

30th APRIL 2026

MARCH 2026 QUARTERLY REPORT

Highlights

ICE Polymetallic Project, Canada

- Project re-evaluation strategy delivers commissioned report detailing presence of associated elements silver, cobalt and indium
- Report provides direction for the next-step resource evaluation at ICE and subsequent exploration work
- Significant presence of the associated elements updates ICE Project's status from copper / gold to polymetallic
- Further research required to establish co-product or bi-product status of the associated elements and their close relationship to the oxide and sulphide copper mineralisation
- The Yukon Environmental and Socio-economic Assessment Board (**YESAB**) delivered a positive recommendation to advance exploration application process, providing Vita a five-year period for exploration activities at the ICE Project between May 1 and September 30 each year
- Recommendation includes allowances for:
 - up to 150 diamond drill holes or 15,000m of drilling
 - up to 1,000m³ of bulk sampling
 - camp establishment
 - strategy facility establishment
- Vita will now commence development of a new five-year Multi-Use Land Access application aligned with the YESAB decision

Ninnis Gold Project, Western Australia

- Programme of Works (**PoW**) secured for maiden 1,200m hole auger drilling exploration campaign
- Appointed drilling contractor GYRO Drilling mobilised to site during March 2026
- Maiden auger drilling programme has commenced, however temporarily paused owing to Cyclone Narelle. Return to site by drillers will be coordinated with assay results that may provide guidance for further infill drilling
- Drilling will infill gold-in-soil results generated by previous owner-operator, including two sub parallel fault zones

Corporate

- General Meeting of shareholders held on 23 January 2026 approved Company name change from Bastion Minerals Limited to Vita Resources NL, trading under the code ASX: VTA

Vita Resources NL (**ASX: VTA, Vita, or the Company**) is pleased to provide shareholders with its Quarterly Report for the three-month period ending 31 March 2026.

ICE Polymetallic Project

Yukon Province, Canada

The ICE Project **currently** contains a JORC Code Mineral Resource Estimate (**MRE**) of **6.43 Mt @ 1.07% Cu¹**.

The new JORC Code (2012) re-estimation, announced in June 2025, confirmed the original foreign historical resource tonnage and grade for the ICE Copper-Gold Project (**ICE or Project**). Vita reported indicated resources of **5.76Mt @ 1.09% Cu** and inferred resources of **0.67Mt @ 0.83% Cu** at a 0.3% cutoff.

The resource covers 115 drill holes, almost entirely <200m deep, with 92% of the resources classified as indicated. To date, less than 1% of the Project area has been tested, with multiple geochemical and geophysical targets providing potential for discovery of additional mineralisation zones.

Eleven priority targets have been identified, with potential for future discovery of additional zones of VHMS mineralisation near the resource and through the properties.

Figure 1. Location map of the ICE Polymetallic Project in Yukon, Canada

¹ BMO ASX Announcement 11th June 2025, "6.43 Mt @ 1.07% Cu JORC Mineral Resource Estimate for the ICE Copper Gold Project"

Update of Project to Polymetallic Status

In February 2026, Vita advised of the findings of a report for ICE, carried out by economic geologist Nigel Maund. The report was commissioned by the Company to re-evaluate ICE and reference sources including all available information held by the Company alongside information sourced by the Project Evaluation and Due Diligence effort led by Non-Executive Director and geologist, Mr Ray Muskett and geologist / geoscientist Ms Sherifa Munkailah.

A notable finding of the report was the detail surrounding the presence of associated elements, silver, cobalt and indium, in addition to the known copper and gold mineralisation, which updated the Project's status to Polymetallic (previously Volcanic Hosted Massive Sulphides (**VHMS**)).

Further work is now required by the Company to gain a better understanding of the geology at ICE and to establish if the additional metals (silver, cobalt and indium) are considered to be co or by products to the robust copper and gold presence.

A copy of the commissioned report can be found [here](#).

Yukon Recommendation Secured

In March 2026, the Company advised that the Yukon Environmental and Socio-economic Assessment Board (**YESAB**) had conditionally recommended a further five years of exploration activities be granted at ICE, subject to final approval by the Yukon Government's Department of Energy, Mines and Resources (**EMR**) through its standard Minerals Management Branch process.

With the YESAB recommendation, the Company can continue to advance through the standard Yukon permitting process comprising:

- 1 ICE Project proposal submitted to YESAB (**completed**);
- 2 YESAB assessment (Designated Office or Executive Committee) (**completed**);
- 3 Recommendation issued (**completed via approval**);
- 4 Decision Body, usually Yukon Government EMR, to issue a Decision Document (**under review**); and
- 5 Regulator issues permits (e.g., Land Use Authorisation, Class 3/4 exploration permit, water licence if needed) (**post review and assuming approval**).

YESAB's recommendation also represents an important step in the Company's ongoing engagement with the Ross River Dena Council (**RRDC**) in Yukon, including participation in the Tū Łídlīni Assessment Process (**TAP**).

Vita's next step will be to develop a new five-year Multi-Use Land Access (**MULA**) application that aligns with the YESAB recommendation.

Ninnis Gold Project

Northern Goldfields, Western Australia

The Ninnis Gold Project (**Ninnis**) (E39/2110) comprises 25km² of prospective yet underexplored ground in the Northern Goldfields region of Western Australia, located near the sealed Leonora to Laverton Road, approximately 30km west of the township of Laverton.

E39/2110 is situated within a world-class gold province, just 6km from the well-known Mount Morgans Gold Mining Centre, acquired by Genesis Minerals (**ASX: GMD**) following its takeover of Dacian Gold in 2023². Ninnis is also situated near several other major gold operations, including Granny Smith (2.389Moz gold)³, Sunrise Dam (MRE 0.97Moz gold)⁴ and Magnetic Resources' (**ASX: MAU**) projects located to the east of Ninnis, including the Lady Julie Project (MRE 2.1Moz)⁵.

Figure 2. Ninnis Gold Project location

Ninnis shares key geological characteristics with the nearby Mount Morgans Gold Mine, including mafic rocks and banded iron formations (**BIF**), with additional structural complexity along the eastern Ninnis Shear. Historical exploration was limited by shallow drilling and extensive surface cover, which masked underlying mineralisation.

Granting of PoW

As a result of the successful granting of the PoW in February 2026 and with the necessary permits in place, Vita was able to commence its maiden auger drilling programme at Ninnis. The Company appointed GYRO Drilling to undertake the maiden programme, with mobilisation to site completed in March 2026.

Maiden Drilling Commences

The Company's maiden auger drilling campaign at Ninnis, planned for 1,200 holes, commenced in March 2026.

The auger drilling programme was designed to infill previous gold-in-soil results generated from very widely spaced sub-surface soil sampling completed by the previous owner-operator of Ninnis. Two sub parallel fault zones, identified as major structural controls to the previous anomalous gold soil sampling, are located within the boundaries of the current auger programme. These zones are to be auger sampled at much closer spacings.

Other structural targets include the northerly extension to the soil-covered BIF that hosts the Mt Morgans gold deposits close to the Ninnis boundary, and the McKenzie Well Gold Project first drilled by Dacian Gold and subsequently acquired by Genesis Minerals Limited in 2023.

Previous soil sampling across the upper surface of the shallow buried Wiluna Hardpan returned encouraging gold results and will also be tested with closer spaced auger sampling.

The drilling campaign has commenced, however owing to the effects of Cyclone Narelle, was temporarily paused. Once the programme is completed at Ninnis and assays received, Vita aims to follow up with a geochemistry review.

Figure 3. Ninnis Gold Project satellite view

Figure 4. Ninnis Gold Project BIF horizon, faults, cross-faults, dykes

Gyttorp REE Project

Sweden

The project remained under re-evaluation with a plan to be announced as soon as practicable.

Harley and Mariner Projects

North West Territories, Canada

These projects remained under re-evaluation.

Chilean Assets

The Company advised it had not renewed leases, with all leases now lapsed, for its Chilean assets, which include the Cometa Copper Project, thereby enabling the Company to increase its focus and evaluation of core projects in Western Australia, Canada and Sweden.

Corporate

General Meeting of Shareholders

A General Meeting of Shareholders was held on 23 January 2026 to approve the acquisition of the Ninnis Gold Project and ratification of shares and options and to change the name of the Company. All resolutions were carried.

Change of Company Name

Following shareholder approval, the Company advised on 29 January 2026 of the implementation of its name change from Bastion Minerals Limited to Vita Resources NL, ASX ticker code VTA.

Annual Report

Vita released its Annual Report for the year ended 31 December 2025. A copy can be viewed on the Company's website [here](#).

ASX Additional Information

Cash at the end of the quarter totalled \$141,000.

Pursuant to ASX Listing Rule 5.3.1, exploration and evaluation expenditure of \$26,000, as stated in section 2.1(d) and 8.2 of the attached Appendix 5B, was incurred across the March 2026 Quarter associated with geological consulting, field related activities and tenement compliance costs. Details of exploration and evaluation activity during the Quarter are set out in this report.

Pursuant to Listing Rule 5.3.2, the Company advises that it did not undertake any mining or development production activities during the Quarter.

In accordance with ASX Listing Rule 5.3.5 and as noted in section 6 of the Appendix 5B, payments of \$42,000 were made during the Quarter comprising salaries, directors' fees and consulting fees for the Company's executive and non-executive directors. No other payments were made to any related parties of the entity or their associates.

Reporting of Exploration Results and Cautionary Statements

This Quarterly Activities Report contains information reported in accordance with the JORC Code, 2012. Full details of the exploration results referred to herein including relevant JORC information (such as JORC Table 1 information) as well as cautionary statements in relation to the reporting of pXRF results, can be obtained by accessing all of the Company's announcements on the ASX Announcements Platform or the Company's website.

The Company advises that further exploration work is required in order to confirm the abundance and economic potential of any mineralisation referred to in this Quarterly Activities Report and the Company's announcements incorporated by reference herein, given the early stage and historical nature of the results reported.

Events Subsequent to End of Quarter

There have been no other material activities of the Company not already referred to earlier in this Quarterly Activities Report.

This announcement has been approved for release by the Board of Vita Resources NL

About Vita Resources

Vita Resources NL is an Australian-listed early-stage exploration company focused on copper, gold and critical minerals.

The Company owns a portfolio of three high-grade Canadian copper assets, including the ICE copper-gold deposit in the Yukon Territory, Canada (ICE Project) and the Mariner and Harley Copper projects in the Northwest Territories (NWT), Canada.

Vita also owns a district scale high grade Rare-Earth, Copper, Gallium and Germanium exploration project in Sweden, called Gyttop nr 100.

The Company also two prospective projects in Western Australia. The Ninnis Gold Project is located approximately 30 kilometres west of Laverton, in the northern goldfields of Western Australia. The Split Rock Dam Project in Mt Ida is prospective for lithium and gold.

Vita has a diversified jurisdictional and commodity strategy in pursuit of its aim to become a leading explorer in the energy transition sector to ensure long-term growth and deliver significant value to its shareholders, while contributing to a sustainable future.

Mining Activity

No mining activity occurred during the quarter.

List of Tenements

In accordance with ASX Listing Rule 5.3.3, Vita Resources advises that it held licences for the following tenements during the Quarter. Each of the tenements listed in Table 1 were 100% owned by Vita's wholly owned subsidiary, SCM Constelacion. The tenements listed in Table 2 are owned by Vita's wholly owned subsidiary Bastion Minerals (El Fuerte) Pty Ltd.

Table 1 – Chile tenements: Tenements held by Vita Resources through its wholly owned subsidiary, SCM Constelacion.

Competent Person Statement

The information in this report that relates to exploration results is based on information compiled by Mr Ray Muskett who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Muskett is a Director of the Company and holds shares in the Company. Mr Muskett has sufficient experience relevant to the style of mineralisation and type of deposit under consideration and to the activity currently being undertaken to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Muskett consents to the inclusion in this report of the matters based on his information in the form and context in which it appears.

The information in the announcement that relates to Mineral Resources for ICE is extracted from the ASX announcement 11 June 2025 and is available to view on the Company's website. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcements and that all material assumptions and technical parameters underpinning the estimates in the relevant market announcements continue to apply and have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.

The information in this report that references previously reported exploration results is extracted from the Company's ASX market announcements released on the date noted in the body of the text where that reference appears. The previous market announcements are available to view on the Company's website or on the ASX website (www.asx.com.au). The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcements.

Forward-Looking Statements

Certain statements contained in this Announcement, including information as to the future financial or operating performance of Vita Resources and its projects may also include statements which are 'forward-looking statements' that may include, amongst other things, statements regarding targets, estimates and assumptions in respect of mineral reserves and mineral resources and anticipated grades and recovery rates, production and prices, recovery costs and results, capital expenditures and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions. These 'forward-looking statements' are necessarily based upon a number of estimates and assumptions that, while considered reasonable by Vita Resources, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies and involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements.

Vita Resources disclaims any intent or obligation to update publicly or release any revisions to any forward-looking statements, whether as a result of new information, future events, circumstances or results or otherwise after the date of this Announcement or to reflect the occurrence of unanticipated events, other than required by the Corporations Act 2001 (Cth) and the Listing Rules of the Australian Securities Exchange (ASX). The words 'believe', 'expect', 'anticipate', 'indicate', 'contemplate', 'target', 'plan', 'intends', 'continue', 'budget', 'estimate', 'may', 'will', 'schedule' and similar expressions identify forward-looking statements.

All 'forward-looking statements' made in this Announcement are qualified by the foregoing cautionary statements. Investors are cautioned that 'forward-looking statements' are not guarantee of future performance and accordingly investors are cautioned not to put undue reliance on 'forward-looking statements' due to the inherent uncertainty therein.

Appendix 5B

Mining exploration entity or oil and gas exploration entity quarterly cash flow report

Name of entity

Vita Resources NL

7.5	Unused financing facilities available at quarter end		-
7.6	Include in the box below a description of each facility above, including the lender, interest rate, maturity date and whether it is secured or unsecured. If any additional financing facilities have been entered into or are proposed to be entered into after quarter end, include a note providing details of those facilities as well.		
	N/A		

8.	Estimated cash available for future operating activities	\$A'000
8.1	Net cash from / (used in) operating activities (item 1.9)	(187)
8.2	(Payments for exploration & evaluation classified as investing activities) (item 2.1(d))	(26)
8.3	Total relevant outgoings (item 8.1 + item 8.2)	(213)
8.4	Cash and cash equivalents at quarter end (item 4.6)	141
8.5	Unused finance facilities available at quarter end (item 7.5)	-
8.6	Total available funding (item 8.4 + item 8.5)	141
8.7	Estimated quarters of funding available (item 8.6 divided by item 8.3)	0.7
<i>Note: if the entity has reported positive relevant outgoings (ie a net cash inflow) in item 8.3, answer item 8.7 as "N/A". Otherwise, a figure for the estimated quarters of funding available must be included in item 8.7.</i>		
8.8	If item 8.7 is less than 2 quarters, please provide answers to the following questions:	
8.8.1	Does the entity expect that it will continue to have the current level of net operating cash flows for the time being and, if not, why not?	
	Answer: Yes	
8.8.2	Has the entity taken any steps, or does it propose to take any steps, to raise further cash to fund its operations and, if so, what are those steps and how likely does it believe that they will be successful?	
	Answer: Yes, the Company completed a capital raising of \$100,000 during April 2026 (refer ASX announcement dated 14 April 2026) and the Board has commenced steps to undertake a further capital raising as soon as practicable. The Board is confident with the progress that it has made since the change of management in May 2025 and believes the Company has strong prospects of being able to raise sufficient capital to execute its corporate strategy and business objectives.	
8.8.3	Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?	
	Answer: The Company continues to assess its exploration projects to determine the projects it will continue with exploration activities. During this period exploration costs will be reduced and sufficient funds will be available to execute the Company's corporate strategy and business objectives.	
<i>Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.</i>		

Compliance statement

- 1 This statement has been prepared in accordance with accounting standards and policies which comply with Listing Rule 19.11A.
- 2 This statement gives a true and fair view of the matters disclosed.

Date: 30 April 2026

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 6: Exploration for and Evaluation of Mineral Resources* and *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standards apply to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
