Company will be subject to the constraints of the ASX Listing Rules regarding the percentage of its capital that it is able to issue within any 12 month period (other than where exceptions apply), there is a risk that the issue of additional equity will result in the ownership interest of Shareholders in the Company from time to time being diluted.

(c) No guarantee of dividends

The prospect of future dividends being paid or made to Shareholders will be contingent upon the Company's ability to generate sustainable profits. To the extent that the Company pays any dividends, the ability to offer fully franked dividends will depend on the Company making taxable profits and paying sufficient Australian tax to attach franking credits to the dividends. Taxable profits may be volatile, making the payment of fully franked dividends unpredictable. Further, the value and availability of franking credits to a Shareholder will differ depending on the Shareholder's particular tax circumstances. You should be aware that the ability to use franking credits, either as a tax offset or to claim a refund after the end of the income year, will depend on your individual tax position.

As such, no assurance can be given by any person, including the Board, about the payment or the quantum of future dividends (if any), or the level of franking or imputation of any such dividend (if any).

(d) **Tax considerations**

An investment in Shares involves tax considerations which may differ for each person. You are encouraged to obtain professional tax advice in connection with any investment in Shares.

4.5 Investment is speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the New Shares offered under this Prospectus. Therefore, the New Shares to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

Eligible Investors should consider that the investment in the Company is highly speculative and should consult their professional advisers before deciding whether to apply for securities pursuant to this Prospectus.

5. Additional Information

5.1 Rights and liabilities attaching to Shares

The rights and liabilities attaching to ownership of the New Shares offered under this Prospectus (being fully paid ordinary shares in the Company) are:

- detailed in the Company's Constitution, which may be inspected during normal business hours at the registered office of the Company; and
- in certain circumstances, regulated by the Corporations Act, the ASX Listing Rules, the ASX Settlement Operating Rules (collectively, **Applicable Law**) and the general law.

A summary of the material provisions of the Constitution, including those relating to certain significant rights, liabilities and obligations attaching to the Shares, are set out below.

This summary is not intended to be exhaustive and is qualified by the fuller terms of the Constitution. Please be aware that the following summary does not constitute a definitive statement of the rights and liabilities of Shareholders.

(a) Voting at a general meeting

Each Shareholder is entitled to receive notice of and be present to vote and speak at general meetings of the Company.

At a general meeting, each Shareholder present (in person or by proxy, attorney or representative) has one vote on a show of hands. On a poll, each Shareholder present (in person or by proxy, attorney or representative) has one vote per Share. This is subject to any other rights or restrictions that may be attached to any Shares. If a Share is held jointly, only the vote of the Shareholder whose name appears first in the register of Shareholders will be counted.

The Company must give Shareholders at least 28 days' prior notice in writing of a general meeting.

Shareholders may requisition meetings in accordance with the Corporations Act.

(b) Dividends

Subject to the Corporations Act, the Constitution and the terms of issue or rights of any shares with special rights to dividends, each holder of a Share will participate in all dividends declared after their issue. The Board may declare any interim or final dividend that, in its judgment, are justified by the financial position of the Group. The Board may rescind a decision to pay a dividend if it decides, before the payment date, that the Company's financial position no longer justifies the payment. Paying a dividend does not require confirmation at a general meeting.

(c) Dividend reinvestment plan

The Board may, on terms that it decides, establish a share investment plan under which dividends, interest, or any other amount payable to Shareholders participating in the plan may be applied to subscribe for or to purchase securities in the Company.

(d) Dividend selection plan

The Board may also, on terms that it decides, establish a dividend selection plan under which participants may elect to receive a dividend from the Company paid wholly or partly out of a particular source, or to forego a dividend from the Company in place of another form of distribution.

(e) Rights on winding up

If the Company is wound up, subject to any special terms and conditions attached to any shares, any surplus must be divided among the Shareholders in the proportion that the amount paid up

on the Shares bears to the total amount paid up on all Shares on issue. The liquidator may, with the sanction of a Special Resolution of Shareholders, divide among the Shareholders in kind all or any part of the Company's property; and for that purpose, determine how it will carry out the division as between the Shareholders.

(f) Transferring Shares

Subject to the Constitution and any restrictions attached to a Share, the Shares are generally freely transferrable subject to meeting certain formal requirements. The Company must refuse to register a transfer of Shares only in certain specified circumstances, such as when it is required to do so by the Applicable Law or by a law concerning stamp duty, or where the transfer would be contrary to the terms of an ASX-imposed restriction agreement or escrow agreement.

(g) Future changes in capital

Subject to Applicable Law, the Constitution and any rights and restrictions attached to a class of shares, the Company may, by resolution of the Board, issue shares or grant options to acquire shares, at any time, for any consideration and with such special rights, restrictions or restrictions, as the Board thinks fit. The Constitution permits the issue of preference shares, if the rights of the holders of the preference shares are as set out in the Constitution or are approved in accordance with the Applicable Law.

Subject to the ASX Listing Rules, the issue of shares, options or other securities is not required to be ratified by Shareholders in general meeting.

The Company may consolidate and divide its share capital or reduce its share capital and buy back its Shares, in any manner provided by Applicable Law.

(h) Variation of class rights

At present, the Company has two classes of shares on issue in the capital of the Company, being (i) fully paid ordinary shares of which class the New Shares will be included, and (ii) partly paid ordinary shares. Subject to the Corporations Act and the terms of issue of shares in a particular class, the Company may vary or cancel the rights attached to shares in that class:

- by Special Resolution of passed at a meeting of the holders of shares of that class; or
- with the written consent of the holders of at least 75% of the votes that may be cast in respect of shares in that class.

In either case, in accordance with the Corporations Act, the holders of not less than 10% of the votes in the class of shares, the rights of which have been varied or cancelled, may apply to a court of competent jurisdiction to exercise its discretion to set aside such a variation or cancellation.

(i) Sale of non-marketable parcels
